

Plant & Part	Regulation	Destination	Requirements	Additional Information
All plants/plant parts (all counties in Oregon)	Phytosanitary certificate	International	Online PCIT application	<a href="https://pcit.aphis.usda.gov/pcit/">https://pcit.aphis.usda.gov/pcit/</a>
	Nursery certification	All of United States and OR	Shipping permit	Contact your inspector to get a shipping permit
	Noxious weeds	All of United States and OR	Plants weed-free	Visit the destination state's regulated weeds list
	Brown garden snail	AL, AR, FL, ID, MS, NC, NJ, SC, TN, WV	Certificate	<b>North Carolina requires pre-notification of shipment</b>
	Routine Inspection	UT	Inclusion on list of shippers	Contact your inspector or the Nursery Program if your nursery has not been inspected within two years or if you are uncertain.
	Hawaii inspection	HI	Notification	<b>Pre-notification of shipment required, email quarantine@hawaii.gov</b>
All plants (with roots, and soil or potting media attached)	Japanese Beetle	CO, NM	Compliance agreement and certificate	<b>Pre-notification of shipment required</b>
		NV, UT		<b>Pre-notification of shipment required</b>
All <i>P. ramorum</i> host plants (from nurseries enrolled in the <i>P. ramorum</i> Program)	Sudden oak death ( <i>Phytophthora ramorum</i> )	<b>All of United States and OR</b>	Federal shield	<b>Pre-notification to receiving state authority is required</b>
Apple ( <i>Malus</i> spp.) Bareroot plants are exempt from regulation.	Apple maggot	CA: protected counties, see list	Must be bareroot and free of fruit	California protected counties: Contra Costa, El Dorado, Fresno, Kern, Kings, Merced, San Benito, San Joaquin, San Luis Obispo, Stanislaus, Tulare and Ventura.
Apple Maggot host material ( <i>Malus</i> , <i>Crataegus</i> , <i>Pyrus</i> , <i>Prunus</i> , and <i>Cydonia</i> ). Bareroot plants are exempt from regulation.		<a href="#">WA protected areas (click here)</a>	Must be bareroot and free of fruit	Protected areas are "Non-Quarantine" counties (see link on left) It may be possible to certify host plants in associated soil or medium if they have not set fruit.
Apple/Hawthorn/Pear/Cherry FRUIT ( <i>Malus/Crataegus/Pyrus/Prunus</i> spp.)		AZ	No fruit on trees	Associated soil and/or growing medium is not specifically regulated.

Plant & Part	Regulation	Destination	Requirements	Additional Information
Ash ( <i>Fraxinus</i> spp.)	Emerald Ash Borer	CA and UT	Prohibited	Cannot be certified
Ash ( <i>Fraxinus</i> spp.) from <u>non-quarantined counties</u> of OR		ME, MN, MT, ND, RI, SD	Origin paperwork	CQC or other acceptable certification of origin
Ash ( <i>Fraxinus</i> spp.) from Oregon <u>quarantined counties</u> (currently Clackamas, Marion, Multnomah, Washington, Yamhill)		CT, LA, ME, MN, ND, RI, SD, TX	Prohibited	Details emerging. It might be possible to obtain a special permit for shipping with an ODA compliance agreement into LA, ME or MN.
Ash and EAB hosts ( <i>Fraxinus</i> spp., <i>Olea</i> spp., <i>Chionanthus virginicus</i> ) from Oregon <u>quarantined counties</u> (currently Clackamas, Marion, Washington, Yamhill)		Non-quarantined counties of Oregon and all states (except those listed as prohibited in the rows above this)	Compliance Agreement	MT specifically asks for compliance agreement or certificate
Barberry ( <i>Berberis</i> spp.), <i>Mahoberberis</i> spp., Oregon grape ( <i>Mahonia</i> spp.)	Black stem wheat rust disease	IA, IL, IN, KS, MI, MN, MO, MT, NE, ND, OH, PA, SD, WA, WI, WV, WY	Federal certificate	<a href="#">USDA-approved rust-resistant cultivars only (click here)</a>
Blueberry plants ( <i>Vaccinium corymbosum</i> )	Blueberry scorch, and other viruses	GA, MI, WA and Oregon (all counties)	Certificate	Georgia requires pre-notification of shipment
Boxwood plants ( <i>Buxus</i> spp.), plus <i>Sarcococca</i> spp.	Boxwood Blight	PA, TN	Certificate	Tennessee specifically requires participation in the Boxwood Blight Cleanliness Program
Boxwood plants ( <i>Buxus</i> spp.)		MI		Notification within 7 days of shipment sent via email to: MDARD-NurseryCE@Michigan.gov
Camellia ( <i>Camellia</i> spp.)	Camellia flower blight	TX	Certificate	Flower buds must be at a stage to not show any color.
Cherry and laurel ( <i>Prunus</i> spp. - see species listed in additional information). Bareroot plants are exempt from regulation.	Cherry fruit fly	CA	Certificate	Two seasons of fruit stripping and inspections are required to certify the following species to California: <i>Prunus avium</i> (sweet cherry), <i>P. cerasus</i> (sour cherry), <i>P. emarginata</i> (bitter cherry), <i>P. laurocerasus</i> (English laurel / cherry laurel), <i>P. mahaleb</i> (Mahaleb cherry), <i>P. pensylvanica</i> (pin cherry), <i>P. salicina</i> (Japanese plum), <i>P. serotina</i> (black cherry), <i>P. subcordata</i> (Pacific plum) and <i>P. virginiana</i> (choke cherry).

Plant & Part	Regulation	Destination	Requirements	Additional Information
Cherry ( <i>Prunus</i> spp.) except <i>P. besseyi</i> , <i>P. cistena</i> , <i>P. grandulosa</i> , <i>P. maackii</i> , <i>P. tomentosa</i> , <i>P. triloba</i> , <i>P. virginiana</i> .	Green peach aphid (Peach mosaic virus vector)	CO	Prohibited to listed counties	Prohibited to Alamosa, Conejos, Costilla, Rio Grande, and Saguache Counties (to protect potato fields)
Chestnut ( <i>Castanea</i> spp.), chinquapin ( <i>Castanopsis</i> spp.), oak ( <i>Quercus</i> spp.), tanbark oak ( <i>Lithocarpus densiflorus</i> )	Chestnut bark disease (chestnut blight) and oak wilt disease	CA	Certificate	
Chestnut ( <i>Castanea</i> spp.), chinquapin ( <i>Castanopsis</i> spp.)	Chestnut diseases and insects	MI, WA	Certificate (WA)	MI requires pre-notification of shipment
Currant and Gooseberry ( <i>Ribes nigrum</i> and others)	White pine blister rust	DE, MA, MI, NH, NJ, OH, RI	Destination state permit	Some species and/or varieties may be permitted into some townships or counties. Some species/varieties may be prohibited. See National Plant Board laws and regulations.
		ME, NC, VA, WV	Prohibited	
Dogwood ( <i>Cornus</i> spp.)	Anthracnose disease	FL	Prohibited	
Filbert ( <i>Corylus</i> spp.)	Eastern filbert blight	WA	Certificate	
Fir ( <i>Abies</i> spp.)	Balsam woolly adelgid	MI	Certificate	Pre-notification of shipment is required. Appropriate pest management program is required. <i>Abies</i> greater than 3 years old are prohibited.
Grape plants ( <i>Vitis</i> spp.)	Pests & virus diseases	CA, ID, NY, WA	Certificate	Grape plants must originate from official certification program. Idaho and Washington require pre-notification of shipment.
Hemlock ( <i>Tsuga</i> spp.)	Hemlock woolly adelgid	ME		Only allowed into quarantined (already infested) areas of Maine. See National Plant Board laws and regulations.
		MI	Prohibited	
		OH, VT, WI	Certificate	<u>Ohio</u> : Requires participation in HWA compliance program and CQC <u>Vermont</u> : Requires treatment and state phyto. <u>Wisconsin</u> : CQC stating inspection and free from.

Plant & Part	Regulation	Destination	Requirements	Additional Information
<i>Imperata cylindrica</i> (Japanese bloodgrass, Red Baron)	Federal noxious weed	CA, CT, IL, IN, MA, MI, NE, NJ, NV, OH, OR, VA, WA, WI and Guam.	Federal permit	Federal permit (Form 526) required for shipping to listed states, Only sterile varieties of <i>Imperata cylindrica</i> qualify for permit; Plants are prohibited to all other states
Mint ( <i>Mentha</i> spp.)	Mint Wilt (Verticillium)	ID, NV, WY	Certificate	Prohibited to WY unless cuttings done by "tip cutting" or meristem procedure
Noxious weeds in the nursery trade: Including <i>Acer</i> spp., <i>Berberis thunbergii</i> , <i>Euonymus</i> spp., <i>Lonicera</i> spp., <i>Rhamnus frangula</i> , <i>Phellodendron</i> sp. and others.	Noxious weeds	Various states	Prohibited or otherwise regulated	Refer to the Common Noxious Weeds Table at the bottom of this document
Oak ( <i>Quercus</i> spp.)	Oak wilt disease and chestnut bark disease (chestnut blight)	CA	Certificate	
Onion, leek, garlic, etc. ( <i>Allium</i> spp.) propagative parts	White rot and other harmful organisms	GA, ID, NV, WA	Certificate (GA, NV, WA) Prohibited to control area counties (ID)	Prohibited to Idaho Counties: Ada, Bingham, Blaine, Boise, Bonneville, Canyon, Cassia, Elmore, Gem, Gooding, Jefferson, Jerome, Lincoln, Madison, Minidoka, Owyhee, Payette, Power, Twin Falls, and Washington (from all OR origins except Malheur County) <b>Georgia requires pre-notification of shipment</b>
Pecan ( <i>Carya illinoensis</i> ) and other hickory ( <i>Carya</i> spp.)	Pecan weevil	NM	Treatment and certificate	
Persimmon ( <i>Diospyros</i> spp.)	Persimmon root borer	CA	Prohibited	
Pine ( <i>Pinus</i> spp.)	European pine shoot moth	CA, HI, MT	Certificate	Fee-based trapping program conducted yearly by ODA.
	Mountain pine beetle	MN	Prohibited (mostly)	An exception to this prohibition is possible through a compliance agreement with MN
Rose ( <i>Rosa</i> spp.)	Rose virus	IN, NJ	Certificate	

Plant & Part	Regulation	Destination	Requirements	Additional Information
Solanaceous plants: tomato, eggplant and potato ( <i>Solanum</i> spp.), pepper ( <i>Capsicum</i> spp.)	Colorado potato beetle	CA, NV	Certificate	
	Late Blight	AK, GA, MT, NJ, NV, SC	Certificate	Plants must be treated for late blight and/or inspected.
Walnut plants ( <i>Juglans</i> spp.)	Thousand canker disease	AR, CT, IL, IN, KS, MI, MO, NE, WV	Prohibited (mostly)	Certificate, compliance agreement or permit may be available for shipping to CT, IL, IN, KS, NE or WV. Refer to National Plant Board Laws and Regulations on <a href="http://www.nationalplantboard.org">nationalplantboard.org</a>
	Brooming disease	AZ, CA	Certificate
