## Introductions and Meeting Minutes

Meeting called to order at 9:00 a.m. with housekeeping and review of the agenda.

## Agency Updates

**William Lackey**, Statewide Vegetation Management Coordinator, *(ODOT)*

- 1) No updates at this time.

**Fred Berman**, Director, Toxicology Information Center, *Oregon Institute of Occupational Health Sciences (OHSU)*

- 1) We don't really have any updates.

**Charisse Pizarro-Osilla**, Director, *Oregon Poison Center (OPC)*

- 1) No updates from OPC at this time.

## PARC Board community member

**Warren Hanson** – We are excited to announce that we have found a PARC community board member, Dr. Gail Langellotto, from Oregon State University. She may join us at the January PARC Board meeting, if possible. If not, she will begin attending the meetings in March.

## PARC meeting changes and survey

**Warren Hanson** – Gilbert and I are working on completing a survey to be sent out to those who attend PARC meetings. The goal of this survey is to get feedback on what kind of information everyone wants to hear about, how we can make PARC meetings more helpful, etc. We are hoping to have it finished and sent out before the January meeting so we can get

ROUGH DRAFT

started on incorporating the feedback we receive from everyone.

#### PARC representative presentations

**Warren Hanson** – In addition to the changes that will be incorporated into PARC meetings based on the feedback from the upcoming survey, we are also planning on having PARC representatives present about their agency. Our plan is to have two representatives talk about how their agency works, their purview, SOP's, and other details. Once Gilbert and I finalize our plan, we will be sure to let

#### PARC Case Discussion

**PARC Case #25-0069** – 11 dead geese were found at Baskett Slough near Rickreall. Analytical results indicate the presence of zinc phosphide in the geese.

**PARC #25-0070**- ~130 dead cackling geese found at Staats Lake. Estimated to be deceased ~2-3 days before collection on October 14th based on reports from homeowners around the lake. All birds collected to seem to be at the same stage of decomposition. Only a few living cacklers left, one euthanized due to suspicious lethargy (delayed reactivity, laying on bank of lake). The others did not appear to present any concerning symptoms. Analytical results indicate the presence of zinc phosphide in the geese.

#### Public Comment

None.

#### Closing

The next PARC board meeting is scheduled for January 15, 2025, at 9am. If you have any suggestions for agenda items for that meeting, please let Warren know.
