

# Overview of ODFW's Role in PARC

**Becky Anthony**  
**November 19, 2025**

**Oregon Department  
of Fish and Wildlife**

# ODFW Mission

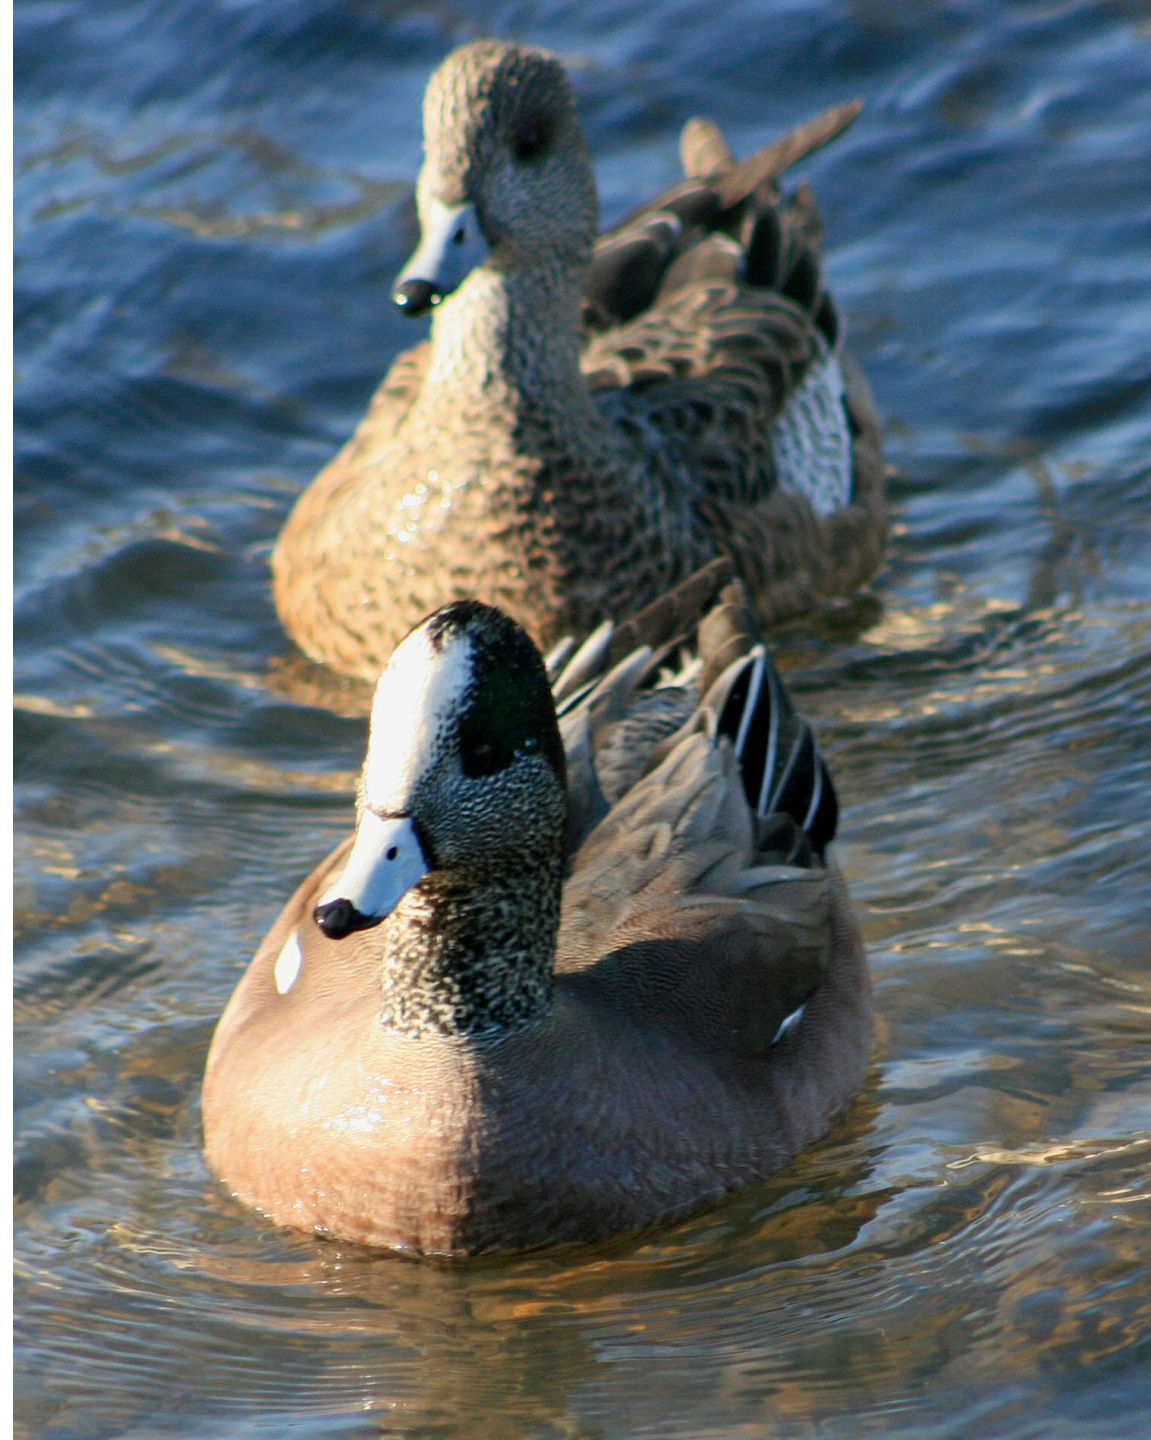

*“To protect and enhance Oregon's fish and wildlife and their habitats for use and enjoyment by present and future generations.”*

# Standard Operating Procedure

- 🦆 ODFW will coordinate with other State and federal agencies, including PARC, on pesticide-related incidents involving a suspected fish or wildlife poisoning or a spill that affects fish and wildlife and/or their habitat.

# Authorities

## OAR 468B.060

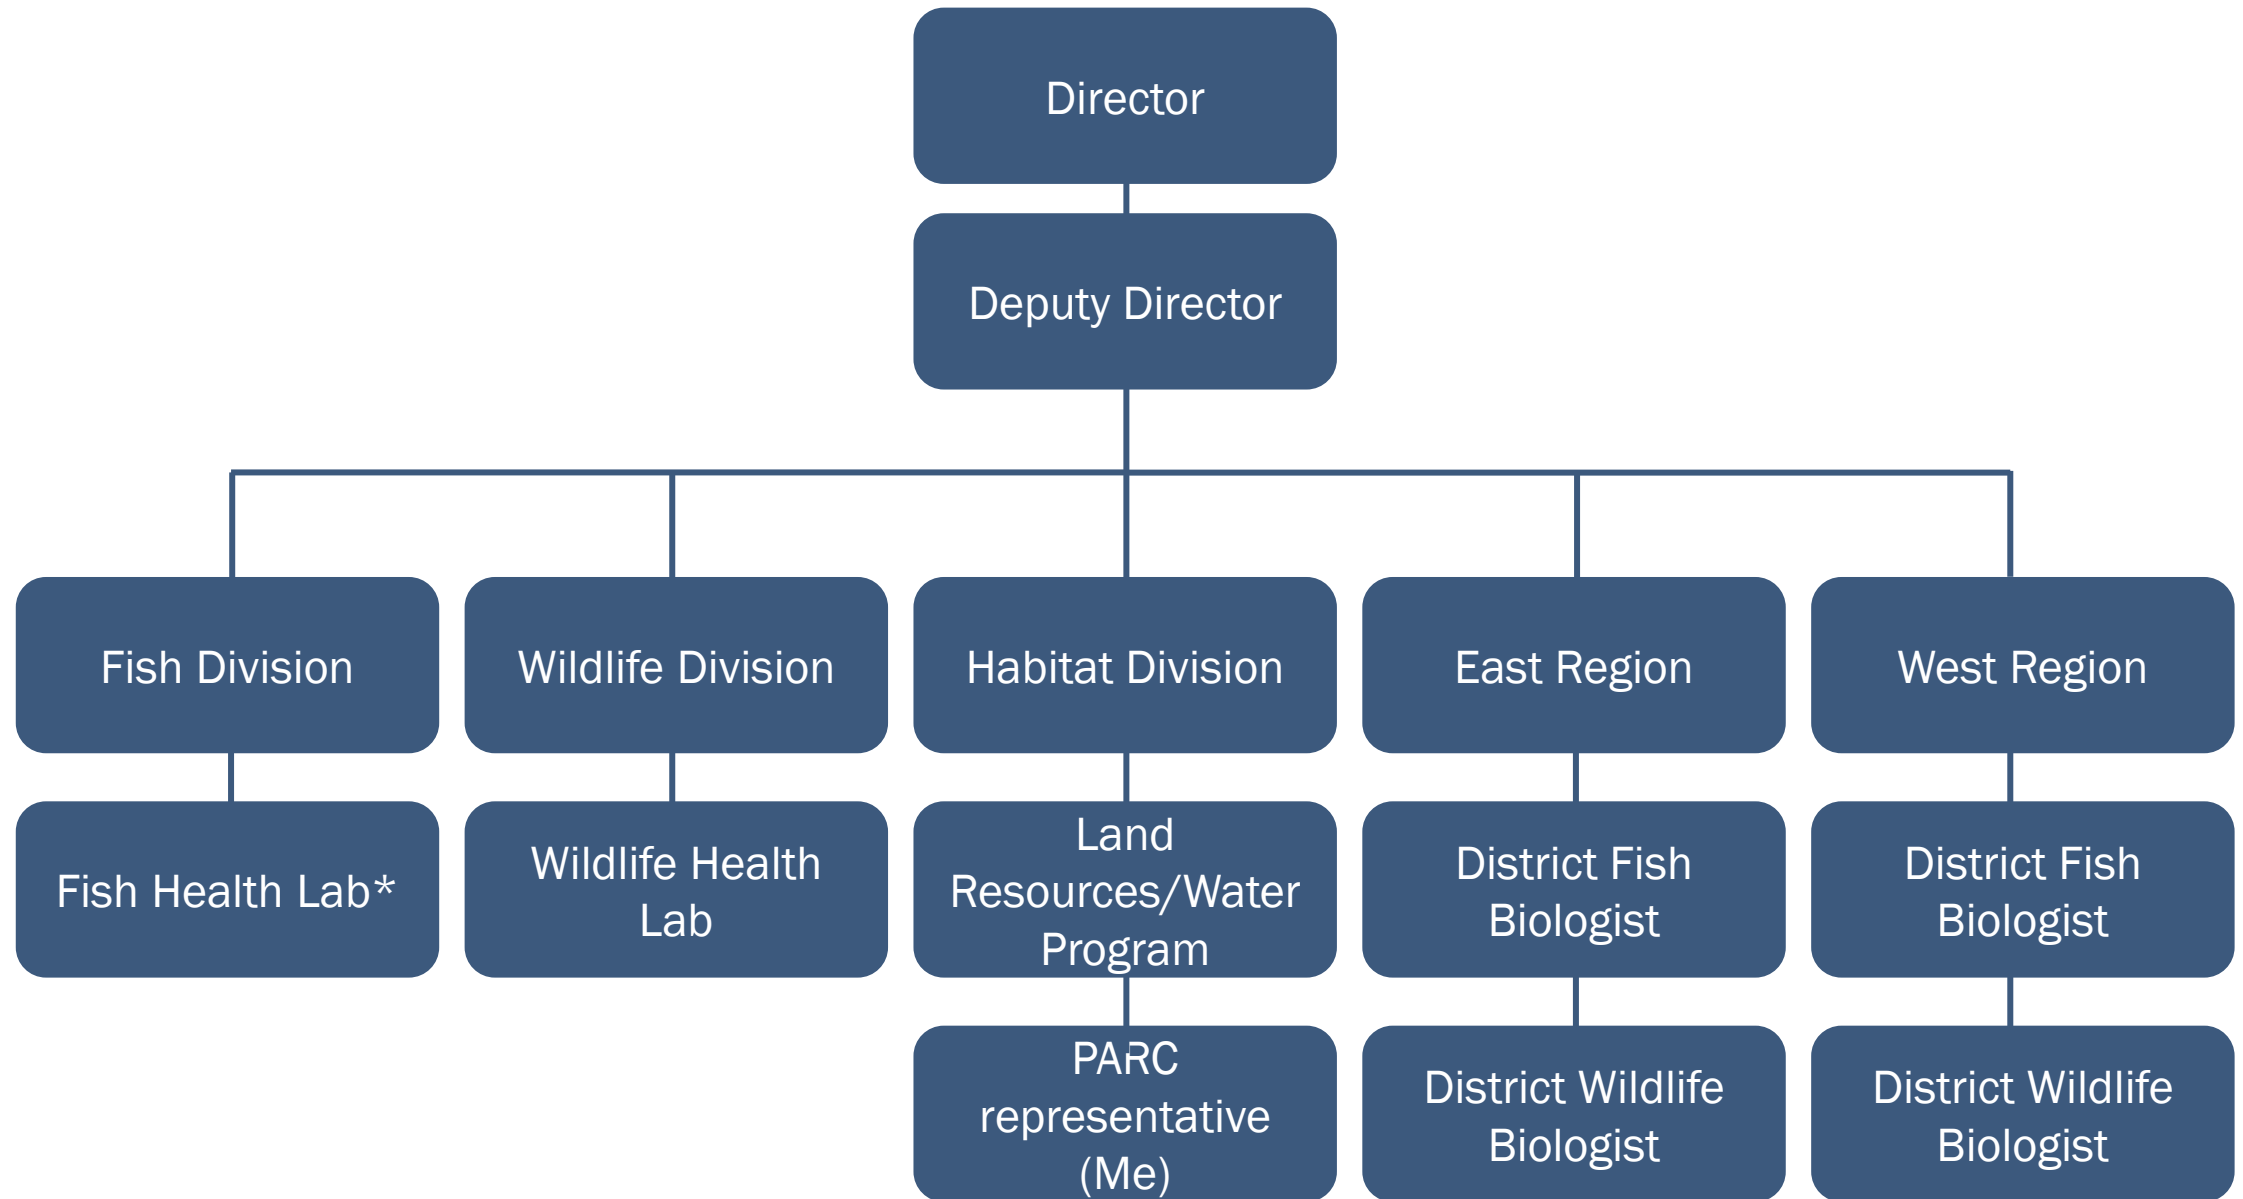

Provides the Oregon Department of Fish and Wildlife with authority to seek damages in a court of competent jurisdiction for:

- The value of fish and wildlife injured or killed as the result of pollution or violation of the condition of any permit, and
- All costs of restoring fish and wildlife production in affected areas.

## OAR 635-410

Describes how the Department shall investigate, document and assess the value of natural resource losses pursuant to its authority under state and federal law.

\* The Fish Health lab can determine if it was bacteria/parasites that caused a fish kill. They are not equipped to determine cause of death due to toxicity. They would need to send to a private lab.

Intake staff/Land Resources  
Manager

Responsible for receiving  
complaints and forwarding to  
appropriate district staff

District Fish and Wildlife Biologists
