WHAT IS A LUCTS? The LUCTS is the process ODA uses to determine that ODA permits and other approvals that affect land use are consistent with the local government comprehensive plan.

WHY IS A LUCTS REQUIRED? Oregon law requires that state agency activities related to land use be consistent with local comprehensive plans in accordance with ORS Chapter 197.

WHEN IS A LUCTS REQUIRED? A LUCTS is required for nearly all ODA permits, some General Permits, and certain approvals for plans or related activities that affect land use. These activities are listed in this form. In cases where a source needs more than one ODA permit or approval, a single LUCTS may be used.

A permit modification requires a LUCTS when:
- there is a physical expansion on the property or the use of additional land is proposed;
- there is a significant increase in discharges to water;
- there is a relocation of an outfall outside of the source property; or
- emission rate increase as defined in OAR 340-28-110.

A permit renewal requires a LUCTS if one has not previously been submitted, or if one of the above four permit modification factors apply.

HOW TO COMPLETE A LUCTS:
- The LUCTS form is included in the ODA permit application or approval packet.
- Applicant fills out Section 1 of the LUCTS and then submits it to the city or county planning office.
- The local planning office determines if the business or facility meets all local planning requirements.
- The local planning office must attach written findings of fact for local reviews or other necessary planning approvals that are required of the applicant.
- The applicant includes the completed LUCTS and attachments with the permit application or approval submittal.

WHERE TO GET HELP: Questions on the LUCTS are to be directed to ODA, Natural Resources Division, at (503) 986-4700.
