

## Pesticide Advisory

### **Alert – Crop Specific Solutions’ OG Rapid Flower + Hardener product contains paclobutrazol**

July 21, 2016

The Oregon Department of Agriculture (ODA) has reason to believe the product OG Rapid Flower + Hardener, manufactured by Crop Specific Solutions, contains a pesticide active ingredient, paclobutrazol, not listed on the label. ODA’s advisory is based on Washington State Department of Agriculture’s (WSDA) laboratory testing and confirmation of undeclared pesticide active ingredients. ODA is currently undergoing sampling and testing of this product in Oregon.

Use of OG Rapid Flower + Hardener could cause cannabis to fail Oregon Health Authority (OHA) pesticide testing requirements. Growers of all crops and retailers are advised to discontinue using or selling OG Rapid Flower + Hardener until further notice.

For additional information or questions, please contact ODA at (503) 986-4635, email [pestx@oda.state.or.us](mailto:pestx@oda.state.or.us) or visit our website at: <http://www.oregon.gov/ODA/programs/Pesticides/Pages/CannabisPesticides.aspx>
