

## Pesticide Advisory

### **Alert – Tulsi Enterprises Ltd.’s Optic Foliar AT-AK product containing salicylic acid, Optic Foliar Overgro product containing salicylic acid and 3-indoleacetic acid, and Optic Foliar Switch product containing ethephon**

July 21, 2016

The Oregon Department of Agriculture (ODA) has reason to believe the products Optic Foliar AT-AK, Optic Foliar Overgro and Optic Foliar Switch, manufactured by Tulsi Enterprises Ltd., contain pesticide active ingredients not listed on the labels; salicylic acid in Optic Foliar AT-AK, salicylic acid and 3-indoleacetic acid in Optic Foliar Overgro, and ethephon in Optic Foliar Switch. ODA’s advisory is based on Washington State Department of Agriculture’s (WSDA) laboratory testing and confirmation of undeclared pesticide active ingredients. ODA is currently undergoing sampling and testing these products in Oregon.

Use of Optic Foliar AT-AK, Optic Foliar Overgro or Optic Foliar Switch could cause cannabis to fail Oregon Health Authority (OHA) pesticide testing requirements. Growers of all crops and retailers are advised to discontinue using or selling Optic Foliar AT-AK, Optic Foliar Overgro and Optic Foliar Switch until further notice.

For additional information or questions, please contact ODA at (503) 986-4635, email [pestx@oda.state.or.us](mailto:pestx@oda.state.or.us) or visit our website at: <http://www.oregon.gov/ODA/programs/Pesticides/Pages/CannabisPesticides.aspx>
