# Written Comments Received

# How this will work

**\*\*\*Formal analysis is not yet complete\*\*\***

# What have we heard so far?

- Only 13 comments do not support further restrictions
- 1 comment in support of continuing to allow granular use
- Concerns over:
  - What pest control will look like (options for specialty crops, more frequent applications of different pesticides, etc.)
  - Economic impact
  - Opportunities for clarification in proposed rule

# What have we heard so far?

- Those who want further restrictions have expressed concern over:
  - Timeline
  - Current exceptions from 12/31/2023 prohibition
  - Restrictions on aerial sprays
  - Buffer distance for aerial and airblast sprays

# Thank you!
