Grasshopper and Mormon Cricket Cost Share Fact Sheet

The 2021 Oregon Legislature approved \$3.8 million for the suppression of grasshopper and Mormon crickets throughout Oregon.

How to Apply

- ✓ Complete an Oregon grasshopper/Mormon cricket outbreak reporting form and request a site survey. <https://oda.fyi/GHMC>
- ✓ Based on survey results, treat all or a portion of the ODA recommended acreage and location.
- ✓ Complete and submit the reimbursement form and IRS form W-9 by September 15, 2022. <https://oda.direct/GHMCApp>

Reimbursement

- You may be reimbursed up to 75% of your actual cost for treatment, including cost of product and application costs.
- To be able to distribute 100% of available funds, ODA will distribute them equally among those who apply for reimbursement. Because of this, we cannot state a specific reimbursement rate until we receive all reimbursement requests.
