Low Carbon Fuel Standards (LCFS) -Optional-

The owner or operator of a gas station may disclose to customers the cost, per gallon of gasoline, of the low carbon fuel standards (ORS 468A.266) after viewing on the Oregon Department of Environmental Quality's (ODEQ) website or receiving from the Department of Agriculture the annual calculations (ORS 468A.271).

An owner or operator that posts the cost per gallon of the low carbon fuel standard shall also post the calculation of the concurrent total greenhouse gas emissions reductions attributable to the low carbon fuel standard.

The owner or operator may make the disclosures provided for in this subsection by:

- Posting the disclosures on a gasoline pump in a manner that is visible to customers;
- Printing the disclosures on a receipt that the owner or operator provides to a customer; or
- Otherwise displaying the disclosures near the point of payment or another location that is visible to customers.

If you publish LCFS cost information then;

- you must use the cost calculation prescribed in ORS 468A.275. The calculated cost will be published on ODEQ's Clean Fuels Program website no later than April 15, 2018.
- you must also publish the greenhouse gas emission reductions attributable to the low carbon fuel standard program which is also to be published on ODEQ's Clean Fuels Program website.
