NATURAL RESOURCES  
DIVISION**AMENDMENT #7****MEMORANDUM OF AGREEMENT  
Between  
The Oregon Pesticide Analytical Response Center  
And  
The Oregon Health Authority**

This document is Amendment #7 to the Memorandum Of Agreement dated December 6, 2005, between the Oregon Pesticide Analytical Response Center (PARC) and the Oregon Health Authority – Public Health Division (OPHD). This Amendment shall be in affect from July 1, 2013, to June 30, 2015, unless specifically amended as herein set forth.

The Agreement is hereby amended as follows:

PARC shall provide to OPHD an amount not to exceed \$118,174 for the services provided to PARC by OPHD as detailed in this Amendment. PARC providing these funds to OPHD is contingent upon the availability of adequate funding to PARC, through action of the Oregon Legislature, to meet PARC expenditures. Any change in funding availability during the term of this amendment will be communicated by PARC to OPHD, and may serve as a basis for amending this Amendment.

OPHD shall provide to PARC the services of staff of the Center for Prevention & Health Promotion, and other OPHD staff, knowledgeable in epidemiology, human toxicology, industrial hygiene, and related disciplines. These services shall include but are not limited to:

- Investigate, in collaboration with other PARC member agencies, selected reports of pesticide exposure based on established criteria and available resources;
- In cooperation with toxicologists of Oregon Health Sciences University (OHSU) and Oregon State University (OSU) acting on behalf of PARC, gather pesticide exposure, symptomology and medical information from individuals and their health care providers, associated with specific PARC incidents and cases;
- As allowed by existing authority, provide gathered information to toxicologists of OHSU and OSU acting on behalf of PARC;
- Serve as a resource to toxicologists of OHSU and OSU acting on behalf of PARC in evaluating incidents and cases, and in classifying cases according to PARC criteria.

OPHD shall provide invoices to PARC for services provided. These invoices will be no more frequently submitted than monthly. These invoices will detail the nature and cost of services provided to PARC, and shall serve as the basis for the transfer of funds from PARC to OPHD under this Agreement.
