## Overview of Services

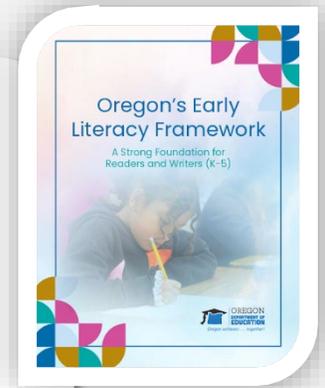

The LETRS® (Language Essentials for Teachers of Reading and Spelling) Suite is comprehensive professional learning designed to provide early childhood and elementary educators and administrators with deep knowledge to be literacy and language experts in the science of reading. Developed by Dr. Louisa Moats and leaders in the field of literacy, LETRS teaches the skills needed to master the foundational and fundamentals of reading and writing instruction—phonological awareness, phonics, fluency, vocabulary, comprehension, and written language. LETRS for Administrators enables leaders to effectively support educators as they engage in the LETRS course of study and work to implement the learnings in their classrooms. LETRS for Administrators is a professional learning opportunity designed to guide state, district, and building administrators and instructional leaders in creating adaptable and suitable literacy initiatives using systems thinking and implementation science. The program defines the systems and infrastructures required to successfully implement a sustainable literacy program aligned to scientifically based research. LETRS® professional learning for elementary educators is an investment in teachers' literacy knowledge and professional practice. Teachers gain essential knowledge to master the fundamentals of literacy instruction required to transform student learning. LETRS® for Early Childhood Educators professional learning provides deep knowledge of literacy instruction for the youngest learners. The more children know about language and literacy before they begin kindergarten and first grade, the better equipped they are to succeed in literacy learning and beyond.

## Alignment to Oregon's Early Literacy Framework

LETRS and LETRS for Early Childhood Educators are comprehensive professional learning that provide educators with deep knowledge to be literacy and language experts in the science of reading. LETRS teaches the skills needed to understand the fundamentals of literacy instruction required to transform student learning – phonological awareness, phonics, fluency, oral language and vocabulary, comprehension, and writing. LETRS for Early Childhood Educators is designed for educators of multiage preschool and pre-k students, while LETRS supports educators of kindergarten through fifth-grade students.

## Evidence of Impact

Collectively, quantitative and qualitative research on LETRS has found:

- **Improved teacher knowledge and practice.** Teachers who completed LETRS training demonstrated higher levels of knowledge and improved instructional practice across various objective and self-rated measures.
- **LETRS is often implemented with other interventions.** Schools, districts, and states that implement LETRS usually do so alongside other large-scale initiatives. Educators variously perceive these initiatives as helping or hindering LETRS implementation.
- **Implementation is linked to improved outcomes.** Positive teacher outcomes were most likely to be observed in studies that reported moderate to high levels of implementation.
- **Educators perceive LETRS learning to be essential.** Studies that address educators' perceptions of LETRS suggest that educators view their learning as playing a positive, if not essential, role in improving student reading.
- **LETRS demonstrates remarkable adaptability.** LETRS has been implemented in various contexts, from single schools to state-wide multicomponent literacy initiatives. While careful implementation planning is always warranted, challenging contexts may call for support from Lexia's Customer Success Management.
