- Professional Development
- Coaching
- Dual Language Professional Development
- Dual Language

Curriculum Specialization

Core Curricula:

Wonders, CKLA, HMH Into Reading

Supplemental Materials:

Really Great Reading, UFLI, Heggerty

Overview of Services

MGT delivers comprehensive early literacy support grounded in the Science of Reading. Believing that progress moves at the speed of trust, MGT begins each partnership by building collaborative, transparent, and student-centered relationships with educators to understand district and school context, goals, and challenges.

Services are designed to strengthen educator knowledge, instructional practice, and belief systems to accelerate student outcomes, particularly in early literacy. MGT offers strategic planning, professional learning, and coaching aligned with the Science of Reading, helping educators bridge the gap between theory and practice.

Led by experienced PK–12 educators and leaders, MGT works with individuals, teams, and school and district leadership to build educator capacity and improve student learning. Using gradual release strategies and ongoing support, MGT ensures that improvements are sustained beyond the duration of the partnership.

Above all, MGT aims to create learning environments where every child is seen, supported, and empowered to succeed.

Pricing

MGT customizes their services for each individual client, and pricing varies depending on the time needed to meet client objectives. Please reach out to discuss your goals and receive an individualized pricing proposal.

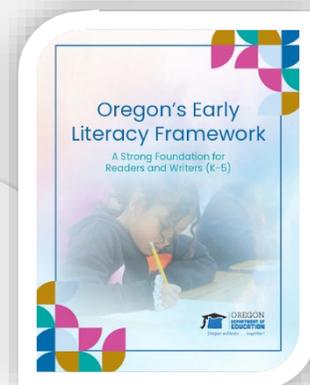

Please reach out for to MGT for more pricing information.

Alignment to Oregon's Early Literacy Framework

MGT's services align with Oregon's Early Literacy Framework through a comprehensive, equity-centered approach grounded in the Science of Reading. Professional learning and coaching build educator expertise in foundational skills—phonemic awareness, phonics, fluency, vocabulary, and comprehension—while embedding culturally responsive practices that honor student identities and promote inclusive, asset-based instruction.

MGT supports effective assessment use by helping educators analyze data to inform instruction, monitor progress, and target supports. Their approach also emphasizes family engagement, equipping schools with tools and strategies to build strong partnerships that reinforce literacy at home.

Central to MGT's model is building educator capacity through side-by-side coaching, job-embedded professional development, and collaborative planning. By strengthening individual practice and schoolwide systems, MGT ensures sustainable impact. Through this integrated approach, MGT supports Oregon educators in advancing early literacy success for every child, in every classroom.

Evidence of Impact

In every partnership, MGT is narrowly focused on impact. MGT collaborates with schools and districts to regularly analyze student performance data, make instructional decisions, and adjust our plans to ensure that the work is having the desired impact.
