What is Customized Coaching and Professional Learning (CCPL) Program?

To meet the goals of the Student Investment Account (SIA), the legislation established the ODE customized coaching and professional learning program to support improved mental, behavioral, and academic outcomes. Coaching and professional learning providers support you, your teams and teachers to build student-centered systems designed to help you meet your Performance Growth Targets. Examples of coaching strategies include learning walks, modeling lessons, and supporting teachers with High Quality Instructional Material (HQIM) practices.

High-Quality Coaching & Professional Learning

ODE vets coaching and professional learning providers through a rigorous competitive process to ensure alignment with state principles, standards, and frameworks. Only the highest quality proposals become eligible to provide coaching through the CCPL. Multiple providers are available in each coaching focal area and ODE supports ESDs, districts, and schools. ODE also covers all costs, and reporting requirements, reducing administrator burden for participants.

Interested in CCPL for your region, district, or school? Please email us at ODE.EII@ode.oregon.gov!

Coaching Areas

Early Literacy
Adolescent Literacy
Mental Health & Well-Being
Attendance Improvement
Leadership for Continuous Improvement
