

LEARNING OPPORTUNITY FOR DISTRICT- AND SCHOOL-BASED TEAMS

# Using Early Indicator and Intervention Systems

With the right approach, an early indicator and intervention system (EIS) can be a lever for student success, school improvement, equity, and family engagement. To support districts and schools in this work, ODE is offering two learning series: EIS: Foundations for Student Success and EIS at Middle and High School.

With these **free virtual team-based learning opportunities**, your team can develop mind-sets that align with a positive youth development approach and skills to understand student needs, apply an equity lens to student data, reflect on current EIS, and develop plans for implementation. These series offer in-depth learning and training you can immediately apply to your own EIS, regardless of current level of implementation.

## Open to school- or district-based teams at any stage of EIS implementation

We encourage teams of 4–6 teachers and leaders to build a common foundation to initiate or enhance EIS

## Fully virtual

## 10–12 weeks of participation

Real-time virtual workshops (times and days to be determined by participant preferences)

Independent team learning activities to guide reflection on the strengths of your current systems and support implementation of new learning

## No cost to participate

**Ongoing consultation and collaboration sessions with facilitators to develop materials and processes to strengthen systems in your school or district**

# EIS learning series options

## EIS: Foundations for Student Success

Expand and deepen your understanding of EIS best practices as your team builds a common foundation for using your EIS. This series will run for **12 weeks** with five virtual workshops and seven team learning activities.

**Register by December 4, 2023.**

**Register by February 5, 2024.**

### Winter 2024

Synchronous virtual session	Week of
1	1/8/2024
2	1/29/2024
3	2/19/2024
4	3/11/2024
5	4/1/2024

### Spring 2024

Synchronous virtual session	Week of
1	3/4/2024
2	4/1/2024
3	4/22/2024
4	5/13/2024
5	5/27/2024

## EIS at Middle and High School

Develop equity-centered data literacy skills and culturally responsive strategies to strengthen and enhance teacher teaming and student-centered supports. This series is tailored for middle school or high school teams to build upon current teaming structures and enhance the effectiveness of student success systems. This session will run for **10 weeks** with five virtual workshops and five team learning activities.

**Register by December 4, 2023.**

**Register by February 5, 2024.**

### Winter 2024

Synchronous virtual session	Week of
1	1/1/2024
2	1/15/2024
3	1/22/2024
4	2/12/2024
5	3/4/2024

### Spring 2024

Synchronous virtual session	Week of
1	3/11/2024
2	4/1/2024
3	4/8/2024
4	4/29/2024
5	5/20/2024

# Other EIS learning opportunities

ODE offers a variety of learning opportunities and technical assistance to strengthen EIS in your school or district, including [monthly EIS Office Hours](#), presentations at regional and statewide conferences, and collaborative consultation.

Contact the EIS Team ([ode.eii@ode.oregon.gov](mailto:ode.eii@ode.oregon.gov)) or your EII Regional Support partner to learn more.
