## **5. Open Space/Questions/Needs**

## **6. Closing**

### **Notes:**

#### **Section 2:**

- Pamela Marks – were notes taken during the breakouts during the last meeting?
- Chelsea – Yes, minutes are taken. All stewards were in the meeting.
- Deb Bufton – can we record or do a transcript?
- Chelsea – we decided not to record. For public meeting law, anything can be requested
- Tim – we'll bring that back, it's part of the learning and growing process.
- Amber Brune – process question, advisory body sends recommendations and stewarding decides, then school board approves? Where did the TOSA approvals come from?
- Chelsea – thank you for clarifying. That is why we took a step back to involve the Advisory Body more. The Advisory Body steers the Stewarding Body.

#### **Section 4:**

- Dr. WeiWei Lou - We had a discussion about how \$ and funds would be helpful to solve a lot of issues.
- Dr. Karen Perez – It would be helpful to have a district representative in all of the breakouts
- Pamela Marks – Not everybody had a chance to talk, so giving everybody a chance, would be very helpful

#### **Section 5:**

- Dr. Diaz – should have clarified that the title should have been Library Media Assistants at the secondary level
- Kindergarten EA – Pamela Marks
  - How do we use one person to the greatest effect?
- Social Workers – Cayle Tern
  - Look at ways to put more social workers into the schools
  - Internship opportunities?
- Director of Equity and Student Success
  - Who is supervising this person?
  - What is their role? What is their responsibility?
  - How do they support white staff members when they misstep?
  - Individual work spaces?
  - Will it be a long-term position after it's funded by SIA?
  - What type of mentoring will this position receive?

**Section 6:**

- We will use this feedback for the Stewarding Body to meet later this month based on these recommendations on the table
- Today we had the Advisory Body look at these current recommendations
- In the future, we want the Advisory Body to share their own recommendations
