

Quality Assurance and Learning Panels (QALP) Seeks Members

The Integrated Applications empower school districts to describe their implementation of key programs such as Every Day Matters (EDM), High School Success (HSS), Student Investment Account (SIA), Early Indicator Intervention Systems (EIS), Early Literacy Success School District Grants (ELSSDG), Career and Technical Education (CTE), and Career Connected Learning (CCL), all in one streamlined document.

The purpose of the Quality Assurance and Learning Panel (QALP) is to:

- Support public understanding and grow confidence in the implementation of the Integrated Application;
- Create conditions conducive for learning across districts and communities; and
- Support ODE's review processes with a quality check.

This is an invitation for your participation in a single two hour panel which includes volunteering to review and affirm the review process of ODE while increasing learning about the work being done in districts, charter schools, programs, and communities across the state of Oregon.

We are looking for:

- Practicing or retired educators;
- Students;
- Community partners;
- Family members and/or advocates representing/serving parents and families;
- Representatives from philanthropy or business;
- School board members and elected representatives; and
- School and district administrators - including ESD leaders.

Selected panelists will be asked to commit to **a single** panel (9am-11am or 1pm-3:00pm) virtual meeting between late April - June to review ODE's evaluation of an integrated application. **The application will remain open until all QALP panels are full.**

Participation in the Quality Assurance and Learning Panel is voluntary and subject to public record. Selected panelists will be notified and ODE will coordinate with panelists to find a scheduling time that works.

If you have any questions please contact us at ODE.EI@ode.oregon.gov.
