Oregon’s New Frontier: Sexual Health Promotion is Sexual Violence Prevention

COSA
Special Education Administrators Annual Fall Conference
September 5, 2017

Ely Sanders, Sexual Health and School Health Specialist, Oregon Department of Education

Presentation Objectives

By the end of this presentation, participants will be able to:

1) Understand how sexual health promotion is sexual violence prevention

2) Explain Oregon’s policies and the connection of Erin’s Law, the Healthy Teen Relationship Act, and Human Sexuality Education law

3) Understand how Oregon’s collaborative approach provides a foundation of support for effective health promotion and violence prevention at the school level.
Before we start...

- Why is Sexual health Education Important?
- Desired Outcomes?

Historical Sex Ed??

- Focus on Abstinence Only Education
- Wait until Marriage
- LGBTQ ???
- Reinforced stereotypes
- Scary photos of STDs
Why Sexuality Education?

Outcomes:

1. Delayed initiation of sexual intercourse
2. Reduced number of sexual partners
3. Reduced frequency of sexual intercourse
4. Increased use of condoms, correctly and consistently

Sex Ed Outcomes:

- There are other outcomes:
  1. Young people experience their sexuality as a natural and positive element of maturation (ORS 336.455)
  2. Strengthen social norms that encourage healthy and respectful relationship.

Important... Not Boring!!

Health Promotion is Violence prevention
What does the research say?

93%

Parents support sex education as part of a school curriculum*

Teens say parents most influence their decisions about sex**

Who Gets Sex Ed?

States That Don’t Require Sex Education

Note: Sex education typically includes discussion of STIs. In Illinois, sex education is not mandated. Only health education is required, and it includes medically accurate information on abstaining. In Mississippi, health may include topics such as contraception or STIs only with parental consent. Information from the State Department of Education. In Tennessee, sex education required if it replaces math class and to meet or exceed the pregnancy rate of at least 15% in a 1,000 teen-woman age 15-17.

THE HUFFINGTON POST

Oregon achieves . . . together!
Medically Accurate??

States Where Sex and HIV Education, If Provided, Don't Have To Be Medically Accurate

But Why Sexual Violence Prevention As Part of CSE?
Over 1 million Oregon women & girls have experienced sexual or domestic violence

That’s more than half the female population

It’s one of the three highest rates in the nation

### Oregon’s Policy Framework

<table>
<thead>
<tr>
<th>Healthy Teen Relationships Act (House Bill 4077)</th>
<th>Each school district shall adopt a policy that establishes procedures for school employees to respond to incidents of teen dating violence.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Erin's Law: Child Sex Abuse Prevention (Senate Bill 1066)</td>
<td>Each school district board shall adopt a child sexual abuse prevention instructional program for students K through 12 as well as professional training for school personnel.</td>
</tr>
<tr>
<td>Human Sexuality Education (Senate Bills 507-502-599)</td>
<td>Each school district shall teach an age-appropriate, comprehensive plan of instruction focusing on human sexuality education, in 6th through 12th grades as an integral part of health education and other subjects.</td>
</tr>
<tr>
<td></td>
<td>The comprehensive plan of instruction shall include information that aligns with the Oregon Health Education Content Standards and Benchmarks.</td>
</tr>
</tbody>
</table>

#### Where is Erin’s Law?

There are 43 million sexual abuse survivors in America. A million are children, what would fill 62 football stadiums. Erin’s Law is a simple way to ensure schools have the tools and training to help students who have been sexually abused.

- **28** Passed
- **20** Introduced but deleted in committee
- **2** Still in process

We teach kids to say no to drugs, but why do we think it’s weird or how to not always say “tell someone?”
Erin’s Law? Tell me more…

Erin's Law is named after childhood sexual assault survivor, author, speaker and activist Erin Merryn, who is the founder and President of Erin's Law. After Erin introduced the legislation in her home state of Illinois, the bill was named “Erin’s Law” after her by legislators.

Erin’s Law requires that all public schools in each state implement a prevention-oriented child sexual abuse program which teaches:

1) **Students** in PreK-12th grade learn age-appropriate techniques to recognize child sexual abuse and tell a trusted adult
2) **School personnel** are trained about child sexual abuse
3) **Parents** and guardians are also trained regarding the warning signs of child sexual abuse, plus needed assistance, referral or resource information to support sexually abused children and their families

Sexual Abuse/Violence Prevention (SVP)

- ODE partnered with over 20 violence prevention experts to develop guidance for schools on how best to implement SB 856.
  1. Recognized that sexual health promotion is sexual violence prevention
  2. Sexual violence prevention must be integrated into health education (and not stand alone)
  3. Drafted guidance (administrators, teachers, and parents)
  4. Predicts an increase in student sex abuse/violence disclosures and that districts must develop trauma informed reporting procedures

Connecting Goals and Strategies of Violence Prevention in Oregon
From the Centers for Disease Control (CDC):

<table>
<thead>
<tr>
<th>Strategy</th>
<th>Approach</th>
</tr>
</thead>
</table>
| S        | - bystander approaches  
           | - mobilizing men and boys as allies  
| T        | - social-emotional learning  
           | - teaching healthy dating and intimate relationship skills to adolescents  
           | - promoting healthy sexuality  
           | - empowerment-based training  
| O        | - strengthening economic supports for women and families  
           | - strengthening leadership and opportunities for girls  
| P        | - improving safety and monitoring in schools  
           | - establishing and consistently applying workplace policies  
           | - addressing community-level risks through environmental approaches  
| SV       | - victim-centered services  
           | - treatment for victims of SV  
           | - treatment for at-risk children and families to prevent problem behavior including sexual offending  

**CSE/SVP... It is the Law!**

Each school district shall teach an age-appropriate, comprehensive plan of instruction focusing on human sexuality education, HIV/AIDS and sexually transmitted disease prevention in elementary and secondary schools as an integral part of health education and other subjects.

-OAR 581-022-1440
OAR 581-022-1440

- Abstinence is to be stressed, but not to the exclusion of contraceptives and condoms. . . while not devaluing, ignoring or stigmatizing those students who have had or are having sexual relationships.
- Course material and instruction shall enhance students’ understanding of sexuality as a normal and healthy aspect of human development.
- Each school district shall provide an age-appropriate, comprehensive plan of instructional for students in kindergarten through grade 12 as defined in subsection (9)
- The human sexuality education comprehensive plan shall provide instruction at least annually, for all students grades 6-8 and at least twice during grades 9-12. . . .

CSE Plan of Instruction

K-12 Comprehensive Plan of Instruction shall:

- (a) Promote abstinence
- (a) Discusses responsible sexual behaviors and hygienic practices which may reduce eliminate unintended pregnancy, exposure to HIV, hepatitis B/C and other sexually transmitted infections and diseases;
- Can't be “shame or fear based”
- (q) Use [culturally] inclusive materials, language, and strategies that recognizes different sexual orientations, gender identities and gender expression;
- (g) Discusses the characteristics of the emotional, physical and psychological aspects of a healthy relationship;
Plan Requirements (Cont.)

- (l) Encourages positive family communication and involvement and helps students learn to make responsible, respectful and healthy decisions;

- (m) Teaches that no form of sexual expression, or behavior is acceptable when it physically or emotionally harms oneself or others and that it is wrong to take advantage of or exploit another person;

- (n) Teaches that consent is an essential component of healthy sexual behavior. Course material shall promote positive attitudes and behaviors related to healthy relationships and sexuality, and encourage active student bystander behavior;

- (o) Teaches students how to identify and respond to attitudes and behaviors which contribute to sexual violence;

“Each school district shall provide an age-appropriate, comprehensive plan of instruction for students in kindergarten through grade 12 . . .”

- Must be approved by school district board every two years
- Serves as the foundation of curriculum selection and instructional design
- Outlines mapping and alignment
- References and aligns with district policies related to CSE, equity, and ???
- Developed with input from a broad selection of stakeholders including: District administration, teachers, students and families, community organizations, ???
New Health Standards

- State Board of Education adopted new health standards (12/8/16)
- Health Standards are now grade specific!
- Align with ORS/OARs as well as National Standards
- Health Standards integrate new sexual abuse prevention requirements
Health Standards

- HE.1.K.4 Name reproductive body parts, using proper anatomical terms, and stages in the basic growth processes of all people
- HE.1.K.10 Recognize everyone has the right to say who touches their body, when and how
- HE.3.3.5 Recognize people at home, school or in the community who can provide medically accurate information and/or support about healthy sexuality, including sexual orientation and gender identity
- HE.3.3.7 Recognize sources of support, such as parents or other trusted adults, including school staff; they can tell if they are experiencing sexual abuse
- HE.2.5.9 Discuss potential impacts of power differences (e.g., age, status or position) as they relate to personal boundaries
- HE.3.5.7 Discuss the sources of support, such as parents or other trusted adults, they can talk to about healthy and unhealthy relationships

New Standards

PROMOTION OF SEXUAL HEALTH:

- Analyze the influence of friends, family, media, society and culture on the expression of gender, sexual orientation and identity. (6-8)
- Explain that there are many ways to express gender. (K-2)
- Provide examples of how friends, family, media, society and culture influence how people think they should act on the basis of their gender. (3-5)
- Advocate for school policies and programs that promote dignity and respect for all. (6-8)
New: Sex Abuse Prevention

- 9) As part of the comprehensive plan of human sexuality instruction, each school district shall provide child sexual abuse prevention instruction from kindergarten through grade 12. School Districts must provide a minimum of four instructional sessions per year. One instructional session is equal to one standard class period.

  Note:
  - Integrated with CSE plan
  - 4 sessions (equal to or greater than a class period)
  - Kindergarten through grade 12

School Response

- We expect an increase of student disclosure as a result of increased prevention instruction
- What is your district policy related to responding to a student(s) disclosure?
- Do you have a response team and who is included:
  - Teachers
  - Counselor
  - Social worker
  - Administration
  - Non-district staff? What about privacy?
- See Trauma Informed Mandatory Reporting handout
“What to Do”

- Create privacy and safety
- Be calm and re-assuring
- Give student lots of positive feedback
- Avoid asking about details of the event
- Ask about adult support
- Allow student to make any decisions you can
- Ask student if they have any worries about you talking with other people

“What Not to Do!”

- Make contact with the child’s parent(s)
- Ask student why she/he didn’t tell earlier
- Ask what student did to try and stop it, or why he/she didn’t do something to stop the abuse
- Say negative things about the alleged offender or the parent(s)
- Act shocked or react emotionally
- Make promises about what will, or will not happen. If you don’t know, say so
Oregon Equality Act

- The Oregon Equality Act of 2007 amended many statutes to prohibit discrimination on the basis of sexual orientation.

- **ORS 174.100** Sexual orientation means an individual's actual or perceived heterosexuality, homosexuality, bisexuality or gender identity, regardless of whether the individual's gender identity, appearance, expression or behavior differs from that traditionally associated with the individual's sex at birth.

- This Act forbids discrimination based on sexual orientation in employment, housing, public accommodations, public meetings, public services, public education and foster homes.

State Nondiscrimination Laws

![Map of Safe Schools Nondiscrimination Laws](Image)
Terminology

(h) “medically accurate” means information that is established through the use of the ‘scientific method.’ Results can be measured, quantified, and replicated to confirm accuracy, and are reported or recognized in peer-reviewed journals or other authoritative publications.

The words we use matter!

Oregon Law Summary

1. Oregon is 1 of 4 states in the United states that requires medically accurate, K-12 Comprehensive Sexuality Education. (Human Sexuality Education, OAR 581-022-1440)

2. Oregon is one of 16 states that specifically prohibits discrimination based on gender identity and sexual orientation.
Things to Keep in Mind

- Follow your institutions’ guidelines and work with administration
- Work collectively
- Answer questions simply, using correct vocabulary
- Always encourage, when safe, to discuss their questions with their parents or other trusted adults
- Ensure instruction and activities are positive, inclusive, and accessible to all students
