## TEST ADMINISTRATION

### SCIENCE

#### Oregon Reporting System (ORS) Science Tips **REPEAT**

1. Since [ORS](#) presents data as students complete and submit their online tests, it does not take into account any accountability rules. Hence, ORS data is preliminary and may not be used for accountability purposes.
2. A high school data file generated through 'Retrieve Student Results' for the 2019-2020 test administration will also include records from the 2018-2019 test administration. It is important to know that only test records from the current test administration (2019-2020) will have '3-D Discipline' subscores. You can filter the subscores by de-selecting 'blanks'; you will then only see records for the current administration.
3. You can see subscore relative strengths and weakness for groups by selecting 'Discipline' from the 'What' options list in the Exploration Menu for the current administration.
4. The [ORS User Guide](#) is located in the resources section of the [OSAS Portal](#).
