SCIENCE

2018-19 OSAS Science Assessment Score Report Update

Unofficial scores for the 2018-19 OSAS Science Assessment will be available in the OSAS Online Reporting System (ORS) by **October 22, 2019**, but will not be available in Student Centered Staging, the Accountability Warehouse Extract (AWE), or Secure Assessment Reports as official scores until after achievement level cut scores and descriptors are adopted by the State Board of Education.

In preparation for presentation to the State Board, substantial equity-focused community partner engagement meetings are being planned to gather feedback from historically marginalized groups on the expected impact of the achievement standards recommended by standard setting panelists. If the timeline proceeds aggressively, we plan to present standard setting information to the State Board in October. A first reading might be conducted in December, with a potential adoption in January. That said, we cannot rush the engagement process and will work to communicate with you as the process evolves. We will be able

to discuss the file formats that you can expect in the coming months, but cannot commit to a specific data file structure at present due to ongoing discussion about how to structure sub-scores.

Please contact [Noelle Gorbett](#), Science Assessment Specialist, 503-947-5928 with any questions or concerns.

ACCOUNTABILITY & REPORTING

QUESTIONS AND ANSWERS

Answers to Common Questions from the Field

QUESTION: I have heard that it is possible to “merge” Temporary IDs with SSIDs for students who have taken the ELPA Screener. What does that mean? Should my district be doing this?

ANSWER: Merging a Temporary ID with an SSID is a process in TIDE that permanently associates a student’s English Language Proficiency Assessment Screener score with their SSID. Whether or not to perform this merge is a district decision. You can find a short explanation of merging in the [ELPA Screener Administration Manual](#), or a more complete Q&A in [this document](#).
