### Updates for 2018-19

We hope that you have hit the ground running and that school is going swimmingly thus far. We wanted to provide you with updates in several areas in which our assessments have changed since last year: 1) High school assessment and the 66% instructional day requirement; 2) Oregon Statewide Assessment System (OSAS) Nomenclature; 3) OSAS Portal Changes; and 4) Science Assessment Reminders and Changes.

## High School Assessment/Instructional Day Requirement Removed

ODE convened multiple stakeholder panels to review the possibility of switching to a nationally-recognized college entrance examination, such as ACT or SAT, for our high school accountability assessments. The complete results of that stakeholder engagement process were published in the [High School Assessment Options Report](#). ODE announced that we would not be switching to a nationally-recognized college entrance examination in an [Executive Memorandum 001-2018-19](#) published on July 11, 2018, due to stakeholder concerns regarding equity, accessibility, alignment, statutory and regulatory compliance, and cost. In an effort to support test scheduling flexibility for high school students who plan to take multiple assessments in the 11<sup>th</sup> Grade, such as ACT, SAT, IB, AP, and our statewide assessments, ODE changed our 66% instructional day requirement for high school students. We announced this change in the [August 23, 2018 A&A Update](#). This policy change goes into effect this year, 2018-19, and is exclusively extended to high school students (the 66% instructional day requirement is maintained for grades 3-8).

Please contact Dan Farley, Director of Assessment, at [dan.farley@ode.state.or.us](mailto:dan.farley@ode.state.or.us) or 503-947-5721 if you have any questions about the high school assessment.

## Oregon Statewide Assessment System (OSAS) Nomenclature

While we remain strong partners with our Smarter Balanced Assessment Consortia, the Next Generation Science Standards Collaborative, and the ELPA21 Consortium, our statewide assessments are customized for Oregon. ODE defines the blueprints that our assessments adhere to and how our assessments are administered. Oregon teachers are involved in all possible aspects of test development, as well, including item development, item reviews, scoring rubric validation, and validation studies. In short, our assessment system is “Oregonized” in order to meet the needs and values of our stakeholders. Related to this understanding, we will not be using vendor labels in our discussions about the statewide assessments in our technical documentation or discussions about our assessments. We’re also at the end of our use of our historical Oregon Assessment of Knowledge and Skills (OAKS) assessments. Science is a new assessment, and Social Sciences is transitioning to a performance-assessment-based system in 2019-20. You will no longer see our assessments referenced with an OAKS label for this reason. Our regulations refer to our statewide assessment system as just that, Oregon’s Statewide Assessment System. We’ll be using that general descriptor and the OSAS abbreviation moving forward.

Please contact Dan Farley, Director of Assessment, at [dan.farley@ode.state.or.us](mailto:dan.farley@ode.state.or.us) or 503-947-5721 if you have any questions about these changes.

## OSAS Portal Changes

Our online testing portal will also be named the OSAS Portal, though the web address for 2018-19 will remain oakspportal.org. Expect the portal web address to change in 2019-20. As originally announced in the [A&A Update on July 26, 2018](#), you’ll notice that the portal has been redesigned to ensure that it is more visually accessible to users. However, the content and locations that you have become accustomed to remain the same. While the look is better, you should not have to go searching to find information that you’ve become accustomed to finding in the portal system. One aspect that is new and requires some explanation is the Smarter Balanced Interim/Benchmark Pilot or Purchase card (see screenshot below).

Originally announced in the [May 3, 2018 A&A Update](#), Smarter Balanced made their interim/benchmark assessment system available for district purchase for 2018-19. In addition, there are three schools participating in a small-scale pilot of the system in Oregon this year. If your district has not purchased the system and is not involved in the pilot, you are encouraged to let your test administrators know that they will not have access to these resources even though the card will show on their home page.

Please contact Dan Farley, Director of Assessment, at [dan.farley@ode.state.or.us](mailto:dan.farley@ode.state.or.us) or 503-947-5721 if you have any questions about the portal.

## Comparison Group Report for 2017-18

*Socioeconomic status (SES)* Ranks and Comparison Groups for the 2017-18 Oregon Statewide Assessment results for English language arts and mathematics (grades 3, 4, 5, 6, 7, 8, and 11), and science (grades 5, 8, and 11) are now available on the [Assessment Results](#) webpage (in the District and School section).

Schools are listed by grade and SES rank with their percentage of students who met or exceeded the standard and their comparison group percent of students who met or exceeded the standard. Each subject area is contained in a separate tab in the spreadsheet.

A composite picture of a school's *socioeconomic status* is created based on a weighted combination of the percent of students eligible for free or reduced price lunch, percent of students in an ESL program, student mobility rate, and student not chronically absent rate.

A school's *comparison group* consists of the cluster of schools ranked immediately above and below that school's location on the SES index (10 percent above and 10 percent below the particular school). For schools ranked in the upper or lower 10 percent on the SES index, their comparison group consists of the upper or lower 20 percent of schools.

## QUESTIONS AND ANSWERS

### Answers to Common Questions from the Field

**QUESTION:** What do I do when a student scores Proficiency Not Determined (0-0-0-0) on the ELPA Screener?

**ANSWER:** Any domain with a score of 0 (Proficiency Not Determined) is treated as if it scored a 1. Therefore, a student with a scoring profile of 0-0-0-0 should be identified as eligible for ELD services. In addition, the district should report that student as having scored 1-1-1-1 on the ELPA Screener.
