

May 8, 2019 DTC Webinar Topic submission

General

Q: When the 2019-20 annual notice will be available?

- ODE plans to have the annual notice for statewide summative tests available on ODE's [Test Administration webpage](#) the week of May 13th.

ELPA

Q: In a ROAC call a couple months ago, Dan Farley said ODE was working with AIR to make sure the IDs showed up in the downloadable report for the ELPA screener. What's the progress on that?

- Adding the district/local ID to the ISR for the ELPA Screener was implemented before 3/19/19. If this question is asking about another ID or a different report, I will need more detail.

Q: I just heard that the ELPA window may be extended from November through April? Is this official? If so, how does this impact training? If I remember correctly, the DTC training isn't even until November usually?

- Extension of the ELPA test window was mentioned as a possible consideration during a recent brainstorming session with the Assessment Advisory Committee. No official decision has been made. Any changes to the test window would be announced via ODE's customary communication channels (such as AA Update).
