

## Informal DTC Webinar: Q&A Session – April 12, 2017

### General Questions

Q: Where can I find the Kindergarten Assessment individual scores?

- Student-specific scores are available in the consolidated collections application located on the district site.

Q: During the English Language Arts CAT, if a student answers a question and the next question is a constructed response and it's time to pause, will the next session bring up the same constructed response or a different one since it has been viewed?

- The student would need to interact within the answer space for the system to register a response and move onto the next question. If the student typed anything into that box it will register that as the answer and move onto the next question. This also occurs if the student enters in an answer and then deletes it before they exit out of the test. Once a student enters anything into that box they should complete their response before pausing for the day.

Q: On the application for the K-3 formative assessment, does it explain what all of requirements will be?

- Yes, this information is located on the [application](#). If you have any questions that are not answered in this document, please contact Holly Dalton at [holly.dalton@state.or.us](mailto:holly.dalton@state.or.us) or 503-947-5927.

### ELPA21

Q: When will ELPA21 scores be available in Assessment Warehouse Extract (AWE)?

- The first batch of ELPA21 scores will be available on Thursday April 13, 2017.

Q: Is the performance level in the ELPA21 AWE download correct?

- The proficiency level is correct. The SRC scores are not being downloaded correctly.
