About the Oregon Department of Education

- The Oregon Department of Education works in partnership with school districts, education service districts and community partners to foster equity and excellence for every learner;
- Together, we serve over 547,424* K-12 students and support 89,249* school employees, including teachers, administrators and classified staff;
- We believe every student should have access to a high-quality, well-rounded learning experience; and
- We work to ensure every student in Oregon graduates with a plan for their future.

*Numbers represent 2023-24.

What is the SEED Survey?

- An annual survey offered to public school students in grades 3-11 in Oregon
- Asks students about their school experiences
- Takes 10 - 20 minutes
- Districts in Oregon are required to make the survey available (ORS 329.078)
- Parents and students can decline to participate in the survey

6th Grade Language Arts

Education leaders in Oregon would like to know more about your school year. Your answers will help schools in Oregon.

Your answers will be private. In most cases, your school, parent, or guardian will not see your answers.

Read each question carefully. Choose the answers that are true for you. There are no right or wrong answers. If you cannot find the perfect answer, it is okay to pick the best one. You can skip any question.

Use the tools in the survey to help you. If you have questions, ask your teacher.

Please select one of the following, then click Next:

I will take this survey. Go to the first question.
 I will not take this survey. Go to the submit page.

The header includes the Oregon logo and navigation links: Students & Families, Educator Resources, Schools & Districts, Learning Options, Data & Policies, and About Us. A search bar is visible with the text "Survey Items". Below the search bar, the page title is "SEED Survey Results and Specifications". A paragraph of text states: "The following section offers information about the results of the SEED Survey. Results are shared via annual reports, data files, and additional publications (e.g., research briefs)." Below this text is a list titled "SEED Survey Results and Specifications" with a close button. The list is organized by school year and includes links to various data files and reports. The 2024-2025 section is highlighted with an orange border. The 2024-2025 items are: State Level SEED Survey Response Summary Data (posted 9/30/2025), State Level Alternate SEED Survey Response Summary Data (posted 9/30/2025), State Level SEED Survey Domain Score Data (posted 9/30/2025), and District Level SEED Survey Domain Score Data (posted 9/30/2025). Other sections include 2023-2024, 2022-2023 (Pilot), 2021-2022 (Pilot), and 2020-2021 (Pilot), each with links to State Level SEED Survey Response Summary Data and State Level Alternate SEED Survey Response Summary Data. At the bottom, there is a section for "Survey Technical Specifications" with a link to "SEED Survey Data Suppression Rules".

3. Identify a question to develop a data exploration plan

Prompts to Explore

Is there a question in our district that data from the SEED Survey can clarify?

How shall the question (or questions) be framed?

Which SEED Survey data file (or files) are relevant for the question under exploration?

What filters should we deploy to reduce the data set down to a manageable size?

Are we filtering by grade? By domain? By item within a domain? By student group?

Are we seeking to compare two sets of data, such as comparing the perceptions of 5th graders and 6th graders around their access to learning resources?

Are we exploring trends across grades, such as how students at different grade levels experience a sense of belonging in their schools?

4. Prepare data files and explore the data

Steps for preparing data files

- Download files
- Filter files to narrow down the information to what you are interested in looking at
- Customize layout of the data file for readability
- Consider using a reflection protocol
