

Per U.S. Department of Education requirements, ODE implemented a desk monitoring process for district test administration.

1. Test administration monitoring will follow a **repeating five-year rotation** based on regional Education Service District (ESD) location.
2. Districts will be required to complete a self-assessment **once** every five years.
3. Table 1 below lists the districts by ESD. This monitoring is required once every five years, but **districts not in their monitoring year are encouraged to review and use the documentation for familiarity and continuous improvement.**
