It is the policy of the State Board of Education and a priority of the Oregon Department of Education that there will be no discrimination or harassment on the grounds of race, color, religion, sex, sexual orientation, national origin, age or disability in any educational programs, activities or employment. Persons having questions about equal opportunity and nondiscrimination should contact the Deputy Superintendent of Public Instruction with the Oregon Department of Education.

1.0 OVERVIEW

1.1 Oregon Statewide Assessment System

Thank you for participating in the Oregon Statewide Assessment System (OSAS). The information in this Test Administration Manual applies to the 2018-19 school year for the following assessments:

- The English Language Arts/Literacy (ELA) and Mathematics Assessments;
- The Science and Social Sciences Assessments;
- The English Language Proficiency Summative Assessment;
- The Oregon Extended Assessments in Mathematics, ELA, and Science; and,
- The Kindergarten Assessment

The Test Administration Manual outlines policies and procedures for all statewide assessments, as well as the NAEP and PSAT/NMSQT® assessments, to ensure both test reliability and validity from classroom to classroom, teacher to teacher, school to school, and district to district. It is designed to promote:

- Fair and equitable testing for each student
- Standardized test administration so that the testing environment is similar for all students
- Test security and student confidentiality practices
- Test validity and accuracy
- Efficiency to minimize the burden for students, teachers, and school and district test coordinators

Multiple measures should be used to monitor and help improve student achievement. Statewide test results may be used as one measure to provide students with feedback regarding the degree to which they have mastered the knowledge and skills described in the state content standards. Statewide test results also provide information to meet Federal and State reporting requirements and inform districts, schools, parents, and other citizens regarding the effectiveness of instructional programs. Further, students may use specified OSAS as evidence of their proficiency in the Essential Skills.

**Note: Essential Skills Assessment Administration** This Test Administration Manual contains the administration requirements and procedures for those statewide assessments that may be used by students as evidence of proficiency in the Essential Skills. Policies governing the Essential Skills graduation requirements and approved assessment options are contained in the Essential Skills and Local Performance Assessment Manual. The Essential Skills Manual is required reading for all District Test Coordinators.

With the exception of the Kindergarten Assessment and ELPA Screener, the OSAS assessments are summative assessments, which are assessments of learning generally carried out at the end of an instructional period. Summative assessments are typically used for program accountability and to assign achievement level scores to students. Summative assessments are not designed as diagnostic tools for student placement, or to inform daily instructional decision. Formative assessment practices are assessment procedures used while a student is still learning. Given the specific focus and purpose of summative assessments, the OSAS assessments can only be used as part of a collection of evidence regarding the academic needs of individual students.

This Test Administration Manual (TAM) is intended for staff who play a role in the administration of Oregon’s statewide assessments (District Test Coordinators, School Test Coordinators, and Test Administrators).
1.2 About our Test Developers and Online Delivery Vendor

The Smarter Balanced Assessment Consortium (SBAC) is a state-led consortium working to develop next-generation assessments aligned to the Common Core State Standards in English language arts (ELA)/literacy and mathematics that accurately measure student progress toward college- and career-readiness. For more information, visit the Smarter Balanced Assessment Consortium website. ODE engages SBAC to help develop our ELA and Mathematics assessments.

The English Language Proficiency Assessment for the 21st Century (ELPA21) Consortium is a group of states designing and developing an assessment system for English learners. The system is based on Oregon’s adopted English Language Proficiency Standards and addresses the language demands needed to reach college and career readiness. For more information, visit the ELPA21 Consortium website. ODE engages ELPA21 to help develop our English language proficiency assessments (summative and optional screener).

Oregon joined a collective of states via a memorandum of understanding in the development of our Next Generation Science Standards-aligned science assessments. This effort is organized by the American Institutes of Research (AIR). The states involved in the collective are sharing items and resources as we work toward our first NGSS-aligned operational science assessments in 2018-19.

AIR is contracted to deliver the assessments within the OSAS and provide support to stakeholders as they interact with our online test administration program, including the Test Information and Distribution Engine (TIDE), the Test Delivery System (TDS), and the Online Reporting System (ORS).

While ODE values the contributions of our test development and delivery vendors, using vendor names in association with our assessments might lead to an inappropriate impression that Oregon does not define our test blueprints and that Oregon teachers may not be involved in test development activities. ODE will not use vendors when we discuss our assessments moving forward, as our statewide assessments are Oregonized and Oregon teachers are involved wherever feasible in test development procedures, from item development to alignment studies.

1.3 Summary of Changes

The 2018-19 Test Administration Manual contains all final policies for the 2018-19 administration of the statewide assessment system. Below is a summary of changes compared to the 2017-18 Test Administration Manual:

- 2018-19 Kindergarten Assessment Training and DTC Training dates (Section 1.5)
- 2018-19 opt-out notice dates for the statewide summative assessments in Math and English Language Arts (Section 5.3)
- Added information about the 2018-19 OSAS Science Field Test and new Training Test (Sections 8.1 and 1.7)
- 2018-19 statewide test schedule (Appendix A)
- Updated timeline for exiting students from ELD services (Appendix B)
- Removed second opportunity for OSAS Online Science and Social Sciences (Section 8.1)
- 66% instructional requirement no longer required for high school students (Section 5.2)
- 20 minute pause rule no longer applicable to Science (Section 2, 6, and 8)
- Removed the requirement to securely destroy scratch paper after each test session for Science (Section 2.4, 8.1, and 8.4)
1.4 User Roles and Responsibilities

User roles and their responsibilities are provided in Table 1 below.

Table 1: User Roles in the Online Testing System

<table>
<thead>
<tr>
<th>User Role</th>
<th>Description</th>
</tr>
</thead>
</table>
| District Test Coordinator (DTC)    | DTCs are district personnel responsible for the overall administration of testing in a district. There may only be one recognized DTC per district at any given time. If the district determines that the current DTC is no longer able to fill this role, the district Superintendent must notify ODE and provide ODE with the name and contact information for a replacement or interim DTC within one business day of learning of the need for a replacement. A district might determine that the current DTC is unable to fill the role for a variety of reasons, including extended illness, conflict of interest, or staffing changes. Depending on the circumstances, the replacement may be either temporary or for the remainder of the school year. The role of DTC encompasses training School Test Coordinators (STCs) and Test Administrators (TAs) administering any statewide assessment. DTCs are responsible for the following:  
  • Managing all aspects of testing. DTCs manage our ELPA in conjunction with the Title III Directors. DTCs manage the Braille administration in conjunction with the Itinerant Teachers for students with visual impairments. DTCs manage the Extended Assessment in conjunction with Special Education Directors.  
  • Managing all aspects of paper testing (Kindergarten and Extended Assessments) including ordering, receiving, distributing, inventorying, and returning materials, as well as submitting student scores.  
  • Ensuring district, school, and staff compliance with the policies and procedures in the Test Administration Manual and any updates provided through the DTC listserv.  
  • Facilitating the adoption of local district policies as needed to ensure all aspects of test security.  
  • Adding STCs and TAs into TIDE;  
  • Coordinating with STCs to develop and implement school-level test schedules so that tests are administered in the required grade(s) and content area(s) for their schools; this includes coordination of school-level test windows.  
  • Ensuring that the STCs and TAs in their district are appropriately trained regarding test administration and security policies and procedures and managing Assurance of Test Security forms for all district personnel.  
  • Investigating any potential test irregularities or improprieties. DTCs also report all potential test improprieties to ODE. |
<p>| School Test Coordinator (STC)      | STCs are school personnel responsible for monitoring the testing process, TAs, and the handling of paper test materials within individual schools. STCs must ensure that all assessments are handled and administered in an environment that complies with the policies and procedures in the Test Administration Manual. An STC can be a principal, vice principal, technology coordinator, counselor, or other staff member. If possible, an STC should be a person with |</p>
<table>
<thead>
<tr>
<th>User Role</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>non-instructional or limited instructional duties so that they can coordinate and monitor testing activity in the school.</strong> STCs are accountable for ensuring that testing in their school is conducted in accordance with the test security and other policies and procedures described in the Test Administration Manual. STCs are responsible for:</td>
<td></td>
</tr>
<tr>
<td>• Identifying TAs and ensuring that they are properly trained.</td>
<td></td>
</tr>
<tr>
<td>• Coordinating with TAs so that they administer tests in the appropriate content areas for their school.</td>
<td></td>
</tr>
<tr>
<td>• Creating or approving testing schedules and procedures for the school (consistent with district and state policies).</td>
<td></td>
</tr>
<tr>
<td>• Working with technology staff to ensure that necessary secure browsers are installed and any other technical issues are resolved.</td>
<td></td>
</tr>
<tr>
<td>• Monitoring testing progress during the testing window and ensuring that all students participate, as appropriate.</td>
<td></td>
</tr>
<tr>
<td>• Addressing testing issues, as needed.</td>
<td></td>
</tr>
<tr>
<td>• Reporting all potential test irregularities and improprieties to their DTC.</td>
<td></td>
</tr>
</tbody>
</table>
| **Test Administrator (TA)** TAs are district or school personnel, substitute teachers, or volunteers responsible for administering the statewide assessments in a secure manner in compliance with the policies and procedures in the Test Administration Manual. TAs can set up test sessions for online tests and administer tests in their schools. | TAs are district or school personnel, substitute teachers, or volunteers responsible for administering the statewide assessments in a secure manner in compliance with the policies and procedures in the Test Administration Manual. TAs can set up test sessions for online tests and administer tests in their schools.  

- Substitutes and volunteers are not prohibited from the TA role; however, districts using substitutes or volunteers to administer a statewide assessment must ensure that they first receive training as described in Section 1.5 Training Requirements of this manual. In addition, the district must establish policies and procedures to address test improprieties initiated by substitutes or volunteers.  

- Staff funded solely out of Title I-A may not administer statewide assessments because it is considered supplanting. Supplanting occurs if a district uses federal funds to provide services that the district is required to make available under other federal, state, or local laws. Since administering state assessments is required under state law, a teacher solely paid out of Title I-A funds cannot administer these tests. State assessments need to occur during a student’s core academic instructional time, not during their supplemental/intervention time. An allowable strategy that districts may follow to enable staff who are otherwise funded by Title I-A to administer state tests would be to pay for the portion of the teacher’s salary dedicated to testing out of general funds rather than Title I-A funds.  

- Districts must avoid having a TA administer a statewide assessment to a relative or other student with whom the TA shares a personal tie. In cases where the only available TA is related to or otherwise shares a personal tie with a student, the district must notify their Regional ESD Partner of the relationship before the TA administers the test to the student.  

TAs administer Oregon’s statewide assessments. STCs should identify school personnel to act as TAs. TAs are responsible for:  

- Completing test administration training (see Section 1.5 Training Requirements) and reviewing all policy and administration documents prior to administering any statewide assessments.  

- Viewing student information prior to testing to ensure the right student is getting the right test with the correct supports.  

- Administering the statewide assessments. |
<table>

</thead>
<tbody>
<tr>
<td>Regional ESD Partner</td>
<td>Regional ESD Partners are regional system administrators who provide help desk services for assessment and data collection questions, as well as liaisons with ODE and with ODE’s testing vendors. After contacting your STC and DTC, your Regional ESD Partner should be your next contact for all assessment and accountability related support, including questions regarding test administration, test ordering, test record management, data collection, federal accountability, and Oregon Report Cards. Before contacting your Regional ESD Partner, please have the following information available: • State-provided institution ID Number and student SSID number (if applicable) • DTC’s name and contact information • District Technology Support’s name and contact information Regional ESD Partner contact information.</td>
</tr>
</tbody>
</table>

**District Responsibility for Enforcing Test Administration Policies**

*Note:* Districts must enforce assessment policies for public charter schools and alternative education programs. Under Section 2 of OAR 581-022-2100: Administration of State Tests, school districts must enforce the assessment policies described in that rule for all students enrolled in a school operated by the district or enrolled in a public charter school that is located within the boundaries of the school district. The resident school district must enforce assessment policies for any of its students enrolled in an alternative education program.

OAR 581-022-2100: Administration of State Tests establishes which district has default responsibility for enforcing test administration policies for students enrolled in public schools, public charter schools, and alternative education programs. Under certain circumstances, the default district may make arrangements with another district to delegate test administration responsibility for students attending a specific school or program. For instance, the resident district may arrange to delegate responsibility for students attending an alternative education program located in another district to the district where the alternative education program is located.

Delegating test administration responsibility for students may entail delegating responsibility for the following test administration duties: training TAs, providing students with access to the OSAS assessments, ordering and returning appropriate paper-based tests, ensuring a secure testing environment for students, and investigating test improprieties. Assigning embedded test settings for students remains the responsibility of the default (resident district). While the receiving district might oversee the decision-making process about which accessibility supports would be appropriate for the individual student, the receiving district must still coordinate with the resident district to assign all embedded settings in TIDE in advance of testing. In addition, responsibility for recommending an outcome for a student’s test in the case of a test impropriety will remain with the default district.

Districts entering into an agreement to delegate test administration responsibility to another district must complete the District Testing Responsibility Delegation Form. Both the delegating district and the district assuming responsibility must sign the form and keep a copy of the signed form on file at both district offices.
1.5 Training Requirements

Table 2 below summarizes the reading requirements by role.

<table>
<thead>
<tr>
<th>User Role</th>
<th>Description</th>
</tr>
</thead>
</table>
| District Test Coordinator (and District Level Users) | • Sections 1 - 14 of the Test Administration Manual  
• Appendices A – F of the Test Administration Manual  
• The Oregon Accessibility Manual (see OAM for role-specific reading requirements)  
• The Essential Skills and Local Performance Assessment Manual |
| School Test Coordinator | • Sections 1 - 12 of the Test Administration Manual  
• Appendices A – F of the Test Administration Manual  
• The Oregon Accessibility Manual (see OAM for role-specific reading requirements) |
| Test Administrator | • Sections 1 - 4 of the Test Administration Manual, plus Sections 6 – 12 depending on the specific assessments that the TA will administer  
• Appendix A of the Test Administration Manual  
• The Oregon Accessibility Manual (see OAM for role-specific reading requirements) |

In addition to the reading requirements in Table 2, the user guides identified in Table 8 below are also recommended reading for DTCs, STCs, and TAs to support them in their roles.

**District Test Coordinator Training**

DTCs must register annually with ODE by July 18, 2018 using the DTC Designation Form and participate in annual test security and administration training provided by ODE. DTCs who do not participate in annual test security and administration training will have their current access to the OSAS system revoked after the final ODE-facilitated webinar and may not receive important updates sent to the DTC listserv. For 2018-19, DTCs must:

1. Independently review the 2018-19 ODE-provided recorded training modules between October 1 and November 2, 2018;
2. Complete the ODE-provided training survey posted to the Assessment Training Materials webpage by November 2, 2018; and
3. Register for one of the required ODE-facilitated WebEx sessions listed in the schedule below.

DTCs must watch all of the ODE-provided training modules prior to completing the training survey. The purpose of the training survey is to check for comprehension of the test security and administration requirements and to provide DTCs with an opportunity to submit questions they would like addressed during the ODE-facilitated webinar sessions. The purpose of the required ODE-facilitated webinar sessions is to clear up misconceptions indicated in the training survey responses, address questions submitted through the training survey, and provide an opportunity for DTCs to ask additional questions and seek clarification. Table 3 below includes the 2018-19 schedule for the required ODE-facilitated WebEx sessions.

**Note:** Throughout the manual, each section contains a tab in the margin that identifies which user roles are responsible for reading that particular section. Sections with tabs indicating All Roles are required reading for DTCs, STCs, and all TAs. Sections with tabs indicating DTCs, STCs, and administering TAs are required reading for DTCs, STCs, and those TAs who will be administering the specific assessment discussed in that section.
ODE requires that all DTCs register for one of these scheduled ODE-facilitated Webinar sessions by October 12, 2018 using the GoToWebinar link here. DTCs who are unable to participate in one of these ODE-facilitated WebEx sessions must notify their regional ESD partner by November 1, 2018 and make arrangements to use one of the following make-up training options before November 13, 2018. These make-up training options are also available for interim or replacement DTCs appointed mid-year:

- **Regional ESD Partner Training**: ODE’s authorized Regional ESD Partner will provide one make-up training session as needed in December 2018 for incoming DTCs in cases where the outgoing DTC is not available to provide internal make-up training. To exercise this option, the district must notify its Regional ESD Partner by November 13, 2018.

- **Internal Training**: Districts may provide internal make-up training in cases where the outgoing DTC has received annual ODE-provided training for the current school year. The outgoing DTC must train the incoming DTC using the recorded training modules posted to the Assessment Training Materials webpage. To exercise this option, the district must notify its Regional ESD Partner, including the date and time when the internal training will occur.

### Training Requirement for District Level Users

In addition to District Test Coordinators (DTCs), the OSAS Online System provides district-level access and rights to TIDE, the Test Delivery System, and the Online Reporting System for locally designated District Level Users (DLUs). DTCs must locally ensure that all DLUs meet the same training requirements as DTCs and sign the DTC/DLU Assurance of Test Security Form because DLUs have access to the same parts of the system as DTCs (including the ability to set up test sessions and access confidential student information such as test settings and scores).

In addition, DTCs from all districts supporting Kindergarten programs in 2018-19 are also required to participate in a specialized Kindergarten Assessment Training. To satisfy the Kindergarten Assessment training requirement, DTCs must:

- Independently review the 2018-19 ODE-provided recorded training modules; and
- Register for one of the required ODE-facilitated Webinar sessions listed in the schedule below.

The Kindergarten Assessment Training will follow a train-the-trainer model, and the purpose of the required ODE-facilitated Webinar sessions is to check for comprehension of the Kindergarten Assessment administration requirements and to provide an opportunity for DTCs to ask questions and seek clarification. Table 4 below includes the 2018-19 schedule for the required ODE-provided Kindergarten Assessment Training. All trainings will be provided remotely via GoToWebinar.
Table 4: 2018-19 Schedule of ODE-Provided Kindergarten Assessment Trainings (Required Component of Annual DTC Training for districts supporting Kindergarten programs).

<table>
<thead>
<tr>
<th>Date</th>
<th>Time</th>
</tr>
</thead>
<tbody>
<tr>

</tr>
<tr>
<td>August 14, 2018</td>
<td>9:00 – 10:30a PDT</td>
</tr>
</tbody>
</table>

To register for the May training session, DTCs must use the GoToWebinar link [here](#) by May 18, 2018. To register for the August training session, DTCs must use the link above by August 10, 2018. DTCs who are unable to participate in one of these ODE-provided trainings must notify their Regional ESD Partner by August 9, 2018 and make arrangements for a make-up training to occur prior to their district’s Kindergarten Assessment testing window.

In addition ODE strongly recommends that all districts participate in at least one of the Kindergarten Assessment Data Collection trainings listed in Table 5 below.

Table 5: 2018-19 Schedule of ODE-Provided Kindergarten Assessment Data Collection Trainings (strongly recommended for all districts supporting Kindergarten programs).

<table>

</tr>
</tbody>
</table>

School Test Coordinator Training

STCs must receive annual training from the DTC on the test administration policies and procedures included in this Test Administration Manual and the Oregon Accessibility Manual. To ensure consistent and valid administration of the statewide assessments, districts must use the ODE-provided training modules posted to Assessment Training Materials webpage for the current school year when training STCs. While districts may include additional materials in their STC trainings, at a minimum the following modules are required for all STCs (see also Table 9):

- Module 1 – Test Coordinators
- Module 2 – Test Administrators
- Module 3 – Accessibility Supports
- Module 4 – Test Security
- Module 5 – ELA and Mathematics
- Module 6 – OSAS Online Science and Social Sciences
- Module 7 – ELPA Summative
- Module 8 – ELPA Screener

In addition to the modules, STC training must provide STCs with an opportunity to ask questions and receive clarification.

In addition, STCs from all schools supporting Kindergarten programs in 2018-19 are also required to participate in a specialized Kindergarten Assessment Training. Based on local district policy, STCs may participate directly in one of the ODE-provided trainings listed in Table 4 above. If the district does not arrange for its STCs to participate directly in the ODE-provided training, then the district must separately ensure that STCs are trained locally prior to administration of the Kindergarten Assessment.
Test Administrator Training

Any individual who will be interacting with students during administration of an Oregon Statewide Assessment is considered a TA and must receive annual training from either the DTC or STC on the test administration policies and procedures included in this Test Administration Manual and the Oregon Accessibility Manual. To ensure consistent and valid administration of the statewide assessments, districts must use the ODE-provided training modules posted to the Assessment Training Materials webpage for the current school year when training TAs. While districts may include additional materials in their TA trainings, at a minimum the following modules are required for all TAs (see also Table 9):

- Module 2 – Test Administrators
- Module 3 – Accessibility Supports
- Module 4 – Test Security
- Module 5 – ELA and Mathematics (required for TAs administering ELA or Mathematics assessments)
- Module 6 – Science and Social Sciences (required for TAs administering Science or Social Sciences assessments)
- Module 7 – ELPA Summative (required for TAs administering the ELPA Summative)
- Module 8 – ELPA Screener (required for TAs administering the ELPA Screener)

In addition to the modules, TA training must provide TAs with an opportunity to ask questions and receive clarification.

TAs who will administer either online assessments through the Braille Interface or the Oregon Extended Assessments must receive additional specialized training from ODE or its designee in addition to receiving the test administration and security training required for all TAs.

In addition, TAs who will administer the Kindergarten Assessment are required to participate in a specialized Kindergarten Assessment Training. Based on local district policy, TAs may participate directly in one of the ODE-provided trainings listed in Table 4 above. If the district does not arrange for its TAs to participate directly in the ODE-provided training, then the district must separately ensure that all Kindergarten Assessment TAs are trained locally prior to administering the Kindergarten Assessment. For Kindergarten teachers who will only administer the approaches to learning measure and will not administer the early literacy or early math measures, districts have the option to limit training to the following sections of the Kindergarten Assessment Training:

- Assessment Administration
- Administering Approaches to Learning (Child Behavior Rating Scale)

DTCs must also ensure that all TAs administering the Kindergarten Assessment read the required sections of the Test Administration Manual.

For tips on practices that districts can use to ensure that all TAs receive the required training, visit the Test Administration Resources webpage.
### 1.6 Frequently Used Terms

Table 6 defines terms used in the OSAS.

<table>
<thead>
<tr>
<th>Term</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Accommodation</td>
<td>Changes in procedures or materials that increase equitable access during the assessment. Assessment accommodations generate valid assessment results for students who need them; they allow these students to show what they know and can do. Note: accommodations are available only for students with documented Individualized Education Programs (IEPs) or Section 504 Plans. Accommodations do not compromise the construct, grade-level standard, or intended outcome of the assessment. See the Oregon Accessibility Manual for complete information.</td>
</tr>
<tr>
<td>Break</td>
<td>The number of items per session can be based on the student’s need. There is no limit on the number of breaks or the length of a break that a student might be given according to his or her unique needs. However, for some portions of the test, breaks of more than 20 minutes will prevent the student from returning to items already attempted by the student. For a performance task (PT), the student can break for any amount of time and still return to any previously answered item within the PT current segment only.</td>
</tr>
<tr>
<td>Computer Adaptive Test (CAT)</td>
<td>The ELA and Mathematics assessments are comprised of two components: a performance task (see definition) and computer adaptive items, such as Multiple Choice, Matching Tables, and Drag and Drop. Based on student responses, the computer program adjusts the difficulty of items throughout the computer adaptive segment of the assessment. By adapting to the student as the assessment is taking place, these assessments present an individually tailored set of items to each student and can quickly identify which skills students have mastered.</td>
</tr>
<tr>
<td>Consortium</td>
<td>Groups of states engaged in resource sharing via a consortium, such as Smarter Balanced Assessment or English Language Proficiency for the 21st Century.</td>
</tr>
<tr>
<td>Designated Supports</td>
<td>Access features of the assessment available for use by any student for whom the need has been indicated by an educator (or team of educators with parent/guardian and student). They are either provided as digitally delivered components within the test delivery system or by TAs. See the Oregon Accessibility Manual for complete information.</td>
</tr>
<tr>
<td>District Test Coordinator (DTC)</td>
<td>District personnel responsible for the overall administration of testing in a district. See Section 1.4 User Roles and Responsibilities for details.</td>
</tr>
<tr>
<td>Force Majeure</td>
<td>An extraordinary circumstance (e.g., a power outage or network disturbance lasting for more than one full school day) or act of nature (e.g., flooding, earthquake, volcano activity) that directly prevents a school from making reasonable attempts to adhere to the current year test schedule.</td>
</tr>
<tr>
<td>Full-write</td>
<td>A component of the ELA performance task that requires the student to develop an informative/explanatory, narrative, or opinion/argumentative multi-paragraph piece of writing for which the student engages the full writing process.</td>
</tr>
<tr>
<td>Invalidation</td>
<td>The act of omitting test results and student responses from the testing and accountability systems for a given testing opportunity for which the student may not retest. Invalidation is often the outcome for tests impacted by a test impropriety.</td>
</tr>
<tr>
<td>Term</td>
<td>Definition</td>
</tr>
<tr>
<td>-----------------------------</td>
<td>-------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Modification</td>
<td>Any change away from a standard administration that is not listed in the Oregon Accessibility Manual is considered a Modification. Any practice or procedure that compromises the intent of the assessment through a change in the achievement level, learning expectations, construct, grade-level standard, or measured outcome of the assessment that is not explicitly listed in the Oregon Accessibility Manual. See the Oregon Accessibility Manual for complete information.</td>
</tr>
<tr>
<td>Pause</td>
<td>A student or TA may pause any part of the test as needed. Depending on the section of the test, the consequences of a student’s pausing the test will differ. Pauses of more than 20 minutes in Science, Social Sciences, and the computer-adaptive testing (CAT) segment of the ELA and Mathematics tests will prevent the student from returning to items already attempted. For the ELA and Mathematics performance tasks and ELPA Summative the student can pause for any amount of time and still return to any previously answered item within the current segment only. More information on test pausing is available in Section 6.4 Pause Rules and Test Expirations.</td>
</tr>
<tr>
<td>Performance Task (PT)</td>
<td>The ELA and Mathematics assessments are comprised of two components: a performance task (PT), which is an individually administered, computer-generated task, and computer adaptive items (see definition). A PT is a required portion of both the ELA and Mathematics assessments that requires students to answer a set of complex questions that are centered on a common theme or problem.</td>
</tr>
<tr>
<td>Reset</td>
<td>Granted under very rare circumstances, resetting a test allows the student to restart the test.</td>
</tr>
<tr>
<td>School Test Coordinator (STC)</td>
<td>School personnel responsible for monitoring the testing process, TAs, and the handling of paper test materials within individual schools. See Section 1.4 User Roles and Responsibilities for details.</td>
</tr>
<tr>
<td>Secure Browser</td>
<td>A web browser that is downloaded and installed on a computer prior to a student’s beginning online testing. The browser is specifically to provide secure access to the online testing system and prevent students from accessing specific hardware and software functions (e.g., other browsers, screenshot programs) that are not allowed during testing.</td>
</tr>
<tr>
<td>Secure Student Identifier (SSID)</td>
<td>A secure, unique student identifier assigned to each student and used during the log-in process.</td>
</tr>
<tr>
<td>Segment</td>
<td>The ELA and Mathematics and ELPA Summative assessments are broken up into segments within the online testing system. Depending on the test, segments typically separate items from others if the eligible tools are different (i.e., the mathematics test may have two segments, one segment which allows calculator use and another segment which does not). When a student completes a segment of the test, a message that indicates that once that segment is submitted it is no longer possible to return to that segment will be shown</td>
</tr>
<tr>
<td>Session</td>
<td>A timeframe in which students actively test. Additional information on session recommendations is in Section 5.1 Testing Time and Recommended Order of Administration.</td>
</tr>
<tr>
<td>Test Administrator (TA)</td>
<td>District or school personnel, substitute teachers, or volunteers responsible for administering the OSAS assessments in a secure manner in compliance with the policies and procedures in the Test Administration Manual. See Section 1.4 User Roles and Responsibilities for details.</td>
</tr>
<tr>
<td>Test Impropriety</td>
<td>Adult or student behaviors prohibited during test administration because they give students an unfair advantage or otherwise compromise the security or validity of the test</td>
</tr>
<tr>
<td>Term</td>
<td>Definition</td>
</tr>
<tr>
<td>-------------------------------------------</td>
<td>------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>administration</td>
<td>For specific details on how to proceed when an impropriety has occurred, please refer to Section 3.6 Reporting Test Improprieties.</td>
</tr>
<tr>
<td>Test Information Distribution Engine (TIDE)</td>
<td>The User Management System is used to manage district- and school-level users, update student settings, monitor test progress, manage local test window(s), and order Kindergarten Assessments.</td>
</tr>
<tr>
<td>Test Irregularity</td>
<td>An unusual circumstance that impacts an individual or group of students who are testing and may potentially affect student performance on the test or interpretation of those scores. For specific details on how to proceed when an irregularity has occurred, please refer to Section 3.6 Reporting Test Improprieties.</td>
</tr>
<tr>
<td>Universal Tools</td>
<td>Access features of the assessment that are either provided as digitally delivered components of the test delivery system or separate from it. Universal tools are available to all students based on student preference and selection. See the Oregon Accessibility Manual for complete information.</td>
</tr>
</tbody>
</table>

1.7 Resources

The Test Administration Manual is complemented by a variety of other resources listed in Table 7 (manuals), Table 8 (user guides), Table 9 (online training modules), and Table 10 (other resources).

### Table 7: Manuals

<table>
<thead>
<tr>
<th>Resource</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Oregon Accessibility Manual</td>
<td>Describes the universal tools, designated supports, and accommodations available for Oregon’s statewide assessments.</td>
</tr>
<tr>
<td>Essential Skills and Local Performance Assessment Manual</td>
<td>Describes the policies and assessment options governing the Essential Skills graduation requirement and the local performance assessment requirement at grades 3 – 8 and high school.</td>
</tr>
<tr>
<td>Best Practices Guide for Administering Oregon’s Statewide Assessments</td>
<td>Includes guidance around appropriately administering the statewide assessments.</td>
</tr>
<tr>
<td>Extended Assessment Manual</td>
<td>Provides a general overview of the Oregon Extended Assessments, including a description of its architecture (tablet &amp; paper/pencil), an overview of general administration and scoring procedures, and materials preparation tables (for the paper/pencil version).</td>
</tr>
</tbody>
</table>

### Table 8: User Guides

<table>
<thead>
<tr>
<th>Resource</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Test Administrator User Guide</td>
<td>The TA User Guide is designed to familiarize Test Administrators with the Test Delivery System. It provides information about general testing rules and policies and an overview of the student and TA Interfaces. Appendices provide supplemental information about the secure browsers.</td>
</tr>
</tbody>
</table>
The ORS User Guide provides district- and school-level personnel with step-by-step instructions on how to view and understand the various reports available in the Online Reporting System. The Online Reporting System provides two major types of reports: Score Reports and Test Management Center reports. Score Reports allow authorized users to view institution, personnel, roster, and individual student reports for a selected subject and assessment and break down data by category. Longitudinal data is also available for ascertaining trends in testing. Test Management Center reports allow authorized users to determine the percentage of students who have completed testing for a given subject and grade. In addition to viewing score reports, authorized users can also manage rosters.

Note: The score data in the Online Reporting System are not the official source of data. The only source for official scores is ODE's student-centered staging application. Thus, the score data from the OSAS Online Reporting System should be considered preliminary information.

The TIDE User Guide allows authorized state, district, and school personnel to manage user and student information for the online assessments. This user guide is organized based on the tasks available in TIDE.

This manual provides system administrators with information, tools, and recommended configuration details to help districts and/or schools prepare their networks for operational testing.

This manual provides system administrators and other school technology staff with instructions for installing the secure browsers on computers and tablets running a supported operating system. This manual is organized by operating system.

This manual is for both system administrators and test administrators. It provides a comprehensive overview of the hardware and software requirements for computers that will be used by students who have the Braille testing accommodation. Information on how to print test material is included. This manual also includes a quick guide to administering a test session and the required test settings for students taking a test with Braille. A section on common JAWS commands for students is included.

Table 9: Online Training Modules

<table>
<thead>
<tr>

2.0 TEST SECURITY

The security of assessment instruments and the confidentiality of student information are vital to maintaining the validity, reliability, and fairness of the results.

With the exception of the Kindergarten Assessment, all test items and test materials are secure and must be appropriately handled. Secure handling protects the integrity, validity, and confidentiality of assessment items, prompts, and student information. Failure to honor security severely jeopardizes student information and puts the operational test at risk.

2.1 Testing Requirements to Produce Valid Test Results

ODE sets requirements for secure and valid testing in order to ensure that each Oregon student has a fair opportunity to demonstrate his or her abilities and school districts are fairly rated for state and federal accountability. Requirements include:

- All OSAS assessments must be administered and supervised at all times by a trained TA.
- Prior to administering any assessment other than the Kindergarten Assessment, each TA must receive security training consistent with the requirements described in Section 1.5 Training Requirements and have a signed Test Administrator Assurance of Test Security form (available through ODE’s Assessment Administration webpage) on file at the District Office, valid for the current school year (see Appendix D: Assurance of Test Security Forms). TAs must renew this form annually upon completion of test administration and security training. All TAs must also satisfy the reading requirements described in Section 1.5 Training Requirements. Note: any individual who will be interacting with students during testing is considered a TA.
- Prior to administering the Kindergarten Assessment or handling confidential Kindergarten Assessment student responses must have a signed Kindergarten Assessment Assurance form (available through ODE’s Assessment Administration webpage) on file at the District Office, valid for the current school year (see Appendix D: Assurance of Test Security Forms). Kindergarten Assessment TAs and other authorized staff handling confidential Kindergarten Assessment student responses must renew this form annually. All TAs must also satisfy the test administration training and reading requirements described in Section 1.5 Training Requirements. Note: any individual who will be interacting with students during administration of the Kindergarten Assessment is considered a TA.
- STCs and DTCs must receive test administration and security training consistent with the requirements described in Section 1.5 Training Requirements and have a signed STC or DTC Assurance of Test Security form (available through ODE’s Assessment Administration webpage) on file at the District Office, valid for the current school year (see Appendix D: Assurance of Test Security Forms). STCs and DTCs must renew this form annually upon completion of training. All STCs and DTCs must also satisfy the reading requirements described in Section 1.5 Training Requirements.
- Any person (office staff, computer lab support staff, etc.) who has access to or participates in the handling of secure test materials but who does NOT interact with students during administration of the test must sign a Non-Administrator Assurance of Test Security form (available through ODE’s Assessment Administration webpage) prior to gaining access to secure test materials. This signed form must be kept on file at the District Office, valid for the current school year (see Appendix D: Assurance of Test Security Forms). Parents or guardians who make prior arrangements with the district to observe the testing environment must also sign this form. Even after signing this form, however, the parent or guardian must be seated far enough from students to prevent distraction or other interference with the test administration. If practicable, it is preferable to allow the parent or guardian to watch the test
through an observation window rather than having the parent or guardian present in the test environment.

**Access to the Secure Test Environment.** Under no circumstances may districts provide unauthorized individuals, including media, access to the secure test environment or secure test materials. Doing so constitutes a significant security breach and must be reported immediately.

In addition, ODE has identified the following practices as standard testing conditions available for all students:

- Dividing testing into several testing events, including providing students with extended time or frequent breaks as needed.
- Reading or rereading student directions to students. The verbatim student directions are provided in Section 7: Administering ELA and Mathematics Assessments, Section 8: Administering Science and Social Sciences, and Section 9: Administering ELPA Summative. The student directions for the Kindergarten Assessment and the Extended Assessments are provided with the assessment training materials.

### 2.2 Security of the Test Environment

The test environment refers to all aspects of the testing situation while students are testing. The test environment includes what a student can see, hear, or access (including via technology). A violation of the security of the test environment may result in a test impropriety. Table 11 describes security requirements for the test environment during various stages of testing.

**Table 11: Requirements of the Test Environment**

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>BEFORE TESTING</strong></td>
<td></td>
</tr>
<tr>
<td>Instructional materials removed or covered</td>
<td>Instructional materials must be removed or covered, including but not limited to information that might assist students in answering questions that is displayed on bulletin boards, chalkboards or dry-erase boards, or on charts (e.g., wall charts that contain literary definitions, maps, mathematics formulas, etc.).</td>
</tr>
<tr>
<td>Student seating</td>
<td>Students must be seated so there is enough space between them to minimize opportunities to look at each other’s work, or they should be provided with table-top partitions or other visual barriers.</td>
</tr>
<tr>
<td>Signage</td>
<td>If helpful, place a “TESTING—DO NOT DISTURB” sign on the door or post signs in halls and entrances rerouting hallway traffic in order to promote optimum testing conditions.</td>
</tr>
<tr>
<td><strong>DURING TESTING</strong></td>
<td></td>
</tr>
<tr>
<td>Quiet environment</td>
<td>Provide a quiet environment void of talking or other distractions that might interfere with a student’s ability to concentrate or might compromise the testing situation (e.g., if testing in a school library or computer lab, access should be restricted to testing students and authorized staff while testing is in progress).</td>
</tr>
<tr>
<td>Student supervision</td>
<td>Students are actively supervised by a trained TA (or TAs) and the students are free from access to unauthorized electronic devices that allow access to outside information, communication among students or with other individuals outside the test environment, or photographing or copying test content. This includes, but is not limited to, cell phones, personal digital assistants (PDAs), iPods, cameras, and electronic translation devices.</td>
</tr>
<tr>
<td>Requirement</td>
<td>Description</td>
</tr>
<tr>
<td>-------------------------------------------------</td>
<td>-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Access to allowable resources only</td>
<td>Students must only have access to and use of those accessibility supports identified in the Oregon Accessibility Manual that are permitted for each specific test (or portion of a test).</td>
</tr>
<tr>
<td>Access to assessments</td>
<td>Unauthorized staff or other adults must not be in the room during testing. Only students who are testing can view items. Students who are not being tested must not have access to secure testing materials, including test items. Based on the item type (i.e., performance tasks), trained TAs may also have limited exposure to items in the course of properly administering the assessments; however, even TAs and other trained staff may not actively review or analyze any items.</td>
</tr>
<tr>
<td>No answer key development</td>
<td>No form or type of answer key may be developed for test items.</td>
</tr>
<tr>
<td>Testing through secure browser</td>
<td>Administration of online assessments is permitted only through the Student Interface via a secure browser.</td>
</tr>
<tr>
<td><strong>DURING AND AFTER TESTING</strong></td>
<td></td>
</tr>
<tr>
<td>No access to responses</td>
<td>DTCs, STCs, TAs, and other staff are not permitted to review student responses.</td>
</tr>
<tr>
<td>No copies of test materials</td>
<td>Unless needed as a print-on-request or Braille accommodation, no copies of the test items, stimuli, reading passages, performance task materials, or writing prompts may be made or otherwise retained.</td>
</tr>
<tr>
<td>No access to digital, electronic, or manual devices</td>
<td>No digital, electronic, or manual device may be used to record or retain test items, reading passages, or writing prompts. Similarly, these materials must not be discussed with or released to anyone via any media, including fax, email, social media websites, etc.</td>
</tr>
<tr>
<td>No retaining, discussing, or releasing test materials</td>
<td>Descriptions of test items, stimuli, printed reading passages, or writing prompts must not be retained, discussed, or released to anyone.</td>
</tr>
<tr>
<td>No reviewing, discussing, or analyzing test materials</td>
<td>DTCs, STCs, TAs, and other staff may not review, discuss, or analyze test items, stimuli, reading passages, or writing prompts at any time, including before, during, or after testing. Student interaction during a test is limited to what is necessary for the purpose of a performance task.</td>
</tr>
<tr>
<td>All test materials must remain secure at all times</td>
<td>Printed materials, scratch paper, and documents with student information must be kept in a securely locked room or locked cabinet that can be opened only with a key or keycard by authorized staff.</td>
</tr>
<tr>
<td><strong>AFTER TESTING</strong></td>
<td></td>
</tr>
<tr>
<td>No test materials used for instruction</td>
<td>Test items, stimuli, reading passages, or writing prompts must not be used for instruction.</td>
</tr>
<tr>
<td>Destroy test materials securely</td>
<td>Printed test items/passages, including embossed braille printouts, and scratch paper must be collected and inventoried at the end of each test session and then immediately shredded. See section 3.2 Secure Handling of Printed Materials for details.</td>
</tr>
</tbody>
</table>
2.3 Online Testing Security Features

Test security is essential to ensuring the reliability and validity of student scores. Students use a secure browser to access online tests (ELA and Mathematics, Science and Social Sciences, ELPA Summative or Screener, and tablet ORExt). Download and installation information for the secure browser for ELA, Math, Science, and Social Science assessments through the OSAS Portal is provided online at http://oaksportal.org. The secure browser provides a secure environment for student testing by disabling the hot-keys, copy and screenshot capabilities, and access to the desktop (internet, email, and other files or programs installed on school machines). The secure browser will not display the IP address or other URL for the site. **Users cannot access other applications from within the secure browser, even if they know the keystroke sequences.** The “back” and “forward” browser options are not available, except as allowed in the testing environment as testing navigation tools. Students will not be able to print from the secure browsers, but they are able to submit printing requests to the TA if they are assigned print-on-request. During testing, the desktop is “locked down” and students must “Pause” (which saves the student’s test for another session) or answer all items and complete a test in order to exit the secure browser. Access to the ORExt tablet administration is provided by email subsequent to completion of the required training proficiency tests at or.k12test.com.

In the event of technical difficulties that require force quitting of the secure browser, TAs should contact their Regional ESD Partner for the force quit commands to close the secure browser.

Additional security is provided by a confirmation page presented immediately after student login, where students confirm their legal name, SSID, test, test language, and grade information prior to beginning a test. TAs may help younger students confirm this information.

After students log in, the TA must confirm and approve that these are the correct students to take the test and approve the students' login request. This is done through the session monitoring screen, which identifies every student who logs in to a testing session. The TA should review the student name and grade information to ensure that all students logging into a session have entered the correct SSID and that the information is correct in the system.

Finally, during testing, the student’s name and SSID are displayed in the upper left corner of the test screens, so the TA can confirm that students are logged in correctly during testing.

Student identity confirmation helps keep test items secure by ensuring that students see only the tests they are supposed to see. Only trained TAs who have signed the Assurance of Test Security form may be given access to the Test Information Distribution System (TIDE) of OSAS Online. Under no circumstance may students access TIDE or the Online Reporting System. Additional information about student login and session monitoring are provided in the TA User Guide.

2.4 Secure Handling of Printed Test Materials and Note Paper: Printing, Storage, and Disposal

With the exception of the Kindergarten Assessment, all of Oregon’s assessments are secure. To ensure the security of Oregon’s test items and student confidentiality, all printed testing materials (e.g., test session management reports, materials with individual student information, and student score reports) must be kept secure. If there are any questions about secure materials, contact your DTC. If the DTC is unsure of the answer, your question will be forwarded to your Regional ESD Partner.

**Printing Individual Test Items, Passages, or Stimuli**

Print-on-request must be set in TIDE prior to test administration. The decision to allow students to use print-on-request must be made on the basis of individual student need. See the Oregon Accessibility Manual for additional information about eligibility for print-on-request by content area.
Note: Assigning Print-on-Request

The printing of items/stimuli is intended for those rare instances where a student’s condition (e.g., photosensitive epilepsy) prevents him or her from accessing material online. Access to printed items/stimuli should not be assigned based solely on a student’s personal preference. The use of print-on-request should be minimal.

Once a student is approved to receive the printing of test items/stimuli, that student may send a print request to the TA during testing by clicking on the print icon on the screen. Before the TA approves the student’s request to print a test item/stimulus, the TA must ensure that the printer is on and is monitored by staff who have signed an Assurance of Test Security form.

Destruction of printed materials and note paper

Printed test items/stimuli, including embossed Braille printouts, must be collected and inventoried at the end of each test session and then immediately securely shredded. Except as specifically noted below, DO NOT keep printed test items/ stimuli for future test sessions. The following test materials must be securely shredded immediately following each test session:

- Scratch paper and all other paper handouts written on by students during testing;
- Any reports or other documents that contain personally identifiable student information; and
- Printed test items or stimuli.

Use of scratch paper

The exceptions to the requirement governing the immediate destruction of printed materials and scratch paper is when notes are used during ELPA Summative constructed response items, Science, and ELA and Mathematics PTs.

During the ELA PT, the notes on the embedded universal tool, Global Notes, are retained from Part 1 to Part 2 so that the student may return to the notes even though the student is not able to go back to specific items in Part 1. While the embedded Global Notes is the preferred mode for note taking during the ELA PT, students may use scratch paper to make notes or develop draft responses.

To maintain the security of scratch paper used for notes on ELPA Summative constructed response items, Science, and the ELA or Mathematics PTs, TAs must direct students to write their names (or some appropriate identifying information) on their scratch paper, and then collect and inventory the scratch paper at the end of each test session, as well as upon completion of the test. All scratch paper must be securely stored in between test sessions and then securely destroyed immediately upon the student’s completion of the test.

The retention of scratch paper is only allowed for ELPA Summative constructed response items, Science, ELA, and Mathematics PTs. Following the end of each test session, all scratch paper and graph paper must be collected, inventoried, and immediately shredded upon completion of the test to maintain test security.

2.5 Student Confidentiality

Individual student information and test results must not be made public. Student test materials and reports must not be exposed in such a manner that student names can be identified with student results, except to authorized individuals with an educational need to know. Individual student information and test results must not be made public unless:

- The district has explicitly identified state test scores and/or results as directory information consistent with FERPA guidelines;
- The release of the data does not expose the performance of students who did not meet the state’s achievement standard; and
• Parents are made aware in advance of the reward and potential consequences of any honor provided to students based on these data and are given an opportunity to decline the honor on behalf of their child.

Secure Student Identification Numbers (SSIDs) and other confidential personally identifiable student data must remain secure at all times and must not be associated with a student’s name in an unsecured place or manner. Displaying student SSIDs with student names on any non-secure materials compromises the security of confidential student information. Please note that student body cards distributed to students are not secure, and districts are prohibited from including student SSIDs on student body cards or other non-secure materials.

Only students may log in to their online testing. TAs or other staff or volunteers may not log in using a student’s SSID except when helping a student who is having problems logging in.

Keep student information confidential. SSIDs associated with student names or other personally identifiable student data must not be sent in an e-mail or fax. If necessary, phone your Regional ESD Partner (e.g., to report a wrong name associated with a SSID number or to troubleshoot Online tests). If information is to be sent via e-mail or fax, include only the SSID, not the student’s name. Tips on securely transmitting confidential student information are located through ODE’s Assessment Administration Resources webpage.

While test items must be kept secure, the Family Educational Rights and Privacy Act (FERPA) requires that parents have the opportunity to view their student’s most recent test booklets or a computer generated list of test items. If a parent requests to view the items on their student’s test, contact your DTC who will inform Holly Carter, Security Coordinator for Test Design and Administration (503-947-5739), at holly.carter@state.or.us. ODE will contact the parent to arrange a secure viewing of test items from their student’s test. For the Kindergarten Assessment and Extended Assessments (as well as writing assessments from previous years), the DTC should work directly with the parents to arrange a local viewing of their student’s test. For the Kindergarten Assessment, DTCs will arrange for parents to view a copy of the Student Booklet, the Assessor Booklets (A1 & A2), and Assessor Score sheet. To maintain the security of the Extended Assessment, districts must follow the Parent Test Review protocol and have the parent sign the Parent Test Review Meeting form posted to ODE’s Assessment Administration webpage. Districts must maintain a signed copy of the Parent Test Review Meeting form on file at the district office, subject to audit by ODE.

2.6 Sensitive Responses

Taking appropriate action with student responses or student actions that cause concern

Throughout the test administration process, student safety is always the primary consideration. During testing, TAs may encounter student actions that disrupt the assessment administration and may endanger the student or others. In addition, it is possible that TAs will encounter student responses to questions or notes on scratch paper that necessitate some action to ensure student safety.

Although TAs are not permitted to review student responses in the testing interface or students’ notes on scratch paper, a TA might unexpectedly encounter a student response that raises sufficient concern to warrant adult action. Topics that may require the TA to take action include, but are not limited to, student references to:

1. Suicide
2. Criminal activity
3. Alcohol or drug use
4. Extreme depression
5. Extreme violence
6. Sexual assault or physical abuse
7. Self-harm or intent to harm others
8. Neglect
9. Bullying

**Collecting information**

Prior to administration, each TA should have a thorough understanding of school, district, and state policies regarding documentation of student actions or concerning responses during a secure test event. The TA should document as much information as possible in accordance with school, district, and state policies.

**Escalating information**

Should the TA encounter a sensitive situation while supervising the test session, the TA should immediately escalate this concern in accordance with school, district, and state policies and procedures.
3.0 TEST IMPROPRIETIES AND IRREGULARITIES

Test security incidents, such as improprieties and irregularities, are behaviors prohibited during test administration, either because they give a student an unfair advantage or because they compromise the secure administration of the assessment. Whether intentional or by accident, failure to comply with security rules, either by staff or students, constitutes a test impropriety. TAs and STCs or other individuals who have witnessed, been informed of, or suspect the possibility of a test impropriety or irregularity that could potentially affect the integrity of the tests or the data must follow the steps outlined in Section 3.6 Reporting Test Improprieties and Irregularities below.

3.1 Adult-Initiated Test Improprieties

Adult-initiated test improprieties are adult behaviors prohibited during test administration because they give students an unfair advantage or otherwise compromise the State’s standard test administration. **TAs must not assist or interfere with student testing.** Adults must carefully adhere to all test administration procedures to avoid test improprieties. **This Test Administration Manual generally describes allowable actions. If the Manual does not explicitly allow an action, contact your DTC to determine whether such an action is allowable prior to administering an assessment.** Table 12 below provides examples of adult-initiated test improprieties that have been reported to ODE in previous school years. **This list is not intended to be comprehensive.**

**Table 12: Examples of Reported Adult-Initiated Test Improprieties**

<table>
<thead>
<tr>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Failing to ensure administration and supervision of an OSAS assessment by qualified, trained personnel at all times.</td>
</tr>
<tr>
<td>• Using a student’s SSID to log into an online test other than while helping a student to log in.</td>
</tr>
<tr>
<td>• Giving out log-in information (username and password), including to other authorized users.</td>
</tr>
<tr>
<td>• Sending a student’s name and SSID together in an email message.</td>
</tr>
<tr>
<td>• Giving students the wrong SSID during the log-in process, causing students to log in and test under another student’s SSID.</td>
</tr>
<tr>
<td>• Coaching or providing any other type of assistance to students that may affect their responses. This includes both verbal cues (e.g., interpreting, explaining, or paraphrasing the test items or prompts) and nonverbal cues (e.g., voice inflection, pointing, or nodding head) to the correct answer.</td>
</tr>
<tr>
<td>• Providing a student with access to supports not identified in the Oregon Accessibility Manual or providing an approved support in a manner that is inconsistent with the Oregon Accessibility Manual.</td>
</tr>
<tr>
<td>• Providing a student access to another person’s work/responses.</td>
</tr>
<tr>
<td>• Providing students with non-allowable materials or devices during test administration.</td>
</tr>
<tr>
<td>• Leading students through instructional strategies such as Think Aloud, asking students to point to the correct answer or otherwise identify the source of their answer, or requiring students to show their work.</td>
</tr>
<tr>
<td>• Modifying student responses or records at any time.</td>
</tr>
</tbody>
</table>
### Description

- Giving the student the wrong test, including administering an assessment in a manner that is inconsistent with a student’s Individualized Education Program (IEP), giving the wrong test format, or testing a student at the wrong grade level.

- Losing or otherwise failing to account for secure test materials (e.g., printed items or stimuli).

- Failing to securely store test materials, including allowing students to remove test items, reading passages, writing prompts, or scratch paper that was used during assessment from the secure test environment.

- Copying or otherwise retaining test items, stimuli, or writing prompts. This includes the use of photo-copiers or digital, electronic, or manual devices to record or communicate a test item without prior permission from ODE.

- Using secure test items, modified secure test items, stimuli, or writing prompts for instructional purposes.

- Developing answer keys to test items and using them for instructional purposes or to give students input on their progress and test performance.

- Giving the media writing prompts, modified test items, or stimuli or providing the media access to the secure test environment.

- Reviewing or discussing the content of test items, stimuli, or writing prompts, for any reason.

- Testing students outside of the school-level test window (where applicable).

### Special Consideration for the Kindergarten Assessment

The Kindergarten Assessment is a required assessment for all students entering kindergarten and is administered to students one-on-one, with the TA recording the student’s responses. Given the heightened level of required interaction between the student and the TA, TAs must be especially vigilant to avoid coaching students to protect the validity of the assessment results. To avoid coaching, the Assessor Booklet contains specific language that TAs may say to students who appear to be confused or struggling. For more information, see Section 10: Administering the Kindergarten Assessment.

### 3.2 Student-Initiated Test Improprieties

Student-initiated test improprieties are student behaviors prohibited during test administration because they can give students an unfair advantage or otherwise compromise the State’s standard test administration. Table 13 below provides examples of student-initiated test improprieties that have been reported to ODE in previous school years. **This list is not intended to be comprehensive.**

**Table 13: Examples of Reported Student-Initiated Test Improprieties**

<table>
<thead>
<tr>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Students cheating, including passing notes or giving help to other students during testing.</td>
</tr>
<tr>
<td>Students talking during testing.</td>
</tr>
<tr>
<td>Accessing or using electronic equipment (e.g., cell phones, PDAs, iPods, or electronic translators) during testing.</td>
</tr>
</tbody>
</table>
### 3.3 Responding to Student Questions During an Assessment

Helping students violates the integrity and validity of the test. If a student asks for help remind the student to “do your best” using the verbatim student directions provided in Sections 7 –9, but do not initiate assistance or give any indication that you can help. Use caution: check your verbal and nonverbal cues to ensure that the student does not receive any inappropriate coaching that may impact a student’s response to a test item.

**Student Comments.** TAs must not review test items for any reason. If a student is concerned about an item, TAs may direct the student to enter the concern in Online Comments. However, TAs must not initiate comments on test items. TAs may, however, immediately report system errors (e.g. technology issues) to their DTC.

Review the Oregon Accessibility Manual to understand what is allowable in case a student requests an alteration in how a test is being administered. In cases where a student’s IEP indicates that a designated support or accommodation should be used, review the student’s IEP as well as the Oregon Accessibility Manual.

### 3.4 Test Irregularities

Test irregularities are unusual circumstances that may potentially affect student performance on the test or interpretation of student scores. Often, test irregularities may impact a group of students who are testing. Examples of test irregularities include major disruptions to a test, such as:

- Administration of test accommodations to a group of students or to an entire class without an investigation of individual student need
- A fire drill, a school-wide power outage, or a force majeure (e.g. a natural disaster)

During an event such as a fire drill or other evacuation, safety is the top priority. If the TA can safely access the TA workstation before evacuating the test environment, then the TA should pause all tests before evacuating. If the TA cannot safely access the TA workstation, then the TA should evacuate and secure the test environment consistent with the school’s evacuation policy. Upon returning to the test environment, the TA should pause all tests before students return to their stations. This helps to ensure that students do not sit at the wrong computer by mistake.

### 3.5 Consequences of Test Impropieties and Irregularities

If test improprieties or irregularities occur during administration of an online test, ODE may invalidate impacted tests, although invalidation will not occur automatically. ODE will not invalidate a test until it verifies the facts associated with the alleged test impropriety or irregularity with the DTC. If a test is invalidated, the test results and student responses will be omitted from the testing, reporting, and accountability systems and the student will lose that test opportunity, regardless of whether the impropriety or irregularity was initiated by an adult or a student.
In extremely rare instances, rather than invalidating a test, ODE may reset a student’s online assessment at the request of the school district if ODE determines that a reset does not compromise the security or validity of the assessment. If an online test is reset, the student responses will be removed, and the student may retest. ODE may also reopen a test that has expired or that was submitted accidentally, allowing the student to resume the test opportunity. If an expired test is reopened, the test will reopen at the location at which the student stopped the assessment. The student will be able to review items within the current segment of the assessment but cannot return to previous segments. If a submitted test is reopened, the test will reopen at the last page of the test. The student can review items in the current segment but cannot return to previous segments. **Once a test has been scored, it is no longer eligible to be reset or reopened.** Table 14 summarizes the outcomes permitted under Oregon’s test security policies in the event of a test impropriety or irregularity.

### Table 14: Outcomes of Test Improprieties and Irregularities

<table>
<thead>
<tr>
<th>Type of Appeal</th>
<th>Description</th>
<th>Conditions for Use</th>
</tr>
</thead>
</table>
| INVALIDATION   | Invalidating a student’s test eliminates the test. The test will not be scored or counted for participation. | The State may invalidate any test if:  
- There is a test impropriety.  
- The test is administered in a manner inconsistent with the Test Administration Manual or the Oregon Accessibility Manual.  
- A student deliberately does not attempt to respond appropriately to items. |
| RESET          | Resetting a student’s test removes that test from the system and enables the student to start a new test. | The State may reset a test if:  
- A test irregularity occurs as the result of an error on the part of either ODE or one of its agents, including test vendors or helpdesk staff.  
- Any of the following settings were incorrectly set and the error was caught within the first five items presented to the student:  
  - American Sign Language (for ELA listening and Mathematics)  
  - Closed captioning (for ELA listening stimuli)  
  - Language (including stacked translations, translated glossaries, and Braille) |
| REOPEN         | Reopening a test allows a student to access a test that has already been submitted or has expired. | The State may reopen a test if:  
- A student is unable to complete a test due to a technological difficulty that results in the expiration of the test.  
- A student is unable to complete the test before it expires due to an unanticipated excused absence or unanticipated school closure.  
- A student starts an ELA or Mathematics PT unintentionally and the student is unable to complete the test before it expires  
- A student unintentionally submits a test before they completed it. |
| RESTORE        | Restoring a test returns a test from the Reset status to its prior status. | The State may only restore a test if a test was inadvertently or inappropriately reset. |
If a district fails to enter a student’s Kindergarten Assessment or Oregon Extended Assessment (ORExt) score by the applicable deadline identified in Appendix A: Test Schedule, ODE will not include the student’s score when calculating the district’s participation rate for accountability purposes.

In cases where a force majeure (including but not limited to power outages or network disturbances lasting for at least one full school day, floods, earthquakes, fires, or pandemics) occurs within three business days of the close of the testing window and prevents the district from meeting the deadline, districts may submit a force majeure exception request. Upon receipt of such a request, ODE may permit a one-day extension of the testing window or deadline to enter scores as applicable for each day of the force majeure, for up to five days. Districts must apply this extension starting on the first school day after normal operations resume. **Note: for an extremely severe force majeure that prevents districts from completing testing over an extended period of time (e.g., more than 3 weeks), ODE will work with the U.S. Department of Education and the impacted districts to ensure valid and reliable accountability calculations. This may include a requirement to test students in the following school year based on their prior grade of enrollment.**

Violations of test security are subject to the district’s disciplinary policy and the policy of the Teacher Standards and Practices Commission (TSPC) as appropriate. As a result, personnel associated with a test impropriety may be subject to disciplinary action as determined by the school district or TSPC.

**TSPC licensure could be jeopardized.** Breaches of security through the mishandling of test materials could result in disciplinary action by the Teacher Standards and Practices Commission (TSPC). In certain cases, security breaches could even jeopardize licensure for certified and administrative staff.

On any potential teacher or administrator violation, staff should work within district policy and the rules established by the TSPC when a test impropriety occurs. If the district determines that the test impropriety qualifies as gross neglect of duty, OAR 584-20-0041: Reporting Requirements requires that districts report to TSPC within 30 days the name of any educator who the district reasonably believes may have committed gross neglect of duty as described in OAR 584-20-0040 Grounds for Disciplinary Action. Section 4 of OAR 584-20-0040 defines gross neglect of duty as, “any serious and material inattention to or breach of professional responsibilities.” The determination of whether a test impropriety qualifies as gross neglect of duty is made by the district.

### 3.6 Reporting Test Improprieties and Irregularities

All potential test improprieties or irregularities must be immediately reported to the DTC, even if you are unsure of the exact situation. **When a test impropriety or irregularity involves a student test, the district must ensure that the student discontinues testing pending the DTC’s investigation.** The student must not resume testing until the district receives authorization from ODE. Continuing testing for a student before receiving authorization from ODE could result in tests that are invalidated and reduce opportunities available to the district and the student.

DTCs must submit a report to ODE for all potential test improprieties using the [online form](#) within one day of learning of the potential test impropriety. If an impropriety form is submitted by someone other than the DTC, ODE has protocols to forward on to the DTC to confirm that they are away and affirm the recommended outcome. Similarly, DTCs must use this online form to report all test irregularities that impact either test security or the validity of results. A step-by-step guide and presentation to assist DTCs with the online form and submission process are available through ODE’s [Assessment Training Materials](#) webpage. Based on the initial report, ODE may request further investigation by the DTC, in which case the DTC must provide results to ODE within 30 calendar days. In cases where a district might need to formally document a particular investigation, the DTC may request a formal letter of final determination from ODE. Otherwise, ODE will provide the DTC with an email report summarizing the ODE-approved outcome.
4.0 ACCESSIBILITY SUPPORTS

The Oregon Accessibility Manual provides information for classroom teachers, English development educators, special education teachers, and other educators to use in selecting and administering universal tools, designated supports, and accommodations for those students who need them; it is also intended for assessment staff and administrators who oversee the decisions that are made in instruction and assessment.

The Oregon Accessibility Manual applies to all students and emphasizes an individualized approach to the implementation of assessment practices for those students who have diverse needs and participate in large-scale content assessments. The Oregon Accessibility Manual focuses on universal tools, designated supports, and accommodations for the OSAS. At the same time, the Oregon Accessibility Manual supports important instructional decisions about accessibility and accommodations for students who participate in the OSAS. The Oregon Accessibility Manual recognizes the critical connection between accessibility and accommodations in instruction and accessibility and accommodations during assessment. Therefore, all accessibility supports a student receives on the statewide assessments are to mirror the supports currently being provided to that student in their classroom instruction and assessments.

Note: The Oregon Accessibility Manual, as well as the full list of universal tools, designated supports, and accommodations supported for all statewide assessments, can be found through ODE’s Assessment Administration webpage. Please be sure to review the Oregon Accessibility Manual thoroughly before test administration.

Oregon’s online statewide assessments contain embedded universal tools, designated supports, and accommodations; these are defined in Table 15. Embedded resources are those that are part of the computer administration system, whereas non-embedded resources are provided outside of that system. Oregon’s paper-based Kindergarten and ORExt also support non-embedded resources.

Table 15: Definitions for Universal Tools, Designated Supports, and Accommodations

<table>
<thead>
<tr>
<th>Type</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Universal Tools</td>
<td>Access features of the assessment that are either provided as digitally delivered components of the test administration system or separate from it. Universal tools are available to all students based on student preference and selection.</td>
</tr>
<tr>
<td>Designated Supports</td>
<td>Access features of the assessment available for use by any student for whom the need has been indicated by an educator (or team of educators working with the parent/guardian and student). They are either provided as digitally delivered components of the test administration system or separate from it.</td>
</tr>
<tr>
<td>Accommodation</td>
<td>Accommodations are changes in procedures or materials that increase equitable access during the assessment. Assessment accommodations generate valid assessment results for students who need them; they allow these students to show what they know and can do. Accommodations do not compromise the construct, grade-level standard, or intended outcome of the assessment. Note: accommodations are available only for students with documented Individualized Education Programs (IEPs) or Section 504 Plans.</td>
</tr>
</tbody>
</table>

For additional information about the availability of designated supports and accommodations, refer to the Oregon Accessibility Manual.
5.0 SCHEDULING TEST ADMINISTRATION

5.1 Testing Time and Recommended Order of Administration

Testing Time

Table 16 contains the estimated time it will take most students to complete each of Oregon’s online tests. The tablet administration for the ORExt takes approximately 1:00 per content area. This information is for scheduling purposes only, as the assessments are not timed.

Table 16: Estimated Testing Times for Online Tests

</tbody>
</table>
When developing a testing schedule, you may use the estimated testing times to calculate the number of days and the amount of time it will take to complete a test in each content area and grade level. These estimates do not account for any time needed to start computers, load secure browsers, and log in students. TAs should work with STCs to determine precise testing schedules.

**Duration and timing information for ELA and mathematics**

The scheduling/rules for each of these components is included in Table 17 and Table 18. Note that the duration, timing, break/pause rules, and session recommendations vary for each content area and component.

**Table 17: Assessment Sequence—ELA Assessment**

<td></td>
<td></td>
</tr>
</tbody>
</table>
| Breaks can be provided during the test sessions using the software’s pause feature. If the test is paused for more than 20 minutes, the student will not be able to go back to items on the previous screens. Recommendation: A single test session | | Students can take breaks during PT test sessions. Mathematics PT items are presented on a single screen. Following a break, the student will have access to the same items.
### Additional administration recommendations

- For the performance tasks, students may be best served by sequential, uninterrupted time that may exceed the time in a student’s schedule.

- Minimize the amount of time between beginning and completing each test within a content area.

### Important Reminders:

1. The number of items will vary on the CAT and PT portions of each student’s test.

2. The tests are not timed, so all the time estimates are approximate.

3. Students should be allowed extra time if they need it, but test administrators need to use their best professional judgment when allowing students extra time. Students should be actively engaged in responding productively to test questions.

4. The test can be spread out over multiple days as needed.

### 5.2 School-Level Test Windows

To ensure that testing occurs at the appropriate time in relation to student instruction, districts and schools are required to establish school-level test windows for the ELA, Mathematics, and Kindergarten assessments. Districts and schools may otherwise choose to develop school-level test windows to allocate resources toward testing. To manage testing resources, school-level test windows may be set for specific content areas and grade levels. Schools should coordinate with the DTC to establish the duration of the school-level test window based on the number of enrolled students the school projects will be eligible to test. The following criteria apply when setting school-level test windows:

- **ELA and Mathematics:** For Grades 3 – 8, school-level test windows **must not begin until at least sixty-six percent (66%) of a school’s annual instructional days have been completed** and must last for at least four calendar weeks. ODE may invalidate tests started before this instructional day threshold is met; to avoid inadvertently testing students before the start of the school-level test window, schools are strongly encouraged to use the school-level test window feature in TIDE to restrict student access to online tests until the start of the school-level test window. **(Note: New for 2018-19, there is no instructional day requirement for the high school assessment. Students in Grade 11, as well as students choosing to retest in Grade 12, may test at any time during the statewide test window.)**

- **Science and Social Sciences:** School-level test windows must last for at least four calendar weeks.

- **Kindergarten Assessment:** School-level test windows must begin no later than the first day of the district’s school year and must last for at least six calendar weeks. Districts may exempt any student enrolling in Kindergarten in the last three weeks of the school-imposed test window from participating in the Kindergarten Assessment.
Regardless of the test window a school establishes to complete testing, schools will be held accountable for ensuring that all students who are enrolled as of the first school day in May have tested. With the exception of students who are not tested due to a medical emergency, students who are enrolled on the first school day in May who are not tested will be counted as non-participants for accountability calculations. For ELPA Summative and the Extended Assessments, whose statewide test windows close before May 1, districts may use administration code 8 for students who enroll after the close of the statewide test window but who are enrolled on the first school day in May.

The Best Practices Guide for Administering OSAS provides guidance to help inform districts’ development of appropriate school-imposed test windows. In addition, ODE has developed a promising practices document (available through ODE’s Assessment Administration Resources webpage) with tips to assist schools in calculating their instructional day threshold and developing a school-level test window.

5.3 Opt-Outs and Parent Requests for Exemption from State Testing

Opting Out of Statewide Math and ELA Assessments

ORS 329.479 establishes a Student Assessment Bill of Rights permitting parents or adult students to annually opt-out of statewide summative assessments in English language arts and Mathematics. In addition, ORS 329.479 requires school districts and public charter schools to provide supervised study time for students who opt-out of testing. The bill also reiterates current Essential Skills policy and graduation requirements, in that a student who opts out of testing may not be denied a diploma if they are able to satisfy all other diploma requirements. Students who do opt-out of the ELA and Mathematics state tests, however, still need to meet the Essential Skills graduation requirement using another approved assessment option.

Opt-out Eligibility. ORS 329.479 confers a right to opt out of the math and ELA assessments on parents and adult students. It is a violation of both state and federal law for a local education agency, including school boards, district staff, or school staff, to opt a child out of testing on behalf of a parent or adult student.

Communication Protocols

Consistent with the requirements of ORS 329.479, the Oregon Department of Education (ODE) has developed an annual notice (available through ODE’s Assessment Administration webpage) that describes these assessments, identifies the timeframe when the assessment will most likely be administered, and identifies an adult student’s or parent’s right to excuse the student from testing. Districts and public charter schools must provide parents and adult students with the ODE-developed annual notice at the beginning of each school year. In addition, districts and public charter schools must provide parents and adult students with separate notice at least 30 days prior to administering the statewide summative assessments in Math and ELA using the ODE-provided 30-day notice and opt-out form (available through ODE’s Assessment Administration webpage). School districts and public charter schools must use the 30-day notice and opt-out form provided by ODE to
communicate with all parents about state testing requirements and their right to opt-out by December 9, 2018.

While districts may communicate with parents using existing communication protocols, including but not limited to fall registration materials, parent conferences, electronic media, or letters home, ODE encourages districts to account for the following considerations to ensure accurate, consistent communication across classrooms and schools within the district:

- Establishing a district policy around the administration of the statewide assessments required under both federal and state law, and communicating this policy to all district and school staff to ensure consistent understanding
- Communicating to all district and school staff about the purpose of the statewide assessments to ensure consistent understanding about the role these assessments play in systems accountability and ensuring equitable opportunities for all Oregon students
- Ensuring that the entire combined 30-day notice and opt-out form is provided to parents and adult students; providing only the opt-out form without the 30-day notice deprives parents and adult students with the context needed to make an informed decision about participation and violates state policy.
- In addition, ODE offers the following examples of appropriate and inappropriate communications regarding opt-out rights. What is critical in these communications is that parents are engaged in the communication and that non-adult students are not subjected to undue influence by educators or staff during working hours.

<table>
<thead>
<tr>
<th>Examples of Appropriate Communications</th>
<th>Examples of Inappropriate Communications</th>
</tr>
</thead>
<tbody>
<tr>
<td>Posting ODE’s Opt-Out form on district/school website</td>
<td>Making repeated announcements to non-adult students (e.g., over school intercom systems, assemblies) during working hours reminding students to pick up ODE’s Opt-Out form</td>
</tr>
<tr>
<td>Sending ODE’s Opt-Out form through Parent emails or a Parent newsletter</td>
<td>Initiating a discussion of ODE’s Opt-Out form or process with non-adult students during working hours</td>
</tr>
<tr>
<td>Making ODE’s Opt-Out form available during public meetings</td>
<td>Repeatedly reminding non-adult students to submit ODE’s Opt-Out form during working hours</td>
</tr>
<tr>
<td>Providing adult students with ODE’s Opt-Out form at the end of class</td>
<td>Encouraging students to submit ODE’s Opt-Out form during working hours</td>
</tr>
</tbody>
</table>

For additional information about implementing the requirements of ORS 329.479, please see Executive Numbered Memorandum 003-2015-16 – Exemption from Statewide Summative Tests.

Parent-Requested Exemptions for All Other Assessments

For all other statewide assessments (OSAS Online Science and Social Sciences, ELPA Summative, the Kindergarten Assessment, and the ORExt Science Assessment), parents may request that their student be exempted from state testing based on either disability or religion. OAR 581-022-1910 allows school districts to excuse students from a state required program or learning activity, including state testing, to accommodate a student’s disabilities or religious beliefs. In order for a
school district to excuse a student from testing under this rule, the student’s parent must submit a written request to the school district, listing the reasons for the request and proposing an alternative individualized learning activity for the student that meets the same goals that would be accomplished by participation in state testing. Appropriate school personnel must evaluate and approve the parent request.

When reviewing a parent’s request for exemption, school district personnel should first discuss the use of accommodations with the parent to determine whether the use of any appropriate accommodations during testing might address the parent’s concerns and allow the student to participate in testing.

**Note:** Distinguishing opt-outs from parent requests for exemption. The term “opt out” refers to the legislatively created process that applies specifically to the ELA and Math assessments. Parents or adult students may opt out of Math and ELA at their discretion by submitting the state-created opt-out form.

For all other assessments, OAR 581-022-1910 allows parents to request that their student be exempted from testing based on disability or religion. Unlike the opt-out process for Math and ELA, parent requests for exemption for all other tests must satisfy the following conditions:

- Be submitted in writing to the district (there is no standardized form)
- Include reasons for request (disability or religion)
- Propose an alternative learning activity for the student
- Is subject to district review and determination whether to approve

Please note that neither the opt-out nor the parent-requested exemption process precludes the federal and state requirements that hold districts accountable for testing all students. This means that students who do not test because of an opt-out or parent-requested exemption would be counted as non-participants in accountability calculations.

### 5.4 Providing for Students Who Are Not Testing

**Non-participants.** For all required assessments, students who are enrolled in school during the statewide test window who are not tested due to a parent-requested exemption must be counted as non-participants (see Appendix C: Accessing Student Scores Online for instructions on noting this in Student Centered Staging).

To the extent possible, districts should avoid having anyone in the test environment who is not actively involved in testing, including other students. When a district cannot avoid having non-testing students present in the test environment, the district should arrange the test environment to ensure that the following requirements for secure and valid testing are met:

- **A quiet environment, void of talking or other distractions that might interfere with a student’s ability to concentrate or compromise the test situation.** When setting up the test environment, the TA should only provide non-testing students with quiet activities that will not cause a distraction to students who are testing.

- **Test items observed only by the student taking the test.** To protect the security of the test items, access to the test environment should be controlled to prevent anyone other than the student who is testing from being able to see the test items. When students who are not testing are present in the test environment, districts should arrange the test environment so that non-testing students are separated from those who are testing. This ensures both that the non-testing students cannot view their classmates’ secure test items, and that testing
students cannot access any non-allowable resources that their non-testing classmates may be using.

ODE realizes that providing alternative activities for non-testing students can sometimes present a challenge for districts. The activity should not be related to the test being given. For example, students who finish early may work on assignments for unrelated subjects or read a book.
6.0 PLANNING FOR TEST ADMINISTRATION

Note: This section is required for all TAs administering an online assessment.

6.1 Establishing Appropriate Testing Conditions

STCs and TAs will need to work together to determine the most appropriate testing option(s) and testing environment based on factors such as the number of computers available, the number of students in each tested grade, and the estimated time needed to complete each test. Testing students in classroom-sized groups is preferable. Establishing classroom-sized groups reduces test fear and anxiety for the students and facilitates monitoring and control for the TA.

Test administration should be conducted in a room that does not crowd students. Good lighting, ventilation, and freedom from noise and interruptions are important factors to consider when selecting a site.

Prepare rooms for test administration following the requirements for a secure test environment described in Section 2 Test Security. As a reminder, information that is displayed on bulletin boards, chalkboards or dry-erase boards, or charts and that might be used by students to help answer questions must be removed or covered. This applies to rubrics, vocabulary charts, student work, posters, graphs, charts, etc. Cell phones or other electronic devices are not allowed to be used during testing (i.e., turned off and put away). It may be helpful to place a “TESTING—DO NOT DISTURB” sign on the door. It may also be helpful to post signs in halls and entrances rerouting hallway traffic, if necessary, in order to promote optimum testing conditions.

Appropriate seating arrangements must be used to discourage students from aiding one another. Students must be seated so that they cannot view the answers of others. To prevent confusion, arrangements for student seating must be completed prior to the test administration.

Establish procedures to maintain a quiet testing environment throughout the test session, recognizing that some students will finish more quickly than others. If students are allowed to leave the testing room when they finish, explain the procedures for leaving without disrupting others and where they are expected to report once they leave. If students are expected to remain in the testing room until the end of the session, instruct them on what activities they may do after they finish the test. Additional guidance on providing for students who are not testing is included in Section 5.4 Providing for Students Who Are Not Testing.

6.2 Preparing for Test Administration

To help preserve test security and ensure valid and reliable test results, TAs must adhere to the following procedures:

- Ensure that tests are only administered by personnel who have received training in test administration and have signed an Assurance of Test Security form for the current school year. (Remember, TAs administering tests using the Braille Interface must receive both district-provided test administration and security training and ODE-provided training specific to the Braille interface.)
- Review your notes from Test Administration training. Immediately contact your STC if you have not been trained this year.
- Review this Test Administration Manual, paying special attention to Sections 2 and 3, as well as Sections 6 - 12 for the applicable assessments you will administer.
• Review the Oregon Accessibility Manual, paying special attention to any designated supports or accommodations which your students will need.

• If you are administering an online test (ELA, Mathematics, Science and Social Sciences, or ELPA Summative), review the Test Administrator User Guide to ensure familiarity with both the TA and student interfaces of the online testing system.

• Locate and verify student information prior to testing online, including:
  o SSID
  o Student’s legal name
  o Student’s enrolled grade
  o Any embedded designated supports or accommodations to be assigned to the student in TIDE, including text to speech, language, print size, and print-on-request (see the Oregon Accessibility Manual)
  o Any non-embedded designated supports or accommodations to be administered to the student during the test, including read-aloud (see the Oregon Accessibility Manual)

  **IMPORTANT:** Any additions/modifications/deletions of students and changes to student test settings must be completed before the student can test. The update, once made, may take up to 24 hours to appear in the TA interface. Failure to correct test settings before testing could result in the student not being provided with the needed accommodations and/or designated supports at the time of testing. This is considered a testing irregularity.

• Before administering ELPA Summative, ensure that the student’s LEP flag is set to “yes” in TIDE. Students will not be able to access ELPA Summative until this step has been done by the district.

• Check headsets to ensure they are properly installed and functioning correctly and that all headset and computer updates have been installed.

• Examine the test environment for non-allowable resources. Only those resources identified in the Oregon Accessibility Manual as a universal tool, designated support, or accommodation may be available for student access during testing.

• Review the verbatim student directions found in Sections 7 – 9 prior to testing.

• Plan time for make-up testing for students who are absent for any portion of the regular testing period. Every effort must be made to ensure that all students have an opportunity to complete the assessments.

  **IMPORTANT:** When students move within the state, their data record must be updated at least 24 hours before the student begins testing in the new school or district. District personnel responsible for enrolling new students should be sure to confirm whether a new student already has an SSID before creating a new SSID. Failure to do so may result in multiple SSIDs being assigned to a student. Contact your Regional ESD Partner if you have questions.

### 6.3 Preparing Students for Testing

**Practice and Training Tests**

In preparation for testing, it is highly recommended that all students access the Sample Tests and Training Tests available online to become familiar with the functionality of the online testing system and the various item types they will encounter in the online tests. Each resource offers students a unique opportunity to experience a test in a manner similar to what they will see on the operational test.
ODE provides sample tests (available through the [OSAS Portal](#)) to provide students experience with ELA, Mathematics, OSAS Online Science and Social Sciences, and ELPA Summative testing environment. These sample tests include only a limited number of questions.

Smarter Balanced Assessment Consortium provides an additional Training Test (available through the [OSAS Portal](#)).

**Do NOT use the live Student Interface or TA Interface for practice.** Doing so constitutes a test impropriety. For all Training Test sessions, use the TA Training Site, the Training Tests, and the Sample Tests.

It is **highly recommended** that **ALL** students access the sample tests before testing. The sample tests are especially beneficial for those students who have not previously participated in online testing, such as third graders, as well as students taking the OSAS Science assessment, which assesses NGSS-aligned item types in 2018-19. Teachers are encouraged to conduct a group walk-through with their students to promote familiarity with the testing format and basic test rules.

### 6.4 Pause Rules and Test Expirations

**Basic test rules**

- For the ELA and Mathematics assessments, computer adaptive items and performance tasks will be presented as separate tests. Students may not return to a test once it has been completed and submitted.

- Within each ELPA Summative and ELA and Mathematics test there may be segments. A student may not return to a segment once it has been completed and submitted.

- Students **must answer all test items on a page** before going to the next page. Some pages contain multiple test items. Students may need to use the vertical scroll bar to view all items on a page.

- Constructed response items are considered answered if the student has taken any action within the response area. This includes random keystrokes (e.g., sdkjfasdgi), one or more spaces using the spacebar, clicking anywhere on a Grid Item - Hot Spot item, etc.

- Students must answer all test items before the test can be submitted.

- Students may mark items for review and use the [Past/Marked Questions](#) drop-down list to return to those items that have already been answered within a segment prior to submitting their test for scoring.

**Pause rules**

- **For the Science and Social Sciences assessments and the CAT segment of the ELA and Mathematics assessments, if a test is paused for more than 20 minutes** the student is:
  - Required to log back into the student interface;
  - Presented with the test page containing the test item(s) the student was working on when the test was paused (if the page contains at least one unanswered item) OR with the next test page (if all items on the previous test page were answered); and
  - **NOT permitted to review or change any previously answered test items (with the exception of items on a page that contains at least one item that was not answered yet).**
For ELPA Summative and the PT portion of ELA and Mathematics assessments there are no pause restrictions. If a test is paused for 20 minutes or more, the student can return to the section and continue typing his or her responses. Please note that there are specified recommendations provided in Section 5.1 Testing Time and Recommended Order of Administration.

Any highlighted text, notes on the digital notepad, or items marked for review will not be saved when a test is paused for more than 20 minutes.

In the event of a technical issue (e.g., power outage or network failure), students will be logged out and the test will automatically be paused. The students will need to log in again upon resuming the test.

Scenarios:

1. If during an Science or Social Sciences assessment or the CAT segment of an ELA or Mathematics assessment a test is paused for **less than 20 minutes** (or does not pause at all), the student can return to previous test pages and change the response to any question they have already answered within a segment (if multiple segments).

2. If during an Social Sciences assessment or the CAT segment of the ELA assessment a test is paused for **more than 20 minutes** without having answered all items in the item group, when the student resumes testing, answered items will be “locked down” so that students may still review but may not revise responses to previously answered items in the item group.
   a. Example: An item group has questions 4 – 10. A student answers questions 4 – 9 and pauses the test for more than 20 minutes. When testing is resumed, the student can answer question 10 and can review responses to questions 4 – 9 but cannot revise responses to questions 4 – 9.

3. If during the CAT segment of a Mathematics assessment or an Science or Social Sciences assessment for which paginated item groups has been disabled or is not available a test is paused for **more than 20 minutes**, when the student resumes testing, the test will return the student to the last page with unanswered items. If a page has both answered and unanswered items, the student may change any answers present on that page. However, the student may not return to previous pages and consequently cannot change answers to items on previous pages.
   a. Example: A single test page has questions 4–10. A student answers questions 4–9 and pauses the test for more than 20 minutes. When testing is resumed, the student can change answers to questions 4–9 but cannot return to questions 1–3 on an earlier page.
   b. Example: A single Science test page has Parts A through D. A student answers all questions in part A and pauses the test for more than 20 minutes. When testing is resumed, the student can change answers to questions in part A, but cannot change answers to previous items on the test.

4. If during a Science or Social Sciences assessment or the CAT segment of an ELA or Mathematics assessment a test is paused for **more than 20 minutes** and there are no previously answered items on that individual page, the student will not have access to any items for which a response has already been provided.
   a. Example: Question 6 is the only item on a test page and the student does not answer it before pausing the test. The student resumes testing after pausing for more than 20 minutes and is directed to the page with question 6. The student may not return to questions 1–5.
b. Example: A page contains questions 9–11 and a student answers all of those items before pausing the test for more than 20 minutes. When the student resumes testing, they will begin on question 12 and cannot return to questions 1–11.

5. If during the ELPA Summative or the performance task portion an ELA or Mathematics assessment a test is paused for more than 20 minutes, the student will return to the section and continue typing his or her responses. There are no pause restrictions.

**Test timeout (due to inactivity)**

As a security measure for all online tests, students are automatically logged out of the test after 20 minutes of test inactivity. Activity is defined as selecting an answer or navigation option in the test (e.g., clicking [Next] or [Back] or using the Past/Marked Questions drop-down list to navigate to another item). Moving the mouse or clicking on an empty space on the screen is not considered activity.

Before the system logs the student out of the test, a warning message will be displayed on the screen. If [Ok] is not selected within 30 seconds after this message appears, the student will be logged out. Clicking [Ok] will restart the 20 minute inactivity timer.

![Idle Timeout](image)

**Caution:** As a security measure, TAs are automatically logged out after thirty minutes of user inactivity in the session, which will result in the closing of the test session.

**Test expiration**

A student’s test remains active until the student completes and submits the test or 45 calendar days after the student has begun the test, whichever occurs sooner. However, as a best practice, ODE recommends that students complete the test within five days of starting.

**Exception:** The PT portion of the ELA or Mathematics assessments is administered as a separate test that remains active for only twenty calendar days after the student has begun the PT. As a best practice, ODE recommends that students complete the PT portion within ten days of starting.

A summary of recommendations for the number of sessions and session durations is provided in Section 4.5 Testing Time and Recommended Order of Administration.

**Breaking up the Test**

It may take some students more than the estimated time to finish each test. Therefore, you may wish to break students’ testing into shorter sessions. These shorter testing periods may make their testing experience less stressful.

Breaking up a test requires great care to avoid breaches of test security. Please consider the following issues when breaking up a test:

- If you know you will be administering the test in multiple sessions, remind students before they begin that they will be resuming the test at another date/time.
- A student returning to an online test will start on the same number the student was working on previously. Please note the pause rules described in Section 6.4 Pause Rules and Test Expirations above.
• Any printed test items or stimuli (including reading passages) must be securely shredded and may not be retained for use across test sessions.
• When resuming a test, TAs must review the process and re-read the student directions.
• For the PT portion of the ELA and Mathematics assessments, students may be best served by sequential, uninterrupted time that may exceed the time in a student’s schedule.
• Minimize the amount of time between beginning and completing each test within a content area.
7.0 ADMINISTERING THE ENGLISH LANGUAGE ARTS AND MATHEMATICS ASSESSMENTS

Note: This section is required for all TAs administering the English Language Arts and Mathematics assessments; it includes directions for administration and a script to use in the administration of tests.

7.1 Components of the English Language Arts and Mathematics Assessments

The English Language Arts (ELA) and Mathematics assessments are each comprised of two separate assessment segments: the computer-adaptive test (CAT) items and the PT. ODE recommends that students take the PT and the CAT segments on separate days.

Important Recommendations:

- If a student begins the assessment with the CAT segment, the student should complete all the items in that segment prior to moving on to the PT segment. Similarly, if a student begins the assessment with the PT segment, the student should complete the entire PT segment prior to moving on to the CAT segment. It is recommended that no more than one segment is open for any student at a given time. As a reminder, the performance task expires twenty calendar days after it is started.

- It is recommended that an entire content session (ELA or mathematics) is completed before starting another; however, the determination is at the discretion of the School or District Test Coordinator.

- Students who take a Mathematics test using the stacked Spanish/English version can respond to open-ended questions in Spanish or English. If they respond in Spanish, their response will be scored by a trained Spanish-speaking scorer. Responses in languages other than Spanish and English will not be scored.

7.2 Performance Tasks

The students must work independently on the secure performance task responses; instructions will be delivered to them in the Test Delivery System.

ELA

The ELA PT consists of two parts: Part 1 and Part 2. It is recommended that each part be administered on separate days. In Part 1, students will read sources and answer either one machine-scored or one short answer research questions. During Part 2 (the full write), students will provide a written response using those sources. Only in Part 2 of the ELA performance task may students have access to a hard-copy (non-embedded universal tool) or online dictionary or online thesaurus (embedded universal tools).

Note 1: If you opt to offer a hard-copy dictionary to your students, it must be a commercially published dictionary in print form. Teacher- or student-created dictionaries are not allowed.

Note 2: ELA performance tasks may require headsets.

Mathematics

The mathematics performance task should be administered in one session.

Note: Mathematics performance tasks do not require headsets unless needed as an accommodation.
7.3 English Language Arts and Mathematics Assessment Administration Procedure

**Students Log In**
On the first screen, students enter the Session ID, and their legal first name and SSID. This must match a record in Consolidated Collections – SSID System, so be sure that the student uses the same first name as appears on the SSID file, not a nickname. If the student is unable to log in, the student will be prompted to try again and provided with a message describing the reason (an invalid SSID for example). If the student is still having difficulty, the TA can look up the correct information in the Student Lookup. Students are only imported in the Online systems if their SSID record has been updated for the current school year. For other problems during the log in process, please contact your Regional ESD Partner.

The second screen calls for verification of student information. If you agree that the student’s information is incorrect, instruct the student to select “No” to exit the student login.

The student will now see a page indicating the test(s) the student is able to start as determined by the TA (who selects subjects when creating a session). If the session includes multiple subjects, the student must choose the appropriate test from those listed. The test opportunity the student will be using is displayed next to the corresponding test.

**Approving Students for Testing**
After students log in, TAs must verify that the correct students to take the test, are identified, and approve the students’ login requests. The upper right corner of your screen will always display a list of students who are awaiting approval at any time. **Please make sure the correct student has logged in.**

The TA should monitor the student’s selection when sessions are open to multiple subjects. Before approving students to test, TAs must review the student’s test settings, including language, to ensure that they are correct.

Once students begin appearing in the preview box, you can click [Approvals (#)] to open the Approvals pop-up window, shown below. Review each student’s test settings and edit as necessary. You can either click the green checkmark to approve each individual student (recommended) or, when you are satisfied that all students in the list can be approved, click [Approve All Students]. **Reminder: If any student’s test settings are incorrect, do NOT approve that student.**

After you approve students, remind them to verify that their test subject and test settings are correct. **Remember, once a student starts a test opportunity, test settings may not be changed for that test opportunity.**

Each student will be logging in at a different time. Monitor the sessions and log in all students who are currently ready before assisting any students who are having problems.

**Monitoring Testing**
Once students have started their tests, circulate through the room to ensure that all conditions of test security are maintained in compliance with Section 2 Test Security. If you witness or suspect the possibility of a test impropriety, contact your STC and DTC immediately.

Please be aware that all students approach test taking differently, and even though a student may appear to be daydreaming, that student may actually be mentally working through a test item. Interactions between a TA and a student during testing must be kept to a minimum. Before approaching a student to remind him or her to stay on task, be sure to consider that student’s individual needs and test-taking style.
You may also use the TA Interface to view the testing progress of any student. This site will not show test items or scores but will let you see how many items have been delivered to each student (e.g., question 24 of 40).

**End the test session and log out of the TA Site.**

When there are approximately five minutes left for the test session, give students a brief warning. After answering the last item in each segment, each student is presented with a screen prompting the student to review answers (marked and unmarked) for all items available to the student (presented after any pause taken) or to end the test. Tests can no longer be paused after the last item has been presented.

The student will not be able to return to previously answered or marked questions following a PAUSE of 20 minutes or more. However, students may PAUSE on any item without answering all items in an item set. For the CAT segment, the student’s test can be resumed at any time within the testing window up to 45 calendar days from the start date; after 45 calendar days the test record is expired and the opportunity is lost. For the performance task, there is no pause limit, but the test expires twenty calendar days after it is started.

After answering the last question, students must end their test. If students would like to review their answers before ending their test, they do so by clicking [REVIEW MY ANSWERS] and then [SUBMIT TEST] once they are done reviewing. Once a student clicks [SUBMIT TEST], the student will not be able to review answers.

Once students have completed testing, the TA is responsible for closing out the testing session. Be sure students successfully log off from the secure browser, and also be sure to log out of your session AND close the browser used for monitoring the session. Collect any scratch paper or printed test materials for secure destruction consistent with Section 2 Test Security.

**7.4 Student Directions for English Language Arts and Mathematics Administration**

To ensure that students understand which test they are taking and correctly log in to the proper test, it is important that TAs review these directions with students prior to testing. The directions are organized into the following stages: student directions for taking the test, full log-in directions, paraphrased log-in directions, and student directions during testing, and directions for ending the test. Once students are comfortable with the log-in process, TAs may substitute the paraphrased log-in directions for the full log-in directions for subsequent test administrations. However, TAs should remain attentive to the needs of individual students who are new to Oregon’s online testing system or who may continue to benefit from having the full log-in directions read to them at the start of each testing event. Translated Spanish student directions appear beginning on p. 51. (Note: The directions below may be translated to the student’s language of origin and will count as a standard administration.)

All directions that you are to read to students are in boxes so they stand out from the regular text. Read these directions exactly as they are written, using a natural tone and manner. If you make a mistake in reading a direction, stop and say, “I made a mistake. Listen again.” Then read the direction again.

**Student Directions (English)**

**Student Directions for Taking the Test**

To maintain test security and avoid student coaching, TAs must read the script below verbatim to students prior to having students log into the test.
Today, you will take the [ELA or Mathematics] test. You will be given a test session ID that is required to start the test. Before logging in, let’s go over some test rules.

[For Braille administration only:]
**Math:** Each question will be read aloud to you through your computer’s screen reader and will be embossed into Braille for you to read. You will use your refreshable Braille display or computer keyboard to select your answer to each question and move through the test. If you need help using your refreshable Braille display or keyboard, please raise your hand.

**ELA:** Each question will be presented in Braille through your refreshable Braille display. Questions that include a table, chart, or graph will be embossed into Braille for you to read. You can also request to print any question, and it will be embossed into Braille for you to read. You will use your refreshable Braille display or computer keyboard to select your answer to each question and move through the test. If you need help using your refreshable Braille display or keyboard, please raise your hand.

You must answer each question on the screen before going on to the next one. Go ahead and select what you think is the best answer even if you are unsure and mark it before going on to the next question if you would like to review that answer at a later time. You may go back and change the answer during this test session.

[For the Math CAT (grades 6 – 8 and 11) and ELA PT only: Please keep in mind that this test is divided into segments. When you get to the end of each segment, you will be prompted to review your answers before moving on. Once you submit your answers and move on to the next segment, you will not be able to return to the previous segment.]

You may pause at any point in the test by clicking PAUSE rather than NEXT after answering an item. Please raise your hand if you need a break and ask permission before clicking PAUSE.

[For the CAT portion only: If you pause your test for more than 20 minutes, you will no longer be able to go back and change your answers]

Your answers need to be your own work. Please keep your eyes on your own test and remember, there should be no talking. If you have any device that could access the Internet, please raise your hand and I will come and collect it before the test begins.

Full Log-in Directions

Now we are ready to log in. Once you have logged in, you will have to wait for me to approve the test before you start. I’ll be checking that you have correctly entered the test session ID and other information.

Enter your legal first name, not your nickname, followed by your SSID number. Then enter the test session ID. Raise your hand if you need help typing this information on your keyboard.
Now click “Sign In.” Once you have successfully logged in, you will see a screen with your first name and other information about you. If all of the information on your screen is correct, select YES to continue. If any of the information is incorrect, please raise your hand and show me what is incorrect.

On the next screen, select the [INSERT NAME OF TEST]. After you have selected your test, you will see a screen with a moving bar and message saying that you are waiting for Test Administrator approval. Please wait quietly while I verify each of your tests.

[For the ELA test ONLY: Next you should see a screen that prompts you to verify that the sound on your computer is working. Put your headsets on and click the icon of the speaker in the circle to hear the sound. If you hear the chime, click I HEARD THE SOUND and then CONTINUE. If not, raise your hand.]

After I approve you to begin testing, you will see an instructions and help screen. You will be able to view a help guide and your test settings. If any settings are incorrect, please raise your hand.

When you are ready to begin your test, click BEGIN TEST NOW at the bottom of the page.

Paraphrased Log-in Directions

Now we are ready to log in. Enter your legal first name, not your nickname, followed by your SSID number. Then enter the test session ID.

Now click “Sign In.” Make sure that your personal information on the next screen is correct and click YES to continue.

On the next screen, select the [INSERT NAME OF TEST].

[For the ELA test ONLY: Next you should see a screen that prompts you to verify that the sound on your computer is working. Put your headsets on and click the icon of the speaker in the circle to hear the sound. If you hear the chime, click I HEARD THE SOUND and then CONTINUE. If not, raise your hand.]

After I approve you to begin testing, make sure that you have the right test and settings. If any of the test information is incorrect, please raise your hand.

When you are ready to begin your test, click BEGIN TEST NOW at the bottom of the page.

Student Directions During Testing

If you notice that a student is off task, you may read the statement below verbatim.

It is important that you do your best. Do you need to pause the test and take a break?
If a student is concerned about an item, you may direct the student to enter the concern in Online Comments by reading the script below *verbatim*.

Try your best and choose the answer that makes the most sense to you. If you are unsure about how a question works, you can review a tutorial by clicking on the “i” button available through the dropdown menu on the right side of the screen. You can send a comment about this item if you wish by clicking on the comment button also available through the dropdown menu.

**Directions for Ending the Test Session**

We are nearing the end of this test session. Please finish the question you are working on now and do not start another one.

If you need additional time let me know.

This test session is now over. If you have not finished, click PAUSE, and you will be able to finish at another time.

*For the CAT portion only: Remember, if you are pausing your test for more than 20 minutes, you will no longer be able to go back and change your answers when you return to the test.*

If you have answered all the questions on your test and have finished reviewing your answers, click END TEST. You will be asked to confirm that you are ready to submit your test. Click yes, and after reviewing any marked answers, click SUBMIT TEST. I will now collect any scratch paper or other materials.

**Student Directions (Spanish)**

**Student Directions for Taking the Test**

*Hoy, va a tomar el examen de [ELA o Matemáticas]. Se le dará una identificación para la sesión del examen que es requerida para comenzar el examen. Antes de ingresar al sistema, vamos a repasar algunas reglas del examen.*

*Solo para la administración en Braille:*

**Matemáticas:** cada pregunta se le leerá en voz alta a través del lector de pantalla de su computadora y será grabada en relieve en Braille para que lo lea. Usted utilizará su dispositivo Braille o teclado de computadora para seleccionar su respuesta a cada pregunta y moverse a través del examen. Si necesita ayuda para utilizar su dispositivo Braille o el teclado, por favor levante la mano.

**Artes de Lenguaje Inglés:** Cada pregunta será presentada en Braille a través del dispositivo Braille. Las preguntas que incluyan una tabla, un gráfico o gráfica serán grabadas en Braille para que las lea. También puede solicitar que le impriman cualquier pregunta, y será grabada en relieve en Braille para que la lea. Usted va a utilizar su dispositivo Braille o su teclado de la computadora para seleccionar su
Debe responder a cada pregunta en la pantalla antes de pasar a la siguiente. Proporcione la respuesta que usted crea es la mejor, incluso si no está seguro y márquela antes de pasar a la siguiente pregunta si desea revisar esa respuesta después. Puede regresar y cambiar la respuesta durante esta sesión del examen.

[Sólo para CAT de matemáticas y ELA PT: Por favor tenga en cuenta que este examen está dividido en segmentos. Cuando llegue al final de cada segmento, se le pedirá que revise sus respuestas antes de continuar. Una vez que envíe sus respuestas y continúe al siguiente segmento, no podrá regresar al segmento anterior.]

Usted puede hacer una pausa en cualquier momento del examen haciendo clic en PAUSE en lugar de NEXT después de responder a una pregunta. Por favor levante la mano si necesita un descanso y pida permiso antes de hacer clic en PAUSE.

[Sólo para la porción de CAT: Si usted pone pausa al examen por más de 20 minutos, ya no podrá regresar y cambiar sus respuestas.]

Sus respuestas deben ser su propio trabajo. Por favor mantenga sus ojos en su propio examen y recuerde que no debe hablar. Si tiene un teléfono celular, por favor levante la mano y voy a recogerlo antes de que comience el examen.

Full Log-in Directions

Ahora estamos listos para iniciar la sesión. Una vez que haya iniciado la sesión, tendrá que esperar a que yo apruebe el examen antes de que comience. Voy a revisar que haya ingresado correctamente la identificación de la sesión del examen y otra información.

Ingrese su nombre legal, no su apodo, seguido de su número de identificación SSID. Luego ingrese la identificación de la sesión del examen. Levante la mano si necesita ayuda para escribir esta información en su teclado.

Ahora haga clic “Sign In”. Una vez que haya iniciado su sesión exitosamente, verá una pantalla con su nombre y otra información sobre usted. Si toda la información en su pantalla es correcta, seleccione YES para continuar. Si cualquiera de la información es incorrecta, por favor levante su mano y muéstreme lo que está incorrecto.

En la siguiente pantalla, seleccione [INSERT NAME OF TEST]. Después de seleccionar su examen, verá una pantalla con una barra en movimiento y un mensaje diciendo que está esperando por la aprobación del Administrador del Examen. Por favor espere en silencio mientras verifico cada uno de sus exámenes.

| Para el examen ELA SOLAMENTE: A continuación, usted deberá ver una pantalla que le pide que verifique que el sonido en su computadora está funcionando. Póngase sus audífonos y haga clic en el icono de las bocinas en el círculo para... |
Después de que apruebe dar inicio a su examen, usted verá una pantalla de ayuda. Podrás ver una guía de ayuda y su prueba Si alguna configuración es incorrecta, por favor levante la mano.

Cuando está listo para comenzar el examen, haga clic en BEGIN TEST NOW en la parte inferior de la página.

**Paraphrased Log-in Directions**

Ahora estamos listos para iniciar la sesión. Ingrese su nombre legal, no su apodo, seguido de su número de identificación SSiD. Luego ingrese la identificación de la sesión del examen.

Ahora haga clic en “Sign In”. Asegúrese de que su información personal en la próxima pantalla esta correcta y haga clic en YES” para continuar.

En la próxima pantalla, seleccione [INSERT NAME OF TEST].

**[Para el examen ELA SOLAMENTE] A continuación, usted deberá ver una pantalla que le pide que verifique que el sonido en su computadora está funcionando. Póngase sus audífonos y haga clic en el icono de las bocinas en el círculo para escuchar el sonido. Si usted escucha el timbre, haga clic HE ÓÍDO EL SONIDO y luego CONTINÚE. Si no, levante su mano.]**

Después de que yo lo apruebe para que comience el examen, asegúrese de que tiene el examen correcto y la configuración.. Si cualquier información del examen es incorrecta, por favor levante su mano.

Cuando está listo para comenzar el examen, haga clic en BEGIN TEST NOW en la parte inferior de la página.

Haga clic en yes, y después de revisar cualquier respuesta marcada, haga clic en SUBMIT TEST. Ahora voy a recoger el papel borrador u otros materiales. |

7.5 Testing Over Multiple Sessions or Days

For some tests, particularly the performance tasks, students may be best served by sequential, uninterrupted time that may exceed the time in a student’s schedule. It is recommended that the ELA PT be administered in two sessions corresponding with Part 1 and Part 2 of the PT. Students can be provided with breaks within each part; however, once a student moves on to Part 2, they will not be able to review or revise items in Part 1. For this reason it is recommended that students complete Part 1 in one test session. Part 2 would ideally be delivered the next school day. For the mathematics PT, ODE recommends that it be administered in one session of 40–120 minutes.
If you intend to administer the test over the course of multiple days for a student or group of students, it may be important for all of the students to pause after they reach a designated point. For most tests, there is nothing built into the system to prevent students from progressing from one section of the test to another. In those cases, the TA should give the students clear directions on when to pause. For example, TAs may designate a certain amount of time for testing. Likewise, the end of Part 1 of the ELA performance task might be a logical stopping point. This guidance may be written on a dry-erase board, chalkboard, or another place that students can easily see. Students will receive a notification when they reach the end of the session.

When testing is resumed on a subsequent day, the TA will need to start a new test session and provide a new session ID. A summary of recommendations for the number of sessions and session durations is in Section 5.1 Testing Time and Recommended Order of Administration.

7.6 Following Test Administration

Maintaining Security of Assessment Materials and Student Responses

To ensure the security of Oregon’s assessment materials and student confidentiality, all assessment materials and student response data must be kept secure in accordance with Section 2 Test Security. If there are any questions about secure materials, contact your DTC. If the DTC is unsure of the answer, your question will be forwarded to your Regional ESD Partner.

Destroying Test Materials

Federal law—the Family Educational Rights and Privacy Act—prohibits the release of any student’s personally identifiable information. Any printouts must be securely stored and then shredded.

As a reminder, those test materials identified in Section 2 Test Security must be securely shredded immediately following each test session and may not be retained from one test session to the next.

Reporting Test Improprieties and Irregularities

Ensure that all test improprieties and irregularities are reported in accordance with the guidelines in Section 3.6 Reporting Test Improprieties and Irregularities.
8.0 ADMINISTERING THE SCIENCE AND SOCIAL SCIENCES ASSESSMENTS

Note: This section is required for all TAs administering the OSAS Online Science and Social Sciences assessments; it includes directions and a script to use during the administration of OSAS Online Science and Social Sciences tests. This section governs the administration of OSAS Online Science and Social Sciences tests.

8.1 Science and Social Sciences Administration Procedure

The OSAS Science Assessment will contain questions aligned to the 2014 Oregon Science Standards (NGSS). Items are presented independently or as a cluster/task. Each cluster/task is designed to engage the test taker in a meaningful scientific activity aligned to the standard and contain: a phenomena to give context and engage student interest, background information and/or data, a task description, and multiple questions. Clusters/tasks and independent items assess the multiple-dimensionality required of NGSS in observable fact or design problems. All clusters/tasks and independent items are computer scored. To ensure that students are prepared the Science Training Test is available on the OSAS Portal to use before testing.

Note: New for 2018-19, students will have one annual test opportunity at grades 5, 8, and high school for both Science and Social Sciences.

Students Log In

On the first screen, students enter the Session ID, and their legal first name and SSID. This must match a record in Consolidated Collections – SSID System, so be sure that the student uses the same first name as appears on the SSID file, not a nickname. If the student is unable to log in, the student will be prompted to try again and provided with a message describing the reason (an invalid SSID for example). If the student is still having difficulty, the TA can look up the correct information in the Student Lookup. Students are only imported in the OSAS online testing platform if their SSID record has been updated for the current school year. For other problems during the log in process, please contact your Regional ESD Partner.

The second screen calls for verification of student information. If you agree that the student’s information is incorrect, instruct the student to select “No” to exit the student login.

The student will now see a page indicating the test(s) the student is able to start as determined by the TA (who selects subjects when creating a session). If the session includes multiple subjects, the student must choose the appropriate test from those listed. The test opportunity the student will be using is displayed next to the corresponding test.

Approving Students for Testing

After students log in, the TA must confirm that these are the correct students to take the test and approve the students’ login requests. The upper right corner of your screen will always display a list of students who are awaiting approval at any time. Please make sure the correct student has logged in.

The TA should monitor the student’s selection when sessions are open to multiple subjects. Before approving students to test, TAs must review the student’s test settings, including language, to ensure they are correct.

Once students begin appearing in the preview box, the TA can click [Approvals (#)] to open the Approvals pop-up window, shown below. Review each student’s test settings and edit as necessary. TAs can either click the green checkmark to approve each individual student (recommended) or,
when you are satisfied that all students in the list can be approved, click [Approve All Students].

**Reminder:** If any student’s test settings are incorrect, do NOT approve that student.

After the TA approves students, a reminder to verify that their test subject and test settings are correct should be provided. **Remember, once a student starts a test opportunity, test settings may not be changed for that test opportunity.**

Each student will be logging in at a different time. Monitor the sessions and log in all students who are currently ready before assisting any students who are having problems.

**Monitoring Testing**

Once students have started their tests, circulate through the room to ensure that all conditions of test security are maintained in compliance with Section 2 Test Security. If the TA witnesses or suspects the possibility of a test impropriety, the STC and DTC should be contacted immediately.

Please be aware that all students approach test taking differently, and even though a student may appear to be daydreaming, that student may actually be mentally working through a test item. Interactions between a TA and a student during testing must be kept to a minimum. Before approaching a student to remind him or her to stay on task, be sure to consider that student’s individual needs and test-taking style.

The TA Interface may also be used to view the testing progress of any student. This site will not show test items or scores but will show how many items have been delivered to each student (e.g., question 24 of 40).

**End the test session and log out of the TA Site.**

When there are approximately five minutes left for the test session, give students a brief warning.

After answering the last item in each segment, each student is presented with a screen prompting the student to review answers (marked and unmarked) for all items available to the student (presented after any pause taken) or to end the test. Tests can no longer be paused after the last item has been presented.

Following a pause of 20 minutes or more, students will be able to review previously answered items, but will not be able to change answers. Students may pause on any item without answering all questions on an individual page. When the student resumes the test, they will be presented with the last individual page they were working on containing at least one unanswered question. Social Sciences test answers will be locked down following a 20 minute pause and the student will not be allowed to change previous answers. However, on the Science test, students may change their answers within incomplete science cluster/task items containing at least one unanswered question when resuming the Science test after a pause of 20 minutes or more. Students may PAUSE on any item without answering all items in an item set. If the student selects PAUSE, the test session can be resumed at any time within 45 calendar days; after 45 calendar days the test record is expired and the opportunity is lost.

After answering the last question, students must end their test. If students would like to review their answers before ending their test, they do so by clicking [REVIEW MY ANSWERS] and then [SUBMIT TEST] once they are done reviewing. Once a student clicks [SUBMIT TEST], the student will not be able to review answers.

Once students have completed testing, the TA is responsible for closing out the testing session. Be sure students successfully log off from the secure browser, and also be sure to log out of the TA session AND close the browser used for monitoring the session. Collect any scratch paper or printed test materials for secure destruction consistent with Section 2 Test Security.
8.2 Student Directions for Science and Social Sciences Administration

To ensure that students understand which the test they are taking and correctly log in to the proper test, it is important that TAs review these directions with students prior to testing. The directions are organized into the following stages: student directions for taking the test, full log-in directions, paraphrased log-in directions, and student directions during testing, and directions for ending the test. Once students are comfortable with the log-in process, TAs may substitute the paraphrased log-in directions for the full log-in directions for subsequent test administrations. However, TAs should remain attentive to the needs of individual students who are new to Oregon’s online testing system or who may continue to benefit from having the full log-in directions read to them at the start of each testing event. Translated Spanish student directions appear beginning on p. 64. Note: The directions below may be translated to the student’s language of origin and will count as a standard administration.

All directions that you are to read to students are in boxes so they stand out from the regular text. Read these directions exactly as they are written, using a natural tone and manner. If you make a mistake in reading a direction, stop and say, “I made a mistake. Listen again.” Then read the direction again.

Student Directions (English)

Student Directions for Taking the Test

To maintain test security and avoid student coaching, TAs must read the script below verbatim to students prior to having students log into the test.

Today, you will take the [Science or Social Sciences] test. You will be given a test session ID that is required to start the test. Before logging in, let’s go over some test rules.

[For Braille administration only:

**Science:** Each question will be read aloud to you through your computer’s screen reader and will be embossed into Braille for you to read. You will use your refreshable Braille display or computer keyboard to select your answer to each question and move through the test. If you need help using your refreshable Braille display or keyboard, please raise your hand.

**Social Sciences:** Each question will be read aloud to you through your computer’s screen reader and will be presented in Braille through your refreshable Braille display. Questions that include a table, chart, or graph will be embossed into Braille for you to read. You can also request to print any question, and it will be embossed into Braille for you to read. You will use your refreshable Braille display or computer keyboard to select your answer to each question and move through the test. If you need help using your refreshable Braille display or keyboard, please raise your hand.]

You must answer each question on the screen before going on to the next one. Go ahead and provide what you think is the best answer even if you are unsure and mark it before going on to the next question if you would like to review that answer at a later time. You may go back and change the answer during this test session.

You may pause at any point in the test by clicking PAUSE rather than NEXT after answering an item. Please raise your hand if you need a break and ask permission before clicking PAUSE.
If you pause your test for more than 20 minutes, you will no longer be able to go back and change your answers.

Your answers need to be your own work. Please keep your eyes on your own test and remember, there should be no talking. If you have any device that could access the Internet, please raise your hand and I will come and collect it before the test begins.

Full Log-in Directions

Now we are ready to log in. Once you have logged in, you will have to wait for me to approve the test before you start. I’ll be checking that you have correctly entered the test session ID and other information.

Enter your legal first name, not your nickname, followed by your SSID number. Then enter the test session ID. Raise your hand if you need help typing this information on your keyboard.

Now click “Sign In.” Once you have successfully logged in, you will see a screen with your first name and other information about you. If all of the information on your screen is correct, select YES to continue. If any of the information is incorrect, please raise your hand and show me what is incorrect.

On the next screen, select the [INSERT NAME OF TEST]. After you have selected your test, you will see a screen with a moving bar and message saying that you are waiting for Test Administrator approval. Please wait quietly while I verify each of your tests.

[For Science only: Next you should see a screen that prompts you to verify that the video and sound on your computer is working. Put your headsets on and click the play button on the screen. If you hear the chime and see the video on the screen, select I HEARD THE SOUND and then CONTINUE. If not, raise your hand.]

After I approve you to begin testing, you will see an instructions and help screen. You will be able to view a help guide and your test settings. If any settings are incorrect, please raise your hand.

When you are ready to begin your test, click BEGIN TEST NOW at the bottom of the page.

Paraphrased Log-in Directions

Now we are ready to log in. Enter your legal first name, not your nickname, followed by your SSID number. Then enter the test session ID.

Now click “Sign In.” Make sure that your personal information on the next screen is correct and click YES to continue.

On the next screen, select the [INSERT NAME OF TEST].
For Science only: Next you should see a screen that prompts you to verify that the video and sound on your computer is working. Put your headsets on and click the play button on the screen. If you hear the chime and see the video on the screen, select I HEARD THE SOUND and then CONTINUE. If not, raise your hand.

After I approve you to begin testing, make sure that you have the right test and settings. If any of the test information is incorrect, please raise your hand.

Student Directions During Testing
If you notice that a student is off task, you may read the statement below verbatim.

Es importante que trate de hacer lo mejor que pueda. ¿Necesita hacer una pausa en el examen y tomar un descanso?

If a student is concerned about an item, you may direct the student to enter the concern in Online Comments by reading the script below verbatim.

Haga su mejor esfuerzo y elija la respuesta que tenga más sentido para usted. Si no está seguro acerca de cómo funciona una pregunta, usted puede revisar un tutorial haciendo clic en el botón “i” disponible a través del menú desplegable del lado derecho de la pantalla. Si lo desea, puede enviar un comentario acerca de esta pregunta haciendo clic en el botón de comentario también disponible a través del menú desplegable.

Directions for Ending the Test Session

Nos estamos acercando al final de esta sesión. Por favor termine la pregunta que está trabajando ahora y no empiece otro.

Aviseme si necesita más tiempo.

Esta sesión del examen ha terminado. Si no ha terminado, haga clic en PAUSE, y podrá terminar en otro momento.

Recuerde, si usted pone pausa a su examen por más de veinte minutos, ya no podrá regresar y cambiar sus respuestas cuando regrese al examen.

Si ha contestado a todas las preguntas en su examen y ha terminado de revisar sus respuestas, haga clic en END TEST. Se le pedirá que confirme que usted está listo para enviar su examen. Haga clic en yes, y después de revisar cualquier respuesta marcada, haga clic en SUBMIT TEST. Ahora voy a recoger el papel borrador u otros materiales.

8.3 Testing Over Multiple Sessions or Days

Some students may be best served by sequential, uninterrupted time that may exceed the time in a student’s schedule. If you intend to administer the test over the course of multiple days for a student or group of students, it may be important for all of the students to pause after they reach a
designated point. In those cases, the TA should give the students clear directions about when to pause. For example, TAs may designate a certain amount of time for testing. This guidance may be written on a dry-erase board, chalkboard, or another place that students can easily see. Students will receive a notification when they reach the end of the session.

When testing is resumed on a subsequent day, the TA will need to start a new test session and provide a new session ID. A summary of recommendations for the number of sessions and session durations is in Section 5.1 Testing Time and Recommended Order of Administration.

8.4 Following Test Administration

Maintaining Security of Assessment Materials and Student Responses

To ensure the security of Oregon’s assessment materials and student confidentiality, all assessment materials and student response data must be kept secure in accordance with Section 2 Test Security. If there are any questions about secure materials, contact your DTC. If the DTC is unsure of the answer, your question will be forwarded to your Regional ESD Partner.

Destroying Test Materials

Federal law—the Family Educational Rights and Privacy Act—prohibits the release of any student’s personally identifiable information. Any printouts must be securely stored and then shredded.

As a reminder, those Science test materials identified in Section 2 Test Security must be securely stored in between test sessions and then securely destroyed immediately upon the student’s completion of the test. Social Sciences test materials must be shredded immediately following each test session and may not be retained from one test session to the next.

Reporting Test Improprieties and Irregularities

Ensure that all test improprieties and irregularities are reported in accordance with the guidelines in Section 3.6 Reporting Test Improprieties and Irregularities.
9.0 ADMINISTERING THE ELPA SUMMATIVE

Note: This section is required for all TAs administering the ELPA Summative; it includes directions for administration and a script to use in the administration of tests. For specific information regarding the ELPA Screener, please consult the appropriate resources on the Test Administration website (such as the ELPA Screener Directions for Administration).

9.1 Components of the ELPA Summative

Oregon’s ELPA Summative is a required assessment within the OSAS. Additionally, federal law requires that states assess all students who are English learners to determine their English language proficiency. Currently this proficiency is determined based on individual performance in the four domain scores required in content areas by the Elementary and Secondary Education Act (ESEA)—listening, speaking, reading, and writing—within 6 grade bands: Kindergarten, 1, 2-3, 4-5, 6-8, and 9-12. A standard administration of ELPA Summative is comprised of one test with two segments, with the speaking domain administered as a segment at the end of the test.

ELPA Summative uses a diagnostic tool to verify that recording and playback capabilities are working properly on the computer. Although the diagnostic tool is run each time a student starts/resumes their test, TAs can take steps (such as checking for muted volume) to reduce technical issues that could delay a student from starting their test.

9.2 Student Technology Skill Requirements

It may prove valuable for the TA to be able to speak the student’s language of origin to better assist students in addressing the various formats found among test items. **While it is a violation of test security for a TA to translate individual items, it is an acceptable support for the TA to provide translation of the audio instructions** (see the Oregon Accessibility Manual).

In addition to properly configuring computer systems to run the ELPA Summative, school staff should ensure that students have the computer skills necessary to take the ELPA. For technology skill requirements for students participating in ELPA Summative, see the Oregon Accessibility Manual.

Choosing answers for a student is a test impropriety and will result in an invalid assessment. To avoid improprieties, ensure that all assistants have received test administration and security training and have signed an Assurance of Test Security form for the current school year prior to assisting with administration of the ELPA Summative.

9.3 Exempting Domains for Students on an IEP or 504 Plan

Due to the nature of some students’ disabilities, a student’s IEP or 504 Plan might exempt the student from responding to a particular domain of ELPA Summative (reading, writing, speaking, or listening). For instance, students with a hearing impairment might have an IEP or 504 Plan that exempts them from the listening domain. **As an accommodation, district level users may code ELPA Summative domain exemptions in TIDE.** This accommodation will ensure that the student does not receive any items from the exempted domain when taking ELPA Summative. For students who test with this accommodation, the student’s ELPA Summative score will be generated based on the administered domains.

No four-domain exemptions on ELPA Summative are allowed. Up to a total of three domains may be exempted, but only in very rare and documented circumstances. All
exemptions must be reviewed and documented in the student’s IEP or 504 plan prior to the student beginning ELPA Summative. All cases of domain exemptions on ELPA Summative are subject to monitoring by ODE.

**Note:** This accommodation may only be entered by the DTC or other district level users and must be entered prior to approving the student to start ELPA Summative. Once a student has been approved to start ELPA Summative, the district may no longer set this restricted resource for the student. **Should a TA approve a student to start ELPA without this accommodation in violation of the student’s IEP or 504 Plan, the TA must pause the student’s test immediately and report as an impropriety.** In addition to coding this accommodation in TIDE, districts must also ensure that the student’s IEP code is entered correctly in Student Centered Staging using the ELPA “Only” IEP test administration codes found in Appendix C: Accessing Student Scores Online.

### 9.4 ELPA Administration Procedure

**Students log in**

Some individual students may need additional assistance while logging in. When administering the ELPA Summative, TAs may refer to the “Confirming Student Log-In” Promising Test Administration Practices for suggestions on how to assist students during the student login and verification process without compromising the validity of the assessment.

On the first screen, students enter the Session ID, and their legal first name and SSID. This must match a record in ODE’s Secure Student Identification System, so be sure that the student uses the same first name as appears on the SSID file, not a nickname. If the student is unable to log in, the student will be prompted to try again and provided with a message describing the reason (an invalid SSID for example). If the student is still having difficulty, the TA can look up the correct information in the Student Lookup. Students are only imported in the system if their SSID record has been updated for the current school year. For other problems during the log in process, please contact your Regional ESD Partner.

The second screen calls for verification of student information. TAs should confirm the information for younger students and any other students who may need this assistance. If you agree that the student’s information is incorrect, instruct the student to select “No” to exit the student login.

The student will now see a page indicating the test(s) the student is able to start as determined by the TA (who selects subjects when creating a session). If the session includes multiple subjects, the student must choose the appropriate test from those listed.

**Approving Students for Testing**

After students log in, the TA must verify that these are the correct students to take the test are identified and approve the students’ login requests. The upper right corner of the TAs screen will always display a list of students who are awaiting approval at any time. Please make sure the correct student has logged in.

The TA should monitor the student’s selection when sessions are open to multiple subjects. Before approving students to test, TAs must review the student’s test settings to ensure they are correct.

Once students begin appearing in the preview box, the TA can click [Approvals (#)] to open the Approvals pop-up window, shown below. Review each student’s test settings and edit as necessary. The TA can either click the green checkmark to approve each individual student (recommended) or,
when you are satisfied that all students in the list can be approved, click [Approve All Students].

**Reminder:** If any student’s test settings are incorrect, do NOT approve that student.

After the TA approves students, a reminder to verify that their test subject and test settings are correct should be provided. **Remember, once a student starts a test opportunity, test settings may not be changed for that test.**

Prior to testing, TAs should verify that computers used for the ELPA Summative test are equipped with the correct headsets (those recommended by ODE). Specific attention should be given to make sure that students are not using personal headphones. After verifying test subject and settings, the student will walk through a few simple steps to ensure that the headphones and microphone are working properly. If the student is having trouble, check the placement of the headphones and microphone and try the test again. If there is still trouble, check the connection of the headphones and microphone to the computer. Finally, if the system still does not work, contact your [Regional ESD Partner].

Each student will be logging in at a different time. Monitor the sessions and log in all students who are currently ready before assisting any students who are having problems.

**Monitoring Testing**

Once students have started their tests, circulate through the room to ensure that all conditions of test security are maintained in compliance with *Section 2 Test Security*. If you witness or suspect the possibility of a test impropriety, contact your STC and DTC immediately.

Please be aware that all students approach test taking differently, and even though a student may appear to be daydreaming, that student may actually be mentally working through a test item. Interactions between a TA and a student during testing must be kept to a minimum. Before approaching a student to remind the student to stay on task, be sure to consider that student’s individual needs and test-taking style.

The TA may also use the TA Interface to view the testing progress of any student. This site will not show test items or scores but will show how many items have been delivered to each student (e.g., question 24 of 40).

**“Too Soft” Recording Warning** When students record their speaking responses, a “too soft” warning may appear on the student’s screen. If this warning appears, the TA may instruct the student to listen to their recording to make sure the student can clearly hear their response. If the student has trouble hearing their response, either because the recording was too quiet or because of other distortions in the recording, have the student re-record their answer. If the recording sounds fine, instruct the student to click ok and move to the next test item. **The student does not need to re-record their answer if it sounds okay when they listen to it.**
End the test session and log out of the TA Site.

When there are approximately five minutes left for the test session, give students a brief warning. If the student selects PAUSE, the test session can be resumed at any time within 45 calendar days; after 45 calendar days the test record is expired and the opportunity is lost. When the student logs back in, they will only be able to review and change responses to all items previously presented in the assessment.

After answering the last item in each segment, each student is presented with a screen prompting students to review their answers (marked and unmarked) for all items presented to the student in that segment or to end the test. Tests can no longer be paused after the last question has been presented.

After answering the last question, students must end their test. If students would like to review their answers before ending their test, they do so by clicking [REVIEW MY ANSWERS] and then [SUBMIT TEST] once they are done reviewing. Once a student clicks [SUBMIT TEST], the student will not be able to review answers.

Once students have completed testing, the TA is responsible for closing out the testing session. Be sure students successfully log off from the secure browser, and also be sure to log out of your session AND close the browser used for monitoring the session. Collect any scratch paper or printed test materials for secure destruction consistent with Section 2 Test Security.

9.5 Student Directions for ELPA Summative Administration

To ensure that students understand which test they are taking and correctly log in to the proper test, it is important that TAs review these directions with students prior to testing. The directions are organized into the following stages: student directions for taking the test, full log-in directions, paraphrased log-in directions, and student directions during testing, and directions for ending the test. For ELPA Summative, each stage of directions is provided in a simplified version for Kindergarteners and 1st grade students as well as a standard version for students in grades 2 – 12. Once students are comfortable with the log-in process, TAs may substitute the paraphrased log-in directions for the full log-in directions for subsequent test administrations. However, TAs should remain attentive to the needs of individual students who are new to the ELPA Summative or who may continue to benefit from having the full log-in directions read to them at the start of each testing event. Translated Spanish student directions appear beginning on p. 76. (Note: The directions below may be translated to the student’s language of origin and will count as a standard administration.)
All directions that you are to read to students are in boxes so they stand out from the regular text. Read these directions exactly as they are written, using a natural tone and manner. If you make a mistake in reading a direction, stop and say, “I made a mistake. Listen again.” Then read the direction again.

*Note:* There are simplified K-1 student directions that TAs must read for Kindergarteners and 1st grade students.

**Student Directions (English)**

**Simplified K-1 Student Directions for Taking the Online Test**

To maintain test security and avoid student coaching, TAs must read the script below verbatim to Kindergarteners and 1st grade students prior to having students log into the test.

Today, you will take a test called the ELPA Summative. You will be given a test session ID to start the test. Before logging in, let’s go over some test rules.

You must answer each question on the screen before going to the next one. Give what you think is the best answer, even if you are not sure. If you aren’t sure, you can mark it to review later. During this testing time, you can always go back and change your answers. Click NEXT to go to the next question.

You can pause the test by clicking PAUSE, but remember to ask permission first. Please raise your hand if you need a break during the test.

Your answers need to be only your work. Keep your eyes on your own test, and remember, no talking during the test.

**Grade 2 – 12 Student Directions for Taking the Test**

To maintain test security and avoid student coaching, TAs must read the script below verbatim to students in grades 2 – 12 prior to having students log into the test.

Today, you will take an assessment in English Language Proficiency (ELPA). You will be given a test session ID that is required to start the test. Before logging in, let’s go over some test rules.

You must answer each question on the screen before going on to the next one. Go ahead and provide what you think is the best answer even if you are unsure and mark it before going on to the next question if you would like to review that answer at a later time. You may go back and change the answer during this test session.

You may pause at any point in the test by clicking PAUSE rather than NEXT after answering an item. Please raise your hand if you need a break and ask permission before clicking PAUSE.

Your answers need to be your own work. Please keep your eyes on your own test and remember, there should be no talking. If you have any device that could access the Internet, please raise your hand and I will come and collect it before the test begins.
Speaking Recording “Too Soft” Reminder

When you record your speaking responses, a “too soft” warning may appear on your screen. If this warning appears, please listen to your recording to make sure you can clearly hear your response. If you have trouble hearing your response, please re-record your answer. If your recording sounds fine, click ok and move to the next test item. You do not need to re-record your answer if it sounds okay when you listen to it.

Simplified K – 1 Full Online Log-In Directions

Now let’s log in. Enter your legal first name, then your SSID number. Then type the test session ID. Raise your hand if you need help typing this information.

Now click “Sign In.” You should see a screen with your first name and other information about you. If all of the information on your screen is correct, select YES to continue. If any of the information is incorrect, please raise your hand and show me what is incorrect.

On the next screen, select “ELPA”. Please wait quietly while I verify each of your tests. After I approve you to begin testing, you will see an instructions and help screen. You will be able to view a help guide and your test settings. If any settings are incorrect, please raise your hand.

Now we will test the microphone. Follow along with me. First, click the microphone button to begin recording, and say your name. Click the red stop button to stop recording.

Now press the green volume button to listen to your recording. If you hear your voice clearly, press YES. If you do not hear your voice, press PROBLEM (NO), and raise your hand for help.

When you are ready to begin your test, click BEGIN TEST NOW at the bottom of the page.
Grade 2 – 12 Full Log-In Directions

Now we are ready to log in. Once you have logged in, you will have to wait for me to approve the test before you start. I’ll be checking that you have correctly entered the test session ID and other information.

Enter your legal first name, not your nickname, followed by your SSID number. Then enter the test session ID. Raise your hand if you need help typing this information on your keyboard.

Now click “Sign In.” Once you have successfully logged in, you will see a screen with your first name and other information about you. If all of the information on your screen is correct, select YES to continue. If any of the information is incorrect, please raise your hand and show me what is incorrect.

On the next screen, select “ELPA.” After you have selected your test, you will see a screen with a moving bar and message saying that you are waiting for Test Administrator approval. Please wait quietly while I verify each of your tests.

After I approve you to begin testing, you will see an instructions and help screen. You will be able to view a help guide and your test settings. If any settings are incorrect, please raise your hand.

Next you should see a screen that prompts you to verify that the video and sound on your computer is working. Put your headsets on and click the play button on the screen. If you hear the chime and see the video on the screen, select YES. If not, raise your hand.

Now we will test the microphone. First, press the microphone button to begin recording, and clearly say your name into the microphone. When you are done, press the red stop button to stop recording.

Now press the green volume button to listen to your recording. If you hear your voice clearly, press YES. If you do not hear your voice, press PROBLEM (NO), and raise your hand for help. I will be around shortly to assist you.

When you are ready to begin your test, click BEGIN TEST NOW at the bottom of the page.

Paraphrased Log-in Directions (all Grades K-12)

Now we are ready to log in. Enter your legal first name, not your nickname, followed by your SSID number. Then enter the Session ID.

Now click “Sign In.” Make sure that your personal information on the next screen is correct and click YES to continue.

On the next screen, select “ELPA.”
After I approve you to begin testing, make sure that you have the right test and settings. If any of the test information is incorrect, please raise your hand.

Next you should see a screen that prompts you to verify that the video and sound on your computer is working. Put your headsets on and click the play button on the screen. If you hear the chime and see the video on the screen, select YES. If not, raise your hand.

On the next screen, you will check the microphone. If you can’t hear your recording, please raise your hand.

When you are ready to begin your test, click BEGIN TEST NOW at the bottom of the page.

**Student Directions During the Test**

If you notice that a student is off task, you may say the following statement to the student, *verbatim*.

> It is important that you do your best. Do you need to pause the test and take a break?

If a student is concerned about an item, you may direct the student to enter the concern in Online Comments by reading the script below *verbatim*.

> Try your best and choose the answer that makes the most sense to you. If you are unsure about how a question works, you can review a tutorial by clicking on the “i” button available through the dropdown menu on the right side of the screen. You can send a comment about this item if you wish by clicking on the comment button also available through the dropdown menu.

If during the Speaking segment a student receives a pop-up warning that their response may have been too soft, the TA may instruct the student in reviewing their response and determining whether they need to re-record by reading the script below *verbatim*.

> Please listen to your recording to make sure you can clearly hear your response. If you have trouble hearing your response, you can re-record your answer. If your recording sounds fine, click ok and move to the next test item. **You do not need to re-record your answer if it sounds okay when you listen to it.**

**Directions for Ending the Test Session**

We are nearing the end of this testing period. Please finish the question you are working on now and do not start another one.

If you need additional time let me know.
This test session is now over. If you have not finished, click PAUSE, and you will be able to finish at another time.

If you have answered all the questions on your test and have finished reviewing your answers, click END TEST. You will be asked to confirm that you are ready to submit your test. Click yes, and after reviewing any marked answers, click SUBMIT TEST. I will now collect any scratch paper or other materials.

Student Directions (Spanish)

Simplified K-1 Student Directions for Taking the Online Test

To maintain test security and avoid student coaching, TAs must read the script below verbatim to Kindergarten and 1st grade students prior to having students log into the test.

Hoy tomará una evaluación llamada ELPA Sumativo. Se le dará una identificación de la sesión del examen para comenzar el examen. Antes de ingresar al sistema, vamos a repasar algunas reglas del examen.

Debe responder a cada pregunta en la pantalla antes de continuar con la siguiente. Dé la respuesta que usted crea que es la mejor, aunque no esté seguro. Si no está seguro, puede marcarla para revisarla después. Durante este tiempo de examen, puede regresar y cambiar sus respuestas. Haga clic en NEXT para la siguiente pregunta.

Usted puede ponerle pausa al examen haciendo clic en PAUSE, pero recuerde primero pedir permiso. Por favor levante su mano si necesita tomar un descanso durante el examen.

Su respuesta debe ser solamente su trabajo. Mantenga sus ojos en su propio examen y recuerde, no se permite hablar durante el examen.

Grade 2 – 12 Student Directions for Taking the Test

To maintain test security and avoid student coaching, TAs must read the script below verbatim students in grades 2 – 12 prior to having students log into the test.

Hoy tomará una evaluación en el Dominio del Idioma Inglés (ELPA). Se le dará una identificación de la sesión del examen, que es requerida para comenzar el examen. Antes de ingresar al sistema, vamos a repasar algunas reglas del examen.

Usted debe responder a cada pregunta en la pantalla antes de continuar con la siguiente. Dé su mejor respuesta, aunque no esté seguro y márquela antes de pasar a la siguiente pregunta si desea revisar esa respuesta después. Usted puede regresar y cambiar la respuesta durante esta sesión del examen.

Puede hacer una pausa en cualquier momento del examen haciendo clic en PAUSE en lugar de NEXT después de responder a una pregunta. Por favor levante su mano si necesita un descanso y pida permiso antes de hacer clic en PAUSE.
Sus respuestas deben ser su propio trabajo. Por favor mantenga sus ojos en su propio examen y recuerde que no debe hablar. Si tiene cualquier dispositivo que pueda acceder a internet, por favor levante la mano y pasarlo a recogerlo antes de que comience el examen.

**Speaking Recording “Too Soft” Reminder**

Cuando graba su respuesta hablada, una advertencia de “too soft” (demasiado suave) puede aparecer en su pantalla. Si aparece esta advertencia, por favor escuche su grabación para asegurarse que está bien. Si tiene problemas escuchando su respuesta, por favor vuelva a grabar su respuesta. Si su grabación se escucha bien, haga clic en OK y pase a la siguiente pregunta del examen. **No necesita volver a grabar su respuesta si al escucharla suena bien.**

**Simplified K – 1 Full Online Log-In Directions**

Ahora vamos a iniciar la sesión. Escriba su nombre legal, luego su número de SSID. Luego escriba la identificación de la sesión del examen. Levante la mano si necesita ayuda para escribir esta información.

Ahora haga clic en “Sign In”. Usted debe ver una pantalla con su nombre y otra información sobre usted. Si toda la información en su pantalla es correcta, seleccione YES para continuar. Si alguna de la información es incorrecta, por favor levante su mano y muéstrame lo que está incorrecto.

En la próxima pantalla, seleccione “ELPA.” Por favor espere en silencio mientras verifico cada uno de sus exámenes.

Después de que apruebe su examen, usted verá una pantalla de ayuda. Podrá ver una guía de ayuda y su prueba. Si alguna configuración es incorrecta, por favor levante su mano.

Ahora vamos a probar el micrófono. Siga junto conmigo. Primero, haga clic en el botón del micrófono para comenzar a grabar y diga su nombre. Haga clic en el botón rojo para detener la grabación.

Ahora presione el botón verde de la bocina para escuchar su grabación. Si escucha su voz claramente, presione YES. Si no escucha su voz, presione PROBLEM (NO), y levante su mano para pedir ayuda.

Cuando está listo para comenzar el examen, haga clic en BEGIN TEST NOW en la parte inferior de la página.

**Grade 2 – 12 Full Log-In Directions**

Ahora estamos listos para iniciar la sesión. Una vez que haya iniciado la sesión, tendrá que esperar a que yo apruebe el examen antes de que empiece. Voy a revisar que haya ingresado correctamente la identificación de la sesión del examen y otra información.
Ingrese su nombre legal, no su apodo, seguido por el número de SSID. Luego ingrese la identificación de la sesión del examen. Levante la mano si necesita ayuda para escribir esta información en su teclado.

Ahora haga clic en “Sign In”. Una vez que haya iniciado su sesión exitosamente, verá una pantalla con su nombre y otra información sobre usted. Si toda la información en su pantalla es correcta, seleccione YES para continuar. Si cualquiera de la información es incorrecta, por favor levante su mano y muéstreme lo que está incorrecto.

En la siguiente pantalla, seleccione “ELPA.” Después de seleccionar su examen, verá una pantalla con una barra en movimiento y un mensaje diciendo que está esperando por la aprobación del Administrador del Examen. Por favor espere en silencio mientras verifico cada uno de sus exámenes.

Después de que apruebe dar inicio a su examen, usted verá instrucciones de pantalla de ayuda. Podrá ver una guía de ayuda y su prueba. Si alguna configuración es incorrecto, por favor levante la mano.

A continuación, debe ver una pantalla que le pide que verifique que el video y el sonido en su computadora están funcionando. Póngase los audífonos y haga clic en el botón de reproducción en la pantalla. Si escucha un sonido y ve el video en la pantalla, seleccione YES. Si no, levante su mano.

Ahora vamos a probar el micrófono. Primero, oprima el botón del micrófono para comenzar a grabar y diga claramente su nombre en el micrófono. Cuando termine, oprima el botón rojo debajo del micrófono para detener la grabación.

Ahora presione el botón verde del volumen para escuchar su grabación. Si escucha su voz claramente, presione YES. Si no escucha su voz, presione PROBLEM (NO), y levante su mano para pedir ayuda. En breve pasaré por ahí para ayudarle.

Cuando está listo para comenzar el examen, haga clic en BEGIN TEST NOW en la parte inferior de la página.

**Paraphrased Log-in Directions (all Grades K-12)**

Ahora estamos listos para iniciar la sesión. Ingrese su nombre legal, no su apodo, seguido de su número de identificación SSID. Luego ingrese la identificación de la sesión del examen.

Ahora haga clic en “Sign In”. Asegúrese de que su información personal en la próxima pantalla esta correcta y haga clic en YES para continuar.

En la próxima pantalla, seleccione “ELPA.”

Después de que yo lo apruebe para que comience el examen, asegúrese de que tiene el examen correcto y la configuración. Si cualquier información del examen es incorrecta, por favor levante su mano.
A continuación, debe ver una pantalla que le pide que verifique que el video y el sonido en su computadora están funcionando. Póngase los audífonos y haga clic en el botón de reproducción en la pantalla. Si escucha un sonido y ve el video en la pantalla, seleccione YES. Si no, levante su mano.

En la siguiente pantalla usted verificará el micrófono. Si usted no puede escuchar su grabación, por favor levante su mano.

Cuando está listo para comenzar el examen, haga clic en BEGIN TEST NOW en la parte inferior de la página.

Student Directions During the Test

If you notice that a student is off task, you may say the following statement to the student, verbatim.

Es importante que haga lo mejor posible. ¿Necesita hacer una pausa en el examen y tomar un descanso?

If a student is concerned about an item, you may direct the student to enter the concern in Online Comments by reading the script below verbatim.

Haga su mejor esfuerzo y elija la respuesta que tenga más sentido para usted. Si no está seguro acerca de cómo funciona una pregunta, usted puede revisar un tutorial haciendo clic en el botón “i” disponible a través del menú desplegable del lado derecho de la pantalla. Si lo desea, puede enviar un comentario acerca de esta pregunta haciendo clic en el botón de comentario también disponible a través del menú desplegable.
If during the Speaking segment a student receives a pop-up warning that their response may have been too soft, you may instruct the student in reviewing their response and determining whether they need to re-record by reading the script below **verbatim**.

**Por favor escuche su grabación para asegurarse que está bien. Si tiene problemas escuchando su respuesta, usted puede volver a grabar su respuesta. Si su grabación se escucha bien, haga clic en ok y pase a la siguiente pregunta del examen. No necesita volver a grabar su respuesta si al escucharla suena bien.**

**Directions for Ending the Test Session**

Nos estamos acercando al final de esta sesión. Por favor termine la pregunta que está trabajando ahora y no empiece otro.

Si necesita más tiempo, hágamelo saber.

Esta sesión del examen ha terminado. Si no ha terminado, haga clic en PAUSE, y podrá terminar en otro momento.

Si ha contestado a todas las preguntas en su examen y ha terminado de revisar sus respuestas, haga clic en END TEST. Se le pedirá que confirme que usted está listo para enviar su examen. Haga clic en yes, y después de revisar cualquier respuesta marcada, haga clic en SUBMIT TEST. Ahora voy a recoger el papel borrador u otros materiales.

### 9.6 Testing Over Multiple Sessions or Days

Some students may be best served by sequential, uninterrupted time that may exceed the time in a student’s schedule. If you intend to administer the test over the course of multiple days for a student or group of students, it may be important for all of the students to pause after they reach a designated point. In those cases, the TA should give the students clear directions on when to pause. For example, TAs may designate a certain amount of time for testing. This guidance may be written on a dry-erase board, chalkboard, or another place that students can easily see. Students will receive a notification when they reach the end of the session.

When testing is resumed on a subsequent day, the TA will need to start a new test session and provide a new session ID.

### 9.7 Following Test Administration

**Maintaining Security of Assessment Materials and Student Responses**

To ensure the security of Oregon’s assessment materials and student confidentiality, all assessment materials and student response data must be kept secure in accordance with **Section 2 Test Security**. If there are any questions about secure materials, contact your DTC. If the DTC is unsure of the answer, your question will be forwarded to your Regional ESD Partner.

**Destroying Test Materials**

Federal law—the Family Educational Rights and Privacy Act—prohibits the release of any student’s personally identifiable information. Any printouts must be securely stored and then shredded.
As a reminder, those test materials identified in Section 2 Test Security must be securely shredded after the student has completed the test item. If items must be stored over more than a single test session, all materials must be securely stored.

**Reporting Test Improprieties and Irregularities**

Ensure that all test improprieties and irregularities are reported in accordance with the guidelines in Section 3.6 Reporting Test Improprieties and Irregularities.

### 9.8 2018-19 ELPA Summative Data Delivery Schedule

**Batch 4 date dependent upon volume of tests in the batch. If volume is high, batch delivery to districts could be delayed.
10.0 ADMINISTERING THE KINDERGARTEN ASSESSMENT

Note: This section is required for all TAs administering the Kindergarten Assessment; it includes administration procedures only. Please reference the Operational Assessor Booklet for verbatim student directions.

10.1 Overview

Oregon’s Kindergarten Assessment is an assessment of entering kindergarteners’ skills in early literacy, early math, and approaches to learning (self-regulation and inter-personal skills). Each year children enter kindergarten with a wide range of experiences and skills. The Kindergarten Assessment is not intended to measure everything a child knows; it is designed to be a quick assessment of particular skills that have relationships with third grade reading and future academic success (Credé & Kuncel, 2008, Duncan et al., 2007; Hattie, 2009; Morris, Bloodgood & Perney, 2003; Richardson, Abraham & Bond, 2012; Snow & Oh, 2010).

The Kindergarten Assessment is administered within the first six weeks of kindergarten because it is designed to measure what students know and can do upon entering kindergarten, not what they have learned in kindergarten. By providing a statewide perspective of children’s skills upon kindergarten entry, the Kindergarten Assessment allows educators to track trends and measure progress improvements over time, and helps ensure every child has a successful start in school. To this end, the following goals form the foundation of Oregon’s Kindergarten Assessment.

1. Provide local and statewide information that gives families, schools, communities, and state-level policy makers a snapshot of the social, self-regulatory, and academic skills of incoming kindergartners.

2. Provide a consistent, statewide tool for identifying systemic opportunity gaps, determining Early Learning resource allocation to best support students in need, and measure improvement over time.

The Kindergarten Assessment is a non-secure assessment. This means that schools and teachers may use the data collected through the Kindergarten Assessment in real time to inform instructional strategies for their incoming Kindergarten classes without needing to wait for the official Kindergarten Assessment results released by ODE (typically published in February). However, to protect the validity and confidentiality of student responses to the Kindergarten Assessment, anyone who will be involved in either administering the Kindergarten Assessment or handling confidential student responses must sign a Kindergarten Assessment Assurance form (see Appendix D: Assurance of Test Security Forms).

The Kindergarten Assessment is not intended to be a comprehensive assessment of children’s readiness for school and should not be used for placement purposes. The Kindergarten Assessment should not be used to exclude or prevent children from starting kindergarten.

While the assessment is not considered secure, it is still essential that the test be administered in a standardized manner across all students to ensure that the assessment results are valid and accurately reflect what our incoming Kindergarteners know and can do upon entering kindergarten. To support districts in implementing the assessment and to ensure valid assessment results, ODE provides specialized Kindergarten Assessment training. For a schedule of ODE-provided training opportunities, required for all DTCs and STCs with schools supporting Kindergarten programs and for all Kindergarten Assessment TAs, please refer to Section 1.5 Training Requirements.
Additional information and resources for the Kindergarten Assessment can be found on ODE’s Kindergarten Assessment webpage and the Early Learning System website.

10.2 Ordering the Kindergarten Assessment

The Kindergarten Assessment is a paper-based assessment that is packaged by school, and distributed to districts. The test materials include:

- Approaches to Learning Scoresheet
  - Form used to capture teacher’s observation
- Operational Assessor Booklet
  - Test administration procedures, verbatim student directions, and scoring protocols for Early Literacy, Early Math, and Approaches to Learning
  - Verbatim student directions are provided in both English and Spanish as a designed support;
- Operational Scoresheet
  - Form used to capture student responses to the Early Literacy and Early Math measures;
- Student Booklet
  - There is one Student Booklet with Early Literacy (English Upper and Lowercase Letter Names and Letter Sound Recognition) and Early Math.

Districts order Kindergarten materials by school in TIDE based on anticipated Kindergarten enrollment; ODE has pre-calculated the anticipated number of students based on schools’ 2017-18 Kindergarten enrollment. For additional details and instructions on how to place your district’s order, please refer to the TIDE User Guide.

The 2018-19 Kindergarten Assessment order window is May 24 – June 28, 2018. When placing your order, districts will need to specify one of two delivery windows: either July 31-August 3, 2018 (to arrive prior to the start of the statewide test window on August 7, 2018) or August 21 – 24, 2018 (to arrive prior to September 1, 2018). The default delivery window for all districts has been set to August 21 – 24, 2018. Your Regional ESD Partner is available to assist you with the order process.

10.3 Preparing to Administer the Kindergarten Assessment

⚠️ The following steps must be taken prior to administering the Kindergarten Assessment:

1. Identify accessibility supports for individual students.
   - Review the Oregon Accessibility Manual for the universal tools, designated supports, and accommodations that are available for the Kindergarten Assessment.
   - Review the student’s IEP or education plan, if applicable, for assessment accessibility options.

2. Locate student information, including:
   - Secure Student Identifier (SSID) if assigned by your district at the time of administration
   - Student’s legal name

3. It is highly recommended that the TA and student have some level of familiarity prior to assessment administration. The TA is encouraged to develop a rapport with each student prior to administering the assessment.
Prior to administration of the assessment, TAs can introduce themselves, ask simple questions, or tell a story so the child is more comfortable during the assessment.

10.4 Components of the Kindergarten Assessment

The Kindergarten Assessment consists of three segments. All segments must be administered within the first six weeks of a student’s entry into kindergarten:

Early Literacy

- A direct assessment conducted one-on-one between the student and a trained TA who has received Kindergarten Assessment Training for the current school year.
- Measures the student’s early literacy skills in English Letter Name Recognition and English Letter Sound Recognition.
- The Early Literacy segment must be administered during the first three weeks of the testing window to accurately capture what students know and are able to do prior to the start of kindergarten instruction.

Early Math

- A direct assessment conducted one-on-one between the student and a TA who has received Kindergarten Assessment Training for the current school year.
- Measures the student’s early math skills in Counting and Cardinality, Operations and Algebraic Thinking, Measurement and Data, and Geometry.
- If a student’s Home Language Survey is marked as an English Learner (EL) with a language of origin other than Spanish, a local translator who is trained and endorsed by the district may provide a written translation of the directions in the student’s language of origin in advance of test administration. This written translation may then be used during test administration to present the translated directions to the student aurally. Please reference the Oregon Accessibility Manual for more information about this Designated Support. If the student appears to verbalize in a language other than English, the TA may ask the student to point to the student’s chosen answer.
- The Early Math segment must be administered during the first three weeks of the testing window to most accurately capture what students know and are able to do prior to the start of kindergarten instruction.

Approaches to Learning

- Is an observational assessment completed by the student’s teacher after receiving Kindergarten Assessment training for the current school year. Section 1.5: Training Requirements offers additional information about abbreviated training requirements for kindergarten teachers administering only the Approaches to Learning measure.
- Measures the student’s self-regulation and interpersonal skills.
- Must be administered during week three to week six of the test window after the teacher has had an opportunity to observe the student multiple times during regular classroom routines and activities.
10.5 Establishing Appropriate Testing Conditions

To help ensure valid and reliable results, test administrators must adhere to the following procedures:

- Ensure that the Kindergarten Assessment is only administered by personnel who have met the training requirements described in Section 1.5 Training Requirements for the current school year.

- Parents or guardians may request to observe their child during the assessment, and it may be comforting for some students to have their parents in close proximity during the assessment. **However, adults other than the trained test administrator may not interact with the student during test administration. Such interactions would be considered a test impropriety and may jeopardize the validity of the assessment results.**

- Examine the environment for non-allowable resources. Only those resources identified in the Oregon Accessibility Manual as a universal tool, designated support, or accommodation for the Kindergarten Assessment may be available for student access during testing.

- At the time of testing, help the students to familiarize themselves with the Early Literacy and Math measure formats by completing the sample measures in the Student Booklet.

- Given the heightened level of required interaction between the student and the TA, TAs must be especially vigilant to avoid coaching students to protect the validity of the assessment results; however, it is important for the TA to be encouraging. To avoid coaching, the Assessor Booklet contains specific language that TAs may say to students who appear to be confused or struggling.

- Review the directions included in the Assessor Booklet prior to administering the assessment. Read the directions included in the Assessor Booklet to students verbatim (these are the **ONLY** instructions you may give to students).

10.6 Kindergarten Assessment Administration Procedure

**Segment One: Early Literacy**

The Early Literacy segment includes two **untimed** measures for all students: English Letter Name Recognition and English Letter Sound Recognition. ODE does not prescribe a sequence for administering the Kindergarten Assessment segments; however, it is considered best practice to administer Early Literacy as follows: (1) English Letter Name Recognition and (2) English Letter Sound Recognition. You may wish to break up the assessment into shorter sessions (for example, administering just one measure in a sitting), which may make the experience less stressful for entering kindergarteners.

**English Uppercase Letter Name Recognition (Measure 4): Administration and Scoring Procedures**

- Place the Student Copy “English Uppercase Letter Name Recognition” chart in front of the student.

- Point to sample item #1.

- Read the sample item directions in the Assessor Booklet verbatim to the student.

- Do not provide feedback to the student on the sample item.

- Read the directions in the Assessor Booklet verbatim to the student.
• The TA may point to each letter or redirect the student if they lose their place.
• Put a slash through any skipped or incorrect letter name on the Operational Scoresheet.
• Enter the number of correct letters on the Operational Scoresheet.

English Lowercase Letter Name Recognition (Measure 5): Administration and Scoring Procedures
• Place the Student Copy “English Lowercase Letter Name Recognition” chart in front of the student.
• Point to sample item #2.
• Read the sample item directions in the Assessor Booklet verbatim to the student.
• Do not provide feedback to the student on the sample item.
• Read the directions in the Assessor Booklet verbatim to the student.
• The TA may point to each letter or redirect the student if they lose their place.
• Put a slash through any skipped or incorrect letter name on the Operational Scoresheet.
• Enter the number of correct letters on the Operational Scoresheet.

English Letter Sound Recognition (Measure 6): Administration and Scoring Procedures
• Place the Student Copy “English Letter Sound Recognition” chart in front of the student.
• Point to sample item #3.
• Read the sample item directions in the Assessor Booklet verbatim to the student.
• Do not provide feedback to the student on the sample item.
• Read the directions in the Assessor Booklet verbatim to the student.
• The TA may point to each letter pair or redirect the student if they lose their place.
• Put a slash through any skipped or incorrect letter sound on the Operational Scoresheet.
• Enter the number of correct letter sounds on the Operational Scoresheet.

Segment Two: Early Math

Early Math: Procedures
• This is not a timed assessment.
• Place the Student Copy of the “Early Math” measure in front of the student.
• Directions for the test administrator are in the Assessor Booklet. Read the directions verbatim and demonstrate the procedure to the student exactly as indicated in the Assessor Booklet.
• The TA may not read numbers or symbols to students.

Early Math: Recording Student Responses
• Circle the answer the student selects for each item in the Operational Scoresheet.
• If the student does not know the answer or does not want to select an answer, select NA (no answer) on the Operational Scoresheet and go to the next item.
• Verbal or pointed responses are accepted in the Early Math measure. If the student:
Verbalizes their answer and doesn’t point, the verbalized answer is accepted.
  - If the student verbalizes in either English or Spanish, or both intermittently, the bilingual answers are accepted.
  - Students who have not selected Spanish on their Home Language Survey will be given the directions in English and may only provide a verbal response in English only and/or print.

Points to an answer and doesn’t verbalize, the pointed answer is accepted.

Verbalizes an answer and points to a different answer, prompt the student one time to point to their final answer; the pointed answer is accepted.

Verbalizes an answer in a language other than English, prompt the student to point to their final answer.

Verbalizes a response option not listed, mark the response as NA on the Operational Scoresheet.

For students who would benefit, the Oregon Accessibility Manual for the Kindergarten Assessment identifies additional non-verbal means by which students may communicate their response.

Students can self-correct. It is allowable for students to return to a previous item and change an answer.

**Segment Three: Approaches to Learning**

- The focus of this instrument is to measure a child’s behavior with other children and adults in the classroom and the child’s interaction with classroom materials.

- This assessment should only be completed by the student’s kindergarten classroom teacher who interacts daily with the child.

- This assessment involves teachers’ perceptions of students’ behavior; therefore, it is important for the teacher conducting the assessment to closely follow the protocols for administering Approaches to Learning.

- Assessor Directions for the Approaches to Learning measure are included in the Assessor Booklet.

- Complete all 15 items on this instrument for each child on the Approaches to Learning Scoresheet,
  1) You may choose to rate all of the students in your classroom one item at a time. For example, you may rate all students on the first item, then all students on the second item, etc.

Or,

  2) You may rate one student on all 15 items before moving on to rate the next student, etc.

- Record the response number that best indicates how frequently the child exhibits the behavior described in a particular item. **Only whole numbers are acceptable values.**

- The response numbers indicate the following:
  1. The child **never** exhibits the behavior described by the item.
  2. The child **rarely** exhibits the behavior described by the item.
  3. The child **sometimes** exhibits the behavior described by the item.
4. The child frequently or usually exhibits the behavior described by the item.
5. The child always exhibits the behavior described by the item.
6. Note: if a behavior was not observed, you may indicate with a 6 on that particular item.

**Cultural Responsiveness:** When administering the Approaches to Learning measure, it is important to keep in mind a child’s cultural background and history, recognizing that students enter kindergarten with different experiences.

Geneva Gay (2000; 2010) defines culturally responsive teaching as the implicit use of the cultural knowledge, prior experiences, frames of reference, and performance styles of diverse students to make learning more appropriate and effective for them. Culturally responsive pedagogy should include the following characteristics:

- Acknowledge the legitimacy of the cultural heritages of different ethnic groups, both as legacies that affect students’ dispositions, attitudes, and approaches to learning and as worthy content to be taught in the formal curriculum.
- Builds bridges of meaningfulness between home and school experiences as well as between academic abstractions and lived sociocultural realities.
- Uses a wide variety of instructional strategies that are connected to different learning styles.
- Teaches students to know and praise their own and each other’s cultural heritages.
- Incorporates multicultural information, resources, and materials in all subjects and skills routinely taught in schools.

**10.7 Following Test Administration**

*Maintaining Confidentiality of Student Responses*

To ensure student confidentiality, all student response data and teacher ratings of students must be kept secure in accordance with **Section 2.5 Student Confidentiality**. If there are any questions about handling secure student information, contact your DTC. If the DTC is unsure of the answer, your question will be forwarded to your Regional ESD Partner.

Federal law—the Family Educational Rights and Privacy Act—prohibits the release of any student’s personally identifiable information. Any printouts must be securely stored and then shredded.

*Reporting Test Improprieties and Irregularities*

Ensure that all test improprieties and irregularities are reported in accordance with the guidelines in **Section 3.6 Reporting Test Improprieties and Irregularities** in this manual.

**10.8 Kindergarten Assessment Data Submission and Reporting**

*Submitting Student Data*

Following administration of the Kindergarten Assessment, districts will electronically submit:

- The number of correct responses for each of the Early Literacy segment measures (English Uppercase and Lowercase Letter Name Recognition, and English Letter Sound Recognition)
- The student’s response (A, B, C, or N) for each of the sixteen items in the Early Math segment, and
- Teacher-generated ratings (1, 2, 3, 4, 5, or 6) for the fifteen items in the Approaches to Learning segment.
Kindergarten Assessment data are submitted to ODE through ODE’s Consolidated Collections. Optional training for the Kindergarten Assessment Consolidated Collections will be available on August 23 and September 20, 2018. Districts will have the option to either enter data for individual students through a web-based data entry screen or through a mass upload process. Authorized district staff may submit the student data, including teachers, test administrators, or other school- or district-level staff. In order for staff to submit data, the district security administrator must first create user accounts for them following the instructions found through the ODE district website.

To ensure that each student’s data are properly submitted to ODE, carefully review each Operational Scoresheet to confirm that the test administrator has completely entered all required information, including student name, SSID, and date administered. If any information is missing or incomplete, please check with the test administrator to add or revise the information as necessary:

- Ensure the student name and SSID on the Operational Scoresheet are consistent with the consolidated student record to which the student response data is being entered.
- Districts may begin entering student response data on August 9, 2018, two days after the administration window opens. As stated in Appendix A, the deadline for submitting Kindergarten Assessment response data is October 29, 2018.

Once student data have been submitted to ODE, districts may retain assessment materials. It is highly encouraged that districts hold onto the assessment materials until after the consolidated collection review window has closed on December 3, 2018. Because the assessment is no longer secure, districts have the option to dispose of assessment materials onsite or keep the materials for their records. If you have any questions about this process, please contact your Regional ESD Partner.

**Kindergarten Assessment Reports**

Users will be able to access the Student Roster reports through the Consolidated Collections Application. The report will be available for use after the data is submitted. For additional information on Kindergarten Assessment Reporting please visit the district Kindergarten Assessment webpage.
11.0 ADMINISTERING OREGON’S EXTENDED ASSESSMENTS

*Note:* This section is required for all TAs administering the Extended Assessments.

11.1 Overview

Oregon’s Extended Assessment (ORExt) is the state’s alternate assessment based on alternate academic achievement standards designed for students with the most significant cognitive disabilities. In Oregon, any student on an IEP whose team decides that this is the most appropriate assessment for the student’s needs may take the ORExt. Two main assessment options exist for students with disabilities: The team may decide (a) the student should be assessed with the General Education Assessment (possibly with accommodations selected from the Oregon Accessibility Manual), or (b) the student should be assessed with the ORExt.

*Note:* *Retesting students at Grade 12.* Due to implications for the Essential Skills graduation requirement, students with disabilities enrolled in grade 12 who participate in Oregon’s Extended Assessment and who did not meet the alternate achievement standard(s) for ELA and/or Mathematics as an enrolled 11th grader are eligible to retake the ORExt in grade 12. While retests are not mandatory, districts should make testing opportunities available for grade 12 students with disabilities who wish to retest, especially those needing to demonstrate proficiency for the Essential Skills graduation requirements.

For the subject areas of ELA, Mathematics, and Science each grade has a unique test per the following: ELA and Mathematics (3, 4, 5, 6, 7, 8, and 11*) and Science (5, 8, and 11*). Tablet, paper-pencil, as well as Braille and Large Print are available ORExt administration options (cf. ODE’s Statewide Alternate (Extended) Assessment webpage.

Annually, ORExt materials will be made available one week prior to the start of the testing window.

For detailed information on administering the ORExt, consult the Oregon Extended Assessment Administration Manual.

The Extended Assessment Manual, as well as additional general and supporting information on the Extended Assessments, is available through ODE’s Statewide Alternate (Extended) Assessment webpage and via the Extended Assessment link through the ODE District Secure Website.

Contact your Regional ESD Partner or the ODE helpdesk at ode.helpdesk@state.or.us or 503-947-5715 for assistance.

11.2 Following Test Administration

*Maintaining Security of Assessment Materials and Student Responses*

To ensure the security of Oregon’s assessment materials and student confidentiality, all assessment materials and student response data must be kept secure in accordance with *Section 2 Test Security.* If there are any questions about secure materials, contact your DTC. If the DTC is unsure of the answer, your question will be forwarded to your Regional ESD Partner.
**Destroying Test Materials**

Federal law—the Family Educational Rights and Privacy Act—prohibits the release of any student’s personally identifiable information. Any printouts must be securely stored and then shredded.

As a reminder, those test materials identified in *Section 2 Test Security* must be securely shredded immediately after student data has been submitted and may not be retained from one test session to the next.

**Reporting Test Improprieties and Irregularities**

Ensure that all test improprieties and irregularities are reported in accordance with the guidelines in *Section 3.6 Reporting Test Improprieties and Irregularities* in this manual.
12.0 ADMINISTERING THE NAEP

The National Assessment of Educational Progress (NAEP) is the largest continuing and nationally representative assessment of what U.S. students know and can do. Since 1969, NAEP has measured academic progress in subjects such as reading, math, science, writing, U.S. history, the arts, and economics. Under federal law, states and school districts that receive Title I-A funds must participate in the state level NAEP assessments of math and reading at grades 4 and 8.

From January 28 – March 8, 2019, NAEP will assess 4th, 8th and 12th grade students selected by the National Center for Education Statistics (NCES) to represent students throughout Oregon and the nation in mathematics, reading, and science assessments. In 2019, NAEP will transition the science assessments at all grade levels and the grade 12 mathematics and reading assessments from paper-pencil to digitally-based assessments administered on NAEP-provided tablets with keyboards. In order to understand how to report trend results for the 2019 science and grade 12 mathematics and reading assessments, NAEP will conduct mode comparability studies. This means that NAEP will administer both digitally-based and paper-pencil assessments in most, but not all, schools selected for the science or grade 12 assessments. In those schools, NAEP will assign students to either a digitally-based or a paper-pencil assessment.

In addition to the mathematics, reading, and science assessments, NAEP will conduct special studies in 2019. The National Indian Education Study will administer surveys to American Indian and Alaska Native students, their teachers, and their school administrators as part of the NAEP state level mathematics and reading assessments at grades 4 and 8. The High School Transcript Study will collect the transcripts of 12th grade NAEP participants at the end of their senior year in order to analyze relationships between course taking and NAEP performance.

The results from NAEP are published as *The Nation’s Report Card.* For 2019, NAEP will report student performance for Oregon and the nation on the 4th and 8th grade mathematics and reading assessments. NAEP will report national results for the science assessment at all grade levels and the 12th grade mathematics and reading assessments. NAEP does not provide results for individual students, schools, or districts in Oregon. The Oregon Department of Education notifies district superintendents and district test coordinators in May if NCES selects district schools for NAEP in the upcoming school year. ODE also informs the principals of selected schools in May. In September, ODE asks the principals of selected schools to name a school coordinator to plan for NAEP. ODE recommends that principals name the school test coordinator (STC) as NAEP school coordinator.

The National Assessment Governing Board and NCES, not the Oregon Department of Education, establish testing procedures and training requirements for NAEP administration. This ensures that testing procedures are the same in every state to provide common measures of student achievement. NAEP will send a team of trained Assessment Administrators to each school selected for NAEP. The team is responsible for providing all NAEP materials and administering the assessment to students. This practice frees up the NAEP assessment time for principals, teachers, and counselors.

ODE works with schools selected for NAEP to prepare for the assessment. Schools participating in NAEP must notify the parents or guardians of the selected students that a student may be excused from participation for any reason, is not required to finish the assessment, and may skip any test question. ODE provides a template letter for schools to use in conducting parent/guardian notification. ODE verifies that each selected school has completed parent/guardian notification before the scheduled NAEP assessment day.
ODE also provides an optional online training for NAEP school coordinators. This training supports the NAEP school coordinators in preparing for the assessment. The NAEP school coordinators must work with school staff members to update demographic data for selected students and to determine how students with disabilities and English Learners will participate in NAEP.

ODE expects that most students with an Individualized Education Program (IEP) and all students with a Section 504 Plan will be included in NAEP. According to National Assessment Governing Board policy, only students with disabilities who meet (or met) participation criteria for the Oregon Extended Assessment may be excluded from NAEP at the discretion of school staff.

ODE expects that most English Learners will be included in NAEP. According to National Assessment Governing Board policy, only English Learners who meet both criteria below may be excluded from NAEP at the discretion of school staff:

- Enrolled in U.S. schools for less than one full academic year before the NAEP assessment, AND
- Cannot access NAEP with allowable accommodations.

Since some students may require accommodations in order to access NAEP and to demonstrate their knowledge and skills, NAEP offers most of the accommodations that Oregon allows. The NAEP 2019 accommodations are described in detail in the Oregon Accessibility Manual. Please keep in mind that NAEP does not produce results for individual students or schools. In other words, the NAEP assessments do not impose consequences for the student or the school and are instead intended to provide a picture of educational performance and progress at the state or national levels.

The NAEP Questions Tool provides teachers, students, and parents with sample questions from previous assessments. Additional NAEP materials, including assessment frameworks; item specifications; and the student, teacher, and school surveys administered along with NAEP are available from the ODE NAEP webpage.

Questions should be directed to Beth LaDuca, NAEP State Coordinator, at beth.laduca@state.or.us or 503-947-5836.
13.0 ADMINISTERING THE PSAT/NMSQT®

This appendix provides information from the College Board about administering the PSAT/NMSQT® to sophomores as provided by ORS 329.488 (2008). The 2007 Legislative Assembly directed the ODE to administer a nationally-normed test for students in grade 10 which would provide information on the student’s readiness for college or advanced-level course work, possible career options, and major areas of study to consider for the future. After issuing a competitive Request For Proposals (RFP), the ODE awarded the contract to the College Board, administrator of the PSAT/NMSQT®.

13.1 Ordering PSAT/ NMSQT® Test Materials

The PSAT/NMSQT® order priority deadline is June 29, 2018. PSAT/NMSQT® 2018 dates:

- Wednesday, October 10, 2018
- Saturday, October 13, 2018
- Wednesday, October 24, 2018

Detailed information on ordering materials and administering the test are available from the College Board. FAQs have been posted to ODE’s Educator Resources webpage.

13.2 Testing Requirements

The PSAT/NMSQT® is an assessment offered in Oregon; however, testing procedures and training requirements for administration of the PSAT/NMSQT® are governed by the College Board and Educational Testing Service, not ODE. While TAs may still refer to the testing procedures included in this manual as best practices when administering the PSAT/NMSQT®, TAs must follow the official PSAT/NMSQT® testing procedures provided by the College Board.

All public high schools must offer students in grade 10 the opportunity to take the PSAT/NMSQT® on one of the testing dates identified in the current year’s Test Schedule located in Appendix A: Test Schedule. By taking the PSAT/NMSQT®, students receive access to the Student Score Reporting Portal, which provides them with summaries of their performance on each test and content area. Online scores show more than just skills they should work on, students also have the opportunity to connect to free, personalized SAT practice on Khan Academy, create their own career roadmap through Roadtrip Nation, and access their AP Potential data. Districts and schools receive enhanced data reports about reading, writing, and math skills.

When taken as a junior (11th grade), the National Merit Scholarship Corporation uses the PSAT/NMSQT® to qualify students for most academic scholarships. While districts may choose to offer the PSAT/NMSQT® to additional students in grades other than grade 10, districts should note that the state will only fund PSAT/NMSQT® testing for students in grade 10. Should the district choose to test additional students, the district must test those students on the same day as the grade 10 students in their building.

The College Board provides fee waivers for low income juniors. While free and reduced lunch qualification is the criteria, the College Board recognizes that school officials are in the best position to assess a student’s need. The deadline to request or increase fee waivers is June 29, 2018. Fee waiver requests placed after the deadline will be available on a first-come, first-served basis. Questions should be directed to Karly Nelson-Aparicio (knelson-aparicio@collegeboard.org) or the PSAT Educator Hotline at 888-477-7728.

## NOTES

- **A** The High School grade of accountability is 11<sup>th</sup> grade. Although not required, 12<sup>th</sup> graders may also test (for Extended, only 12<sup>th</sup> graders who have not yet met the achievement standard may retest). 9<sup>th</sup> and 10<sup>th</sup> graders may also take Science and Social Sciences. NAEP tests 12<sup>th</sup> graders at selected schools.
- **B** Required test for students in grades 3 through 8 and in High School. See Section 5.2 for specific local test window criteria. Grade 12 students may take the ELA and Mathematics assessments for Essential Skills or college placement purposes.
- **C** Required test for students in grades 5, 8, and in High School.
- **D** Optional test for students in grades 5, 8, and in High School.
- **E** Online testing may be offline for scheduled maintenance from 5 p.m. PT on Friday – 7 p.m. PT on Sunday the third weekend each month, as well as from 11:59 p.m. PT on January 3 through 6 a.m. PT on January 8. [Click here](#) for a full schedule.

---

- **F** Both English-only and English-Spanish formats are available. (Braille interface is available in English only.)
- **G** Oregon Extended tests requiring Braille or Large Print format must be ordered during the order window.
- **H** Available for download starting one week before the start of the test window, on 2/8/18.
- **I** If the data entry (or shipping) deadline is missed, students will be counted as non-participants.
- **J** Required test for students entering Kindergarten. Students are only allowed one test opportunity.
- **K** Required test for schools with Spanish dual language programs that are part of Oregon’s Dual Language grant. Optional for other schools that offer Spanish dual language/bilingual programs. Pending available funds, additional grades may also participate.
APPENDIX B: STUDENT INCLUSION

Most students will take grade level assessments under standard administration conditions. Standard administration conditions are those in which the student takes the test in a manner consistent with the policies and procedures contained in this Test Administration Manual and the Oregon Accessibility Manual. A score obtained under standard administration conditions is valid for determining whether a student does not yet meet, meets, or exceeds the achievement standard. The achievement standards, also called cut scores, are available through ODE’s Educator Resources webpage.

Standard test administration is required. Non-standard test administration will result in tests that are invalidated and will not count for participation or performance.

All Students

“All students” includes (but is not limited to) students with disabilities, English Learners (ELs), students in special schools and programs (including public charter schools), students for whom tuition is paid to a public school by parents/guardians, and students enrolled in non-graded programs. Students in non-graded programs should be accounted for on the basis of their age at the beginning of the school year. Use Table 19 below to determine age/grade equivalencies:

Table 19: Age / Grade Equivalencies for Non-Graded Programs

Private school and home school students who receive their primary instruction in tested subjects at Oregon public schools are required to take the Oregon statewide assessment in those subjects. Private and homeschool students who do not receive primary instruction in a subject are exempt from taking the Oregon statewide assessment in that subject (e.g., students receiving supplemental instruction or instruction in a non-tested subject). Schools and districts will need to use test administration code 6 within Student Centered Staging to exclude students exempt from accountability reporting. (See Appendix C: Accessing Student Scores Online for more information.) Students in home school may make arrangements with a school district to take the Oregon Statewide Assessments under secure conditions. Although the State receives no funding and charges no fee for testing these students, the district providing this data-related service may charge a fee.

Students in Grades 3 – 8

All students enrolled in grades 3 – 8 and in high school must take the required OSAS assessments offered at their enrolled grade, including students re-enrolled in the same grade as in the prior year, unless the student receives a parent-requested exemption as described in Section 5.3 Parent
Requests for Exemption from State Testing of this manual. New for 2018-19, students will have only one annual test opportunity for all Oregon statewide assessments, including ELA, Mathematics, Science, Social Sciences, ELPA Summative, Kindergarten, and Extended Assessments.

Students in High School

In addition to students currently enrolled in grade 11, a grade 11 student is “a student who was first enrolled in grade 10 in the student’s most recent previous year in school.” This definition ensures that students who skip from grade 10 to grade 12 or repeat grade 10 will receive the high school assessment. It is the district’s responsibility to determine whether a student is retained in grade 11. Any student submitted by the district as being enrolled in grade 11 (regardless of their prior grade) on the first school day in May must take the high school assessments.

Students in grade 12 who have not yet met the achievement standard required for Essential Skills may retest in Oregon’s general and Extended ELA (reading/writing) and/or Mathematics assessments, although they are not required to do so. In addition, ODE will provide a Grade 12 ELA and/or Mathematics retest option for grade 12 students to meet the Essential Skills graduation requirement or for college placement purposes. While retests are not mandatory, districts should have testing opportunities available for those students who wish to retest.

Targeted Assessment

A Targeted Assessment is an assessment at a higher level than is expected for the student’s grade of enrollment but that is consistent with the level of instruction in which the student is engaged. No assessment can be targeted to a lower grade level. An electronic file must be submitted with student information one week prior to testing if the student is to take an assessment at a higher grade level than the grade of enrollment. This will be facilitated by your Regional ESD partner.

- **ELA and Mathematics:**
  - Students enrolled in grades 3 – 7 may target up one grade level, and the student does not need to also take the grade level assessment. Students enrolled in grades K-2 receiving instruction in the content area at the grade 3 level may take the grade 3 assessment in that content area. However, these students must still take an assessment when they are officially enrolled in grade 3. **Targeted assessments are not banked.**
  - Students in grades 8, 9, and 10 may not target up to the grade 11 assessment.

- **Science and Social Sciences:**
  - Students enrolled in grades 3 – 7 may not target up to a higher grade assessment.
  - Students in grades 8, 9, and 10 may target up to the grade 11 assessment. Districts may only elect to administer a high school assessment to a student in grade 8 if the student has received instruction at the full depth and breadth of the high school content standards and has demonstrated proficiency in the high school content standards as measured through classroom derived evidence. If a student enrolled in grade 8 takes a high school level test, that student must first complete the grade 8 test to be counted as a participant in their grade 8 year. The grade 8 score will be reported in the students’ grade 8 year. If a student enrolled in grade 8 meets the high school level achievement standard, the score will be banked and will be reported in the student’s grade 11 year. If a student enrolled in grade 8 takes the high school assessment and does not meet the high school achievement standard, the student must retest in the student’s grade 11 year or the student will be counted as a non-participant in the student’s grade 11 year. If a student enrolled in grade 9 or 10 meets the high school level achievement standard, the score will be banked and will be reported in the student’s grade 11 year. If a student enrolled in grade 9 or 10 takes the high school assessment and does not meet the high
school achievement standard, the student must retest in the student’s grade 11 year or the student will be counted as a non-participant in the student’s grade 11 year.

- ELPA Summative, Kindergarten, and Extended assessments may only be administered at grade level.

**EL Students**

Students eligible for services under Elementary Secondary Education Act (ESEA) are referred to as English Learners (EL) (Sec 8010 – ESSA). All EL students are eligible to participate in the Oregon Statewide Assessments. Federal law and ensuing case law require that EL students be given equal opportunity to participate in and benefit from any program or activity customarily granted to all students. Because EL students must be offered instruction at their grade level, they are *not eligible* to take an Extended Assessment unless they are on an Individualized Education Program (IEP).

Oregon Statewide Assessments offered in a student’s language of origin are considered standard administration, and eligible student scores meeting the achievement standard count as meeting the standard in accountability calculations. Oregon currently offers stacked Spanish/English tests for Oregon’s Mathematics, Science and Social Sciences, and Kindergarten Assessments. These translated tests are available for any student consistent with the guidance included in the [*Oregon Accessibility Manual*](#).

Each student must be considered individually for each assessment on the basis of what is in the best interest of the student, not on participation in a particular program or identification as an EL student. An instructional team consisting of the student’s parent or guardian and/or the student; Title IC-Migrant, EL Staff, Bilingual Staff, or Title IA teachers; the student’s classroom teacher; and other knowledgeable professionals should make the determination of whether to test the student under standard conditions including the accessibility options described in the [*Oregon Accessibility Manual*](#). This team should be familiar with the individual student’s abilities and areas of need and should weigh the following types of evidence:

- Samples of student work which would represent an appropriate English reading level
- The student’s literacy in his/her language of origin
- The language spoken in the home, both by the student and by adults in the home
- Support programs, including first and second language development programs

EL students who are also on IEPs or 504s must follow the recommendations of their IEP/504 team, which may include administration of the test using accessibility options specific to the student’s needs (see the [*Oregon Accessibility Manual*](#)).

ODE has contracted with Houghton Mifflin Harcourt (HMH) for native Spanish-language literacy assessment to be offered to students in grades 3-5 in Oregon schools in 2018-19 and 2019-20 school years for the purpose of helping elementary schools that offer Spanish instruction (especially schools with dual language programs) to monitor their students’ Spanish development and to evaluate and improve their Spanish programs. Currently ODE offers the Logramos Assessment. For more information about Logramos and/or if you are interested in offering Logramos to your Dual Language Immersion students, please contact Kelly Kalkofen at (503)947-5741 or email at kelly.kalkofen@state.or.us.

**English Language Proficiency Assessment (ELPA Summative) Requirements for All EL Students**

All Oregon students eligible to receive English Language Development (ELD) services must take Oregon’s English Language Proficiency Assessment (ELPA Summative). In accordance with federal Title I requirements, districts must administer ELPA annually to all students who are identified as eligible to receive ELD services in the current school year. *This remains true even when ELD services are waived by EL parents.* Students may remain eligible from year to year until the student is proficient and is exited on the Oregon’s EL student data collections. Students must take ELPA in
2018-19 if they were exited from ELD services after September 19th of the current year or if they were eligible to receive ELD services in the current school year (including waived students). Participation requirements for Oregon’s ELP assessment (ELPA) are addressed in Memorandum No. 007-2011-12 – ELL Participation in annual English Language Proficiency Assessment (ELPA).

***Note: ODE is currently reviewing this Executive Numbered Memo to reflect language changes since 2011-12.

**LEP Flag Required to Access ELPA Summative.** Only students whose LEP flag is set to “Y” in the SSID record may access ELPA Summative. Districts should only set the LEP flag to “Y” for students who are eligible for ELD services in the current school year as described above.

Students eligible for ELD services must be tested in all required areas under the statewide assessment system in addition to ELPA Summative. The only exception to this rule is students enrolled in a school in the United States for the first time after May 1st of the previous academic year. For these students, participation in ELPA Summative can substitute for participation in the ELA assessment for accountability calculations. This substitution is processed automatically by ODE based on student records submitted by the district. Table 20 below shows the enrollment date and required tests for EL students. **Note: the enrollment date applies to enrollment anywhere in the United States, not just in Oregon or in your school.**

NOTE: Districts should carefully monitor EL student enrollment dates since the ELPA assessment closes prior to the ELA assessment, in rare cases a student may enroll immediately after the close of the ELPA prior to May 1st. When this situation occurs, districts are strongly encouraged to contact Regional Assessment Partners to ensure the student participates in all required assessments.

**Table 20: Assessment Requirements for EL Students Based on Enrollment Date**

† Participation requirements are addressed in Memorandum No. 007-2011-12 – ELL Participation in annual English Language Proficiency Assessment (ELPA).

* counts for English Language Arts participation in accountability calculations, but students are excluded from ELA performance calculations.

** counts for math participation in accountability calculations, but students are excluded from math performance calculations.

*** Science is not administered in consecutive grades. The school year in which students will actually take these assessments will depend on their grade level. Please refer to the Test Schedule located in Appendix A: Test Schedule for the grades at which these assessments are administered.
**Students with Disabilities**

Both the Individuals with Disabilities Act of 2004 (IDEA) and OAR 581-022-2100 Exception of Students with Disabilities from State Assessment Testing require that individuals with disabilities be given equal opportunity to participate in and benefit from any program or activity customarily granted to all individuals with appropriate adaptations. Therefore, all students with disabilities are eligible to participate in the Oregon Statewide Assessment Program.

The student’s Individualized Education Program (IEP) team, which includes the student’s parents or guardian, makes the decision regarding the most appropriate method for a student with disabilities to participate in testing. Each student must be considered individually and not merely on the basis of the student’s disability category. If a student’s IEP specifies that a student should take an Extended Assessment, then the district must provide the student with that Extended Assessment. When assessing a student with a disability, the district must also ensure that the assessment fully complies with all IDEA requirements as specified in the IEP Guidelines.

Student test records include an accommodations flag field. This flag is federally required for students with IEPs or 504 plans who take the general assessment with an accommodation from the Oregon Accessibility Manual. Use of this flag (recording “Y”) indicates that the student received one or more accommodations (whether embedded or non-embedded). Authorized district or school staff may set the accommodation flag either through the student setting screen of the Test Information Distribution Engine (TIDE), or through Student Centered Staging. Your Regional ESD Partner is trained on Student Centered Staging and the management of student records.

**Assessment Options for Students with Disabilities**

- Students may take the general assessment with or without accessibility supports.
- Students may take the standard administration, Braille, and/or Large Print of the Extended Assessment in all subject areas required at the grade level (per the student’s IEP): Extended ELA, Extended Mathematics, and Extended Science.
- Students eligible for English Language Development Services and served under an IEP may participate in ELPA Summative according to the options listed above.

**Testing Homebound Students**

Students who are homebound due to a medical condition and are unable to travel to a test environment with internet access may need to be tested at home. Prior to testing students in their homes, the district should coordinate with the district IT department to ensure that proper technical support is available for the test administration (a computer and an internet connection). If the student’s home does not have an established internet connection, districts may provide one by using 3G or 4G technology through devices such as smart phones and netbooks with built-in 3G or 4G modems. If a district does not have access to such devices, districts may check out a netbook with a built-in 3G modem from ODE after signing a form certifying that the netbook will only be used for the purpose of state testing.

The district must also provide for a TA to manage the test session and monitor testing. This can be accomplished by either:

- Providing a computer with internet connectivity for the TA to use in the student’s home; or
- Sending one TA to the student’s home to supervise testing and arranging for a second TA at district facilities to remotely set up and manage the test session. Under this second approach, the TA on location with the student would need to be in communication with the TA at the district facilities.
A small number of homebound students may need access to printed test items consistent with the guidance included in the Oregon Accessibility Manual. If so, the district would also need to provide a portable printer that could be used at the student’s home to print requested items. Because all print requests are approved by the TA, the printer would need to be linked to the TAs computer.

In those rare instances where the district is unable to establish an internet connection in the student’s home even with a 3G or 4G device and the student is unable to travel to a location with internet access for the purpose of testing during the length of the test window, the student will be counted as a non-participant for the purpose of accountability calculations.

**Braille Interface for Online Testing**

The ELA, Mathematics, and OSAS Online Science and Social Sciences assessments are available to students who use Braille through a Braille Interface. The Braille interface provides students who use Braille with access to the adaptive online tests and the same number of testing opportunities as other students. The Braille interface delivers assessments to students in the following formats:

- The Mathematics and Science and Social Sciences assessments include a text-to-speech audio component delivered through the JAWS Screen Reader.
- The Mathematics and Science assessments include a Braille component delivered through a Braille Embosser. Each item or stimulus on the Mathematics and Science assessments is delivered in Nemeth Braille and automatically sent to print as an embossed print-out in real-time as the student progresses through the test.
- The English Language Arts and Social Sciences assessments include a Braille component delivered through either a 40-cell Refreshable Braille Display or a Braille embosser. Based on the student settings specified by the school in TIDE, the English Language Arts and Social Sciences assessments are available in either Literary Contracted Braille or Literary Uncontracted Braille. Each item or stimulus automatically displays to the student using a 40-cell Refreshable Braille Display unless the item or stimulus contains tactile or spatial components; such items and stimuli are automatically sent to the Braille embosser instead of being displayed on the Refreshable Braille Display. In addition, a student may request embossing for any item as the student progresses through the test. Districts may also designate a student in TIDE to receive all items through the Braille embosser instead of through the Refreshable Braille Display. This setting must be assigned prior to the start of a given test opportunity.

Please note that all embossed Braille print-outs of secure test items and stimuli are subject to the same security requirements for all printed test materials. **Section 2 Test Security** provides additional information on the requirements for securely handling printed test materials. **In addition to Test Administration and Security Training, any individual tests through the Braille interface must participate in the ODE-provided Braille Interface training.**

ODE has coordinated with the Regional Special Education Districts and the Oregon Textbook and Media Center (OTMC) to provide Duxbury transcription software, JAWS screen readers, Braille embossers, and 40-cell refreshable Braille displays to those districts serving students who use Braille. For more information see the [Braille Requirements Manual](#).

**Braille forms for ELPA**

Both the ELPA Summative and the ELPA Screener are available to students who use Braille through a paper-pencil Braille format. To order Braille forms for ELPA, please visit the “Forms” section of ODE’s [Assessment Administration](#) webpage and complete the ELPA Braille order form by **October 2, 2018**. Braille versions of the ELPA Screener are ordered via the same form and are available year-round.
Please note that all embossed Braille print-outs, manipulatives, and Directions for Administration documents that include secure test items and stimuli are subject to the same security requirements for all printed test materials. Section 2 Test Security provides additional information on the requirements for securely handling printed test materials.

**Extended Assessment**

The Oregon Extended Assessments (ORExt) are Oregon’s alternate assessment based on alternate academic achievement standards. The Extended Assessments are individually administered performance assessments for students with the most significant cognitive disabilities as determined by the student’s IEP team. These students are typically working within a specialized curriculum and/or are receiving instruction that has been significantly adapted in order to allow access to grade-level content. Extended Assessments measure a student’s achievement in the grade-level content in the subject areas of ELA, Mathematics, and Science. Student achievement is judged against alternate achievement standards that are set by the state. Students on IEPs should only be considered for the Extended Assessments when they are unable to participate in the general assessments under standard testing conditions, even with accommodations. To use this option, an Extended Assessment must be explicitly identified on the IEP as the most appropriate assessment. For specific guidance, please see Oregon Extended Assessment Guidance under the Policies section of ODE’s Statewide Alternate (Extended) Assessment webpage. Tablet, paper-pencil, as well as Braille and Large Print (cf. ODE’s Statewide Alternate (Extended) Assessment webpage) are the available Extended Assessment administration options.

**NOTE:** The ORExt is a specially designed test that was created for students with the most significant cognitive disabilities; that is, the students’ curriculum and this assessment are based on content standards that have been reduced in depth, breadth, and complexity. This means that these test results cannot be used to compare a child’s performance to that of their non-disabled peers. The information in this note is recommended for inclusion in any reports to parents on student performance on the Extended Assessments.

**Student access to online tests or ORExt.** If a student’s IEP indicates that the student must be assessed using the ORExt, that student must not have access to the general assessments. Students who have not previously used the online system should use the sample tests to determine if the format of the online test is appropriate for that student before testing begins. The sample tests may also be used as an additional tool to help identify accessibility options, including accommodations that might improve a student’s access to the online testing system. In cases where the district administers a general assessment to a student whose IEP indicates the Oregon Extended Assessment, the district must report the impropriety to ODE. The student must stop testing in the content area in which the incorrect administration occurred. ODE will then determine the most appropriate action, which may include invalidation of one or more tests.
APPENDIX C: ACCESSING STUDENT CORES ONLINE

Reporting Student Assessment Results to Parents

OAR 581-022-2270 Individual Student Assessment, Recordkeeping, and Reporting requires school districts to report student scores on all state and local assessments at least annually to parents or guardians for all students. Individual Student Reports (ISR), Combined ISRs, Class Rosters, and Class Summary reports are available in the Secure Assessment Reports 2.0 application on the ODE secure district website.

Accessing and Reviewing Assessment Records

The Student Centered Staging application allows a user in a district who has been granted access to view, edit, fix errors, download errors, and upload fixes to student test records that have been received by the Oregon Department of Education (ODE). The application is continuously accessible, and test records are editable until final accountability reports (such as school and district Report Cards) are published.

Student Centered Staging is limited to district-editable fields. The entire test record, including the scoring and accountability fields, can be retrieved from the Accountability Warehouse Extract (AWE) application. There is a one-day lag for changes to test records in Student Centered Staging to be available in the AWE application which extracts records from the Student Centered Operational Data Store (ODS). Access to these applications is controlled by a District Security Administrator (DSA) in each school district. Those needing access to these applications should contact their DSA.

The Assessment Transactional file format (for downloading/uploading records in Student Centered Staging) is available online in Excel format and can be downloaded from the Collection File Formats page by following the Assessment Transactional File Format link. This file should be used as a reference for definitions of the editable fields on the test records. (See below for test administration codes available in Student Centered Staging to indicate student status.) The Assessment Reporting File Format (for downloading read-only records in the AWE) is available on the same Collection File Formats page.

There are two methods for modifying student records in Student Centered Staging on ODE’s district Web site, either by using the Edit Posted Records link or by using the Download/Upload Adjustments file format option on the same page. Techniques for making these adjustments are described in the Student Staging User Guide available for download from a link by that name on the Student Centered Staging Resources page.

More information can be found on the Accessing Student Test Scores Online page. You can also contact your Regional ESD Partner for assistance.

Administration Codes

Student Centered Staging records should be adjusted directly to indicate any of several special statuses for individual students. These are coded in a field labeled CalcAdmnCd. Acceptable codes for this field, and the outcome of each code, are indicated in Table 21 below.
### Table 21: Administration Codes

<table>
<thead>
<tr>
<th>Administration Code</th>
<th>Definition</th>
<th>Participation Status</th>
<th>Performance Status</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>Absent (for an extended period of time) or Student Refusal = A student who is absent during the entire testing window and make-up testing period.</td>
<td>Non-participant</td>
<td>Not used</td>
</tr>
<tr>
<td>3</td>
<td>Modified – Language = A student who is non-literate in the language of the test and participates in the assessment under modified conditions.</td>
<td>Non-participant</td>
<td>Not used</td>
</tr>
<tr>
<td>5</td>
<td>Modified – Disability = A student with a disability who participates in the assessment under modified conditions.</td>
<td>Non-participant</td>
<td>Not used</td>
</tr>
<tr>
<td>6</td>
<td>Home Schooled Student, Foreign Exchange Student, or Out-of-State Student</td>
<td>Not used</td>
<td>Not used</td>
</tr>
<tr>
<td>7</td>
<td>Parent Request = A student whose parents request that the student not participate in testing for religious or disability related reasons.</td>
<td>Non-participant</td>
<td>Not used</td>
</tr>
<tr>
<td>8</td>
<td>Not Enrolled During Test Window = A student without a valid test score who was enrolled on the first school day in May but not during the school’s testing window.</td>
<td>Not used(^1)</td>
<td>Not used(^1)</td>
</tr>
<tr>
<td>9</td>
<td>Medical Emergency = A student who cannot take the State assessment during the entire testing window, including the make-up dates, because of a significant medical emergency.</td>
<td>Not used</td>
<td>Not used</td>
</tr>
<tr>
<td>U</td>
<td>Invalidated test(s) with no opportunity to retest</td>
<td>Non-participant</td>
<td>Not used</td>
</tr>
<tr>
<td>X</td>
<td>Parent Opt-out = A student whose parent(s) submitted an opt-out form requesting that the student not participate in ELA and Mathematics or Extended Math or ELA testing</td>
<td>Non-participant(^2)</td>
<td>Not used(^2)</td>
</tr>
</tbody>
</table>

\(^1\) For the English Language Proficiency Assessment (ELPA) and the Oregon Extended Assessments, districts may use code 8 for students who enroll after the close of the statewide test window but who are enrolled on the first school day in May. Code 8 is not available for the ELA, Mathematics, or Science or Social Sciences assessments.

\(^2\) Districts must enter code X for all students for whom a parent opt-out form is received. However, a parent opt-out will only result in the student being counted as a non-participant in cases where there is no test record or where a test was started but has too few item responses to meet the threshold for participation.
### Accommodation Codes

The statewide assessment accessibility supports (formerly the Accommodations Tables) are available to all students – although the decision to apply them must be based on an evaluation of individual student need. There are accessibility supports tables for the ELA and Mathematics assessments, Science and Social Sciences assessments, ORExt, Kindergarten assessment, and ELPA Summative. These tables explain and regulate the allowable supports for all students during the administration of assessments.

Student test records include accommodation code fields with a drop-down menu to allow districts to identify up to six specific accommodations for any student from a list of unique 4-digit codes. Districts may select these codes for each test opportunity in addition to setting the flag indicating whether any accommodations were used. The list of codes is included in the Oregon Accessibility Manual, available on the Assessment Administration page.
APPENDIX D: ASSURANCE OF TEST SECURITY FORMS

Test Administrator Assurance of Test Security

I have read and understand Sections 1 – 4 and Appendix A of the 2018-19 Test Administration Manual, as well as all sections pertaining to each assessment I will administer (checked below). I have received Test Administration and Security Training for the current school year.

MODES OF ADMINISTRATION: ☐ ONLINE ☐ BRAILLE INTERFACE ☐ EXTENDED

SUBJECTS: ☐ MATHEMATICS ☐ ELA ☐ SCIENCE ☐ SOCIAL SCIENCES ☐ ELPA SUMMATIVE ☐ ELPA SCREENER

I will make every attempt to ensure that all students participate in testing. In accordance with the Test Administration Manual, I will use appropriate administration codes to ensure that students’ scores reflect actual test administration procedures. I will not make copies of the test items or otherwise retain them. I will immediately return or report any Oregon test items or test booklets from previous years to my School Test Coordinator.

I will administer all statewide assessments within my responsibility following the procedures in the Test Administration Manual, including but not limited to:

• Handling and administering the Oregon Statewide Assessments in a secure manner.
• Consistently using the Oregon Accessibility Manual to understand allowable administration in response to student requests or when the student’s IEP indicates an alteration in how a test is being administered.
• Preventing any review, discussion, or analysis of test items before, during, or after testing with either students or adults.
• Monitoring students during testing for inappropriate behavior such as use of instant messaging, taking digital pictures of test items, or other possible methods of cheating.
• Avoiding any review, evaluation, or other involvement with student responses.
• Never scoring the tests or otherwise giving students any feedback as to how well I believe they are performing.
• Accessing student paper test materials only on the day of testing when tests are being administered to students or while processing and accounting for paper materials before returning them to the School Test Coordinator on the day of testing.
• Not reviewing test items, even if a student believes they are flawed.
• I will notify the School Test Coordinator immediately (within 1 business day) upon learning of a potential impropriety or irregularity, whether it is intentional or unintentional.

Name (print): ________________________________________________
Signature: ___________________________________________________
School: _______________________________________________________
E-mail Address: _______________________________________________
Training Received on (date): _____________________________________

Keep on file at the district office for one year
Disciplinary action by TSPC may result from violations of test security.
Non-Test Administrator Assurance of Test Security

Oregon Statewide Assessment test items, possible answers, and individual student information are confidential and secure documents. The integrity, validity, and confidentiality of test items, possible answers, and individual student information must be protected. Failure to maintain security severely jeopardizes district and state accountability requirements and the accuracy of student data. To ensure test security and confidentiality, district staff and volunteers who may observe or have access to secure test materials or student information must sign this statement of non-disclosure and assurance of test security before commencing any work exposing them to an Oregon Statewide Assessment.

Untrained district staff and volunteers must never be alone in a room with students during state testing. Only test administrators (teachers, classified staff, or volunteers who have received training) may supervise student testing. Untrained district staff must not agree to supervise student testing even for brief periods. Untrained district staff or untrained volunteers must not interact directly with students during state testing other than to determine the cause of a technology problem for the purpose of ensuring access to ELA, Mathematics, Science, Social Sciences, or ELPA Summative or Screener.

Specifically, district staff and volunteers agree to the following:

- No student’s Secure Student Identification Number (SSID) will be used to log in to the online testing system by anyone except that student.
- The Secure Browser will be used solely for the administration of Oregon’s online assessments. Any other access to Oregon’s online assessments will constitute a breach of test security.
- No digital, electronic, or manual device will be used to record or communicate either item or student information.
- No behavior that could assist with student testing or distract students in a testing environment will occur. This includes discussing test items among students or staff, giving students verbal or non-verbal cues, offering an opinion on how students may have performed on a particular item or on a test as a whole.
- To the extent possible, avoid viewing any test items in the course of work.
- Uphold the security of SSIDs and all other confidential personally identifiable student data and recognize that SSIDs must not be associated with an individual student’s name in an unsecured environment.
- SSID or test information cannot be associated with a student’s name or other personally identifiable information unless transmission is secure (e-mail and fax are not secure).
- Do not review test items, even if a student believes they are flawed.
- I will notify the School Test Coordinator immediately (within 1 business day) upon learning of a potential impropriety or irregularity, whether it is intentional or unintentional.

By signing this statement I agree that I will not disclose the test items, possible student answers, or any individual student information to anyone other than those authorized in writing by the Oregon Department of Education (ODE). I also certify that all confidential materials entrusted to me by ODE or its contractors will be kept in a secure environment at all times.

Name (print): _________________________________________________
Signature: ____________________________________________________
School: _______________________________________________________
E-mail Address: _______________________________________________

Keep on file at the district office for one year
Disciplinary action by TSPC may result from violations of test security.
Kindergarten Assessment Assurance

To ensure the validity and confidentiality of student responses to the Kindergarten Assessment, district staff and volunteers who may administer the Kindergarten Assessment or have access to confidential Kindergarten Assessment student responses must sign this statement of non-disclosure and assurance of test security before commencing any work administering or handling confidential student responses from the Kindergarten Assessment.

Untrained district staff and volunteers must never be alone in a room with students during administration of the Kindergarten Assessment. Only test administrators (teachers, classified staff, or volunteers who have received training) may supervise student testing. Untrained district staff must not agree to supervise student testing even for brief periods. Untrained district staff or untrained volunteers must not interact directly with students during administration of the Kindergarten Assessment.

☐ I will be administering the Kindergarten Assessment and certify that:
  • I have read and understand Sections 1 – 4, 10, and Appendix A of the 2018-19 Test Administration Manual. I have received Test Administration Training for the current school year.
  • I will make every attempt to ensure that all students participate in testing. In accordance with the Test Administration Manual, I will use appropriate administration codes to ensure that students' scores reflect actual test administration procedures.
  • I will administer the Kindergarten Assessment within my responsibility following the procedures in Section 10 of the Test Administration Manual.
  • I will not engage in any behavior that could assist or distract students. This includes discussing test items, giving students verbal or non-verbal cues, offering an opinion on how students may have performed on a particular item or on the assessment as a whole.
  • I will consistently use the Oregon Accessibility Manual to understand allowable accessibility supports in response to student requests or when the student’s IEP/504 indicates an alteration in how a test is being administered.

☐ I will be handling confidential Kindergarten Assessment student responses and certify that:
  • I will uphold the security of SSIDs and all other confidential personally identifiable student data and recognize that SSIDs must not be associated with an individual student’s name in an unsecured environment.
  • I will not transmit SSID or test information that is associated with a student’s name or other personally identifiable information only via secure transmission (e-mail and fax are not secure).

I will notify the School Test Coordinator immediately (within 1 business day) upon learning of a potential impropriety or irregularity, whether it is intentional or unintentional.

School Test Coordinator Assurance of Test Security

I have read and understand the 2018-19 Test Administration Manual and have received Test Administration and Security training for the current school year.

I will make every attempt to ensure that all students participate in testing. In accordance with the Test Administration Manual, I will use appropriate administration codes to ensure that students’ scores reflect actual test administration procedures. I will not make copies of the test items or otherwise retain them. I will immediately return or report any Oregon test items or test booklets from previous years to my District Test Coordinator.

I will instruct staff on test administration procedures, and security according to the Test Administration Manual, including but not limited to:

- Handling and administering the Oregon Statewide Assessments in a secure manner.
- Consistently using the Oregon Accessibility Manual to understand allowable administration in response to student requests or when the student’s IEP indicates an alteration in how a test is being administered.
- Preventing any review, discussion, or analysis of test items before, during, or after testing with either students or adults.
- Monitoring students during testing for inappropriate behavior such as use of instant messaging, taking digital pictures of test items, or other possible methods of cheating.
- Avoiding any review, evaluation, or other involvement with student responses.
- Never scoring the tests or otherwise giving students any feedback as to how well they are performing.
- Accessing printed student test materials only on the day of testing when tests are being administered to students or during processing.
- Not reviewing test items, even if a student believes they are flawed.
- I will notify the District Test Coordinator immediately (within 1 business day) upon learning of a potential impropriety or irregularity, whether it is intentional or unintentional.

District Test Coordinator / District Level User Assurance of Test Security

I have read and understand the 2018-19 Test Administration Manual and have received Test Administration and Security Training for the current school year.

I will instruct all School Test Coordinators in my district on procedures for Test Administration and Security Training. The printed test materials will be kept in a secure storage area. Only those staff members having a direct role in distributing, coordinating, or administering tests will have access to any secure test material.

I will make every attempt to ensure that all students in the district participate in testing. In accordance with the Test Administration Manual, I will ensure that appropriate administration codes are used so that students’ scores reflect actual test administration procedures.

I will instruct School Test Coordinators on procedures, and security according to the Test Administration Manual, including but not limited to:

- Handling and administering the Oregon Statewide Assessments in a secure manner.
- Consistently using the Oregon Accessibility Manual to understand allowable administration in response to student requests or when the student’s IEP indicates an alteration in how a test is being administered.
- Preventing any review, discussion, or analysis of test items before, during, or after testing with either students or adults.
- Monitoring students during testing for inappropriate behavior such as use of instant messaging, taking digital pictures of test items, or other possible methods of cheating.
- Avoiding any review, evaluation, or other involvement with student responses.
- Never scoring the tests or otherwise giving students any feedback as to how well they are performing.
- Restricting access to printed student test materials by TAs to the day of testing when tests are being administered to students or during processing.
- Not reviewing test items, even if a student believes they are flawed.
- I will investigate and notify ode.testsecurity@state.or.us (503-947-5905) immediately (within 1 business day) upon learning of a potential impropriety or irregularity, whether it is intentional or unintentional.

All test materials given to me by the School Test Coordinator or the Oregon Department of Education will be accounted for and returned.

APPENDIX E: OAR 581-022-2100 ADMINISTRATION OF STATE ASSESSMENTS

(1) Definitions. As used in this rule:
(a) “Accommodations” means changes in procedures or materials that increase equitable access during assessment and generate valid assessment results for students for whom there is documentation of need on an Individualized Education Program (IEP) or 504 (Plan); they allow these students to show what they know and can do..
(b) "Designated supports" means access features of the assessment available for use by any student for whom the need has been indicated by an educator or team of educators.
(c) “District test coordinator” (DTC) means district personnel who ensure secure administration of Oregon Statewide Assessments as defined by Oregon Revised Statute, Administrative Rules, and the Test Administration Manual, including but not limited to supervising the work of the school test coordinators and test administrators.
(d) “Force majeure” means an extraordinary circumstance (e.g., power outage or network disturbance lasting at least one full school day) or act of nature (e.g., flooding, earthquake, volcano eruption) which directly prevents a school district from making reasonable attempts to adhere to the Test Schedule.
(e) “Impropriety” means the administration of an Oregon Statewide Assessment in a manner not in compliance with the Test Administration Manual, Oregon Revised Statute, or this rule.
(f) “Invalidation” means the act of omitting test results and student responses from the testing, reporting, and accountability systems for a given testing event for which the student may not retest.
(g) “Irregularity” means an unusual circumstance that impacts a group of students who are testing and may potentially affect student performance on the assessment or interpretation of the students’ scores. A force majeure is an example of a severe irregularity.
(h) “Modification” means practices and procedures that compromise the intent of the assessment through a change in the achievement level, construct, or measured outcome of the assessment.
(i) “Universal Tools” means access features of the assessment that are either provided as digitally-delivered components of the test administration system or separate from it. Universal tools are available to all students based on student preference and selection.
(j) “Oregon Statewide Assessments” means:
(A) The Oregon Assessment of Knowledge and Skills (OAKS) in:
   (i) Science;
   (ii) Social Sciences;
(B) The Smarter Balanced Assessments (Smarter) in:
   (i) Mathematics
   (ii) English Language Arts (ELA)
(C) The English Language Proficiency Assessment (ELPA21); and
(D) The Extended Assessment in:
   (i) English Language Arts;
   (ii) Mathematics;
   (E) The Kindergarten Assessment
   (k) “Reset” means the removal of student responses from the web-based testing application for a given testing event for which the student may retest.
(l) “School building” means facilities owned, leased, or rented by a school district, educational service district, public charter school, private school, or private alternative program.
(m) "School district" means:
(A) A school district as defined in ORS 332.002;
(B) The Oregon School for the Deaf;
(C) The Juvenile Detention Education Program as defined in ORS 326.695;
(D) The Youth Corrections Education Program as defined in ORS 326.695;
(E) The Long Term Care Program as defined in ORS 343.961; and
(F) The Hospital Education Programs as defined in ORS 343.261.
(n) “School test coordinator” (STC) means school personnel who provide comprehensive training to test administrators and monitor the testing process.

(o) “Test Administration Manual” means a manual published annually by ODE that includes descriptions of the specific policies and procedures that school districts are required to follow when administering any component of the Oregon Statewide Assessments. References to the Test Administration Manual refer to the edition in effect at the time of test administration and include appendices and any addenda published in accordance with ODE’s revision policy.

(p) “Test administrator” (TA) means an individual trained to administer the Oregon Statewide Assessments in accordance with the Test Administration Manual.

(q) “Test Schedule” means the Test Schedule and Required Ship Dates published annually by ODE that includes the windows in which school districts must offer their students the Oregon Statewide Assessments and the deadline by with DTCs must ship or postmark test materials.

(2) (a) School districts, as defined in ORS 332.002, must enforce the assessment policies described in this rule for all students enrolled in a school operated by the district or enrolled in a public charter school that is located within the boundaries of the school district.

(b) School districts, as defined in ORS 332.002, must enforce the assessment policies described in this rule for all resident students enrolled in a private alternative education program, regardless of whether the private alternative education program is located within the boundaries of the school district.

(c) The Oregon School for the Deaf must enforce the assessment policies described in this rule for all students enrolled in that school.

(d) The Juvenile Detention Education Program and the Youth Corrections Education Program must enforce the assessment policies described in this rule for all students enrolled in that program.

(e) The Long Term Care Program and the Hospital Education Programs must enforce the assessment policies described in this rule for all students enrolled in that program.

(f) School districts may delegate responsibility for enforcing the assessment policies described in this rule to another school district or education service district under the conditions specified in the Test Administration Manual.

(3) School districts must administer Oregon Statewide Assessments in accordance with the Test Administration Manual and Test Schedule published by ODE. The results of these assessments are used to satisfy the requirements specified in OAR 581-022-2270 and 581-022-2250 and as a method to evaluate compliance with OAR 581-022-2030.

(4) School districts must ensure that students are administered the proper Oregon Statewide Assessment and that the testing environment satisfies the following testing conditions:

(a) School districts must ensure that Oregon Statewide Assessments are administered by a trained TA who has signed an Assurance of Test Security form for the current school year on file in the district office;

(b) School districts must administer Oregon Statewide Assessments in a school building or in an environment that otherwise complies with the Test Administration Manual;

(c) School districts must apply the following criteria in deciding whether to provide a student with an accommodation during administration of an Oregon Statewide Assessment:

(A) School districts must decide whether to provide accommodations during an assessment on an individual student basis and separately for each content area to be assessed; and

(B) For students with an Individualized Education Plan (IEP) or 504 Plan, school districts must implement the assessment decision made by a student’s IEP or 504 team and documented in the IEP or 504 Plan;

(d) School districts may only administer modifications to students with an IEP or 504 Plan and only in accordance with the assessment decision made by the student’s IEP or 504 team and documented in the IEP or 504 Plan. Before administering an assessment using a modification, a student’s IEP or 504 team must inform the student’s parent that the use of a modification on an assessment will result in an invalid assessment;
(e) School districts must provide only those subject-specific accommodations, designated supports, and universal tools listed in the Oregon Accessibility Manual and must provide these supports in a manner consistent with the policies contained in the Test Administration Manual and Oregon Accessibility Manual;

(f) School districts must ensure that students do not access electronic communication devices such as cellular phones or personal digital assistants (PDAs) during an assessment; and

(g) School districts must follow all additional testing conditions specified in the Test Administration Manual.

(5) Failure by a school district to comply with Section (4) of this rule constitutes an impropriety as defined in Section 1(e) of this rule. DTCs must report all potential improprieties or irregularities to ODE within one business day of learning of the potential impropriety or irregularity in accordance with the reporting procedures contained in the Test Administration Manual.

(6) The ODE may invalidate assessment results and student responses for assessments administered under conditions not meeting the assessment administration requirements specified in Sections 3 and 4 of this rule. In rare instances, ODE may reset a student assessment at the request of the school district if ODE determines that a reset would not compromise the security or validity of the assessment.

(7) ODE counts assessments that meet the following conditions as non-participants in ODE calculations of participation and does not include such assessments in ODE calculations of performance:

(a) Assessments administered using modifications as defined in Section 1(h) of this rule;

(b) Invalidated assessments;

(c) Assessments administered outside the testing window specified in the Test Schedule; or

(d) Assessments not submitted by the data entry deadline after the dates identified in the Test Schedule.

(8) ODE only allows extensions to the testing window or shipping deadlines identified in the Test Schedule in cases where a force majeure occurs within three days of the close of the testing window or shipping deadline and prevents a school district from meeting the deadline. Upon receiving a force majeure extension request from the school district, ODE may permit a one-day extension of the testing window or shipping deadline for each day of the force majeure, for up to five days. The force majeure extension begins on the first school day after normal operations resume and ends no later than the last school day in the month in which the testing window closes.

(9) School districts may only assess students using the Extended Assessment instead of OAKS or Smarter if the student has an IEP Plan and the student’s Plan indicates separately for each content area to be assessed that the student requires the Extended Assessment.

(10) School districts must administer ELPA annually to all students determined by the school district to be eligible for English language development (ELD) services under Title III of the Elementary and Secondary Education Act (ESEA), regardless of whether an eligible student actually receives ELD services.

(11) Administration of the Kindergarten Assessment is governed by OAR 581-022-2130.
