

# Using the Reading Scoring Guide –

*An Introduction for High School Teachers*

# **Using the Reading Scoring Guide –**

*An Introduction for High School Teachers*

This packet contains the following:

- Reading Essential Skills Training Design

- Powerpoint Slides with note space

- Scoring Guide for Reading – Informational and Literary

- 3 Sample Student Reading Work Samples

- Classroom Handouts

## Design for Reading Essential Skill Workshops Training for Trainers & Materials Provided by ODE

The workshops described below are designed to be delivered by school district personnel who have received training and materials from ODE through “Training of Trainer” WebEx sessions.

<b>Level 1</b>	<b>Overview of the Essential Skill of Reading</b> (30 – 45 minutes) General audiences – posted on ODE Website at <a href="http://www.ode.state.or.us/search/page/?id=2663">http://www.ode.state.or.us/search/page/?id=2663</a>	
<b>Level 2</b>	<b>Introduction to Using the Reading Scoring Guide</b> (90 minutes – 2 hours) Introduces Scoring Guide, explains Essential Skill requirements and provides practice scoring 3 papers	
<b>Level 3</b>	<b>In-Depth Training – Using the Reading Scoring Guide</b>	
	<b>Content Area Teachers</b> (2 ½ to 3 hours) In-depth study of Reading Scoring Guide with emphasis on reading in content areas; practice scoring 10 papers to develop accuracy and reliability in application of Scoring Guide	<b>English Language Arts Teachers</b> (3 ½ to 4 hours) In-depth study of Reading Scoring Guide with emphasis on school-wide reading assessment plan; practice scoring 10 – 15 papers to develop accuracy and reliability in using Scoring Guide
<b>Level 4</b>	<b>In-Depth Training – Creating Reading Work Samples</b> (3 ½ to 4 hours) Hands-on workshop showing characteristics of effective Reading Work Samples, review of Guidelines for Work Samples, and opportunity for participants to draft a work sample for use in their classrooms.	

\*Estimated time needed for trainer to deliver the workshop to district/school participants

### Training of Trainer WebEx Sessions

**Level 1** training for presenters is provided in a one hour WebEx session which includes reading, writing and mathematics. It is designed to be delivered to general audiences by anyone with a basic understanding of the Essential Skills. No content expertise is required. Level 1 workshop materials are also available on the ODE website at <http://www.ode.state.or.us/search/page/?id=219>. Select the desired Essential Skill and go to *Resources and Promising Practices*.

**Levels 2 – 4** provides training for presenters with expertise in high school reading or English Language Arts. Levels 2 & 3 Training of Trainers workshops are delivered in one 2-hour WebEx session. Level 4 is delivered in a separate 2-hour WebEx training session. All workshop materials, including ready-to-print handouts, are provided to attendees following each WebEx Training of Trainers session.

2011-12  
State Scoring Guide  
Professional Development:  
Assessing the Essential Skill of  
Reading  
Level 2 -- Introduction  
Information provided by  
Oregon Department of Education

---

---

---

---

---

---

---

---

**Goals**  
**Participants will know:**

- Requirements for demonstrating proficiency in the Essential Skill of Reading
- Official State Scoring Guide traits
- Various assessments & data uses
- Resources & further professional development available

---

---

---

---

---

---

---

---

**State Education Law**  
For students first enrolled in grade 9 during the 2008 -2009 school year [and all subsequent years], school districts and public charter schools shall require students to demonstrate proficiency in the Essential Skills listed  
(A) Read and comprehend a variety of text;

---

---

---

---

---

---

---

---

## Demonstrating Proficiency in Reading

### 1. OAKS Reading/Literature Assessment

Score of 236

### 2. Other Options

ACT or PLAN	18
WorkKeys	5
Compass	81
Asset	42
Accuplacer	86
SAT/PSAT	440/44
AP & IB	various

---

---

---

---

---

---

---

---

## 3. Local Work Samples

- Reading Work Sample scored using Official State Scoring Guide
- Two Reading Work Samples Required
- Students must earn a score of 12 or higher on each work sample

---

---

---

---

---

---

---

---

## Level of Rigor

- Work samples must meet the level of rigor required on the OAKS assessment.
- Work samples provide an optional means to demonstrate proficiency not an easier means.

---

---

---

---

---

---

---

---

What are the skills of a proficient reader?

---

---

---

---

---

---

---

---

### Official Scoring Guide Traits

- Demonstrate understanding
- Develop an interpretation
- Analyze text

---

---

---

---

---

---

---

---

### OAKS Score Reporting Categories

- SRC 1 – Vocabulary
- SRC 2 – Read to perform a task
- SRC 3 – Demonstrate General Understanding
- SRC 4 – Develop an Interpretation
- SRC 5 – Examine Content & Structure (Informational)
- SRC 6 – Examine Content & Structure (Literary)

### Reading Work Sample Traits Scored

- Not assessed
- Not assessed
- Demonstrate General Understanding
- Develop an Interpretation
- Analyze Text (Informational)
- Analyze Text (Literary)

---

---

---

---

---

---

---

---

## Demonstrate Understanding

### "Getting the gist"

- Main ideas, relevant details, sequence of events, relationship among ideas, facts/opinions
- Literal Comprehension

---

---

---

---

---

---

---

## Develop an Interpretation

### "Reading between the lines"

- Unstated main ideas/themes
- Inferences, interpretations, conclusions, generalizations, and predictions
- Inferential Comprehension

---

---

---

---

---

---

---

## Analyze Text - Informational

### "Looking at the author's craft"

- Author's purpose, ideas and reasoning
- Writer's Strategies
- Textual evidence

---

---

---

---

---

---

---

## Analyze Text - Literary

"Applying Knowledge of Literature"

- Author's stylistic decisions
- Literary elements
- Literary devices
- Textual evidence

---

---

---

---

---

---

---

## Simplified Reading Scoring Guide

---

---

---

---

---

---

---

## Important Issues in Scoring

- Seeking evidence of accomplishment
- Evidence may be found throughout the response

---

---

---

---

---

---

---

### Important Issues in Proficiency

- Demonstrate proficiency on two tasks - at least one must be informative.
- Achieve a score of "12" or higher on each task (4,4,4, or combination of 3,4,&5)

---

---

---

---

---

---

---

### Important Issues in Proficiency

- Students may revise worksamples for rescoring.
- Feedback is allowed using only the Scoring Guide and/or the Official Scoring Form

---

---

---

---

---

---

---

### Scoring the First Anchor Paper

This anchor paper met the achievement standard in each trait.

Why did this paper earn these scores?

---

---

---

---

---

---

---

### Scoring the 2nd Anchor Paper

This anchor paper did not meet the achievement standard.

What scores did this paper earn?

---

---

---

---

---

---

---

### Scoring

Within the Traits . . .

What differentiates a 3 from a 4?

---

---

---

---

---

---

---

### Scoring the 3rd Anchor Paper

Use the scoring guide to rate this paper.

What scores did this paper earn?

---

---

---

---

---

---

---

## USING THE READING SCORING GUIDE FOR INSTRUCTION AND ASSESSMENT

---

---

---

---

---

---

---

---

### Building Consensus on Definitions of Assessments

Assessment	Purpose	When Administered?
Screening	Identify students at risk of reading difficulties & provides info to target instruction for all students	Beginning of year or semester; when new students arrive
Formative	Supports learning and informs instruction	Embedded directly in instruction to inform teacher decisions

---

---

---

---

---

---

---

---

### Multiple Uses for the Scoring Guide

- **Instructional Tool**
  - Makes targets explicit to students
  - Opportunities to show students models from website or other examples
- **Screening Tool**
  - Help determine likelihood of reaching proficiency – on target, need assistance, at risk
  - Help determine which students need additional instruction and coaching

---

---

---

---

---

---

---

---

Building Consensus on Definitions of Assessments		
Assessment	Purpose	When Administered?
Interim and Predictive	Determine the progress of individuals or groups of students based on focused elements of content	Occasional, based on curriculum & other instructional milestones
Summative	Determine how much knowledge and skills individuals or groups of students (e.g. programs, schools, districts and states) have acquired.	Periodically after a substantial period of time (e.g. end of the year and end of course).

---

---

---

---

---

---

---

---

### Multiple Uses for the Scoring Guide

- Formative & Interim Assessments**
  - Inform instructional strategies
  - Provide data on student progress
- Classroom/ Summative Assessment**
  - End of unit, course, etc. or Essential Skills

---

---

---

---

---

---

---

---

### Formative Assessment and the Scoring Guide

- The Scoring Guide can help to identify reading strengths and weaknesses.
- Students learn where to focus to improve reading skills.
- Teachers learn where additional instruction is needed.

---

---

---

---

---

---

---

---

## Summative Assessment

### Classroom Assignment

Grade on one or all traits

### Essential Skills Work Sample

Meet requirements for Oregon diploma

---

---

---

---

---

---

---

---

Assessment	Does your school have an assessment plan?	Does your school have a data analysis & use plan?
Formative		
Summative		

---

---

---

---

---

---

---

---

Teachers at Oregon City High School use Reading Work Samples for instruction because the RWSs are so closely aligned to the standards & the OAKS test.

Particularly in the reading intervention classes, the teacher focuses instruction on the RWSs and finds that students who do well on the RWSs are more likely to pass the OAKS class at the end of the course. Last year, **93%** of juniors passed the OAKS Reading/Literature test.

**Kathy Haynie,**  
Literacy Coach,  
Oregon City HS

---

---

---

---

---

---

---

---

**Pam Proise,**  
**ELL/Literacy Specialist,**  
**McMinnville SD**

McMinnville High School Reading Lab teachers worked with juniors who had not yet met the OAKS standard using think-aloud strategies and engaging reading practice tasks. Then, students analyzed their responses using the Reading Scoring Guide. Finally, they completed two Reading Work Samples.

Most students met the standard on both work samples, and some even passed the OAKS test as a result of these learning strategies!

---

---

---

---

---

---

---

---

**Teri Houghton,**  
**English Dept. Chair,**  
**Grants Pass HS**

Using discussion and practice with the Reading Work Samples and the scoring guide were the only direct instructional practices I used between my students' first and second attempts on the OAKS Reading Assessment.

I am convinced that the scoring guide and Reading Work Samples call on students to demonstrate what good readers do to comprehend, make supported inferences, and analyze the text and author's craft. Many of my students were able to transfer this understanding to higher scores on the OAKS test and meeting the standard.

---

---

---

---

---

---

---

---

### Research shows ...

"Students who receive intensive focused literacy instruction and tutoring will graduate from high school and attend college in significantly greater numbers than those not receiving such attention. . . .

---

---

---

---

---

---

---

---

Despite these findings, few middle or high schools have a comprehensive approach to teaching literacy across the curriculum."

### A Final Thought

"Literacy is inseparable from opportunity, and opportunity is inseparable from freedom. The freedom promised by literacy is both freedom from - from ignorance, oppression, poverty - and freedom to - to do new things, to make choices, to learn."

Koichiro Matsuura

# Options for Demonstrating Proficiency in the Essential Skill of Reading Flow Chart

To meet the graduation requirement for the essential skill of “read and comprehend a variety of text” follow these steps.

This page is  
intentionally left blank.

## DEMONSTRATE UNDERSTANDING: Informational Text

*"Getting the gist"*

**Main ideas, relevant and specific supporting details, sequence of events, relationship among ideas, facts/opinions**

### 5/6– EXCEEDS

***Reader responses are insightful and complex; they demonstrate skills that exceed high school standards.***

Reader responses

- indicate accurate, thorough understanding of main ideas & supporting details, including those that are subtle/ complex
- differentiate between and/or summarize facts and opinions,
- recognize subtleties, ambiguities and complexities

### 4 – MEETS

***There are sufficient reader responses, and they demonstrate proficiency in meeting high school standards.***

Reader responses

- indicate accurate literal understanding of main ideas and supporting details;
- identify and/or summarize sequence of events or relationships among ideas;
- differentiate between facts and opinions;
- may focus on obvious facts and opinions

### 3 – NEARLY MEETS

***There are not enough responses to demonstrate proficiency, and/or the responses are inaccurate or superficial***

Reader responses

- indicate incomplete or partial understanding of main ideas;
- may focus on isolated details;
- may show some misunderstanding of or omit significant details
- may show some confusion in differentiating facts from opinions

### 1/2 – DOES NOT YET MEET

***There are too few reader responses, and/or the responses show limited skills and incorrect understanding.***

Reader responses

- indicate limited, fragmented, or incorrect understanding
- may not show ability to construct meaning from text
- do not distinguish facts from opinions

## DEVELOP AN INTERPRETATION: Informational Text

*"Reading between the lines"*

**Unstated main ideas, inferences, interpretations, conclusions, generalizations, connections, and/or predictions of future outcomes**

### 5/6– EXCEEDS

***Reader responses are insightful and complex; they demonstrate skills that exceed high school standards.***

Reader responses

- make note of subtleties, complexities, and implicit relationships in interpreting the text (e.g., ideas, themes, reasoned arguments, events, characters)
- provide well-supported relevant, valid textual evidence

### 4 – MEETS

***There are sufficient reader responses, and they demonstrate proficiency in meeting high school standards.***

Reader responses

- present reasonable, perhaps obvious, interpretations, conclusions, generalizations, connections or predictions
- provide some textual evidence

### 3 – NEARLY MEETS

***There are not enough responses to demonstrate proficiency, and/or the responses are inaccurate or superficial***

Reader responses

- present interpretations that may be overly broad, simplistic, or incomplete
- may show some misunderstanding
- show inadequate textual evidence

### 1/2 – DOES NOT YET MEET

***There are too few reader responses, and/or the responses show limited skills and incorrect understanding.***

- Reader responses do not offer an interpretation, or suggest an interpretation not supported by the text

## ANALYZING TEXT: Informational text

*"Looking at the Author's Craft"*

**Author's purpose, ideas and reasoning and writing strategies (e.g., organization, word choice, perspective, format, and, if used, literary devices\*)**

### **5/6– EXCEEDS**

***Reader responses are insightful and complex; they demonstrate skills that exceed high school standards.***

Reader responses

- explain author's purpose
- articulate well reasoned, insightful assertions about author's ideas, (e.g. support, reasoning, use of sources)
- show in-depth analysis of how writer's strategies contribute to effectiveness of selection
- provide specific, strong, accurate textual evidence

### **4 – MEETS**

***There are sufficient reader responses, and they demonstrate proficiency in meeting high school standards.***

Reader responses

- identify author's purpose
- make reasoned judgments about author's ideas ( e.g. support, reasoning, use of sources)
- show how writer's strategies contribute to effectiveness of selection
- provide some textual evidence

### **3 – NEARLY MEETS**

***There are not enough responses to demonstrate proficiency, and/or the responses are inaccurate or superficial***

Reader responses

- may identify author's purpose
- may provide overly general, superficial, or inaccurate judgments about author's ideas (e.g. support, reasoning, use of sources)
- provide overly general, superficial, or inaccurate judgments about writer's strategies
- provide limited textual evidence

### **1/2 – DOES NOT YET MEET**

***There are too few reader responses, and/or the responses show limited skills and incorrect understanding.***

Reader responses

- indicate lack of awareness of author's purpose
- may contain inaccurate judgments about author's ideas (e.g. support, reasoning, use of sources)
- indicate lack of awareness of writer's strategies
- provide limited or no textual evidence

\*Writers sometimes use techniques known as literary devices in informational text. Common literary devices include irony, satire, foreshadowing, flashback, simile, metaphor, personification, symbolism, allusion, exaggeration, etc. Students are not required to identify the device by name, but may comment on the effect or notice the strategy.

## DEMONSTRATE UNDERSTANDING: Literary Text

*“Getting the gist”*

**Main ideas, relevant and specific supporting details, sequence of events, relationship among ideas**

### 5/6– EXCEEDS

***Reader responses are insightful and complex; they demonstrate skills that exceed high school standards.***

Reader responses

- indicate accurate, thorough understanding of main ideas and supporting details;
- recognize subtleties, ambiguities and complexities

### 4 – MEETS

***There are sufficient reader responses, and they demonstrate proficiency in meeting high school standards.***

Reader responses

- indicate accurate literal understanding of main ideas and supporting details;
- identify and/or summarize sequence of events or relationships among ideas

### 3 – NEARLY MEETS

***There are not enough responses to demonstrate proficiency, and/or the responses are inaccurate or superficial***

Reader responses

- indicate incomplete or partial understanding of main ideas;
- may focus on isolated details;
- may show some misunderstanding of or omit significant details

### 1/2 – DOES NOT YET MEET

***There are too few reader responses, and/or the responses show limited skills and incorrect understanding.***

Reader responses

- indicate limited, fragmented, or incorrect understanding
- may not show ability to construct meaning from text

## DEVELOP AN INTERPRETATION: Literary Text

*“Reading between the lines”*

**Unstated main ideas, inferences, interpretations, conclusions, generalizations, connections, and/or predictions of future outcomes**

### 5/6– EXCEEDS

***Reader responses are insightful and complex; they demonstrate skills that exceed high school standards.***

Reader responses

- make note of subtleties, complexities, and implicit relationships in interpreting the text (e.g., ideas, themes, reasoned arguments, events, characters)
- provide well-supported relevant, valid textual evidence

### 4 – MEETS

***There are sufficient reader responses, and they demonstrate proficiency in meeting high school standards.***

Reader responses

- present reasonable, perhaps obvious, interpretations, conclusions, generalizations, connections or predictions
- provide some textual evidence

### 3 – NEARLY MEETS

***There are not enough responses to demonstrate proficiency, and/or the responses are inaccurate or superficial***

Reader responses

- present interpretations that may be overly broad, simplistic, or incomplete
- may show some misunderstanding
- show inadequate textual evidence

### 1/2 – DOES NOT YET MEET

***There are too few reader responses, and/or the responses show limited skills and incorrect understanding.***

Reader responses

- do not offer an interpretation  
or
- suggest an interpretation not supported by the text

## ANALYZING TEXT: Literary Text

*“Applying Knowledge of Literature”*

Literary Elements (e.g., theme, character, plot, setting, voice, narrator, characterization, tone, mood, etc.) and Literary Devices (e.g., figurative language, imagery, point of view, foreshadowing, flashbacks, symbolism, etc.)

### 5/6– EXCEEDS

***Reader responses are insightful and complex; they demonstrate skills that exceed high school standards.***

Reader responses

- provide thorough, in-depth analysis of how literary elements and devices contribute to the effectiveness of the selection
- provide specific, strong, accurate textual evidence

### 4 – MEETS

***There are sufficient reader responses, and they demonstrate proficiency in meeting high school standards.***

Reader responses

- provide an analysis of how literary elements and/or devices contribute to the effectiveness of the selection
- provide some textual evidence

### 3 – NEARLY MEETS

***There are not enough responses to demonstrate proficiency, and/or the responses are inaccurate or superficial***

Reader responses

- provide overly general or simplistic analysis of how literary elements and devices contribute to the effectiveness of the selection
- or
- identify elements and devices without explanation of their effectiveness
- provide limited textual evidence

### 1/2 – DOES NOT YET MEET

***There are too few reader responses, and/or the responses show limited skills and incorrect understanding.***

Reader responses

- provide little or no analysis of how literary elements and devices contribute to the effectiveness of the selection
- provide limited or no textual evidence

*NOTE: This Associated Press article appeared in the GRANTS PASS DAILY COURIER on Saturday, May 5, 2007. Almost two years after the article's publication, the mystery of the honeybee die-off continues today.*

**ARE AMERICANS DESTINED FOR A DIET OF BREAD AND WATER?**

*Some experts fear that may be the case, if the mysterious honeybee die-off isn't brought to a halt.*

BELTSVILLE, Md.

Unless someone or something stops it soon, the mysterious killer that is wiping out many of the nation's honeybees could have a devastating effect on America's dinner plate, perhaps even reducing us to a glorified bread-and-water diet.

Honeybees don't just make honey – they pollinate more than 90 of the tastiest flowering crops we have.

Among them: apples, nuts, avocados, soybeans, asparagus, broccoli, celery, squash and cucumbers. And lots of the really sweet and tart stuff, too, including citrus fruit, peaches, kiwi, cherries, blueberries, cranberries, strawberries, cantaloupe and other melons.

In fact, about one-third of the human diet comes from insect-pollinating plants, and the honeybee is responsible for 80 percent of that pollination, according to the U.S. Department of Agriculture.

Even cattle, which feed on alfalfa, depend on bees. So if the collapse worsens, we could end up being "stuck with grains and water," said Kevin Hackett, the national program leader for USDA's bee and pollination program. "This is the biggest general threat to our food supply," Hackett said.

While not all scientists foresee a food crisis, noting that large-scale bee die-offs have happened before, this one seems particularly baffling and alarming.

Notes on my thoughts,  
reactions and questions as I  
read:

← very true

how so?

oh I see now

foods I love

very interesting

people need to start  
taking this seriously  
and caring about what  
happens

**Reading Performance Assessment      Practice Task F5**  
**High School – 2009 – *Are Americans Destined for a Diet of Bread and Water?***

U.S. beekeepers in the past few months have lost one-quarter of their colonies – or about five times the normal winter losses – because of what scientists have dubbed Colony Collapse Disorder. The problem started in November and seemed to have spread to 27 states, with similar collapses reported in Brazil, Canada and parts of Europe.

Scientists are struggling to figure out what is killing the honeybees, and early results of a key study point to some kind of disease or parasite.

Even before this disorder struck, America's honeybees were in trouble. Their numbers were steadily shrinking, because their genes do not equip them to fight poisons and disease very well, and because their gregarious nature exposes them to ailments that afflict thousands of their close cousins.

"Quite frankly, the question is whether the bees can weather this perfect storm," Hackett said. "Do they have the resilience to bounce back? We'll know probably by the end of the summer."

Experts from Brazil and Europe have joined in the detective work at USDA's bee lab in suburban Washington. In recent weeks, Hackett briefed Vice President Cheney's office on the problem.

Congress has held hearings on the matter.

"This crisis threatens to wipe out production of crops dependent on bees for pollination," Agriculture Secretary Mike Johanns said in a statement.

A congressional study said honeybees add about \$15 billion a year in value to our food supply.

*Used by permission of the Associated Press.*

*Notes on my thoughts,  
reactions and questions as I  
read:*

*awful, so sad*

*I hope they find the  
reason. I heard cell  
phones are killing off  
the honeybees.*

1. What was the general health of the honeybee population **before** the mystery die-off began? **Give an example** from the text.

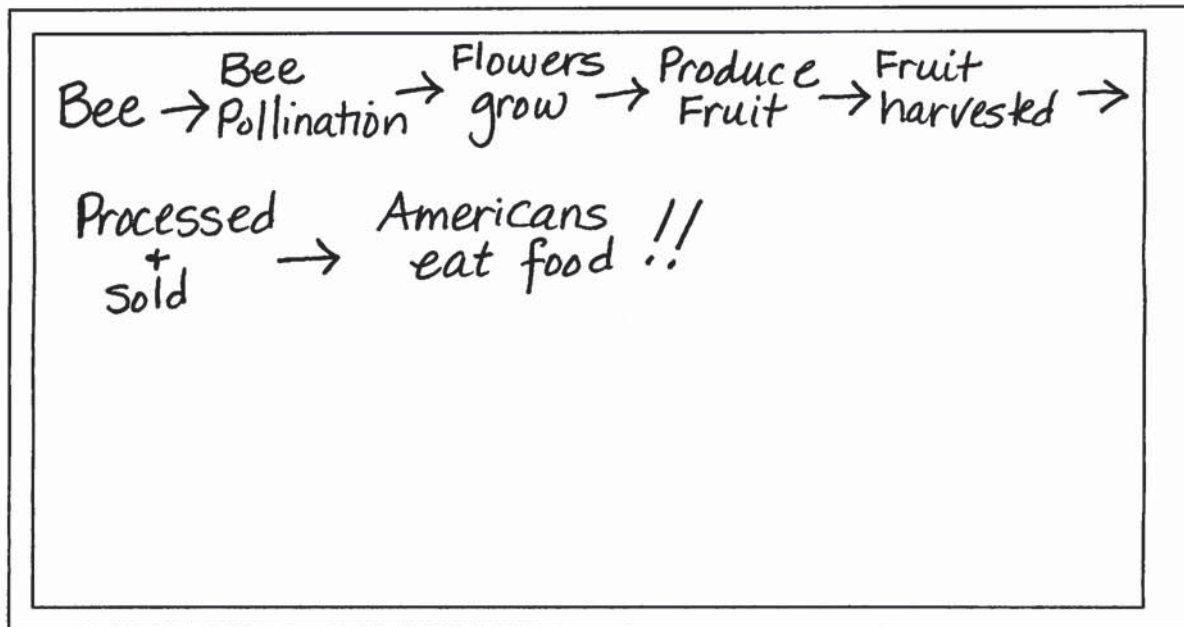

*The honey bee's health was still poor and most bees were ailing.  
"Even before the disorder struck, America's honeybees were in  
trouble." "... their genes do not equip them to fight  
poisons & disease."*

Reading Performance Assessment

Task 5

High School – 2009 – A\Are Americans Destined for a Diet of Bread and Water?

2. Draw and/or write a description of the **relationship** between the **honeybee** and the human food **supply** as explained in this article.

3. Why is the article titled, "Are Americans destined for a diet of bread and water?" Use content and examples from the text to **explain** your answer.

w/out the bees many foods would cease to exist and Americans would be reduced to eating Bread & water. By the way things are going this could be our destiny.

"One-third of the American diets comes from insect-pollinating plants, and the honeybee is responsible for 80 percent of that pollination,"

Reading Performance Assessment

Task 5

High School – 2009 – A Are Americans Destined for a Diet of Bread and Water?

4. What does Kevin Hacket, of the US Department of Agriculture, mean when he states "Quite frankly, the question is whether the bees can weather this perfect storm"? Use information from the article to **support your answer**.

*He's referring to the circumstances we are going through that has the potential to wipe out all honeybees. "Do they have the resilience to bounce back? We will know by the end of this summer."*

5. What is the **author's purpose** in writing this article? **Support your answer** with language from the text.

*They are trying to raise awareness and inform the public of the bee crisis and to warn them of the potential side effects by being serious and adding facts and evidence.*

*"This crisis threatens to wipe out production of crops dependent on bees for pollination," Agriculture Secretary Mike Bohannan said.*

6. Use this T-Chart to identify **three things** that the **author does** or **uses** in the article to convince the reader that the information in the article is **accurate** and **believable**.

What the Author Does/Uses	How it seems accurate/believable
<i>Supports everything with facts</i>	<i>he has direct statements from trained professionals</i>
<i>straight to the point, provokes emotion</i>	<i>he provokes emotion not by talking about how awful it is his own beliefs but by being very matter of fact in a serious way.</i>
<i>is very passionate</i>	<i>you can tell by his context that he takes this matter very seriously and is desperately trying to bring awareness about.</i>

## Reading Performance Assessment

Task 5

High School – 2009 – *Are Americans Destined for a Diet of Bread and Water?*

Read the following article carefully and make notes in the margin as you read. Your notes should include:

- ☐ Comments that show that you **understand** the article. (A summary or statement of the main idea of important sections may serve this purpose.)
- ☐ Questions you have that show what you are **wondering** about as you read.
- ☐ Notes that differentiate between **fact** and **opinion**.
- ☐ Observations about how the **author's craft** (organization, word choice, perspective, support) and **choices** affect the article.

Your **margin notes** are part of your score for this assessment.

### ARE AMERICANS DESTINED FOR A DIET OF BREAD AND WATER?

Some experts fear that may be the case, if the mysterious honeybee die-off isn't brought to a halt. *wonder*

BELTSVILLE, Md.

Unless someone or something stops it soon, the mysterious killer that is wiping out many of the nation's honeybees could have a devastating effect on America's dinner plate, perhaps even reducing us to a glorified bread-and-water diet.

Honeybees don't just make honey – they pollinate more than 90 of the tastiest flowering crops we have.

Among them: apples, nuts, avocados, soybeans, asparagus, broccoli, celery, squash and cucumbers. And lots of the really sweet and tart stuff, too, including citrus fruit, peaches, kiwi, cherries, blueberries, cranberries, strawberries, cantaloupe and other melons.

In fact, about one-third of the human diet comes from insect-pollinating plants, and the honeybee is responsible for 80 percent of that pollination, according to the U.S. Department of Agriculture.

Even cattle, which feed on alfalfa, depend on bees. So if the collapse worsens, we could end up being "stuck with grains and water," said Kevin Hackett, the national program leader for USDA's bee and pollination program. "This is the biggest general threat to our food supply," Hackett said.

While not all scientists foresee a food crisis, noting that large-scale bee die-offs have happened before, this one seems particularly baffling and alarming.

Notes on my thoughts,  
reactions and questions as I  
read:

People need  
to take more  
care of the  
honey bees.  
How do bees  
they know  
if the  
bees are  
good to  
have?  
Bee can  
kill things.  
I wonder  
how bees  
can work  
so hard?  
I feel  
sorry for  
the bees.

**Reading Performance Assessment**  
**High School – 2009 – Are Americans Destined for a Diet of Bread and Water?**

Task 5

U.S. beekeepers in the past few months have lost one-quarter of their colonies – or about five times the normal winter losses – because of what scientists have dubbed Colony Collapse Disorder. The problem started in November and seemed to have spread to 27 states, with similar collapses reported in Brazil, Canada and parts of Europe.

Scientists are struggling to figure out what is killing the honeybees, and early results of a key study point to some kind of disease or parasite.

Even before this disorder struck, America's honeybees were in trouble. Their numbers were steadily shrinking, because their genes do not equip them to fight poisons and disease very well, and because their gregarious nature exposes them to ailments that afflict thousands of their close cousins.

"Quite frankly, the question is whether the bees can weather this perfect storm," Hackett said. "Do they have the resilience to bounce back? We'll know probably by the end of the summer."

Experts from Brazil and Europe have joined in the detective work at USDA's bee lab in suburban Washington. In recent weeks, Hackett briefed Vice President Cheney's office on the problem.

Congress has held hearings on the matter.

"This crisis threatens to wipe out production of crops dependent on bees for pollination," Agriculture Secretary Mike Johanns said in a statement.

A congressional study said honeybees add about \$15 billion a year in value to our food supply.

*Used by permission of the Associate Press.*

*Notes on my thoughts,  
reactions and questions as I  
read:*

Why is  
the bee  
preaching so  
loud.

Scientists  
should work  
harder to  
find out why  
they are  
dying.

I wonder  
what states  
it is happening  
in. Bees

1. What was the general health of the honeybee population **before** the mystery die-off <sup>are very cool</sup> began? **Give an example** from the text. There was 80 percent of bee pollinating a lot of plants.

High School – 2009 – *Are Americans Destined for a Diet of Bread and Water?*

2. Draw and/or write a description of the **relationship** between the **honeybee** and the human food **supply** as explained in the article.

3. Why is the article titled, "Are Americans destined for a diet of bread and water?" Use content and examples from the text to **explain** your answer.

Because  
Honeybee Don't just get honey they  
Pollimate the plants we eat, that  
why we should eat bread and water!  
the bee population is going down  
every day.

## High School – 2009 – Are Americans Destined for a Diet of Bread and Water?

4. What does Kevin Hacket, of the US Department of Agriculture, mean when he states, "Quite frankly, the question is whether the bees can weather this perfect storm"? Use information from the article to **support your answer**.

went down after the food crisis  
die-off the bees

5. What is the **author's purpose** in writing this article? **Support your answer** with language from the text.

the problem started in november  
and seemed to have spread to 27  
states, which a similar collapses  
reported in Brazil and other place.

6. Use this T-Chart to identify **three things** that the **author does or uses** in the article to convince the reader that the information in the article is **accurate and believable**.

What the Author Does/Uses	How it seems accurate/believable
talks about how the bees pollinate a lot of our food	Because without food we can't live so we need the bees
this is spreading to 27 states	the scientists it the ones making this believable
honeybees add about \$15 billion a year in food value to our supply	which this is deftly something to believe because without bees we will die.

Reading Performance Assessment Task 5  
 High School – 2009 – *Are Americans Destined for a Diet of Bread and Water?*

Read the following article carefully and make notes in the margin as you read. Your notes should include:

- ☐ Comments that show that you **understand** the article. (A summary or statement of the main idea of important sections may serve this purpose.)
- ☐ Questions you have that show what you are **wondering** about as you read.
- ☐ Notes that differentiate between **fact** and **opinion**.
- ☐ Observations about how the **author's craft** (organization, word choice, perspective, support) and **choices** affect the article.

Your **margin notes** are part of your score for this assessment.

 School \_\_\_\_\_ School District \_\_\_\_\_

*NOTE: This Associated Press article appeared in the GRANTS PASS DAILY COURIER on Saturday, May 5, 2007. Almost two years after the article's publication, the mystery of the honeybee die-off continues today.*

### ARE AMERICANS DESTINED FOR A DIET OF BREAD AND WATER?

*Some experts fear that may be the case, if the mysterious honeybee die-off isn't brought to a halt.*

BELTSVILLE, Md.

Unless someone or something stops it soon, the mysterious killer that is wiping out many of the nation's honeybees could have a devastating effect on America's dinner plate, perhaps even reducing us to a glorified bread-and-water diet.

Honeybees don't just make honey – they pollinate more than 90 of the tastiest flowering crops we have.

Among them: apples, nuts, avocados, soybeans, asparagus, broccoli, celery, squash and cucumbers. And lots of the really sweet and tart stuff, too, including citrus fruit, peaches, kiwi, cherries, blueberries, cranberries, strawberries, cantaloupe and other melons.

\* In fact, about one-third of the human diet comes from insect-pollinating plants, and the honeybee is responsible for 80 percent of that pollination, according to the U.S. Department of Agriculture.

Even cattle, which feed on alfalfa, depend on bees. So if the collapse worsens, we could end up being "stuck with grains and water," said Kevin Hackett, the national program leader for USDA's bee and pollination program. "This is the biggest general threat to our food supply," Hackett said.

While not all scientists foresee a food crisis, noting that large-scale bee die-offs have happened before, this one seems particularly baffling and alarming.

*Notes on my thoughts, reactions and questions as I read:*

I had no idea honeybees pollinated these flower crops.

Big Fact, it says so.

This would be an opinion. It's what Hackett says & believes.

I wonder why the bees are dying off. maybe a climate change or how human affect their environment?

**Reading Performance Assessment**  
**High School – 2009 – Are Americans Destined for a Diet of Bread and Water?**

Task 5

U.S. beekeepers in the past few months have lost one-quarter of their colonies – or about five times the normal winter losses – because of what scientists have dubbed Colony Collapse Disorder. The problem started in November and seemed to have spread to 27 states, with similar collapses reported in Brazil, Canada and parts of Europe.

*Notes on my thoughts,  
reactions and questions as I  
read:*

Scientists are struggling to figure out what is killing the honeybees, and early results of a key study point to some kind of disease or parasite.

Even before this disorder struck, America's honeybees were in trouble. Their numbers were steadily shrinking, because their genes do not equip them to fight poisons and disease very well, and because their gregarious nature exposes them to ailments that afflict thousands of their close cousins.

*I didn't know this  
either. This whole  
paragraph are facts.*

"Quite frankly, the question is whether the bees can weather this perfect storm," Hackett said. "Do they have the resilience to bounce back? We'll know probably by the end of the summer."

Experts from Brazil and Europe have joined in the detective work at USDA's bee lab in suburban Washington. In recent weeks, Hackett briefed Vice President Cheney's office on the problem.

Congress has held hearings on the matter.

"This crisis threatens to wipe out production of crops dependent on bees for pollination," Agriculture Secretary Mike Johanns said in a statement.

A congressional study said honeybees add about \$15 billion a year in value to our food supply.

*Because of how big  
a part bees play in  
pollinating a large portion  
of our crops, them  
dying off would cause a  
huge crisis in our society.  
It reminds me of the  
1920s-1930s with the great  
Depression & the dust  
bowl.*

*Used by permission of the Associate Press.*

1. What was the general health of the honeybee population **before** the mystery die-off began? **Give an example** from the text.

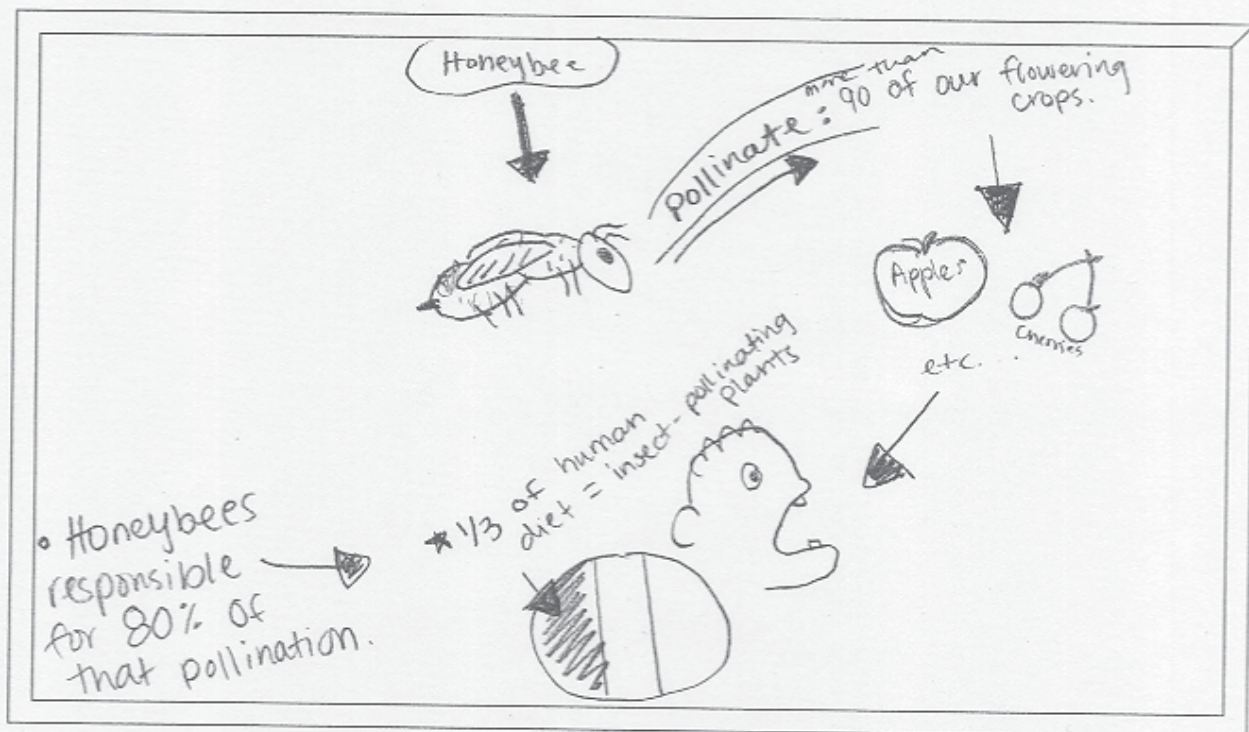

*The honeybee population was already decreasing slowly because of how their genes are made up.*

*EX: "Even before this disorder struck, America's honeybees were in trouble. Their numbers were steadily shrinking, because their genes do not equip them to fight poisons and disease very well, and because their gregarious nature exposes them to ailments that afflict thousands of their close cousins."*

High School – 2009 – *Are Americans Destined for a Diet of Bread and Water?*

2. Draw and/or write a description of the **relationship** between the **honeybee** and the human food **supply** as explained in the article.

3. Why is the article titled, "Are Americans destined for a diet of bread and water?" Use content and examples from the text to **explain** your answer.

The title of the article gets the readers attention because to survive, you have to eat. In the article, Kevin Hackett, the national program leader for the USDA's bee & pollination program, says that if the dying of the honeybee continues, we could end up being "stuck with grains and water." This is his opinion that he feels is possible based on the bee situation and I think a lot of it is dramatic affect.

High School – 2009 – *Are Americans Destined for a Diet of Bread and Water?*

4. What does Kevin Hackett, of the US Department of Agriculture, mean when he states, "Quite frankly, the question is whether the bees can weather this perfect storm"? Use information from the article to **support your answer**.

Kevin Hackett is basically asking if the bees will be able to overcome whatever it is that is killing them. He uses a metaphor of a storm to symbolize the wave of death and weather for the bees strength to ride it out. Also, his next quote, "Do they have the resilience to bounce back...", sort of ties on to the end of his last and just re-phrases it.

5. What is the **author's purpose** in writing this article? **Support your answer** with language from the text.

The purpose of writing this article was to inform the reader of the honeybees role in the U.S. The first sentence says, "... honeybees could have a devastating affect on America's dinner plate..." I like that the author uses the word devastating because it shows the seriousness of the situation.

6. Use this T-Chart to identify **three things** that the **author does** or **uses** in the article to convince the reader that the information in the article is **accurate** and **believable**.

What the Author Does/Uses	How it seems accurate/believable
• uses Language that is persuasive	• The words in the article are descriptive and almost overly used. Like above I mentioned the word devastating.
• Uses Facts & statistics	• People believe facts and stats. because they can be backed up with evidence. They're called facts for a reason.
• gives background information on the honeybee's health.	• Giving information on the bee's health record was a good idea because it helps the reader to understand how fragile they are and how easy it is to kill them.

**Oregon Department of Education**  
**Official Reading Work Sample Feedback Form**  
(Use with Oregon's Reading Official Scoring Guide when Revision is Warranted)

Student Name: \_\_\_\_\_ Date: \_\_\_\_\_

Title of Assessment: \_\_\_\_\_

Bullets describe a score of 4. ☒ Boxes indicate areas that meet the standard. ☒ Boxes indicate areas that need improvement. No other feedback beyond the Official Scoring Guide may be provided.

Requirement:

\_\_\_\_ Work Sample 1  
\_\_\_\_ Work Sample 2

Meets All Standards:

\_\_\_\_ Yes  
\_\_\_\_ Not Yet

**Demonstrate Understanding**

**1      2      3      4      5      6**

The reader responses show:

- ☐ Accurate understanding of stated main ideas and supporting details
- ☐ Understanding of sequence of events / relationships among ideas
- ☐ Understanding of differences between facts and opinions (informational text)

**Develop an Interpretation**

**1      2      3      4      5      6**

The reader responses show:

- ☐ Understanding of unstated main ideas, conclusions, connections, predictions
- ☐ Reasonable interpretations, conclusions, generalizations, connections, predictions
- ☐ Some evidence from the text to support the above

**Analyze Text: Informational**

**1      2      3      4      5      6**

The reader responses show:

- ☐ Author's purpose (identification)
- ☐ Reasoned judgments about author's ideas, support, reasoning, use of sources
- ☐ How writing strategies (structure, devices, word choice) contribute to effectiveness
- ☐ Some evidence from the text to support the above

**Analyze Text: Literary**

**1      2      3      4      5      6**

The reader responses show:

- ☐ How literary elements contribute to effectiveness
- ☐ How literary devices contribute to effectiveness
- ☐ Some evidence from the text to support the above

# Traits Overview on the Reading Scoring Guide

When your work sample is scored, the scorer will be looking for the following items in your response. The more you include, the higher your score.

<div>1.</div> <div>DEMONSTRATE UNDERSTANDING</div> <div>The reader demonstrates that s/he "Gets the Gist" of the passage; that is, s/he:<ul style="list-style-type: none"><li>• gets main ideas</li><li>• gets relevant details</li><li>• distinguishes facts and opinions</li><li>• understands the sequence of events</li><li>• gets what's right there in the text—the literal comprehension</li></ul></div>	<div>2.</div> <div>DEVELOP AN INTERPRETATION</div> <div>The reader demonstrates that s/he is "Reading between the Lines" of the passage; that is, s/he:<ul style="list-style-type: none"><li>• gets the unstated main ideas and themes</li><li>• makes inferences</li><li>• can make interpretations, conclusions, &amp; generalizations</li><li>• can predict future outcomes</li><li>• reads under the surface of the text — the inferential comprehension</li></ul></div>
<div>3.</div> <div>ANALYZE TEXT—INFORMATIONAL</div> <div>If the text is <i>informational</i>, the reader is able to "Look at the Author's Craft" in the passage; that is, s/he can identify the author's:<ul style="list-style-type: none"><li>• purpose</li><li>• ideas &amp; reasoning</li><li>• use of support and resources</li><li>• writing strategies</li><li>• organization, word choice, format, perspective</li><li>• use of literary devices (if used) *</li></ul>The reader can:<ul style="list-style-type: none"><li>• provide evidence of the above from the text.</li></ul><div>*e.g. irony, satire, exaggeration, allusion, etc.</div></div>	<div>3.</div> <div>ANALYZE TEXT—LITERARY</div> <div>If the text is <i>literary</i>, the reader can "Apply His/Her Knowledge of Literature" by identifying the author's use of:<ul style="list-style-type: none"><li>• literary elements theme, character, setting, plot, narrator, voice, tone, mood, etc.</li><li>• literary devices</li><li>• figurative language, imagery, point of view, foreshadowing, flashbacks, symbolism, etc.</li></ul>The reader can:<ul style="list-style-type: none"><li>• analyze the effectiveness of their use, and</li><li>• provide evidence of their use from the text.</li></ul></div>

# Simplified Reading Scoring Guide

6.	The work is excellent. I gained insights from reading the student's responses.
5.	The work shows the student nailed it; he/she provides strong evidence.
4.	The work shows that the student got it and he/she provides enough evidence. (There are more strengths than weakness.)
3.	The work shows that the student may have gotten it, but did not provide enough evidence. (There are more weaknesses than strengths.)
2.	This work is not close. The student made an effort but appears confused.
1.	This work demonstrates that the student didn't understand the reading.

# Reading Work Samples and Instruction

## Why would a teacher assign work samples?

1. Work samples increase reading comprehension.
2. Interacting with the text is a truly effective strategy that proficient readers use. Work samples encourage students to stay engaged with the text.
3. Completing work samples at earlier grades:
  - a. builds a reader's confidence that he/she can understand complex text, and
  - b. builds the stamina needed to persevere when the text is difficult.
4. If a student is assigned a work sample at grade twelve without any previous experiences with work samples, they are less likely to succeed. Students need practice and experience.
5. Using work samples in the classroom allows for differentiation of instruction—they appeal to and stimulate all different types of learners and can be tailored to the student's independent reading level.

## What constitutes a reading work sample?

1. It includes a reading passage.
  - a. The passage can be either an informational or literary passage
  - b. Prose selections may be approximately 1000 to about 2000 words in length. Poetry and drama that reflect appropriate length and complexity may also be used.
  - c. Grade level reading materials are used for practice.
  - d. High School level materials (in the 950-1200 Lexile® range) are used for official reading work samples.
2. Space along the right margin for interacting with the text (a place to write notes, comments, and questions).
3. The text is followed by a series of prompts designed to help the student show evidence of Demonstrating Understanding, Developing an Interpretation, and Analyzing Text. These prompts may include:
  - a. open-ended questions.
  - b. graphic response items.

# What do I write in the margin?

1. <b>ASK QUESTIONS</b>	Ask questions about what is happening in the selection, exploring possible reasons for what is taking place or why characters act and react in particular ways. Make notes about words and statements that confuse you - but don't get sidetracked - things may get clearer as you read further in the selection. Try not to fill your margins with only questions.
2. <b>MAKE CONNECTIONS</b>	Think of similarities between what is described in the selection you are reading and what you have experienced, heard about, or read about somewhere else. Comments may start out something like these - "This reminds me of ..." or "This story is like ...." Record those thoughts in the margin.
3. <b>MAKE PREDICTIONS</b>	Try to figure out what might happen next and how the selection might end. Put those thoughts in places where you find clues that lead you to think of a logical future event.
4. <b>INTERPRET WHAT THE AUTHOR IS SAYING</b>	Try to "read between the lines" by watching for unstated main ideas, subtle details, and reasoned arguments that lead the reader to draw a conclusion. Notice where the author provides details about characters that help the reader to form an opinion of that person.
5. <b>WRITE THE GIST OF WHAT YOU KNOW SO FAR</b>	Stop occasionally for a quick review of what you understand so far. Read patiently. Be prepared, however, to have your understanding change as you read on and get more information and ideas. Record your changes in thinking in the margins as you read.
6. <b>ANALYZE THE AUTHOR'S WRITING TECHNIQUES</b>	Notice techniques the author uses to make the writing effective. Identify and explain what the author wants the reader to understand or do and where he/she uses details, facts, opinions, experts, etc. to make the writing believable or influence the reader. Comment on the style of the author and phrases or passages that you find particularly effective or ineffective. If the author uses especially good words or includes writing strategies like similes, personification, symbolism, exaggeration, irony, etc., make note of how those choices <u>affect the writing</u> . When reading poetry, pay attention to stanzas, rhyme, rhythm, and other poetic devices.
7. <b>ADD YOUR EVALUATION OF WHAT THE AUTHOR IS SAYING</b>	Form opinions about what you read, both during and after reading. These opinions can relate to the topic in general, details provided by the author, or events or messages that you have a reaction to. Record your opinions in the margin notes.
