

Current Lesson Materials – Elementary School: Brick for Pigs, Joanie Appleseed, and Toad's New Car

We have developed three sample lessons for elementary school classrooms that span earth & space science, life science, and physical science. Each of these lessons includes a thorough lesson plan and a set of handouts that you can customize to your needs. The lesson plans explain the materials you will need and how to prepare for part of the lesson. An appendix describes the alignment of the lesson with 2009 Oregon Science Standards and the new Oregon Science Standards adopted in 2014 ([Next Generation Science Standards](#)).

Instructions

[EDOSC Reading Booklet Assembly Instructions](#): Instructions for printing and assembling Bricks for Pigs, Joanie Appleseed, and Toad's New Car reading booklets.
