

2021 ELP Instructional Materials Evaluation Training Materials

Training Materials

Evaluators were trained for the State Instructional Materials Review of **English Language Proficiency** in June 2021. The training materials are provided here for school districts to make use of for training their own evaluation teams. These materials may be useful in training teams for independent adoptions, or for review and selection from the state adopted list.

Instructional Materials Evaluation Tools (IMET)

The IMET (Instructional Materials Evaluation Tool) is a scoring rubric that contains the English Language Proficiency adoption criteria within it. Below you will find the IMET used during the 2021 English Language Proficiency instructional materials review for each category. Once scores have been input for each criterion, the spreadsheets with scoring automation will summarize whether a material has met the scoring threshold for adoption.
