Suzanne Hidde, Health and Physical Education Specialist

Agenda

Oregon Department of Education

- Review statutes and administrative rules related to Oregon's instructional materials evaluation and adoption.
- Outline timeline for 2026 evaluation and adoption.
- Introduce Oregon's Physical Education instructional materials adoption criteria
- Summarize review process and upcoming deadlines for publishers.
- Q&A

Statutes & Rules

- **Chapter 337 of Oregon Revised Statute (ORS)**
 - State Board of Education shall adopt a list of instructional materials for each grade level and subject area in which textbooks are required.
- **Chapter 581, Division 11 of Oregon Administrative Rule (OAR)**
 - Only basal materials may be evaluated and adopted.
 - ODE does not evaluate supplemental materials, AP/IB materials, or intervention materials.
 - A major instructional vehicle may include such instructional materials as a hardbound or a softbound book or books, or sets or kits of print and non-print materials, including electronic and internet or web-based materials or media. (OAR 581-011-0050)

Feb 2026: Updates to Oregon Evaluation Process

The 2025 passage of [Senate Bill 141: Section 27](#) provides funding for Oregon's program and **removes the current publisher fee system.**

For publishers, this means:

- Publishers are no longer required to pay a fee for each title or instructional materials submitted for evaluation, which historically was a barrier to some vendors and publishers.
- While bid sheets will be required in the submission process, this is primarily to outline the submitted materials, as well as their identified retail and contract prices. This document becomes the pricelist after adoption.
- No longer conducting bid sheet conversations, time and resources can instead be focused on the rest of the process, and providing submissions that best meet Oregon standards and criteria, and district needs.
- Potential to add implementation products and materials to bidsheets, without the added fee cost.

Updates to Oregon Evaluation Process

The 2025 passage of [Senate Bill 141: Section 27](#) provides funding for Oregon's program and **removes the current publisher fee system.**

For Oregon Districts, this may mean:

- Greater variety of instructional materials including local and OER materials, or materials offered at various price points.
- Contract prices remain a top priority for districts.
- As we as a state begin to shift more towards implementation of adopted HQIM, districts may be looking for additional implementation or Curriculum-Based Professional Learning materials and services.

Instructional Materials Review

The State Adopted List is beneficial for school districts and publishers.

- School districts have a list of high quality materials to choose from without being required to conduct an independent evaluation.
- Publishers have a contract with the State to allow schools to use these as basal materials for the contracted period.
- Publishers receive high quality feedback about their materials.
- The State Adopted List and score sheets from all reviews are displayed on the [ODE Adopted Instructional Materials](#) webpage allowing easy access to the results of all reviews.
