2027-29 Biennium: Student Investment Account List of Virtual Public Charter Schools

Virtual Public Charter Schools and the Student Success Act

Virtual Public Charter Schools are not eligible to apply for Student Investment Account (SIA) funding under the Student Success Act (SSA)[1]. Additionally, the Department of Education must remove the ADMw attributable to a virtual public charter school from an eligible school district's SIA allocation[2]. The Department has determined the following public charter schools meet the definition of Virtual Public Charter School as defined in ORS 338.005. These determinations were made using information reported by the charter schools directly to the Department's charter school specialist and information from the Department's institution database on schools that identify as full-virtual or focus-virtual. The ADMw attributable to these schools will be removed from the SIA calculations for their sponsoring school districts.
