RE: **Updated Guidance on Dissemination Grant Use of Funds**

Oregon Charter School Program dissemination grant applicants may include in their budget up to a **10% allocation of grant funds to grant management and oversight**. Previous guidance stated that no funds could be used for grant oversight. After consultation with the United States Department of Education we have modified our position based on the broader federal Uniform Guidance, specifically the definitions of reasonable costs (§ 200.404) and allocable costs (§ 200.405).
