

DID YOU KNOW?

Was high school student success team implementation related to 9G-OTG rates?

Note. Data from the 2019-20 school year were not available due to pandemic era impacts on school operations.

Implementation, COVID-19, and 9G-OTG

- ✓ In the figure to the left, 9th grade on track to graduation (9G-OTG) rates by high school student success team implementation before and after passage of Measure 98 and the COVID-19 pandemic are presented.
- ✓ Immediately after passage of Measure 98, 9G-OTG rates slightly increased in full and partial implementation schools but slightly dropped in schools that did not implement success teams.
- ✓ During the pandemic, 9G-OTG rates declined for each school type before rebounding in 2021-22.
- ✓ The positive rebound in 9G-OTG rates continued in 2022-23, with non- and partial-implementing schools returning to their pre-Measure 98 levels.
- ✓ **Full implementation schools experienced the largest overall status gain in 9G-OTG between 2016-17 (pre-Measure 98) and 2022-23 (3%).**
