¹ In 2013-14, graduation rate methodology changed. Starting in 2013-14, in addition to students receiving a regular diploma, the graduation rate includes students who received a modified diploma and those who earned their diplomas but had not yet received them because they were returning for a 5th year of high school to earn college credits. In 2015-16, rules regarding these 5th year programs were changed, causing most of these students to be awarded their diplomas, and small number to continue into Post Graduate Scholar programs. This change is not expected to impact overall graduate counts.
