

Executive Numbered Memo 011-2011-12 - Retirement of Mac 10.3 Operating System for Online Testing

May 31, 2012

TO: Superintendents and District Test Coordinators

RE: Retirement of Mac 10.3 Operating System for Online Testing in 2012-2013

Beginning in the 2012-2013 school year, ODE's test vendor, American Institutes for Research (AIR), will no longer support the Mac 10.3 Operating System for use in online testing, including OAKS Online, Online Writing, and the ELPA, because Mac 10.3 is not compatible with the enhanced security features that will be incorporated in the 2012-13 OAKS Secure Browser.
