

**DIVISION 26**  
**PUBLIC CHARTER SCHOOLS**

**581-026-0710**

**District Fees for Interscholastic Activities for Students Who Attend a Public Charter School**

(1) A public charter school must pay a school district or school an annual fee equivalent to a percentage of the school district's General Purpose Grant per ADMw as calculated under ORS 327.013 if a student who attends a public charter school intends to participate in an interscholastic activity.

(a) As used in this section, "intends" means: the student is enrolled at the public charter school, has met the eligibility requirements to participate in the interscholastic activity, and has been admitted to the interscholastic activity.

(b) The fee may not exceed five percent (5%) per fiscal year regardless of the number of interscholastic activities the student participates in. The district should consider not exceeding the actual cost of providing the interscholastic activity to the charter school student if it is less than the five percent (5%) maximum.

(2) Notwithstanding section (1), a public charter school must pay an additional annual fee if the student who attends the public charter school participating in the interscholastic activity requires the student to enroll in a course for credit.

(a) The public charter school and the school district must enter into an agreement for the payment; and

(b) The fee may not exceed five percent (5%) per course for credit. The district should consider not exceeding the actual cost of providing the course for credit if it is less than the five percent (5%) maximum.

(c) A course for credit shall be limited to secondary courses for credits on a high school diploma.

(3) Fees shall be based on the Oregon Department of Education's most recent published State School Fund Estimates on or before August 31 of the year in which the student participates.
