Hearing Impairment Deaf or Hard of Hearing

Formatted: Font:

(1) Early Intervention (birth through two in accordance with OAR 581-015-2700(10)); "Deaf or hard of hearing" means an impairment in hearing, whether permanent or fluctuating, that is so severe that the infant or toddler is impaired in processing linguistic information through hearing, with or without amplification, currently affecting or has the potential to significantly affect an infant or toddler's developmental progress. The infant or toddler's hearing level does not need to be presently affecting their development for the infant or toddler to be eligible for Early Intervention services.

(2) Early Intervention: If an infant or toddler is suspected of being deaf or hard of hearing, a comprehensive evaluation must be conducted, including the following:

Formatted: Not Highlight

Formatted: Not Highlight

(a) An audiological assessment given by an audiologist licensed under ORS chapter 681 or by the appropriate authority in another state;

(b) For conductive hearing loss, a medical examination indicating hearing loss identified by an audiologist licensed under ORS chapter 681 or by the appropriate authority in another state and determined to be untreatable by:

(A) A physician licensed under ORS chapter 677 or by the appropriate authority in another state;

(B) A nurse practitioner licensed under ORS 678.375 to 678.390 or by the appropriate authority in another state;

(C) A physician assistant licensed under ORS 677.505 to 677.525 or by the appropriate authority in another state; or

(D) A naturopathic physician licensed under ORS chapter 685 or by the appropriate authority in another state.

(c) For sensorineural hearing loss, documentation indicating the hearing loss identified by an audiologist licensed by an appropriate state authority under ORS chapter 681 or by the appropriate authority in another state is determined to be sensorineural.

(d) Any additional evaluations or assessments necessary to identify the infant or toddler's needs.

(3) Early Intervention: To be eligible as an infant or toddler who is deaf or hard of hearing, the infant or toddler must meet the following criteria:

(a) The infant or toddler must have hearing thresholds in at least one ear of 25 dBHL or greater at two or more consecutive frequencies at 500 Hz, 1000 Hz, 2000 Hz, 4000 Hz, 6000 Hz and 8000 Hz; or

(b) The hearing loss is due to auditory neuropathy spectrum disorder (ANS) or aural microtia/atresia, as determined by an audiologist or physician, respectively.

(4) Early Intervention: For an infant or toddler to be eligible for early intervention services as an infant or toddler who is deaf or hard of hearing, the eligibility team must determine that:

(a) The infant or toddler is deaf or hard of hearing as defined in this rule; and

(b) The infant or toddler is eligible for early intervention services in accordance with OAR 581-015-2780.

processing linguistic information through hearing, with or without amplification, that adversely affects a child's developmental progress (age 3 through 5) or educational performance (age 5 through 21).

(4) Early Childhood Special Education and School Age: If a child is suspected of having a hearing impairment being deaf or hard of hearing, a comprehensive evaluation must be conducted, including the following:

(a) Audiology Audiological assessment: An audiological assessment by an audiologist licensed by a State Board of Examiners for Speech-Language Pathology and Audiology given by an audiologist licensed under ORS chapter 681 or by the appropriate authority in another state;

(b) For conductive hearing losses only, medical or health assessment statement a medical examination indicating hearing loss identified by an audiologist licensed under ORS chapter 681 or by the appropriate authority in another state and determined to be untreatable by:

(A) A a physician licensed by a State Board of Medical Examiners an appropriate state authority licensed under ORS chapter 677 or by the appropriate authority in another state;

(B) A a nurse practitioner licensed by a State Board of Nursing specially certified as a nurse practitioner practicing within his or her area of specialty licensed under ORS 678.375 to 678.390 or by the appropriate authority in another state;

(C) or a A physician assistant licensed by a State Board of Medical Examiners practicing within his or her area of specialty licensed under ORS 677.505 to 677.525 or by the appropriate authority in another state;
or

(D) A naturopathic physician licensed under ORS chapter 685 or by the appropriate authority in another state-state.

(c) For sensorineural hearing loss only, documentation indicating the hearing loss identified by an audiologist, licensed by by State Board of Examiners for Speech-Language Pathology and Audiology an appropriate state authority under ORS chapter 681 or by the appropriate authority in another state is determined to be sensorineural.

(d) Other:

(A) Any additional assessments necessary to determine the impact of the suspected disability:

(i) On the child's developmental progress for a preschool child (age 3 through 5); or

(ii) On the child's educational performance for a school-age child (age 5 through 21); and

(B) Any additional evaluations or assessments necessary to identify the child's developmental or educational needs.

(7) Early Childhood Special Education and School Age: To be eligible as a child who is deaf or hard of hearing, the child must meet one of the following criteria:

(a) The child has a pure tone average loss of 25 dbHL or greater in the better ear for frequencies of 500 Hz, 1000 Hz, and 2000 Hz, or a pure tone average loss of 35 dbHL or greater in the better ear for frequencies of 3000 Hz, 4000 Hz, and 6000 Hz; or

(b) The child has a unilateral hearing impairment with a pure tone average loss of 50 dbHL or greater in the affected ear for the frequencies 500 Hz to 4000 Hz; and

(c) The loss is either sensorineural or conductive if the conductive loss has been determined to be currently untreatable by a physician.

(a) The child must have hearing thresholds in at least one ear of 25 dBHL or greater at two or more consecutive frequencies at 500 HZ, 1000 HZ, 2000 HZ, 4000 HZ, 6000 HZ and 8000 HZ, or

(38) For a child to be eligible for special education services as a child with a hearing impairment who is deaf or hard of hearing, the eligibility team must also determine that:

(a) The child's disability has an adverse impact on:

(A) The child's developmental progress when the child is age three through kindergarten; or

(B) The child's education performance when the child is age of eligibility for kindergarten through age 21; and

(b) The child needs special education services as a result of the disability.

(a) The child is deaf or hard of hearing as defined in this rule; and
