

How to Translate a Web Page to Another Language

Instructions

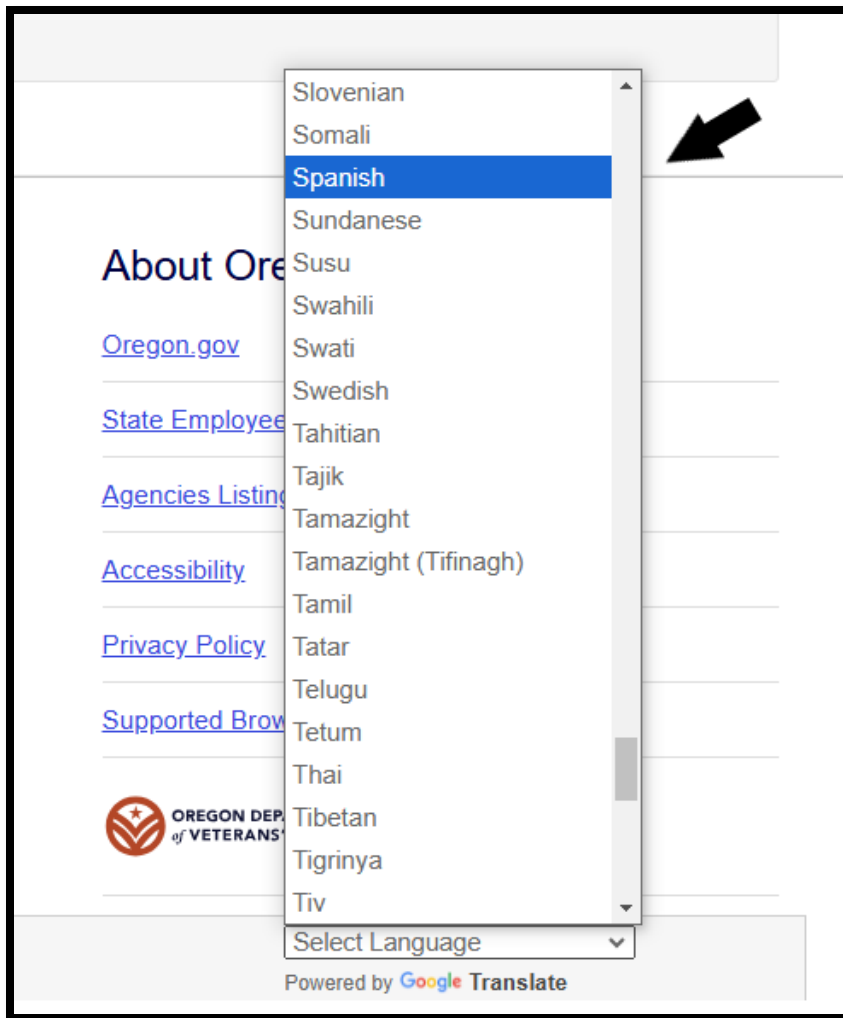

1. To translate the webpage into your preferred language, scroll to the bottom of the webpage and locate the “Powered by Google Translate” feature.

2. Then, click on the small arrow to open a menu of languages. Scroll through the list until you find your preferred language and select it.

3. Once you select a language, the webpage will automatically translate. Please note that you'll need to repeat this process for each webpage you visit.

4. You can now scroll through the webpage and read it in your selected language. Please note that this feature does not translate documents.
