

Mandatory Lead in Water Testing

Training Module 5 - Publishing Test Results

August 2023

OREGON
DEPARTMENT OF
EDUCATION

Oregon achieves . . . together!

Publishing Requirements

[ORS 332.334](#) requires that all test results be made available to the public **no later than 10 business days** from receiving final test results. Final test results are the last test results received for a building. If there are no fixtures with elevated levels of lead, the initial test results would also be the final test results. If there are elevated levels of lead, the final test results are the last test results after the fixtures have been successfully remediated. **Test results must be published three separate ways. You must publish all three ways:**

- Posted to the ESD’s, district’s, or charter school’s website
- Available to the public in hardcopy in the main administrative office
- Emailed to staff, students, and parents of minor students for whom the school has an email address. This includes providing actual final test results or providing direct access to final test results through links in the communications. It is **not** sufficient to simply instruct people to go to the school’s website.

Website Posting Requirements - Location

Post test results together in the same area of the website where the Healthy and Safe Schools (HASS) Plan and associated information is found.

Website Posting Requirements - Formatting

The lab sheets must be posted to verify results along with a comprehensive summary document. Post the summary document(s) as a cover page, because lab sheets are difficult to understand. ODE has developed a [test results summary template](#) that may be used, so that parents and the public will have an easier time interpreting the lab results

Below is an example of a summary table to illustrate what is required.

Water Testing Results - Brian Elementary Action Level is 15 parts per billion (ppb)			
Fixture Location/Description	Fixture ID #	Test Date	Test Result
Main Hall - Drinking Fountain - Upper	12340101-001DW	4/11/2020	23.6 ppb
Main Hall - Drinking Fountain - Lower	12340101-002DW	4/11/2020	6.8 ppb
Main wing - Boys Restroom left	12340101-003BF	4/11/2020	2.3 ppb
Main wing - Boys Restroom right	12340101-004BF	4/11/2020	2.5 ppb
Main wing - Girls Restroom left	12340101-005BF	4/11/2020	ND
Main wing - Girls Restroom right	12340101-006BF	4/11/2020	1.1 ppb
Art room - North sink	12340101-007CF	4/11/2020	4.0 ppb
Art room - South sink	12340101-008CF	4/11/2020	4.3 ppb
Retest			
Main Hall - Drinking Fountain - Upper	12340101-001DW	5/13/2020	ND
ND = Non Detect - Lead level is below the set detection limits of 1ppb
