

**Request For Information - Bid S-58100-00010183**  
**Wireless Panic Alarm System Vendors**  
**Respondent Information Sheet**

**Date Completed:**

<b>Information Worksheet</b>
Company Name:
Contact Information (website, email address, phone number, sales contact):
(Optional) Provide a brief explanation of services offered that would be of interest to a school district considering purchasing and installing a wireless panic alarm system.
Explain your product's ability to integrate with and populate required information to generate calls for service into various Computer Aided Dispatch (CAD) Systems in use by public safety dispatch centers throughout Oregon.
Explain your product's ability to permit wireless activation of a notification of a potential emergency from non-central locations on school grounds. Notification can be a direct call for service to a CAD System or a direct notification of the school front office (or other designated place) where school leadership makes the determination for response type.
Explain your product's ability to permit school-wide notification of the potential emergency on the school's internal alert system, or by notification of the front office (or other designated place) for follow-on notification of the school for necessary response procedures.

**Request For Information - Bid S-58100-00010183**  
**Wireless Panic Alarm System Vendors**  
**Respondent Information Sheet**

List the Oregon agencies or CAD system companies that your product currently operates with and can integrate with and populate required information to generate calls for service.
(Optional) Additional information that could help with this RFI. Feel free to include that information here or attach it with your submission.
