(Revised November 1, 2019)
This edition of the *Program Budgeting and Accounting Manual* is a revision of the 2018 manual. This document becomes effective for the 2020-21 fiscal year. When the 1998 manual was drafted, the Chart of Accounts Committee recommended biennial revisions to keep the manual up to date and to promote consistency of accounting across school districts in the state. The 1998 changes were a result of House Bill 3636, enacted by the Legislature in 1997, which directed the Department of Education to review, modify, update and improve the existing chart of accounts for school districts and education service districts that will allow for valid comparisons of expenditures among schools and districts.

School district representatives from around the state have contributed their time and expertise to complete the revised manual. The Oregon Department of Education wishes to thank the committee members for their work in completing this fourteenth edition of the manual.

Sincerely,

Colt Gill

Deputy Superintendent of Public Instruction

We wish to thank the district staff for their time, energy, efforts, and contributions

Introduction

The Purpose and Goal
The Program Budgeting and Accounting Manual is designed as a resource tool for school districts and education service districts in Oregon. The use of the budget and accounting codes will vary with the individual needs of each district. The minimum requirement is adopted as Administrative Rule by the State Board of Education and is in **bold type** face as shown in Chapter 2. Additional codes are available at the option of the district for more extensive use of account descriptions.

The 2019 Program Budgeting and Accounting Manual was developed based on the following goals:

- The accounting code structure is designed to provide consistent classification of expenditures to allow valid spending comparisons among schools and districts. The financial accounting and reporting system complies with Generally Accepted Accounting Principles (GAAP).
- The budgeting and accounting system can be used to plan and manage the resources of a school district.
- The manual is a working handbook to which revisions will be made.

With the above goals in mind, the Oregon Department of Education presents this manual to all school districts and educational service districts in the state of Oregon. It is our intent that use will occur at all levels of management, ranging from the classroom to the boardroom.

Organization of the Manual
Description of the account code structure begins in Chapter 2, covering fund classification, function, object, operational unit, area of responsibility, sub-area, and revenue codes. This chapter provides the basis for the account classification. Chapter 3 provides detailed definitions of the account numbers listed in Chapter 2 and special instructions to promote consistency in accounting practice.

The Department of Education will update this manual each biennium or as needed.

We welcome your comments and suggestions regarding the revised accounting manual.

Conformance with Generally Accepted Accounting Principles
A primary emphasis of this manual is to define account classifications that provide meaningful financial management information to its users. As part of this emphasis, the Program Budgeting and Accounting Manual is written to approach conformance with Generally Accepted Accounting Principles (GAAP), a uniform minimum standard of and guideline for financial accounting and reporting. The Government Finance Officers Association has developed a practical guide to implementing accounting standards in its Governmental Accounting, Auditing and Financial Reporting (GAAFR) document.

Achieving consistency in budgeting and financial reporting enhances our ability to present a clear picture of the district’s financial condition and to make valid comparisons among districts.

Financial information that is consistently presented in a simple and straightforward format will be readily understood by the public, and provide a sound basis for decision-making.

Complying with the Oregon Local Budget Law
Oregon Budget Law (ORS 294) specifies a process and format for a district’s annual budget preparation and presentation. The Oregon Department of Education, through the administrative rule process, adopts a chart of accounts (Chapter 2) that are used to classify revenues and expenditures. These account codes are approved by the Department of Revenue.
Chapter 2 — Uses of the Account Classification System

Uses of the Account Classification System

The purposes of this chapter are to: (1) describe an accounting system and the need for the financial reports of the district; (2) describe the account classification structure; and (3) provide the chart of accounts used in a school district accounting system.

What is an Accounting System?

What is an accounting system? How does it go about serving the diverse needs of its users? The accounting system is the means by which financial data are captured during actual operation of the district, recorded in the accounting system, and then analyzed to produce the various kinds of reports needed. Financial transactions can be classified to facilitate their accumulation in categories to display activities in the financial reports. A primary purpose of an accounting system is to produce financial information organized in various ways for various uses.

Financial Reports

The financial reports produced in a district fall into two major groupings: internal and external. Examples of the internal reports include:

- comparison of budgeted vs. actual revenues and expenditures;
- cash flow projection;
- building operation and maintenance costs, by building; and
- expenditure accounts, showing activity during the last reporting period.

Comparison of current and prior year’s revenues and expenditures.

External financial reports are produced by the district to satisfy the needs of the various users who are not a part of the district, including state and federal agencies, Congress, the Legislature, creditors and credit rating agencies, parents, taxpayers, and the general public.

Each school district is required to produce an annual financial report that has been audited by an independent audit firm. Other external reports generally are of a special purpose or nature. They may include such reports as:

- general financial/statistical summaries for use by legislators;
- specific reports of certain revenues and expenditures by program, for use by the funding source(s); and
- program cost reports.

The State Legislature

The Oregon Legislature determines the level of funding available for the operation of Oregon’s school districts. Accordingly, legislators need clear, consistent information on school spending as a basis for decision making. Cumulative information in comparable formats about the operations of groups of districts is needed to formulate funding policies.

School Administrators and Other Employees

School administrators are key users of the financial account classification system. They must rely on financial reports to allocate and manage resources, evaluate past performance, to aid in day-to-day decision making and to inform the general public.

Budgeting, an important managerial tool for the public school administrator, relies upon correct and properly classified accounting information. The expenditure dimensions used here offer the administrator a variety of methods for budgeting and permit local judgment about the most appropriate technique. Additionally, the accounting system satisfies the administrator’s obligation to ensure compliance with the legal, regulatory and fiduciary responsibilities of this position of public trust.

School Boards and Other Governing Units

School boards and other governing units have both a responsibility and an intense interest in the operation of the school system. The school board is responsible for establishing policies and for overseeing and appraising the administrator as he or she carries out these policies. The school board thus needs timely warning in case situations develop that require corrective action. The board also needs information to assess both the
efficiency of the administration and its effectiveness in complying with policies and restrictions. Some of this information can be provided by general purpose financial reports. Comparable information obtained about other districts also is needed as a basis for comparison.

Creditors and Potential Creditors
Creditors include bondholders and prospective bondholders, credit rating agencies that advise potential bondholders, commercial banks, vendors, and others who have extended credit, or who are considering extending credit, to the district. Typically, they would be interested in the financial position of the organization, its operating performance, and its ability to repay the bonds or loans in full and on time.

The General Public
The interests of constituents are similar to those of resource providers: they want to understand the nature of the organization’s activities, the services provided, and how effectively and efficiently resources are managed.

The Account Classification System
The account classification system presented here is designed to enable the districts to produce the financial reports necessary to better meet all of the potential uses identified above. Based on the following guidelines, the structure meets the identified needs and will provide comparability of reported data among different districts.

1. The chart of accounts encourages full disclosure of the financial position of the district. Emphasis is placed on the accurate classification of financial transactions. Expenditures are recorded in the appropriate accounting categories, regardless of the implications of some of those decisions.

2. Comprehensive financial reporting is encouraged. The district should incorporate all financial activities into a single accounting and reporting system for full disclosure. Accounts for such activities as food services, student body activities, community services and commercial-like enterprises all should be included in the financial reports of the district.

3. Simplified reporting is encouraged. GAAFR encourages using the minimum number of funds necessary for legal and operational use. Using unnecessary funds can result in inflexibility, undue complexity, and inefficient financial administration. Financial reports should be well organized and easy to read.

4. The account classification system is flexible: it meets the needs of both small and large districts while retaining comparability of reported data. The guidelines here include a minimum list of accounts essential for state and federal reporting. They also provide a variety of optional classifications of districts interested in a more comprehensive approach to financial accounting and reporting.

The classification of accounts and the recommended reporting structure remain in accordance with generally accepted accounting principles.

Fund Classification
Governmental accounting systems are organized and operated on a fund basis. The diverse nature of governmental operations and the need for legal compliance preclude recording and summarizing financial transactions in a single accounting entity. Instead, the required accounts are organized on the basis of independent funds. If one were to compare fund accounting with commercial accounting, each fund would equate to an independent business, with a separate set of records owned by one entity, the district.

The accounting system is structured to maintain the identity of the resources, obligations, revenues, expenditures and equities for each fund. This is accomplished by providing a complete self-balancing set of accounts for each fund that shows its assets, liabilities, reserves, fund balances or retained earnings, revenues and expenditures or expenses.

The classifications of fund and account groups included in this handbook are similar to those used by other state and local governmental units. They consist of the following fund and account groups:

Governmental Funds
The funds through which most districts functions are typically financed. The reporting focus is upon determining the financial position and changes in financial position, rather than upon determining net income.
Proprietary Funds
The funds used to account for district activities that are similar to business operations in the private sector; or where the reporting focus is upon determining net income, financial position and changes in cash flows.

Fiduciary Funds
The funds used to account for assets held by a district as trustee or agent. Each trust fund is treated for accounting measurement purposes in a manner similar to either a governmental fund or a proprietary fund. Expendable trust funds are accounted for in essentially the same manner as governmental funds. Nonexpendable trust funds and pension trust funds are accounted for in essentially the same manner as proprietary funds. Agency funds are purely custodial (assets equal liabilities) and thus do not involve measurements of results of operations.

Account Groups
Groups of accounts which are used to record and control the district’s general fixed assets and unmatured general long-term liabilities. Long-term liabilities of proprietary funds and trust funds should be accounted for through those funds.

These four classifications are divided into the following categories called fund types:

Governmental Funds
100 General Fund
200 Special Revenue Funds
300 Debt Service Funds
400 Capital Project Funds

Proprietary Funds
500 Enterprise Funds
600 Internal Service Funds

Fiduciary Fund
700 Trust and Agency Funds

Types of Financial Activity
This publication classifies three basic types of financial activity within funds: (1) revenues and other sources of funds, (2) expenditures and other uses of funds, and (3) transactions affecting the balance sheet (assets and liabilities) of the district. For each type of transaction, the specific account code is made up of a combination of classifications called dimensions. Each dimension describes one way of classifying financial activity. The dimensions for each type of transaction are:

Revenues
- Fund: XXX
- Source: XXXX
- Project: XXX

Expenditures
- Fund: XXX
- Function: XXXX
- Object: XXX
- Operational Unit: XXX
- Area of Responsibility: XXX
- Sub-Area: XXX

Balance Sheet
- Fund: XXX
- Asset (or Liability): XXX

The purpose and uses of each of these dimensions are as follows:

Revenue Dimensions

Source
Revenues collected by school districts are classified by major source:

1000 Local Sources
2000 Intermediate Sources
3000 State Sources
4000 Federal Sources
5000 Other Sources

Project
Districts may use additional account code dimensions to provide further classification of revenue to track receipts for a particular program, project, or school.

Sub-categories within a major source provide additional information regarding the source of revenue. For example, local sources of revenue are recorded in sub-
classifications as local property taxes levied by the school district, tuition, fees, interest earnings, etc.

**Expenditure Dimensions**

**Function**
The function describes the activity for which a service or material object is acquired. The major functions of a district are classified into seven areas:

1000 Instruction
2000 Support Services
3000 Enterprise and Community Services
4000 Facilities Acquisition and Construction
5000 Other Uses (Interagency/Fund Transactions and Debt Service)
6000 Contingency
7000 Unappropriated Ending Fund Balance

Functions and sub-functions consist of activities that have similar operational objectives. Categories of activities in each of these divisions and subdivisions are grouped according to the principle that the activities could be combined, compared, related, and mutually exclusive.

**Object**
The object is the service or commodity bought. These categories are also divided into sub-objects for more detailed accounting.

100 Salaries
200 Associated Payroll Costs
300 Purchased Services
400 Supplies and Materials
500 Capital Outlay
600 Other Objects
700 Transfers
800 Other Uses of Funds

**Operational Unit**
This dimension is used to identify (1) schools or (2) non-school cost centers, such as central programs or departments. Operational Unit codes are defined by the school districts but are required for state reporting purposes because expenditures are reported at the school level rather than the district level.

**Area of Responsibility**
This dimension provides additional detail to the account code and is used to identify expenditures for specific curriculum areas and programs. Districts may elect to use area codes for a variety of reasons to track expenditures and manage costs.

**Sub-Area**
Districts often add other account code dimensions to classify expenditures for particular purposes at their discretion. Some of the possible additional uses are:

- term;
- course; work order;
- bus route or vehicle;
- capital project;

In addition, in automated systems, there may be a need to add some codes for use by the computer. These might include:

- a transaction code to route the transaction through the system and post the correct files and fields in the data record;
- a fiscal year code to assist with closing out one year while beginning to process activity for the new year;
- a reporting level code to assist in organizing report contents and subtotals;
- a district or other organizational unit code in a multi-district system.

**The Minimum Chart of Accounts**
The handbook classification structure (particularly the expenditure classifications) can generate large amounts of detailed data. However, much of the classification system described herein is offered for the optional use of the district. Hence, a district may choose, in a number of ways, which parts of the system it needs or wants to use. It may choose:

- Not to use certain optional dimensions at all;
- To consolidate certain dimensions in its own local chart of accounts;
- To use more dimensions than defined in this publication.
Chapter 2 — Uses of the Account Classification System

Whatever course a district chooses, it must follow a certain minimum list of these classifications to meet federal and state reporting requirements. This list is referred to as the “minimum chart of accounts.”

Using this publication, the district’s first task then is to decide what additional classifications it wishes to use for its own purposes. In the following account classification descriptions, the minimum chart of accounts is highlighted in bold.
Account Classification Descriptions

The account codes are presented for use in accounting for revenue and expenditures of a school district. The codes in **bold type** face are required, except for Area of Responsibility. Non-bold codes are optional and may be used at the district’s discretion. Definitions for each of these descriptions begin in Chapter 3.

Accounting Program Structure

An accounting program structure represents a conceptual organization of the school system’s activities. It provides the basis for collecting, organizing, analyzing, and displaying financial information about the activities of a school district and provides for grouping of activities for assigning costs.

The accounting program structure for Oregon school districts is based on the following account dimensions:

- Fund
- Function
- Object
- Operational Unit
- Area of Responsibility
- Sub-Area

The account code segments allow several levels of detail. For example, a function code can provide four levels of information:

1111—Regular Elementary Instruction
Function——1XXX—Instruction
Program———11XX—Regular Instruction
Service Area————111X—Regular Elementary Instruction
Grade Level———1111—Regular Elementary Instruction

The state requires different levels of detail for various account segments for the Minimum Chart of Accounts. The requirements are outlined in the following sections, with the minimum level of detail indicated with bold font, except for Area of Responsibility.

The following expenditure dimensions are required for state reporting:

Fund, Function, Object, and Operational Unit are required for all expenditure accounts. Fund, Function, and Object are defined by the state. Operational Unit is district-defined and is used to designate either a school or a central program or department.
Area of Responsibility is state-defined and is required for certain Functions, e.g., to indicate curriculum area at the secondary level. Additional account code segments, e.g., Sub-Area, are optional expenditure dimensions that are district-defined and should not be reported to the state.

**Area of Responsibility Dimension Required:**
Note: An “x” indicates a rollup of accounts to the digits indicated. For example a 12xx Function represents all Functions that have a “12” prefix.

**Operational Unit**
Operational unit designated either a school or a central program or department. In general, school-based costs should be charged directly to the school (Operational Unit). The state calculates cost per student at the school level, and central costs will be allocated to the schools on a per-student basis. Grants should be charged to the school level when the information is available; e.g., Title I. Special Education programs should always be charged centrally. The following table indicates whether functions should be charged directly to the School, to a Central number or Either or Both. The “Charge to Either” column indicates that some expenditures in the function would logically be charged to the school and others to a central department. For example, in function 2540, charge the building custodian to the school and a central maintenance worker to a central operational unit.

Charging school-based expenditures directly to the school when possible will produce more accurate cost information in most cases. Special Education costs, however, should be charged centrally because the wide variation of special needs and costs among schools could skew the calculation of cost per student at the school level.

When a district receives a grant, which can be identified at the school level, charge the grant to the school level.

**Special Instructions for Recording Expenditures**

The following procedures are intended to improve consistency among school districts in classifying expenditures.

**GASB Statement 34 Reporting Requirements**

Governmental Accounting Standards Board (GASB) Statement 34 represents one of the most comprehensive changes in financial reporting standards in history. This section will not attempt to address all issues relative to implementation of these standards. District officials are encouraged to discuss their specific issues with their auditors. Detailed questions and answers relative to this topic can be found in the Guide to Implementation of GASB Statement 34 on Basic Financial Statements and Management’s Discussion and Analysis for State and Local Governments published by GASB.
**GASB 34-related changes to Chart of Accounts:**
This section recaps the proposed impact of GASB 34 on the Chart of Accounts. Additional details are provided within each of the impacted accounts.

**Funds**
- Special Revenue Funds – Food Service and Student Body funds should be classified within the Special Revenue Funds. Food Services should not be classified as an Enterprise Fund. Student Body Funds should not be classified as Trust or Agency Funds.
- Enterprise Funds – In general, the use of Enterprise Funds is discouraged.

**Objects**
- ODE sets the capitalization threshold to $5,000; this is consistent with the federal level.
- Districts may use sub-objects under 460 and 480 for inventoried non-capitalized assets if districts choose to identify separately or have inventory systems tied to object codes.
- Add (Depreciable) to name of objects 540 and 550.
- Reorder 66x objects as follows:
  - 662 Buildings
  - 663 Improvements Other Than Buildings
  - 664 Equipment
  - 665 Technology
  - 669 Other Capital Assets
- Note in description for 66x that it is generally to be used only in Enterprise and Internal Service funds.
- The following Object codes have been modified to comply with depreciation requirements of GASB 34. Details can be found within their specific descriptions.
  - 460 Non-consumable Items
  - 540 Depreciable Equipment
  - 660 Depreciation. (Used for Enterprise and Internal Service Funds only)
Special Education Costs—Maintenance of Effort

The Individuals with Disabilities Education Act (IDEA) grant program requires Local Education Agencies (LEAs) to meet maintenance of effort (MOE) as a condition of receiving these federal funds. This means that LEAs may not reduce the amount of local, or State and local, general funds they spend for the education of children with disabilities below the amount they spent for the preceding fiscal year in which they met MOE. (34 CFR 300.203)

Charge special education expenditures to the appropriate function with an Operational Unit code. Attach area code 320 when reporting special education expenditures in all funds. However, only General Fund 100 is used in the MOE baseline calculations.

School Medicaid Billing and IDEA MOE

According to 34 CFR 300.154(g)(2), reimbursements from federal funds, e.g. Medicaid, will not be considered State/local for the purposes of MOE. However, per the Office of Special Education Programs (OSEP), the State/local match payments that are used to draw down the federal Medicaid reimbursement must be included in the MOE calculation.

Transportation of Special Education Students

1. Charge costs of providing special education transportation to function 2550 and attach Area 320, including salaries and associated payroll costs of bus drivers and attendants. Allocate costs such as supplies, insurance, and maintenance between regular transportation and special education. Districts may track actual costs or allocate costs based on special education mileage.
2. Report the purchase of new special education buses under function 2550, Area 320.

Remediation

Schools will be offering remedial courses to students who do not meet the state standards. Charge costs of remediation to function 1271.

Example: Licensed salary cost for teaching remedial classes in math.

Debit Expenditure 100-1271-111-XXX-180
**Alternative Education**

Charge costs of alternative education programs to function 1280 and a central operational unit.

Example: Tuition payments to another agency to provide alternative education.

Debit Expenditure 100-1280-371-XXX

Example: Licensed salary cost for a teacher in district provided alternative education.

Debit Expenditure 100-1280-111-XXX

**Substitute Teachers**

Record the cost of substitutes in the function of the teacher that the substitute is replacing, if the teacher is absent due to illness, personal leave, etc. If the teacher is absent to participate in staff development, charge the substitute cost to a 2240 function (Instructional Staff Development).

Example: Substitute replaces a third grade teacher who is ill

Debit Expenditure 100-1111-121-XXX

Example: Substitute replaces a fourth grade teacher who is attending a workshop on teaching math

Debit Expenditure 100-2240-121-XXX or
Debit Expenditure 100-2240-121-XXX-180 to designate math

**Staff Development**

Charge costs of staff development for licensed, classified, and administrative employees that are instructionally related to 2240 Instructional Staff Development, using the appropriate object.

Example: Record cost of supplies for math instruction training session which elementary teachers attend.

Debit Expenditure 100-2240-410-XXX or
Debit Expenditure 100-2240-410-XXX-180 to designate math

Charge non-instructional staff development to the appropriate function and object. Attach Area code 310 Staff Development for tracking.

Example: Computer spreadsheet training materials for fiscal staff.

Debit Expenditure 100-2520-410-XXX-310

**Grant Administrative Charges**

Record the indirect charges for grant administration directly to the grant, object code 690. Pay the amount to the general fund, revenue account 1980.

Example: Record administrative charge to staff development grant.

Debit Expenditure 200-2240-690-XXX
Credit Liabilities 200-4020 Due to other funds
Debit Assets 100-1320 Due from other funds
Credit Revenue 100-1980 Fees charged to grants
Transfers to Other Funds

Districts may make transfers from one fund to the General Fund, Special Revenue, Debt Service, Capital Projects, and Trust and Agency Funds. Transfers are excluded from expenditures in the transferring fund to avoid double counting.

Example: Transfer money from the General Fund to a Special Revenue Fund.

Payments to Internal Service Funds

Districts should record payments, rather than transfers, from one fund to an internal service fund so that the expenditure is recorded in the operating fund.

Example: Record payment from the General Fund to an Internal Service Fund. District contribution for employee insurance for primary teachers is charged to the General Fund and paid to the Insurance Reserve Fund.

Expenditures in internal service funds will be excluded from per-student cost calculations to avoid double counting. Do not make transfers to Internal Service Funds.

Supplemental Retirement Programs

Cost of providing district retirement incentive benefits to current employees and sustaining those benefits to prior employees.

Record the current year district contribution to the program in the designated fund and function 2700. Pay the contribution amount to a Supplemental Retirement Fund, which should be classified as a trust fund or directly from General Fund to retirees. The district may use the contributions to pay current obligations to retirees and/or to accumulate reserves for outstanding liabilities.

Example:

Student Body Funds

Student Body funds that are controlled by school district personnel should be budgeted and treated as governmental funds (Special Revenue Funds). Report expenditures at the school level using an operational unit code. Student Body Funds are raised or collected by and/or for school approved student groups in which the school district prescribes the purposes for how money is obtained and used. Examples of Student Body Funds would include:

- textbook security deposits; locker deposit, PE attire fees, towel fee, musical instrument fee, optional course fee, admission fee, optional field trips, voluntary health and accident insurance plans and fund raisers

Classifying Salary Expenditures

Staff should be charged to the function code that reflects actual job duties and responsibilities rather than job title. Example: Cost of a Deputy Superintendent who splits job duties between general administration and Director of Special Education.

Debit Expenditures  100-2190-113-320
100-2320-113

Bond Refunding Guidelines

5000 Other Sources
- 5110 Bond Proceeds – Reports the face amount of the refunding bonds issued
- 5120 Bond Premium – Reports the premium, or discount, on refunding bonds
- 5130 Accrued Interest – Reports accrued interest, if any, on the refunding bond proceeds

5000 Other Uses
- 5110-610 Long-term Debt Service-Redemption of Principal – Reports the amount deposited to the refunding escrow agent
- 5110-640 Long-term Debt Service-Dues and Fees – Reports the fees paid in connection with the issuance of the refunding bonds
Accounting Manual Definitions

Fund Classifications

100  **General Fund.** Accounts for all financial resources of the districts except those required to be accounted for in another fund.

200  **Special Revenue Funds.** Account for the proceeds of specific revenue sources (other than expendable trusts or major capital projects) that are legally restricted to expenditure for specified purposes. Some examples of special revenue funds might include: restricted state or federal grants-in-aid; restricted tax levies. A separate fund may be used for each restricted source or one fund may be used, supplemented by the dimension project/reporting code; e.g., bus replacement fund. Food Service and Student Body Funds should be classified here.

*Strictly for reporting purposes within ODE’s data collections:

201  Federal Revenue Sources and Expenditures
250  State, Local, and Other Revenue Sources and Expenditures
251  Student Investment Account
252  Measure 98: High School Success
299  Child Nutrition Programs – Food Service Sources and Expenditures

Section 1111(h)(1)(C)(x) of the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act (ESSA) requires the reporting of: “the per-pupil expenditures of Federal, State, and local funds, including actual personnel expenditures and actual non-personnel expenditures of Federal, State, and local funds, disaggregated by source of funds, for each local educational agency and each school in the State for the preceding fiscal year.”

300  **Debt Service Funds.** Account for the accumulation of resources for, and the payment of, general long-term debt, principal and interest.

400  **Capital Projects Funds.** Account for financial resources used to acquire or construct major capital facilities (other than those of proprietary funds and trust funds). The most common source of revenue in this fund would be the sale of bonds. A separate fund may be used for each capital project or one fund may be used, supplemented by the dimension project/reporting code.

500  **Enterprise Funds.** Account for operations that are financed and operated in a manner similar to private business enterprises where the stated intent is that the costs (expenses, including depreciation and indirect costs) of providing goods or services to the students or general public on a continuing basis are financed or recovered primarily through user charges. Enterprise funds are also used to account for operations where the school board or state regulatory agency has decided that periodic determination of revenues earned, expenses incurred, and net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes. Some examples of enterprise funds might include funds used for the bookstore operation, the athletic stadium and the community swimming pool. Few School Districts have activities that would require the use of Enterprise funds. Do not include Food Service or Student Body Funds here.
600  **Internal Service Funds.** Account for the operation of district functions that provide goods or services to other district functions, other districts, or to other governmental units, on a cost-reimbursable basis. Some examples of internal service funds could include those used for central warehousing and purchasing, central data processing, and central printing and duplicating, self-insurance fund and unemployment fund.

700  **Trust and Agency Funds.** Account for assets held by a district in a trustee capacity or as an agent for individuals, private organizations, other governmental units, and/or other funds. Trust funds would include nonexpendable trust funds, expendable trust funds, and pension trust funds. Agency funds could include funds for a teacher or a parent-teacher organization. Do not include Food Service or Student Body Funds here.
Revenue Sources

This dimension permits classification of revenues by source. The primary classification differentiates local, intermediate, State and Federal revenue sources.

1000 Revenue from Local Sources.
1100 Taxes. Compulsory charges levied by a governmental unit for the purpose of financing services performed for the common benefit.

1110 Ad Valorem Taxes Levied by District. Taxes levied by a district on the assessed valuation of real and personal property located within the district which, within legal limits, is the final authority in determining the amount to be raised for school purposes.

1111 Current Year’s Taxes. Property taxes levied by a district on the assessed value of real property located within the district which, within legal limits, is the final authority in determining the amount to be raised for school purposes.

1112 Prior Year’s Taxes. Taxes collected for fiscal periods preceding the current year.

1113 County Tax Sales for Back Taxes. Revenue received as a result of the sale of property to satisfy a property tax lien.

1114 Payments in Lieu of Property Taxes. Amounts received in lieu of property taxes, including Western Oregon Severance Tax, Eastern Oregon Severance Tax, and tax court settlements.

1120 Local Option Ad Valorem Taxes Levied by District. Local option taxes levied by a district on the “Tax Gap” valuation of real and personal property located within the district which, within legal limits, is the final authority in determining the amount to be raised for school purposes. Tax Gap refers to the difference between the Measure 5 tax limit (.005 * Real Market Value) and the Measure 50 Tax Limit (Sum of permanent and gap bond tax rates times Assessed Value). Local option revenue cannot exceed the gap amount so the excluded local revenue is the lesser of:

(1) Actual Local Option Taxes Received,

(2) 2003-2005, $500 per extended ADMw; 2005-07, $750 per extended ADMw; 2007-08, $1,000 per extended ADMw, (The $1,000 limit is increased by 3% each year starting in 2008-09) or

(3) 2003-05 10%, of the sum of the General Purpose Grant, Transportation Grant, Facility Grant and High Cost Disability Grant; 2005-07 15% and 2007-08 and after 20%.

Record the excess in Source 1110.

1121 Current Year’s Local Option Taxes. Local option property taxes levied by a district on the assessed value of real property located within the district which, within legal limits, is the final authority in determining the amount to be raised for school purposes.

1122 Prior Year’s Local Option Taxes. Local option taxes collected for fiscal periods preceding the current year.
1123 Penalties and Interest on Local Option Taxes. Amounts collected as penalties for the payment of local option taxes after the due date, and the interest charged on delinquent local option taxes from the due date to the date of actual payment.

1130 Construction Excise Tax. Amounts collected as a result of Senate Bill 1036 from the 2007 legislative session which allows for a construction excise tax.

1190 Penalties and Interest on Taxes. Amounts collected as penalties for the payment of taxes after the due date, and the interest charged on delinquent taxes from the due date to the date of actual payment.

1200 Revenue From Local Governmental Units Other Than Districts. Revenue from the appropriations of another local governmental unit. The district is not the final authority, within legal limits, in determining the amount of money to be received, and the money is raised by taxes or other means which are not earmarked for school purposes. Payments from publicly owned utilities and local housing authorities are recorded here. (PUDs, rural telephone exchanges, etc.)

1300 Tuition. Money received from individuals, welfare agencies, private sources and other districts for education provided in the district. (When tabulating total income from tuition at the federal level, only items 1311, 1321, and 1331 are tabulated.)

1310 Regular Day School Tuition. Money received as tuition for students attending the regular day schools in the district, including alternative programs entitled to State School Fund support. Use 1310 when instruction and related services are tied directly to the student.

1311 Tuition From Individuals. Money received from individuals, private sources, or welfare agencies as tuition in regular day schools.

1312 Tuition From Other Districts Within the State. Money received for regular day schools tuition from other districts within the state.

1313 Tuition From Other Districts Outside the State. Money received for regular day schools tuition from districts outside the state.

1320 Adult/Continuing Education Tuition. Money received as tuition for students attending adult/continuing education schools in the district.

1321 Tuition From Individuals. Money received from individuals for education provided by the district.

1322 Tuition From Other Districts Within the State. Money received from districts for education provided by the district.

1323 Tuition From Other Districts Outside the State. Money received from districts for education provided by the district.

1324 Tuition/Contract Receipts for Community Services.

1330 Summer School Tuition. Money received as tuition for students attending summer school.

1331 Tuition From Individuals.
1332 Tuition From Other Districts Within the State.
1333 Tuition From Other Districts Outside the State.

1400 Transportation Fees. Money received from individuals, private sources, welfare agencies, and other districts for transporting students to and from school and school activities. (When tabulating total income from transportation at the federal level, only items 1411 and 1421 are tabulated.)

1410 Regular Day School Transportation. Money received for transporting students to and from regular day schools and school activities, including alternative programs entitled to State School Fund support.

1411 Transportation Fees From Individuals.
1412 Transportation Fees From Other Districts Within the State.
1413 Transportation Fees From Other Districts Outside the State.

1420 Summer School Transportation. Money received for transporting students to and from summer school.

1421 Transportation Fees From Individuals.
1422 Transportation Fees From Other Districts Within the State.
1423 Transportation Fees From Other Districts Outside the State.

1500 Earnings on Investments. Money received as profit from holdings for savings.

1510 Interest on Investments. Interest received on temporary or permanent investment in United States Treasury bills, notes, bonds; savings accounts; time certificates of deposit; notes; mortgages; or other interest-bearing obligations. Arbitrage rebates would be recorded in account 1510.

1530 Gain or Loss on Sale of Investments. Gains or losses realized from the sale of bonds or stocks. Gains represent the excess of the sales proceeds over cost or other basis at date of sale (cost less amortization of premium in the case of long-term bonds purchased at a premium over par value or cost plus accretion of discount on long-term bonds purchased at a discount under par value). Gains realized from sale of U.S. Treasury bills represent interest income and should be credited to account 1510 above.

Losses represent the excess of the cost or other basis at date of sale (as described above) over the sales proceeds.

1600 Food Service. Revenue for dispensing food to students and adults.

1610 Daily Sales—Reimbursable Programs. Revenue from students for the sale of breakfasts, lunches, and milk which are considered reimbursable by the U.S. Department of Agriculture. Federal reimbursements are not entered here. They should be recorded under code 4500.

1611 Breakfast. Money received from students for the sale of reimbursable breakfasts as part of the School Breakfast Program.
1612 Lunch. Money received from students for the sale of reimbursable lunches as part of the National School Lunch Program.

1613 Special Milk Program. Money received for the sale of reimbursable milk as part of the Special Milk Program.

1620 Daily Sales—Non-reimbursable Program. Money received from students or adults for the sale of non-reimbursable breakfasts, lunches, and milk. This category would include all sales to adults, the second Type A lunch to students and a la carte sales.

1630 Special Functions. Money received from students, adults or organizations for the sale of food products and services considered special functions. Some examples would include potlucks, PTA sponsored functions and athletic banquets.

1700 Extracurricular Activities. Revenue from school-sponsored activities.

1710 Admissions. Revenue from patrons of a school-sponsored activity such as a concert or football game.

1720 Bookstore Sales. Revenue from sales by students or student-sponsored bookstores.

1730 Student Organization Membership Dues and Fees. Revenue from students for memberships in school clubs or organizations.

1740 Fees. Revenue from students for fees such as locker fees, towel fees, and equipment fees. Transportation fees are recorded under account 1400.

1750 Concessions.

1760 Club Fund Raising.

1790 Other Extracurricular. Other revenue from extracurricular activities.

1800 Community Services Activities. Revenue from community services activities operated by a district. For example, revenue received from operation of a swimming pool as a community service would be recorded here. Multiple accounts may be established within the 1800 series to differentiate various activities.

1900 Other Revenue From Local Sources. Other revenue from local sources which are not classified above.

1910 Rentals. Revenue from the rental of either real or personal property owned by the school.

1920 Contributions, Donations and General Fundraising From Private Sources. Money received from a philanthropic foundation, private individuals, or private organizations for which no repayment or special service to the contributor is expected. Separate accounts may be maintained for unrestricted revenue and revenue which is restricted as to uses. General fundraising resources not related to student activities.

1930 Rental or Lease Payments from Private Contractors. Payments received from private contractors for the use of district-owned buses and garages in the operation of the pupil transportation system by the private contractor.
1940 Services Provided Other Local Education Agencies. Revenue from services provided other districts, other than for tuition and transportation services. These services include data processing, purchasing, maintenance, cleaning, consulting and guidance. Intermediate units will use this code in identifying revenue for services provided to districts. Use 1940 when the ESD or district is providing general services to support instruction.

1941 Services Provided Other Districts Within the State. Revenue from services to districts within the state.

1942 Services Provided Other Districts Outside the State. Revenue from services to districts outside the state.

1943 Services Provided Other Charter Schools. Revenue from services to Charter Schools.

1950 Textbook Sales and Rentals. Revenue from the rental or sale of textbooks.

1951 Textbook Sales. Revenue from the sale of textbooks.

1960 Recovery of Prior Years’ Expenditure. Refund of expenditure made in a prior fiscal year.

1970 Services Provided Other Funds. Services provided other funds, such as printing or data processing. Generally, this account is only used in Internal Service Funds.

1980 Fees Charged to Grants. Indirect administrative charges assessed to grants.

1990 Miscellaneous. Revenue from local sources not provided for elsewhere. Record Medicaid Administrative Claiming (MAC) reimbursements, E-rate and SB1149 Energy revenues received here.

2000 Revenue From Intermediate Sources.

2100 Unrestricted Revenue. Revenue received as grants by the district which can be used for any legal purpose desired by the district without restriction. Separate accounts may be maintained for general source grants-in-aid which are not related to specific revenue sources of the intermediate governmental unit, and for those assigned to specific sources of revenue as appropriate.

2101 County School Funds. Revenue from the apportionment of the resources of the County School Fund, except Federal Forest Fees, which is recorded in account 4801. ORS 328.005 to 328.035.

2102 General Education Service District Funds. Revenue received by the district that is not referred to in other specific intermediate or other sources from an intermediate agency. (Effective 7/1/10)

2103 Excess ESD Local Revenue. Local revenue that exceeds what is guaranteed to the ESD through the funding formula (property taxes). Grant ESD, North Central ESD and Wallowa ESD (Effective 7/1/10)

2105 Natural Gas, Oil, and Mineral Receipts.

2110 Intermediate 'I' Tax. Revenue received from city and county income taxes.
2111  Current Year’s ‘I’ Taxes. Income Taxes collected by the city or county for fiscal periods for the current year.

2112  Prior Year’s ‘I’ Taxes. Income Taxes collected by the city or county for fiscal periods preceding the current year.

2113  Penalties and Interest on ‘I’ Taxes. Amounts collected as penalties for the payment of income taxes after the due date, and the interest charged on delinquent income taxes from the due date to the date of actual payment.

2199  Other Intermediate Sources.

2200  Restricted Revenue. Revenue received as grants by the district which must be used for a categorical or specific purpose. If such money is not completely used by the district, it must be returned, usually, to the intermediate governmental unit. Separate accounts may be maintained for general source grants-in-aid which are not related to specific revenue sources of the intermediate governmental unit, and for those assigned to specific sources of revenue as appropriate.

2800  Revenue in Lieu of Taxes. Payments made out of general revenues by an intermediate governmental unit to the district in lieu of taxes it would have had to pay had its property or other tax base been subject to taxation by the district on the same basis as privately owned property or other tax base. It would include payments made for privately owned property which is not subject to taxation on the same basis as other privately owned property due to action by the intermediate governmental unit. ORS 530.110.

2900  Revenue for/on Behalf of the District. Payments made by an intermediate governmental jurisdiction for the benefit of the district, or contributions of equipment or supplies. It includes the payment to a pension fund by the intermediate governmental unit on behalf of a district employee for services rendered to the district, and a contribution of fixed assets by an intermediate governmental unit to the district. Separate accounts should be maintained to identify the specific nature of the revenue item.

An offsetting charge would be made to the appropriate expenditure account as if the district had expended the funds itself.

3000  Revenue From State Sources.

3100  Unrestricted Grants-In-Aid. Revenue recorded as grants by the district from state funds which can be used for any legal purpose desired by the district without restriction.

3101  State School Fund—General Support. ORS 327.006 to 327.013.

3102  State School Fund—School Lunch Match. That portion of the grant from the State School Fund which is earmarked by the district for the required matching of Section 4 federal school lunch grant received by the district.

3103  Common School Fund. ORS 327.403.

3104  State Managed County Timber. Revenue is in addition to that distributed through the county school fund. ORS 530.
3106 State School Fund-Accrual. That portion of the SSF paid in July and accrued to prior year.

3199 Other Unrestricted Grants-in-aid.

3200 Restricted Grants-In-Aid. Revenue recorded as grants by the district from state funds which must be used for a categorical or specific purpose.

3204 Driver Education.

3222 State School Fund (SSF) Transportation Equipment. ORS 327.033.

3299 Other Restricted Grants-in-aid. Use 3299 for restricted grants in aid from the state, e.g. School Improvement Fund Grant, Facility Grant and Lottery Bond dollars.

3800 Revenue in Lieu of Taxes. Payments made out of general revenue by a state to the district in lieu of taxes it would have had to pay had its property or other tax base been subject to the taxation by the district on the same basis as privately owned property or other tax base. It would include payments made for privately owned property which is not subject to taxation on the same basis as other privately owned property due to action by the state.

3900 Revenue for/on Behalf of the District. Payment made by a state for the benefit of the district, or contributions of equipment or supplies. It includes the payment of a pension fund by the state on behalf of a district employee for services rendered to the district, and a contribution of fixed assets by a state unit to the district. Separate accounts may be maintained to identify the specific nature of the revenue item.

An offsetting charge would be made to the appropriate expenditure account as if the district had expended the funds itself.

4000 Revenue From Federal Sources.

4100 Unrestricted Revenue Direct From the Federal Government. Revenue direct from the federal government as grants to the district which can be used for any legal purpose desired by the district without restriction. Separate sub-accounts may be maintained to segregate grants for different purposes. Example: Revenue from federal Wildlife Refuge is recorded here.

4200 Unrestricted Revenue From the Federal Government Through the State. Revenues from the federal government through the state as grants which can be used for any legal purpose desired by the district without restriction. Separate sub-accounts may be maintained to segregate grants for different purposes.

4201 Transportation Fees for Foster Children

4202 Medicaid Reimbursement for Eligible K-12 Expenses (Ages Five to Twenty-One) Revenue received from the Oregon Health Authority (OHA) for Medicaid reimbursement for services pursuant to an Individualized Education Program (IEP)

4300 Restricted Revenue Direct From the Federal Government. Revenues direct from the federal government as grants to the district which must be used for a categorical or specific
purpose. If such money is not completely used by the district, it usually is returned to the governmental unit. Separate sub-accounts may be maintained to segregate grants for different purposes.

4500 Restricted Revenue From the Federal Government Through the State. Revenues from the federal government through the state as grants to the district which must be used for a categorical or specific purpose. If such money is not completely used by the district, IT USUALLY IS RETURNED TO THE GOVERNMENTAL UNIT. Separate sub-accounts may be maintained to segregate grants for different purposes. Examples of revenues to be recorded here are: Elementary and Secondary Education Act Programs, Vocational Programs, Child Nutrition Programs, Title 1, Bilingual ELL, School Nutrition, Vocational Education, IDEA 2004 (PL 108-446) Adult Education.

4501 Medicaid Reimbursement for Eligible Early Intervention (EI) Services (Birth to Age Three) Revenue received from the Oregon Health Authority (OHA) for Medicaid reimbursement for EI services provided pursuant to an Individualized Family Service Plan (IFSP).

4502 Medicaid Reimbursement for Eligible Early Childhood Special Education (ECSE) Services (Ages Three to Five) Revenue received from the Oregon Health Authority (OHA) for Medicaid reimbursement for ECSE services provided pursuant to an Individualized Family Service Plan (IFSP).

4700 Grants-In-Aid From the Federal Government Through Other Intermediate Agencies. Revenues from the federal government through an intermediate agency.

4800 Revenue in Lieu of Taxes. Payments made out of general revenues by the federal government unit to the district in lieu of taxes it would have had to pay had its property or other tax base been subject to taxation by the district on the same basis as privately owned property or other tax base. It would include payment made for privately owned property which is not subject to taxation on the same basis as other privately owned property due to action by the federal government unit.

4801 Federal Forest Fees. ORS 294.060.

4802 Impact Aid to School Districts for Operation (PL 874).

4803 Coos Bay Wagon Road Funds.

4899 Other Revenue in Lieu of Taxes.

4900 Revenue for/on Behalf of the District. Payments made by the federal government for the benefit of the district, or contributions of equipment or supplies. It includes a contribution of fixed assets by a federal governmental unit to the district and foods donated by the federal government to the district. Separate accounts should be maintained to identify the specific nature of the revenue item.

An offsetting charge would be made to the appropriate expenditure account as if the district had expended the funds itself.
5000 **Other Sources.**

5100 **Long-term Debt Financing Sources.** The principal portion from the sale of bonds.
   5110 Bond Proceeds. Receipts of proceeds from the sale of bonds.
   5120 Bond Premium.
   5130 Accrued Interest. Revenue from accrued interest from the sale of bonds.
   5140 Mortgage Receipts.
   5150 Loan Receipts.
   5160 Lease Purchase Receipts.

5200 **Interfund Transfers.** Revenue earned or received from another fund which will not be repaid.

5300 **Sale of or Compensation for Loss of Fixed Assets.** Revenue from the sale of school property or compensation for the sale or loss of fixed assets.

5400 **Resources—Beginning Fund Balance.**
Expenditure Functions

Function describes the type of activity that is carried out. The five major functional areas are: 1000—Instruction, 2000—Support Services, 3000—Enterprise and Community Services, 4000—Facilities Acquisition and Construction, and 5000—Other Uses. The four digit function codes are sub-functions to provide program and service area information. Functions and sub-functions consist of activities which have similar general operational objectives.

1000 Instruction.

Activities dealing directly with the teaching of students, or the interaction between teacher and students. Teaching may be provided for students in a school classroom, in another location such as a home or hospital, or in other learning situations such as those involving co-curricular activities. It may also be provided through some other approved medium such as computer instruction applications, television, radio, telephone, and correspondence. Included here are the activities of instructional assistants of any type that assist in the instructional process. Expenditures for teachers’ travel within the district in connection with teaching assignments are considered costs of instruction.

1100 Regular Programs. Instructional activities designed primarily to prepare students for activities as citizens, family members, and workers, as contrasted with programs designed to improve or overcome physical, mental, social and/or emotional handicaps. Regular programs include: Elementary, K-5 or K-6; Middle or Junior High; High School; and Pre-kindergarten. Districts should charge classroom expenditures according to the definitions as long as the allocation of costs can be reasonably determined or estimated.

1111 Elementary, K-5 or K-6. Learning experiences concerned with knowledge, skills, appreciation, attitudes, and behavioral characteristics considered to be needed by all students in terms of their awareness of life within our culture and the world of work and which normally may be achieved during the elementary school years. (Effective 7/1/11)

1113 Elementary Extracurricular. School-sponsored activities, under the guidance and supervision of district staff, designed to provide students such experiences as motivation, enjoyment, and improvement of skills. Extracurricular activities normally supplement the regular instructional program.

1121 Middle/Junior High Programs. Note: Debt Service (5100) must be appropriated separately and Transfers of Funds (5200) must be appropriated separately to comply with local budget law under ORS 294.456.

5100 Debt Service. The servicing of the debt of a district. Categories of debt service are listed under objects.

5110 Long-Term Debt Service. Expenditures for debt retirement exceeding 12 months.

5120 Short-Term Debt Retirement. Expenditures for debt retirement paid in full within the fiscal year.

5200 Transfers of Funds. These are transactions which withdraw money from one fund and place it in another without recourse. Unless state law prohibits, revenues should be allocated between funds when received and recorded in the funds to which they belong, rather than placing them in the General Fund and later transferring them. (These are not counted in local district totals of expenditures.) Interfund loans are not recorded here, but are handled through the balance sheet accounts.

5300 Apportionment of Funds by ESD or LEA. Apportionment of equalization funds and distribution of other funds by the educational service districts (flow-through dollars from ESDs to districts or other ESDs) or from an LEA acting as the fiscal agent for a grant distributed to other districts or other agencies.

5400 PERS UAL Bond Lump Sum Payment to PERS. The one time lump sum payment made to PERS following the issuance of a PERS UAL Bond.

6000 Contingencies (for budget only).

Expenditures which cannot be foreseen and planned in the budget process because of an occurrence of an unusual or extraordinary event. Use with Object 810 only.

6110 Operating Contingency. Budgeted amount to be transferred by school board resolution to the proper expenditure code.
7000 Unappropriated Ending Fund Balance.

An estimate of funds needed to maintain operations of the school district from July 1 of the ensuing fiscal year and the time when sufficient new revenues become available to meet cash flow needs of the fund. No expenditure shall be made from the unappropriated ending fund balance in the year in which it is budgeted. Use with Object 820 only.
Expenditure Objects

Object means the service or commodity obtained as the result of a specific expenditure. Seven major Object categories are identified and described in this handbook: (1) Salaries, (2) Employee Benefits, (3) Purchased Services, (4) Supplies and Materials, (5) Capital Outlay, (6) Other Objects, and (7) Transfers. These broad categories are subdivided to obtain more detailed information about objects of expenditures. A three-digit code number, if used makes it possible to search out detailed information. Following are definitions of the major categories and subcategories. Where the term "district" is used it means school district or educational service district.

100 Salaries.

Amounts paid to employees of the district who are considered to be in positions of a permanent nature or hired temporarily, including personnel substituting for those in permanent positions. This includes gross salary for personal services rendered while ON THE PAYROLL of the district.

110 Regular Salaries. Full-time, part-time, and prorated portions of the costs for work performed by employees of the district who are considered to be in positions of a permanent nature.

111 Licensed Salaries. Costs for work performed by regular licensed employees of the district. Include licensed coordinators and licensed employees in bargaining unit under this object.

112 Classified Salaries. Costs for work performed by regular classified employees of the district. Confidential staff may be coded to this object or 114 below or you may use a district defined code to track separately.

113 Administrators. Costs for work performed by regular administrative employees who manage, direct, or administer programs of the district. Administrators need not be licensed to be charged to 113.

114 Managerial—Classified. Costs for work performed by employees who supervise or manage programs of the district. Supervisors of non-licensed staff, e.g. food services, transportation are recorded under this object. Supervisors are usually not regular classified employees

115 Sabbatical. Amounts paid by the district to employees on sabbatical leave.

116 Supplemental Retirement Stipends. Costs for retired employees of the district who receive supplementary retirement payments from the district.

117 Unused Leave. Unused leave payments when an employee retires or terminates employment are allowable in the year of payment provided they are allocated as a general administrative expense to all activities of the governmental unit or component. The unused leave is specific to the executive level staff (Supt, Deputies or direct reports to the Deputy Superintendent) on an organization chart.
Nonpermanent Salaries. Full-time, part-time and prorated portions of the costs for work performed by employees of the district who are hired on a temporary or substitute basis to perform work in positions in either temporary or permanent nature.

Substitutes—Licensed. Costs for work performed by substitute licensed employees of the district.

Substitute—Classified. Costs for the work performed by substitute classified employees of the district.

Temporary—Licensed. Salaries of temporary employees—full-time, part-time, and prorated portions of the costs for work performed by employees of the district who are hired on a temporary basis.

Temporary—Classified. Costs for work performed by temporary classified employees.

Additional Salary. Money paid to employees of the district in positions of either a temporary or permanent nature for work performed in addition to the normal work period for which the employee is compensated under Regular Salaries and Temporary Salaries above. The terms of such payment for overtime is a matter of state and local regulation or negotiated agreement. Includes additional pay for classified employee overtime and for activities such as coaching, supervision of extracurricular activities, extended contracts, etc. Object 130 should be used for all overtime.

Additional Salary. District defined. Must be reported to State as object 130.

Associated Payroll Costs.
Amounts paid by the district on behalf of employees; these amounts are not included in the gross salary, but are over and above. Such payments are fringe benefit payments, and, while not paid directly to employees, nevertheless are part of the cost of salaries and benefits. Examples are: (1) group health or life insurance, (2) contributions to public employees’ retirement system, (3) social security, (4) workers’ compensation, and (5) unemployment insurance.

Public Employees Retirement System. District payments to the Public Employees Retirement System.

Employer Contribution. Employer’s contribution to the Public Employees Retirement System, Tier I and Tier II.

Employee Contribution, Pick-Up. Employee portion, paid by employer to the Public Employees Retirement System.

PERS UAL Contribution. Employers PERS debt service costs related to the PERS Unfunded Actuarial Liability.

PERS UAL Contribution. Employers PERS debt service costs related to the PERS Unfunded Actuarial Liability.

PERS UAL Contribution. Employers PERS debt service costs related to the PERS Unfunded Actuarial Liability.
216 Employer Contribution. Employer’s contribution to the Oregon Public Services Retirement Plan, OPSRP or Tier III.

220 Social Security Administration. Employer’s contribution to the Social Security/ Medicare (FICA) for employee retirement.

230 Other Required Payroll Costs.

231 Workers’ Compensation. Amounts paid by the districts to provide workers’ compensation insurance for its employees.

232 Unemployment Compensation. Amounts paid by the district to provide unemployment compensation for its employees.

240 Contractual Employee Benefits. Amounts paid by the district which are a result of a negotiated agreement between the Board of Directors and the employee groups. Examples of expenditures would be health insurance, long-term disability and tuition reimbursement. The district may assign account codes 241 through 249 for these expenditures. Include here payments/penalties in lieu of health insurance and penalties paid due to the choice not to offer benefits to employees (Affordable Care Act).

270 Post Retirement Health Benefits (PRHB). Post-retirement Health Benefits are costs of health insurance or health services not included in a pension plan for retirees and their spouses, dependents and survivors.

300 Purchased Services.

Services which, by their nature, can be performed only by persons or firms with specialized skills and knowledge. While a product may or may not result from the transaction, the primary reason for the purchase is the service provided. Included are the services of architects, engineers, auditors, dentists, medical doctors, lawyers, consultants, teachers, accountants, etc.

310 Instructional, Professional and Technical Services. Services which by their nature can be performed only by persons with specialized skills and knowledge. Included are the services of medical doctors, lawyers, consultants, teachers for the instructional area.

311 Instruction Services. Non-payroll services performed by qualified persons directly engaged in providing learning experiences for pupils. Included are the services of teachers, teaching assistants, and teacher aides and “performance contract” activities. Use this code if the resident district is providing instructional services to the student and the resident district is paying for the student to receive additional services i.e. expanded options. On-line curriculums would be coded here.

312 Instructional Programs Improvement Services. Services performed by persons qualified to assist teachers and supervisors in enhancing the quality of the teaching process. This category includes curriculum consultants, in-service training specialists, etc., not on the payroll.
Student Services. Non-payroll services of qualified personnel to assist students and their parents in solving mental and physical problems to supplement the teaching process.

Data Processing Services.

Statistical Services.

Professional and Improvement Costs for Non-Instructional Staff. (Workshops, etc.) Use object code 342 for non-instructional staff travel, conferences, etc.

Other Instructional, Professional and Technical Services. Services which are professional and technical in nature which have not been classified above. Including sign language interpreters, language interpreters and translation services for student instruction. (See Appendix E for additional guidance.)

Property Services. Services purchased to operate, repair, maintain, insure, and rent property owned and/or used by the district. These services are performed by persons other than district employees.

Cleaning Services. Services purchased to clean buildings or equipment other than those provided by district employees.

Repairs and Maintenance Services. Expenditures for repairs and maintenance services not provided directly by district personnel. This includes contracts and agreements covering the upkeep of grounds, buildings, and equipment. Technical repair services, e.g., copier repair, should be charged here.

Rentals. Expenditures for leasing or renting costs incurred by the district. This includes bus and other vehicle rental when operated by district personnel and lease of data processing equipment. Costs for single agreements covering equipment as well as operators are not included here, but are considered elsewhere under Purchased Services (see Transportation, Printing and Binding, Public Utility Services, Servicing and Maintenance Services).

Electricity. Expenditures for electrical energy.

Fuel. Expenditures for fuel used for heating and/or cooling.

Water and Sewage. Expenditures for water and sewage services.

Garbage. Expenditures for garbage service.

Other Property Services. Property Services purchased which are not classified above.

Student Transportation Services. Expenditures to persons (not on the district payroll) or agencies for the purpose of transporting children. These include those expenditures to individuals who transport themselves or to parents who transport their own children. Expenditures for the rental of buses which are operated by personnel on the district payroll are not recorded here; they are recorded under Purchased Services—Rentals.

State School Fund Reimbursable Student Transportation. Contract payments for transporting students from home to school and return, and instructional field trips.
332 State School Fund Non-reimbursable Student Transportation. Contract payments for transporting students on student body trips, interscholastic athletic events, out of state field trips, or non-instructional field trips (skating parties).

333 Board and Room in Lieu of Transportation. Payments as board and room made to parents or guardians to maintain children near school. Expenditures for rental of shelters for children and for maintenance of district owned shelters.

334 Transportation Portion of Tuition Payments. Conduit-type payments for transportation expense.

340 Travel. Costs for transportation for all district personnel (including students), conference registration, meals, hotel, and other expenses associated with traveling on business for the district. Payments for per diem in lieu of meals and lodging and for car allowance also are charged here. Travel costs may be identified through use of the following sub-accounts at the option of the district. Use for travel costs incurred by district employees and students. Travel costs incurred by contracted professionals should be included in the cost of the service. Vehicles rented in lieu of reimbursing mileage to an employee should be charged to 340.

341 Travel, Local in District. Expenditures for district personnel between facilities and within the boundaries of the school district.

342 Travel, Out of District. Travel expenditures for district personnel to points outside the boundaries of the school district. Non-instructional staff travel is included here.

343 Travel, Student, Out of District. Travel expenditures for students to points outside the boundaries of the school district.

349 Other Travel. Travel expenditures which cannot be classified above.

350 Communication. Services provided by persons or businesses to assist in transmitting and receiving data or information. This category includes telephone and international data communications, postage machine rental and postage, fax and advertising. Expenditures for these services may be identified through the use of sub-accounts at the option of the district.

351 Telephone. Expenditures for telephone services, faxes, pagers and toll charges.

353 Postage. Expenditures for postage stamps and postage machine rentals.

354 Advertising. Expenditures for printed announcements and legal notices in professional periodicals and newspapers or announcements broadcast by radio and television networks. These expenditures include advertising for such purposes as personnel recruitment, bond sales, used equipment sales, and other objects. Costs for professional fees for advertising or public relation services are not recorded here but are charged to Professional Services.

355 Printing and Binding. Expenditures for job printing and binding usually according to specifications of the district. This includes the design and printing of forms and
posters as well as printing and binding of district publications. Preprinted standard forms are not charged here, but are recorded under Supplies and Materials.

359 Other Communication Services. Including T-1 lines.

360 Charter School Payments. Expenditures to reimburse Charter Schools for services rendered to students.

370 Tuition. Expenditures to reimburse other educational agencies for services rendered to students. Use object 37X, if your district is paying another entity to provide the student’s entire instructional program.

371 Tuition Payments to Other Districts Within the State. Conduit-type payments to districts, generally for tuition in the state for services rendered to students residing in the paying district. Where a governmental unit collects money from a non-operating district for the education of students from the non-operating district and pays it to an operating district, the non-operating district records such payments here.

372 Tuition Payments to Other Districts Outside the State. Conduit-type payments to districts, generally for tuition outside the state for services rendered to students residing in the paying district. Where a governmental unit collects money from a non-operating district for the education of student from the non-operating district and pays it to an operating district the non-operating district records such payments here.

373 Tuition Payments to Private Schools. Conduit-type payments to private schools, generally for tuition for students residing in the paying district.

374 Other Tuition. Tuition payments which cannot be classified above. Record post-graduation scholarship payments here.

380 Non-instructional Professional and Technical Services. Services which by their nature can be performed only by persons with specialized skills and knowledge. Included are the services of architects, engineers, auditors, dentists, medical doctors, lawyers, consultants, accountants, etc.

381 Audit Services. Expenditures to an audit firm for completion of the annual audit of the district’s financial records. Also included would be costs for other reports and consultations provided by the audit firm. Use with Function 2310.

382 Legal Services. Expenditures for consultations with the district’s attorney and associated legal costs. Use with Function 2310. May be used with function 4150 when associated with a capital project.

383 Architect/Engineer Services. Expenditures for professional services of licensed professionals for consultation, regarding the district’s facilities.

384 Negotiation Services. Expenditures for services performed in negotiating or conferring with any labor group.
385 Management Services. Services performed by persons qualified to assist management either in the broad policy area or in the general operation of the district. This category includes consultants, individually or as a team, to assist the chief executive in conference or through systematic studies.

386 Data Processing Services. Services performed by persons, organizations, or other agencies qualified to process data. This category includes those data processing services purchased from another agency or concern or specialists who are contracted to perform a specific task on a short time basis.

387 Statistical Services. Non-payroll services performed by persons or an organization qualified to assist in handling statistics. This category includes special services for analysis, tabulations, or similar work.

388 Election Services. Expenditures for the costs incurred by the county clerk in conducting elections for the school district. Use with Function 2310.

389 Other Non-instructional Professional and Technical Services. Other professional services not classified above. Including sign language interpretation, language interpretation and translation services when working with parents. (See Appendix E for additional guidance.)

390 Other General Professional and Technological Services.

400 Supplies and Materials.

Amounts paid for material items of an expendable nature that are consumed, worn out, or deteriorated by use; or items that lose their identity through fabrication or incorporation into different or more complex units or substances.

410 Consumable Supplies and Materials. Expenditures for ALL supplies for the operation of a district, including freight and cartage. If such supplies are handled for resale to students, only the net cost of supplies is recorded here.

NOTE: Accounts 411 through 419 are available for further identifying supplies for management purposes at the option of the district.

420 Textbooks. Expenditures for prescribed books which are purchased for students or groups of students, and resold or furnished free to them. This category includes the costs of workbooks, textbook binding or repairs, as well as the net amount of textbooks which are purchased to be resold or rented. E-textbooks are considered curriculum and would be coded here.

430 Library Books. Expenditures for regular or incidental purchases of library books available for general use by students, including any reference books, even though such reference books may be used solely in the classroom. Also recorded here are costs of binding or other repairs to school library books and e-library books.

440 Periodicals. Expenditures for periodicals and newspapers. A periodical is any publication appearing at regular intervals of less than a year and continuing for an indefinite period.
450  **Food.** Expenditures for food purchases related to 3100 Food Service only. Other food purchases should remain in object code 410.

460  **Non-consumable Items.** Expenditures for equipment with a current value of less than $5,000 or for items which are “equipment-like,” but which fail one or more of the tests for classification as Object 541 or 542 (see object 540 definition). Examples might include hand held calculators, stacking chairs, etc. This object category could be used when a district desired to treat these items as equipment for budgeting, physical control, etc., without either violating the state dollar threshold for capital equipment or combining these items with consumable supplies (Object 410–419).

470  **Computer Software.** Expenditures for published computer software. Include licensure and usage fees for software here. The Cloud is considered software and would be coded here.

480  **Computer Hardware.** Expenditures for non-capital computer hardware, generally of value not meeting the capital expenditure criterion. An iPad or e-reader needed to access e-textbooks is considered hardware and would be coded here.

500  **Capital Outlay.**

Expenditures for the acquisition of fixed assets or additions to fixed assets. They are expenditures for land or existing buildings; improvements of grounds; construction of buildings; additions to buildings; remodeling of buildings; initial equipment; additional equipment; and replacement of equipment.

510  **Land Acquisition.** Expenditures for the purchase of land.

520  **Buildings Acquisition.** Expenditures for acquiring buildings and additions, either existing or to be constructed, except for bus garages (See Object 562). Included are expenditures for installment or lease payment (except interest) which have a terminal date and result in the acquisition of buildings, except payments to public school—housing authorities or similar agencies. Expenditures for major permanent structural alterations and the initial or additional installation of heating and ventilating systems, electrical systems, plumbing systems, fire protection systems, and other service systems in existing buildings are included also.

530  **Improvements Other Than Buildings.** Expenditures for the initial and additional improvement of sites and adjacent ways after acquisition by the district. Improvement consists of such work as grading, landscaping, seeding, and planting of shrubs and trees; constructing new sidewalks, roadways, retaining walls, sewers and storm drains; installing hydrants; initial surfacing and soil treatment of athletic fields and tennis courts; furnishing and installing for the first time, fixed playground apparatus, flagpoles, gateways, fences, and underground storage tanks which are not parts of building service systems; and demolition work. Special assessments against the district for capital improvement such as streets, curbs, and drains are also recorded here.

540  **Depreciable Equipment.** Expenditures for the initial, additional, and replacement items of equipment, except for buses and capital bus improvements (See object 564). An equipment item is a movable or fixed unit of furniture or furnishings, an instrument, a machine, an apparatus, or a set of articles that meets all of the following conditions:

1. It has an anticipated useful life of more than 1 year.
2. It is of significant value, measured as original cost or estimated market value. The current value threshold is $5000. The federal value criterion currently is also $5,000.
3. It retains its original shape and appearance with use.
4. It is nonexpendable; that is, if the article is damaged or some of its parts are lost or worn out, it is usually more feasible to repair it than to replace it with an entirely new unit.
5. It does not lose its identity through incorporation into a different or more complex unit or substance.

Additional information related to GASB 34 requirements can be found in the Special Instructions for Recording Expenditures under the section entitled GASB Statement 34 Reporting Requirements at the beginning of Chapter 3

541 Initial and Additional Equipment Purchase. Expenditures for the initial and additional equipment such as machinery, furniture and fixtures, and vehicles.

542 Replacement Equipment Purchases. Expenditures for replacement of equipment which has been disposed.

550 Depreciable Technology. Expenditures for computer hardware, related equipment, and other capital outlay for technology. See object 540 for definition of capital outlay.

560 Depreciable Transportation. Expenditures for bus garages, buses and capital bus improvements for student transportation. See object 540 for definition of capital outlay.

562 Bus Garage Purchases. The purchase of a garage or garage improvements used for student transportation. All purchases using this code must also be listed on the Bus and Garage Depreciation Schedule and Mileage Report. All others should be reported under 520 Building Acquisitions.

564 Bus and Capital Bus Improvements. The purchase of buses and capital bus improvements e.g. handicap lift. All purchases using this code must also be listed on the Bus and Garage Depreciation Schedule and Mileage Report. All others should be reported under 540 Equipment.

590 Other Capital Outlay. Expenditures for all other Capital Outlay not classified above.

600 Other Objects.

Amounts paid for goods and services not otherwise classified above. This includes expenditures for the retirement of debt, the payment of interest on debt, payments to a housing authority, and the payment of dues and fees.

610 Redemption of Principal. Expenditures which are from current funds to retire bonds, and principal portion of contractual payments for capital acquisitions.
Interest. Expenditures from current funds for interest on serial bonds, short-term loans and interest included in contractual payments for capital acquisitions. Sub-accounts may be used to record separately these different kinds of interest.

Regular Interest. Expenditures for all interest, excluding bus garage, bus and capital bus improvement interest.

Bus Garage, Bus and Capital Bus Improvement Interest. Only record expenditures for bus garage, bus and capital bus improvement interest here.

Unrecoverable Bad Debt Write-Off.

Dues and Fees. Expenditures or assessments for membership in professional or other organizations or associations or payments to a paying agent for services rendered.

Insurance and Judgments. Insurance to protect school board members and their employees against loss due to accident or neglect.

Liability Insurance. Expenditures for insurance coverage of the district, or its officers, against losses resulting from judgments awarded against the district. Also recorded here are any expenditures (not judgments) made in lieu of liability insurance. Payments of judgments awarded against the district and not covered by insurance are recorded under 653, Judgments Against the District.

Fidelity Bond Premiums. Expenditures for bonds guaranteeing the district against losses resulting from the actions of the treasurer, employees, or other persons of the district. Also recorded here are any expenditures (not judgments) made in lieu of liability bonds.

Property Insurance Premiums. Expenditures for insurance on any type property owned or leased by the district. Charge to function 2540 for buildings and 2550 for school buses.

Judgments and Settlements Against the District. Expenditures from current funds for all judgments against the district that are not covered by liability insurance, but are of a type that might have been covered by insurance.

Other Insurance and Judgments. Payments for insurance and judgments not classified elsewhere.

Depreciation (Used for Enterprise and Internal Service Funds Only). The portion of the cost of a fixed asset, except for land, which is charged as an expense during a particular period. In accounting for depreciation, the cost of a fixed asset, less any salvage value, is allocated over the estimated service life of the asset, and each accounting period is charged with a portion of such cost. Through this process, the cost of the asset is ultimately charged off as an expense. Land is not depreciated.

Buildings. Depreciation expense for buildings and additions.
663 Improvements Other Than Buildings. Depreciation expense for improvements to sites other than the building facility. Examples include roadways and sidewalks.

664 Equipment. Depreciation expense for equipment including buses, automobiles and other vehicles. These items are defined as movable or fixed units of furniture or furnishings, an instrument, a machine, an apparatus, or a set of articles which meet the capital asset criteria.

665 Technology. Depreciation expense for technology, including work stations, servers and networking equipment.

669 Other Capital Assets. Depreciation expense for capital assets not denoted above.

670 Taxes, Licenses and Assessments. This includes taxes, licenses and assessments paid to a government body and penalties assessed for lack of health benefits for eligible employees (Affordable Care Act).

680 PERS UAL Lump Sum Payment to PERS. The one time lump sum payment made to PERS following the issuance of a PERS UAL Bond. (Use only with 5400 function.)

690 Grant Indirect Charges. Charges made to a grant to recover charges made to administration. See page 27 Grant Administrative Charges for more detail.

700 Transfers.
This object category does not represent a purchase; rather it is used as an accounting entity to show that funds have been handled without having goods and services rendered in return. Included here are transactions for interchanging money from one fund to the other and for transmitting flow-through funds to the recipient (person or agency).

710 Fund Modifications. This category represents transactions of conveying money from one fund to another. Generally, this takes the form of payments from the General Fund to some other fund and should be so recorded. They are not recorded as expenditures. (Use only with 5200 function.) See page 28 Transfers to Other Funds for more detail.

720 Transits. This category represents transactions which are transit or flow-through means to convey money to the recipient (person or agency). This includes transactions which place grants-in-aid, special grants (stipends), and tuition and transportation for other district use, in the hands of the user. (Use only with 5300 function.)

790 Other Transfers. This category is to be used for those transfer transactions which cannot be identified in the above classifications.

800 Other Uses of Funds.

810 Planned Reserve. Amounts set aside for operating contingencies for expenditures which cannot be foreseen and planned in the budget because of the occurrence of some unusual or extraordinary event. (Use only with 6110 function.)

820 Reserved for Next Year. (Use only with 7000 function.)
Expenditure Areas of Responsibility

Area of Responsibility codes designate the curriculum areas, provide further program information, or allow additional tracking for management information purposes.

**Bold type** does not indicate required roll up codes; **Bold type** does identify minimum requirements for AOR codes.

Note: An “x” indicates a rollup of accounts to the digits indicated. For example a 12XX Function represents all Functions that have a “12” prefix.

If salaries are charged to an area code, payroll costs and fringe benefits must be charged there also as benefits follow salaries. Area codes should be attached to functions as required in all funds.

010 Home Instruction. School district sponsored programs in which a district employee goes to the home to instruct a parent in how to teach a specific lesson to a child, or teaches the child directly.

020 Tutoring. Direct instruction of a learner on a specific lesson or skill in a home or in a school setting.

050 General Classroom Instruction. Instructional activities that cannot be classified under a specific curriculum area.

060 Core Areas/Block Classes. Instructional activities combining two or more core curriculum areas in a block class, including English, Social Science, Math, Science.

090 Other Pre-kindergarten Programs. Any pre-kindergarten programs not appropriate for inclusion in above categories.

100 **English.** Courses and activities designed to enable students to receive and send communication by developing their ability to listen, speak, read, and write English.

110 **Social Studies.** Courses and activities dealing with social relationships which draw their substance from the disciplines of anthropology, economics, geography, government, history, sociology, and psychology.
120 **Science.** Experiences which provide students the opportunity to develop concept understandings and process skills as they relate to scientific literacy.

130 **The Arts.** Courses and activities designed to develop keener aesthetic awareness and increase sensitivity, skills and knowledge in various two- and three- dimensional art media. Performing Arts. Extracurricular activities designed to provide opportunities for students to participate in producing or performing capacities in dramatics, music, television, or radio. Music. Courses designed to develop aesthetic sensitivity, skills and knowledge in relation to listening, performing, and creating experiences in vocal or instrumental music.

170 **Driver Education.** Learning experiences concerned with helping students participate safely, efficiently and effectively in operating an automobile in traffic.

180 **Mathematics.** Those courses, units of instruction, and activities designed to develop the skills and interests of students in computation and problem solving.

190 **Health Education.** Experiences which provide students the opportunity to develop decision making skills and formulate a value system, as they relate to healthful living.

200 **Physical Education.** Courses, special adapted programs, and intraschool activities designed to enable each student to build and maintain physical powers, skills and understanding necessary for optimum development.

210 **Second Language.** Courses and activities designed to enable students to receive and send communication in a language other than English by developing their ability to listen, speak, read, and write in the target language.

230 **Athletics.** Extracurricular activities designed to provide competitive contests for selected groups or individuals who are trained and coached to play games with similar teams or individuals from other schools.

250 **Other Extracurricular Student Activities.** Extracurricular activities not already defined which are generally of a voluntary nature and which are designed to assist the student in developing additional skills and/or refined attitudinal points of view regarding logical extensions of the school curriculum.

260 **Technology.** Courses designed to develop skills in the use of technology.

270 **Career Related Learning.** Courses, units of instruction and special instructional activities designed to assist students in exploring key occupational career areas, in assessing their occupational interests and aptitudes and in developing tentative career plans and choices. Grades 7 through 12.

280 **English Language Learner (ELL) Programs.** To be used with Functions other than 1291 and 1295 to identify supplemental costs for English Language Learner (ELL) programs.

290 **Other Programs.**

310 **Non-Instructional Staff Development.** Use of this Area is optional. Districts may wish to track staff development and training costs charged to Functions other than 2240.

320 **Special Education.** All special education costs that are subject to federal maintenance of effort requirements. All special education expenditures, including 1250, need to be reported to the state at the district level. Attach this area code to functions (e.g. 1200’s, 2100’s, 2200’s 2550) where services are provided to students on IEP’s. In the 1200 functions, this includes functions 1220-1260. It does not include 1210 TAG, 1270
Educationally Disadvantaged, 1280 Alternative Education, or 1290’s Designated Programs unless you are also providing special education services within those programs. Special education staff development (function 2240) is included in this Area code.

340 **Coordinating Early Intervening Services (CEIS).** Services which may include interagency financing structures, for students in kindergarten through grade 12 (with particular emphasis on students in K-3) who have NOT been identified as needing special education or related services but who need additional academic and behavioral services or support to succeed in a general education environment. IDEA 2004 Sec. 613(4)(f) This AOR code is to be used only for CEIS. Do not code Section 504 expenses here.

350 **School Improvement Fund Grant.** Expenditures in either the General Fund (100) or a Special Revenue Fund (200) to record monies spent to fulfill SIF grant obligations.

Professional, Technical Strands. Students working on Professional, technical strands as the context for their academic program. Some areas may be in more than one strand. For example, marketing could be offered under Arts and Communication or under Business and Management. Transition:

510 Arts and Communication. Examples: Architecture, film, radio, fine arts, creative writing, journalism, languages, television, advertising, public relations, graphic design.

520 Business and Management. Examples: Marketing sales, entrepreneurship, finance, hospitality/tourism, computer/information systems, accounting, personnel, and economics.

530 Health Services. Examples: Nursing, dental hygiene, dental assistant, medical assistant, radiology technician, ophthalmic technician, nurse’s aide, dentistry, medicine.

540 Human Resources. Examples: Education, government, religion, social services, law, law enforcement, legal services, child and family services.

560 Natural Resources Systems. Examples: Agriculture, earth sciences, fisheries, environmental sciences, horticulture, wildlife, forestry.

570 Other Professional, Technical Strands. Defined by the District.

580 Other Professional, Technical Strands. Defined by the District.

590 Other Professional, Technical Strands. Defined by the District.
Descriptions of Balance Sheet Accounts

Assets and Other Debits

Assets and other debits include what is owned and other items not owned as of the date of the balance sheet but expected to become fully owned at some future date as well as other budgeting and offsetting accounts which normally have debit balances.

100    Current Assets.
Cash or anything that can be readily converted into cash.

101    Cash in the Bank. All funds on deposit with a bank or savings and loan institution normally in non-interest bearing accounts. Interest bearing accounts are recorded in investments.

102    Cash on Hand. Currency, coins, checks, postal and express money orders, and bankers’ drafts on hand.

103    Petty Cash. A sum of money set aside for the purpose of paying small obligations for which the issuance of a formal voucher and check would be too expensive and time consuming.

104    Change Cash. A sum of money set aside for the purpose of providing change.

105    Cash With Fiscal Agents. Deposits with fiscal agents, such as commercial banks, for the payment of matured bonds and interest.

106    Cash and Investments to Repay Short-term Notes.

111    Investments. Securities and real estate held for the production of income in the form of interest, dividends, rentals, or lease payments. The account does not include fixed assets used in district operations. Separate accounts for each category of investments may be maintained.

112    Unamortized Premiums on Investments. The excess of the amount paid for securities over the face value which has not yet been amortized. Use of this account is restricted to long-term investments.

113    Unamortized Documents on Investments (credit). The excess of the face value of securities over the amount paid for them which has not yet been written off. Use of this account is normally restricted to long-term investments.

114    Interest Receivable on Investments. The amount of interest receivable on investments, exclusive of interest purchased. Interest purchased should be shown in a separate account.

115    Accrued Interest on Investments Purchased. Interest accrued on investments between the last interest payment date and date of purchase. The account is carried as an asset until the first interest payment date after date of purchase. Upon receipt and deposit of the cash, an entry is made debiting account Cash in Bank, and crediting the Accrued Interest on Investments Purchased account for the amount of interest purchased and an Interest Earning revenue account (1510) for the balance.
Taxes Receivable. The uncollected portion of taxes which a district or governmental unit has levied and which has become due, including any interest or penalties which may be accrued. Separate accounts may be maintained on the basis of tax roll year and/or current and delinquent taxes.

Estimated Uncollectible Taxes (credit). A provision for that portion of taxes receivable which it is estimated will not be collected. The account is shown on the balance sheet as a deduction from the Taxes Receivable account in order to arrive at the net taxes receivable. Separate accounts may be maintained on the basis of tax roll year and/or delinquent taxes.

Interfund Loans Receivable. An asset account used to record a loan by one fund to another fund in the same governmental unit. It is recommended that separate accounts be maintained for each interfund receivable loan.

Interfund Accounts Receivable. An asset account used to indicate amounts owed to a particular fund by another fund in the same district for goods sold or services rendered. It is recommended that separate accounts be maintained for each interfund receivable.

Intergovernmental Accounts Receivable. Amounts due to the reporting governmental unit from another governmental unit. These amounts may represent grants-in-aid, shared taxes, taxes collected for the reporting unit by another unit, loans, and charges for services rendered by the reporting unit for another government. It is recommended that separate accounts be maintained for each interagency receivable.

Loans Receivable. Amounts which have been loaned to persons or organizations, including notes taken as security for such loans, where permitted by statutory authority.

Estimated Uncollectible Loans. A provision for that portion of loans receivable which is estimated will not be collected. The account is shown on the balance sheet as a deduction from the Other Loans Receivable account.

Other Accounts Receivable. Amounts owing an open account from private persons, firms, or corporations for goods and services furnished by a district (but not including amounts due from other funds or from other governmental units).

Estimated Uncollectible Accounts Receivable. A provision for that portion of accounts receivable which is estimated will not be collected. The account is shown on the balance sheet as a deduction from the Other Accounts Receivable account.

Bond Proceeds Receivable. An account used to designate the amount receivable upon sale of bonds.

Inventories for Consumption. The cost of supplies and equipment on hand not yet distributed to requisitioning units.

Inventories for Resale. The value of goods held by a district for resale rather than for use in its own operations.

Prepaid Expenses. Expenses paid for benefits not yet received. Prepaid expenses differ from deferred charges in that they are spread over a shorter period of time than deferred charges and are regularly recurring costs of operation. Examples of prepaid expenses are
prepaid rent, prepaid interest, and unexpired insurance premiums. An example of a deferred charged is unamortized discounts on bonds sold.

191 Deposits. Funds deposited by the district as prerequisite to receiving services and/or goods.

199 Other Current Assets. Current assets not provided for elsewhere.

200 Fixed Assets. Those assets which the district intends to hold or continue in use over a long period of time.

211 Sites. A fixed asset account which reflects the acquisition value of land owned by a district. If land is purchased, this account includes the purchase price and costs such as legal fees, filling and excavation costs, and other associated improvement costs which are incurred to put the land in condition for its intended use. If land is acquired by gift, the account reflects its appraised value at time of acquisition.

221 Site Improvements. A fixed asset account which reflects the acquisition value of permanent improvement, other than buildings, which add value to land. Examples of such improvements are fences, retaining walls, sidewalks, pavements, gutters, tunnels, and bridges. If the improvements are purchased or constructed, this account contains the purchase or contract price. If improvements are obtained by gift, it reflects the appraised value at time of acquisition.

222 Accumulated Depreciation on Site Improvements. Accumulated amounts for depreciation of land improvements. The recording of depreciation is optional in the general fixed assets account group.

231 Buildings and Building Improvements. A fixed asset account which reflects the acquisition value of permanent structures used to house persons and property owned by the district. If buildings are purchased or constructed, this account includes the purchase or contract price of all permanent buildings and the fixtures attached to and forming a permanent part of such buildings. This account includes all building improvements. If buildings are acquired by gift, the account reflects their appraised value at time of acquisition.

232 Accumulated Depreciation on Buildings and Building Improvements. Accumulated amounts for depreciation of buildings and building improvements. The recording of depreciation is optional in the general fixed assets account group.

241 Machinery and Equipment. Tangible property of a more or less permanent nature, other than land, buildings, or improvements thereto, which is useful in carrying on operations. Examples are machinery, tools, trucks, cars, buses, furniture, and furnishings.

242 Accumulated Depreciation on Machinery and Equipment. Accumulated amounts for depreciation of machinery and equipment. The recording of depreciation is optional in the general fixed assets account group and required in the proprietary funds.

251 Construction in Progress. The cost of construction work undertaken but not yet completed.
300 Budgeting Accounts and Other Debits.
Budgeted and actual amounts of revenues as well as offsetting accounts which normally have debit balances.

301 Estimated Revenues (budget account). The amount of revenues estimated to be received or to become receivable during the fiscal period, the account is closed out and does not appear in the balance sheet. This account would appear in interim financial statements.

302 Revenues. The total of all revenues realized during a period. This represents the increase in ownership equity during a designated period of time. The account appears only in a balance sheet prepared during the fiscal period. At the end of the fiscal period, the account is closed out and does not appear in the balance sheet.

303 Amount Available in Debt Service Funds. An account in the General Long-Term Debt Account Group which designates the amount of fund balance available in the Debt Service Fund for the retirement of long-term debt.

304 Amount to Be Provided for Retirement of General Long-Term Debt. An account in the General Long-Term Account Group which designates the amount to be provided from taxes or other revenue to retire long-term debt.

Liabilities, Reserves and Fund Balances
Liabilities, reserves, and fund balance are district debts plus items which are not debts but which may become debts at some future time, as well as other budgeting accounts which normally appear only on the interim financial statements.

400 Current Liabilities.
Those debts the district expects to pay within a short period of time, usually within a year or less.

401 Interfund Loans Payable. A liability account used to record a debt owed by one fund to another fund in the same governmental unit. It is recommended that separate accounts be maintained for each interfund loan.

402 Interfund Accounts Payable. A liability account used to indicate amounts owned by a particular fund to another fund in the same district for goods and services rendered. It is recommended that separate accounts be maintained for each interfund payable.

411 Intergovernmental Accounts Payable. Amounts owed by the reporting district to another governmental unit. It is recommended that separate accounts be maintained for each interagency payable.

421 Accounts Payable. Liabilities on an open account owing to private persons, firms, or corporations for goods and services received by a district (but not including amounts due to other funds of the same district or to other governmental units).

422 Judgments Payable. Amounts due to be paid by a district as the result of court decisions, including condemnation awards in payment for private property taken for public use.

423 Warrants Payable. Amounts due to designated payees in the form of a written order drawn by the district directing the district treasurer to pay a specific amount.

431 Contracts Payable. Amounts due on contracts for assets, goods, and services received by a district.
Construction Contracts Payable—Retained Percentage. Liabilities on account of construction contracts for that portion of the work which has been completed but on which part of the liability has not been paid pending final inspection, or the lapse of a specified time period or both. The unpaid amount is usually a stated percentage of the contract price.

Construction Contracts Payable. Amounts due by a district on contracts for construction of buildings, structures, and other improvements.

Matured Bonds Payable. Bonds which have reached or passed their maturity date but which remain unpaid.

Bonds Payable. Bonds which have not reached or passed their maturity date but are due within one year or less.

Unamortized Premiums on Bonds Sold. An account which represents that portion of the excess of bond proceeds over par value and which remains to be amortized over the remaining life of such bonds.

Loans Payable. Short-term obligations representing amounts borrowed for short periods of time usually evidenced by notes payable or warrants payable.

Interest Payable. Interest due within one year.

Accrued Salaries and Benefits. Salary and fringe benefit costs incurred during the current accounting period which are not payable until a subsequent accounting period.

Payroll Deductions and Withholdings. Amounts deducted from employees’ salaries for withholding taxes and other purposes. District-paid benefits amounts payable also are included. A separate liability account may be used for each type of benefit.

Deferred Revenues. A liability account which represents revenues collected before they become due.

Deposits Payable. Liability for deposits received as a prerequisite to providing or receiving services and/or goods.

Due to Fiscal Agent. Amounts due to fiscal agents, such as commercial banks, for serving a district’s matured indebtedness.

Other Current Liabilities. Other current liabilities not provided for elsewhere.

Long-Term Liabilities. Debt with a maturity of more than one year after the date of issuance.

Bonds Payable. Bonds which have not reached or passed their maturity date and which are not due within one year.

Loans Payable. An unconditional written promise signed by the maker to pay a certain sum of money one year or more after the date of issuance.

Lease Obligations. Amounts remaining to be paid on lease purchase agreements.

Unfunded Pension Liabilities. The amount of the actuarial deficiency on a locally operated pension plan to be contributed by the district on behalf of present employees.

Other Long-Term Liabilities. Other long-term liabilities not provided for elsewhere.
600 Budgeting Accounts.
These categories represent accounts which reflect budgeted and actual amounts related to expenditures and encumbrance.

601 Appropriations (budget account). This account records authorizations granted by the school board or legislative body to make expenditures for specific purposes. This account appears in a balance sheet prepared during the fiscal period. It is closed out and does not appear in the balance sheet prepared at the close of the fiscal period.

602 Expenditures. This account appears in balance sheets prepared during the fiscal period and designates the total of expenditures charged against appropriations during such period. The account is shown in each balance sheet as a deduction from the Appropriations account to arrive at the unexpended balance of total appropriations.

603 Encumbrances. This account designates obligations in the form of purchase orders, contracts, or salary commitments which are chargeable to an appropriation and for which part of the appropriation is reserved. In an interim balance sheet, encumbrances are deducted along with the expenditures from the Appropriations account to arrive at the unencumbered balance.

700 Fund Equity.
These are accounts which show the excess of a fund over its liabilities. Portions of that balance may be reserved for future use.

701 Investment in General Fixed Assets. An account in the General Fixed Assets Account Group which represents the district’s equity in general fixed assets. The balance of this account is normally subdivided according to the source of funds which financed the asset acquisition, such as General Fund revenues, bond issues, and contributions.

721 Contributed Capital. An equity account in the proprietary funds which shows the amount of fund capital contributed by the governmental unit from general government revenue and resources. Annual subsidies to cover operating deficits are not recorded here. These amounts are recorded as other sources (interfund transfers) and closed to the unreserved retained earnings account (740).

730 Reserve for (Special Purposes)—Retained Earnings. The accumulated earnings of the proprietary funds which have been retained in the fund and which are reserved for a specific purpose. One example would be funds reserved for the future purchase of equipment.

740 Unreserved Retained Earnings. The accumulated earnings of the proprietary funds which have been retained in the fund and which are not reserved for any specific purpose.

760 Other than Unassigned (Special Purposes)—Fund Balance. A reserve which represents the segregation of a portion of a fund balance to indicate that assets equal to the amount of the reserve are tied up and are, therefore, not available for appropriation. It is recommended that a separate reserve be established for each special purpose. One example of a special purpose would be restricted federal programs.

761 Non-spendable Fund Balance. Amounts that cannot be spent due to form; for example, inventories and prepaid amounts. Also, long-term loan and notes receivables, and property held for resale would be reported here unless the proceeds are restricted, committed or assigned. OR Amounts that must be
maintained intact legally or contractually (corpus or principal of a permanent fund).

762 Restricted Fund Balance. Amounts constrained for a specific purpose by external parties, constitutional provision or enabling legislation.

763 Committed Fund Balance. Amounts constrained for a specific purpose by a government using its highest level of decision-making authority. It would require action by the same group to remove or change the constraints placed on the resources. Action to constrain resources must occur prior to year-end; however, the amount can be determined in the subsequent period.

764 Assigned Fund Balance. Amounts intended to be used by the governing body for specific purposes. Amounts reported as assigned should not result in a deficit in unassigned fund balance. In the general fund assigned fund balance represents the amount that is not restricted or committed.

770 Unassigned Fund Balance. In the general fund, amounts not contained in other classifications i.e. non-spendable, restricted, committed or assigned. The general fund is the only fund that would report a positive amount in unassigned fund balance. For all governmental funds other than the general fund, amounts expended in excess of resources that are non-spendable, restricted, committed or assigned (a residual deficit). In determining a residual deficit, no amount should be reported as assigned.
Appendix A — Terminology

The following explanations of terms are drawn primarily from Governmental Accounting, Auditing and Financial Reporting (GAAFR), published by the Government Finance Officers Association, 1944, Chicago, Illinois.

ACCOUNTING SYSTEM: The methods and records established to identify, assemble, analyze, classify, record and report a government’s transactions and to maintain accountability for the related assets and liabilities.

ACCOUNTS PAYABLE: A short-term liability account reflecting amounts owed to private persons or organizations for goods and services received by a government.

ACCOUNTS RECEIVABLE: An asset account reflecting amounts due from private persons or organizations for goods and services furnished by a government (but not including amounts due from other funds or other governments).

ACCRUAL BASIS: The recording of the financial effects on a government of transactions and other events and circumstances that have cash consequences for the government in the periods in which cash is received or paid by the government.

ACCUMULATED DEPRECIATION: A contra-asset account used to report the accumulation of periodic credits to reflect the expiration of the estimated service life of fixed assets.

ACTIVITY: A specific and distinguishable service performed by one or more organizational components of a government to accomplish a function for which the government is responsible.

ACTUARIAL BASIS: A basis used in computing the amount of contributions to be made periodically to a fund or account so that the total contributions plus the compounded earnings thereon will equal the required payments to be made out of the fund or account. The factors considered in arriving at the amount of these contributions include the length of time over which each contribution is to be held and the rate of return compounded on such contribution over its life. A pension trust fund for a PERS is an example of a fund concerned with actuarial basis data.

AD VALOREM TAX: A tax based on value (e.g., a property tax).

ALLOT: To divide a budgetary appropriation into amounts that may be encumbered or expended during an allotment period.

APPROPRIATION: A legal authorization granted by a legislative body to make expenditures and to incur obligations for specific purposes. An appropriation usually is limited in amount and time it may be expended.

ARBITRAGE: Classically, the simultaneous purchase and sale of the same or an equivalent security in order to profit from price discrepancies. In government finance, the most common occurrence of arbitrage involves the investment of the proceeds from the sale of tax-exempt securities in a taxable money market instrument that yields a higher rate, resulting in interest revenue in excess of interest costs.

ASSESSED VALUATION: A valuation set upon real estate or other property by a government as a basis for levying taxes.

ASSET: A probable future economic benefit obtained or controlled by a particular entity as a result of past transactions or events.

BALANCE SHEET: The financial statement disclosing the assets, liabilities and equity of an entity at a specified date in conformity with GAAP.

BASIC FINANCIAL STATEMENTS: Those financial statements, including notes thereto, necessary for the fair presentation of the financial position and results of operations of an entity in conformity with GAAP. The basic financial statements include a balance sheet, an “all-inclusive” operating statement, a budget comparison statement (for all governmental funds for which annual appropriated budgets are adopted), and a statement of changes in financial position (for proprietary funds, pension trust funds and nonexpendable trust funds).

BASIS OF ACCOUNTING: A term used to refer to when revenues, expenditures, expenses and transfers—and the related assets and liabilities—are recognized in the accounts and reported in the financial statements. Specifically, it relates to the timing of the measurements made, regardless of the nature of the measurement, on either the cash or the accrual method.

BOND: Most often, a written promise to pay a specified sum of money (called the face value or principal amount), at a specified date or dates in the future, called the maturity date.
Appendix A — Terminology

date(s), together with periodic interest at a specified rate. Sometimes, however, all or a substantial portion of the interest is included in the face value of the security. The difference between a note and a bond is that the latter is issued for a longer period and requires greater legal formality.

BUDGET: A plan of financial operation embodying an estimate of proposed expenditures for a given period and the proposed means of financing them. Used without any modifier, the term usually indicates a financial plan for a single fiscal year. The term “budget” is used in two senses in practice. Sometimes it designates the financial plan presented to the appropriating governing body for adoption, and sometimes, the plan finally approved by that body.

BUDGETARY CONTROL: The control or management of a government or enterprise in accordance with an approved budget to keep expenditures within the limitations of available appropriations and available revenues.

BUDGET DOCUMENT: The instrument used by the budget-making authority to present a comprehensive financial program to the appropriating governing body. The budget document usually consists of three parts. The first part contains a message from the budget-making authority, together with a summary of the proposed expenditures and the means of financing them. The second consists of schedules supporting the summary. These schedules show in detail the past years’ actual revenues, expenditures and other data used in making the estimates. The third part is composed of drafts of the appropriation, revenue and borrowing measures necessary to put the budget into effect.

BUDGET MESSAGE: A general discussion of the proposed budget as presented in writing by the budget-making authority to the legislative body. The budget message should contain an explanation of the principal budget items, an outline of the government’s experience during the past period and its financial status at the time of the message and recommendations regarding the financial policy for the coming period.

CAPITAL BUDGET: A plan of proposed capital outlays and the means of financing them.

CAPITAL EXPENDITURES: Expenditures resulting in the acquisition of or addition to the government’s general fixed assets.

CAPITAL PROGRAM: A plan for capital expenditures to be incurred each year over a fixed period of years to meet capital needs arising from the long-term work program or other capital needs. It sets forth each project or other contemplated expenditure in which the government is to have a part and specifies the resources estimated to be available to finance the projected expenditures.

CASH: Cash includes currency on hand and demand deposits with banks or other financial institutions. Cash also includes deposits in other kinds of accounts that have the general characteristics of demand deposit accounts.

CASH BASIS: A basis of accounting under which transactions are recognized only when cash is received or disbursed.

COMPREHENSIVE ANNUAL FINANCIAL REPORT (CAFR): The official annual report of a government. It includes (a) the five combined financial statements in the combined statements—overview and their related notes (the “liftable” GPFS) and (b) combining statements by fund type and individual fund and account group financial statements prepared in conformity with GAAP and organized into a financial reporting pyramid. It also includes supporting schedules necessary to demonstrate compliance with finance-related legal and contractual provisions, required supplementary information, extensive introductory material and detailed statistical section. Every government reporting entity should prepare a CAFR.

COST: The amount of money or other consideration exchanged for goods or services.

COST ACCOUNTING: The method of accounting that provides for the assembling and recording of all the elements of cost incurred to accomplish a purpose, to carry on an activity or operation, or to complete a unit of work or a specific job.

CURRENT: As applied to budgeting and accounting, designates the operations of the present fiscal period as opposed to past or future periods. It usually connotes items likely to be used up or converted into cash within one year.

DEBT: An obligation resulting from the borrowing of money or from the purchase of goods and services. Debts of governments include bonds, time warrants and notes.

DEFICIT: (1) The excess of the liabilities of a fund over its assets. (2) The excess of expenditures over revenues during an accounting period or, in the case of proprietary funds, the
excess of expenses over revenues during an accounting period.

DEPRECIATION: (1) Expiration in the service life of fixed assets, other than wasting assets, attributable to wear and tear, deterioration, action of the physical elements, inadequacy and obsolescence. (2) The portion of the cost of a fixed asset, other than a wasting asset, charged as an expense during a particular period. In accounting for depreciation, the cost of a fixed asset, less any salvage value, is prorated over the estimated service life of such an asset, and each period is charged with a portion of such cost. Through this process, the entire cost of the asset is ultimately charged off as an expense.

DOUBLE ENTRY: A system of bookkeeping requiring that for every entry made to the debit side of an account or accounts, an entry or entries be made for an equal amount to the credit side of another account or accounts.

ENCUMBRANCES: Commitments related to unperformed (executory) contracts for goods or services. Used in budgeting, encumbrances are not GAAP expenditures or liabilities, but represent the estimated amount of expenditures ultimately to result if unperformed contracts in process are completed.

ENTITY: (1) The basic unit upon which accounting and/or financial reporting activities focus. The basic governmental legal and accounting entity is the individual fund and account group. (2) That combination of funds and account groups that constitutes the reporting entity for financial reporting purposes and alone may issue CAFRs and GPFS.

EQUITY ACCOUNTS: Those accounts presenting the difference between assets and liabilities of the fund.

EXPENDITURES: Decreases in net financial resources. Expenditures include current operating expenses requiring the present or future use of net current assets, debt service and capital outlays, and intergovernmental grants, entitlements and shared revenues.

FINANCIAL AUDIT: An audit made to determine whether the financial statements of a government are presented fairly in conformity with GAAP.

FISCAL YEAR: A 12-month period to which the annual operating budget applies and at the end of which a government determines its financial position and the results of its operations.

FIXED ASSETS: Long-lived tangible assets obtained or controlled as a result of past transactions, events or circumstances. Fixed assets include buildings, equipment, improvements other than buildings and land. In the private sector, these assets are referred to most often as property, plant and equipment.

FIXTURES: Attachments to buildings that are not intended to be removed and cannot be removed without damage to the buildings. Those fixtures with a useful life presumed to be as long as that of the building itself, are considered a part of the building; all others are classified as equipment.

FUNCTION: A group of related activities aimed at accomplishing a major service or regulatory program for which a government is responsible (e.g., public safety).

FUND: A fiscal and accounting entity with a self-balancing set of accounts in which cash or other financial resources, all related liabilities and residual equities, or balances, and changes therein, are recorded and segregated to carry on specific activities or attain certain objectives in accordance with special regulations, restrictions or limitations.

FUND BALANCE: The difference between fund assets and fund liabilities of governmental and similar trust funds.

FUND TYPE: Any one of seven categories into which all funds are classified in governmental accounting. The seven fund types are: general, special revenue, debt service, capital projects, enterprise, internal service, and trust and agency.

GENERAL FUND: The fund used to account for all financial resources, except those required to be accounted for in another fund.

GENERAL OBLIGATION BONDS PAYABLE: Bonds backed by the full faith and credit of government.

GENERALLY ACCEPTED ACCOUNTING PRINCIPLES (GAAP): Uniform minimum standards and guidelines for financial accounting and reporting. They govern the form and content of the financial statements of an entity. GAAP encompass the conventions, rules and procedures necessary to define accepted accounting practice at a particular time. They include not only broad guidelines of general application, but also detailed practices and procedures. GAAP provide a standard by which to measure financial presentations. The primary authoritative body on the application of GAAP to state and local governments is the GASB.
GENERALLY ACCEPTED AUDITING STANDARDS (GAAS): Standards established by the AICPA for the conduct and reporting of financial audits. There are 10 basic GAAS, classed into three broad categories: general standards, standards of field work and standards of reporting. The Auditing Standards Board of the AICPA publishes SAS to comment and expand upon these basic standards. These SAS, together with the 10 basic standards, constitute GAAS. These GAAS set forth the objectives of the audit and establish measures that can be applied to judge the quality of its performance.

GENERAL PURPOSE FINANCIAL STATEMENTS (GPFS): Five combined financial statements that, together with the accompanying notes, constitute the minimum financial reporting needed for fair presentation in conformity with GAAP. These five combined financial statements, with their accompanying notes, make up the first of the financial reporting pyramid’s three reporting levels containing financial statements. Known as the combined statements—overview, these statements include (1) combined balance sheet—all fund types and account groups, (2) combined statement of revenues, expenditures and changes in fund balances—all governmental fund types, (3) combined statement of revenues, expenditures and changes in fund balances—budget and actual—general and special revenue fund types (and similar governmental fund types for which annual budgets have been legal adopted), (4) combined statement of revenues, expenses and changes in retained earnings (or equity)—all proprietary fund types and (5) combined statement of changes in financial position—all proprietary fund types. Trust fund operations may be reported in (2), (4) and (5) above, as appropriate, or separately. The combined statements—overview also are referred to as the “liftable” GPFS.

GOVERNMENTAL ACCOUNTING STANDARDS BOARD (GASB): The authoritative accounting and financial reporting standard-setting body for government entities.

GROSS BONDED DEBT: The total amount of direct debt of a government, represented by outstanding bonds before deduction of any assets available and earmarked for their retirement.

INTERNAL AUDITING: An independent appraisal of the diverse operations and controls within a government entity to determine whether acceptable policies and procedures are followed, established standards are met, resources are used efficiently and economically and the organization’s objectives are being achieved. The term covers all forms of appraisal of activities undertaken by auditors working for and within an organization.

INTERNAL CONTROL STRUCTURE: Policies and procedures established to provide reasonable assurance that specific government objectives will be achieved.

INVENTORY: (1) A detailed list showing qualities, descriptions and values of property and, frequently, units of measure and unit prices. (2) An asset account reflecting the cost of goods held for resale or for use in operations.

LEVY: (1) (Verb) To impose taxes, special assessments or service charges for the support of government activities. (2) (Noun) The total amount of taxes, special assessments or service charges imposed by a government.

LIABILITIES: Probable future sacrifices of economic benefits, arising from present obligations of a particular entity to transfer assets or provide services to other entities in the future as a result of past transactions or events.

MEASUREMENT FOCUS: The accounting convention that determines (1) which assets and which liabilities are included on a government’s balance sheet and where they are reported there, and (2) whether an operating statement presents information on the flow of financial resources (revenues and expenditures) or information on the flow of economic resources (revenues and expenses).

MODIFIED ACCRUAL BASIS: The accrual basis of accounting adapted to the governmental fund-type measurement focus. Under it, revenues and other financial resource increments (e.g., bond issue proceeds) are recognized when they become susceptible to accrual that is when they become both “measurable” and “available to finance expenditures of the current period.” “Available” means collectible in the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recognized when the fund liability is incurred except for (1) inventories of materials and supplies that may be considered expenditures either when purchased or when used, and (2) prepaid insurance and similar items that may be considered expenditures either when paid for or when consumed. All governmental funds, expendable trust funds and agency funds are accounted for using the modified accrual basis of accounting.

NET INCOME: Proprietary fund excess of operating revenues, nonoperating revenues and operating transfers in over operating expenses, nonoperating expenses and operating transfers out.

OBJECT: As used in expenditure classification, applies to the article purchased or the service obtained, rather than to the
Appendix A — Terminology

purpose for which the article or service was purchased or obtained (e.g., personal services, contractual services, materials and supplies).

OPERATING BUDGET: Plans of current expenditures and the proposed means of financing them. The annual operating budget (or, in the case of some state governments, the biennial operating budget) is the primary means by which most of the financing, acquisition, spending and service delivery activities of a government are controlled. The use of annual operating budgets is usually required by law. Even when not required by law, however, annual operating budgets are essential to sound financial management and should be adopted by every government.

OPERATING EXPENSES: Proprietary fund expenses related directly to the fund’s primary activities.

OVERHEAD: Those elements of cost necessary in the production of a good or service which are not directly traceable to the product or service. Usually these costs relate to objects of expenditure that do not become an integral part of the finished product or service, such as rent, heat, light, supplies, management and supervision.

PERMANENT TAX RATE LIMIT: The maximum rate of ad valorem property taxes that a school district can impose. Taxes generated from the permanent rate limit can be used for any purpose. No action of the school district can increase a permanent rate limit.

PROGRAM BUDGET: A budget wherein expenditures are based primarily on programs of work and secondarily on character and object class, on the one hand, and performance, on the other.

PROJECTED TOTAL-LIFE COST: The total anticipated costs related to a fixed asset during its estimated useful life. Projected total-life cost normally includes a detailed schedule of maintenance requirements for each year of the asset’s life, including preventive maintenance, normal repair and replacement, and replacement of major parts or components needed to achieve the normal (intended) life of the asset. The total-life cost is calculated at the time an asset is acquired or constructed, often as an integral part of capital acquisition or budgeting procedures.

PURCHASE ORDER: A document authorizing the delivery of specified merchandise or the rendering of certain services and the making of a charge for them.

REPLACEMENT COST: The amount of cash or other consideration that would be required today to obtain the same asset or its equivalent.

REQUISITION: A written demand or request, usually from one department to the purchasing officer or to another department, for specified articles or services.

REVENUES: (1) Increases in the net current assets of a governmental fund type from other than expenditure refunds and residual equity transfers. Also, general long-term debt proceeds and operating transfers in are classified as “other financing sources” rather than as revenues. (2) Increases in the net total assets of a proprietary fund type from other than expense refunds, capital contributions and residual equity transfers. Also, operating transfers in are classified separately from revenues.

STANDARD COST: The predetermined cost of performing an operation or producing a product when labor, materials and equipment are used efficiently under reasonable and normal conditions. Normal conditions exist when there is an absence of special or extraordinary factors affecting the quality or quantity of the work performed or the time or method of performing it.

SUBFUNCTION: A grouping of related activities within a particular government function.

UNENCUMBERED APPROPRIATION: That portion of an appropriation not yet expended or encumbered.

WORK ORDER: A written order authorizing and directing the performance of a certain task and issued to the person who is to direct the work. Among the items of information included on the order are the nature and location of the job, specifications of the work to be performed and a job number, which is referred to in reporting the amount of labor, materials and equipment used.

Appendix B

Analysis of Student Body Funds

The following questions will help to determine whether or not the student body funds should be classified as governmental and should be budgeted. The more often the choices and accurately describe the funds, the more likely the funds should be classified as governmental and budgeted.

I. Who has the responsibility for the account?
   A. Who authorizes the revenues? (Sets admission prices, establishes fees, authorizes and activity)
      1. Student organization
      2. School district personnel
   B. Who authorizes the expenditures?
      1. Student organization
      2. School district personnel
   C. How are the expenditures authorized?
      1. Student organization minutes
      2. School district memorandum
      3. Other

II. Who has control over the account?
   A. Who receives the revenue?
      1. Student organization
      2. School district personnel
   B. Who deposits the revenue?
      1. Student
      2. School district personnel
   C. Who signs the checks or purchase orders?
      1. Student
      2. School district personnel

III. Who has custody of the account?
   A. In whose name is the account?
      1. Student organization
      2. School district
      3. Other
   B. Who prepares the checks?
      1. Student
      2. School district personnel
   C. Who receives and reconciles the bank statement?
      1. Student organization
      2. School district
   D. Who has custody of the supporting documents (cancelled checks, receipts, purchase orders, etc.)?
      1. Student organization
      2. School district

Guidelines for ELL and Non-ELL Related Expenditures

Language interpretation and translation services create access to education for students who are non-English speaking. To that end, this appendix provides additional information for the implementation of HB 3499.

HB 3499, enrolled during the 2015 legislative session, directed the Department of Education to convene an advisory group to develop uniform budget coding requirements and uniform reporting requirements to provide budget transparency for the spending of moneys received by school districts as provided by ORS 327.013 (1)(c)(A)(ii) for students in average daily membership eligible for and enrolled in an English Language Learner program under ORS 336.79. Appendix E was added to help provide guidance to assist in the tracking of ELL funds as required by law. The following provides frequently asked questions and answers for guidance on how to code different ELL and non-ELL related expenditures:

“The obligation not to discriminate based on race, color, or national origin requires public schools to take affirmative steps to ensure that limited English proficient (LEP) students, now more commonly known as English Learner (EL) students or English Language Learners (ELLs), can meaningfully participate in educational programs and services, and to communicate information to LEP parents in a language they can understand.”

-U.S. Office for Civil Rights

The following provides Frequently Asked Questions and answers for guidance on how to code different ELL and non-ELL related expenditures:

1. Is the expenditure a direct instructional service with the intention of assisting an ELL student(s) in acquiring the English language, such as an ELL class?
   • If yes, use function 1291 with object code 319.

2. Is the expenditure an intervention service for an ELL student to acquire the English language?
   • If yes, use function 1291 with object code 319.

3. Is the expenditure for translation or interpretation services in support of an ELL student to acquire the English language?
   • If yes, use function 2680 with object code 319 and Area of Responsibility 280.

4. Is the interpretation and translation expenditure a support available to all students?
   • If yes, use function 2680 with object code 319. Do not use an Area of Responsibility code.

5. If curriculum needs to be interpreted or translated in language other than English to learn mathematics, science, social studies, and other core classes, use your discretion to determine if the expense should be coded as an ELL expense. For example, textbooks are often already
translated in different languages, so the expense of the textbook would not be reported as and ELL expense.

6. Is the expenditure for translation or interpretation services in support of a family or community member?
   - If yes, use function 2680 with object code 389. Do not use an Area of Responsibility.

7. Are you contracting bilingual staff and/or language interpreter services for: district and school-wide meetings (including parent and teacher conferences, curriculum nights, picnics, back-to-school nights, informational nights, college visits and any other relevant events); district and school-specific telephone communication and voicemail messages for families; principal/administrator and teacher hiring meetings; on-going meetings regarding a student’s academic progress and behavior; special education referrals, special education evaluations, and any other related issues regarding a student’s well-being?
   - If yes, use function 2680 with object code 319. Do not use an Area of Responsibility.

8. Are you contracting bilingual staff and/or translator services to provide for family and community translation of important curricula and instructional materials, vital district and school-wide policies (may include, but are not limited to, enrollment, high school graduation, promotion and retention), parent and student handbooks, forms (may include, but are not limited to, forms related to eligibility for services, enrollment, transportation, and school program/activity), newsletters, updates and notices (may include, but are not limited to, information on the school calendar and schedule, school emergencies, transportation schedule, bus stop changes, inclement weather, school closures and delayed starts, school boundary changes, important school policy changes, program changes, hiring of new staff and leaders, and cafeteria menus)?
   - If yes, use function 2680 with object code 389. Do not use an Area of Responsibility.

Following are Oregon Revised Statutes (ORS) that provide law for English Language Learner programs:

ORS 327.006 - Definitions for State School Fund distributions
ORS 327.013 – State School Fund distribution computations for school districts
ORS 336.074 – Teaching in English required *exceptions
ORS 336.079 – Special English courses for certain children
ORS 336.081 – Opportunity to qualify to assist non-English speaking students
ORS Chapter 336 – Conduct of Schools Generally

Following are Oregon Administrative Rules (OAR) that provide rules for English Language Learner programs:

OAR 581-022-1210 – District Curriculum
OAE 581-022-0405 – Career Education
OAR 581-023-0100 – Eligibility Criteria for Student Weighting for Purposes of State
Following is a State resource that provides information on civil rights, legal requirements, expectations, and guidance around English Language Learner programs and services:

Appendix F

Guidelines for Coding Technology: Object Code 400 – Supplies and Materials

410 Consumable:

**Definition:** Expenditures for ALL supplies for the operation of a district, including freight and cartage. If such supplies are handled for resale to students, only the net cost of supplies is recorded here. (NOTE: Accounts 411 through 419 are available for further identifying supplies for management purposes at the option of the district.)

**Note:** Computer technology items of an approximate value of less than $250 and computer peripherals such as thumb drives, keyboards, mice, misc. cords and cables, projector bulbs, and other smaller plug-n-play devices should be included here.

460 Non-Consumable Items:

**Definition:** Expenditures for equipment with a current value of less than $5,000 or for items which are “equipment-like,” but which fail one or more of the tests for classification as Object 541 or 542 (see object 540 definition). Examples might include hand held calculators, stacking chairs, etc. This object category could be used when a district desired to treat these items as equipment for budgeting, physical control, etc., without either violating the state dollar threshold for capital equipment or combining these items with consumable supplies (Object 410–419).

**Note:** Examples would include tables, whiteboards, bookcases, and chairs.

470 Computer Software.

**Definition:** Expenditures for published computer software. Include licensure and usage fees for software here. The Cloud is considered software and would be coded here.

**Note:** iTunes software, and other mobile device apps apply as well.

480 Computer Hardware

**Definition:** Expenditures for non-capital computer hardware, generally of value not meeting the capital expenditure criterion. An iPad or e-reader needed to access e-textbooks is considered hardware and would be coded here.

**Note:** The capital expenditure criteria for objects is for items over $5,000 (see object code 550). Rule of thumb is for items approximate to $250 or more to be coded here. This would include computer items of major value such as Mac’s, PC’s, Monitors, printers, mobile devices such as iPads and Chromebooks, and major internal hardware items, as well as computer setups purchased as a bundle.

Recommended Guidelines for New-Program Accounting

This guidance is for new programs where there may be eventual interest to report and understand how the grant funds were spent and a financial data collection is not yet established. For example, the legislature may want to know how much money was spent on salaries and benefits, supplies, services, etc., for the High School Success program (Measure 98). Or the total cost per school for participation in the Outdoor School program (Measure 99).

The recommendation for coding new programs is to establish a specific fund at the district level. This may reduce the potential for ambiguity in the reporting of data.

Another advantage of creating a new district-level fund is the capability to use existing codes whereby, if needed, the data can be easily disaggregated. For example, districts will not necessarily need to make a choice between coding each new program to a new Area of Responsibility over coding to existing A of R codes, such as A of R 320, which is used for Maintenance of Effort review for Special Education programs.

Example for coding new programs such as M98 and M99 Grants:

**FUND:**
Create a new fund in either the General Fund or Special Revenue Fund

**REVENUE:**
Source code – 3299 (other restricted grants in aid)

**EXPENDITURES:**
Function – code to program
Object – code to service or commodity
Operational Unit – code to building level
Area of Responsibility – code to curriculum area as required by function
Appendix H

EVERY STUDENT SUCCEEDS ACT (ESSA)

Federal guidance for ESSA reporting is as follows:

“The per-pupil expenditures of Federal, State, and local funds, including actual personnel expenditures and actual non-personnel expenditures of Federal, State, and local funds, disaggregated by source of funds, for each local educational agency and each school in the State for the preceding fiscal year.”

The challenge is to identify which expenditures can be reported by per-pupil spending. Based on preliminary analysis of financial data from 2015-16, we have been able to identify expenditures currently reported at district and school levels. This information allows each district the opportunity for review to determine their standing with ESSA reporting.

The following charts identify recommended district or school level reporting. With these recommendations, we leave the final discretion for reporting to the school district.
