

Do not complete if the private school is non-responsive or declining services.

These forms help facilitate meaningful consultation between a district and the private school. District officials must take into consideration the private school's views on how to serve students and the design of the program. Consultation occurs when the district meets with the private school before making any decisions that affect the opportunities available to private schools who choose to participate. Consultation must continue throughout the implementation of the program and will include assessment of the services provided.

The goal of the consultation process is agreement between both parties. While the final decisions concerning equitable services rest with the district, serious and due consideration must be given to the private school's views. If a district disagrees with the views of a private school, the district must provide their decision in writing to the private school official and include the reasons why the district disagrees. The reasons must be supported by facts and/or data.

The Private School Affirms:

No Yes

The district explained the [complaint process and procedures](#) to the private school.

The district initiated timely consultation and engaged in meaningful discussion.

The private school is a [non-profit](#).

The program design for private school students is equitable to public school students.

All equitable services, programs and materials must be [secular, neutral and non-ideological](#).

The private school provided accurate, reliable and timely data for the purposes of allocating applicable federal funds and developing plans for services and understands that not doing so results in losing their ability to participate in equitable services for the school year.

The private school understands it cannot be directly reimbursed for equitable service program expenditures, and the district explained the procurement process, including deadlines and inventory regulations.

Signature of the Private School Contact: _____ **Date:** _____

For each Title program in which a private school is participating, please complete the appropriate page.

The district must upload completed and signed Affirmation pages to the [Evidence of Consultation Form](#).

Title I-A

Purpose: academic assistance to students who are academically at risk and live in Title I-A public school areas.

Eligible students reside within the attendance area of a Title I-A public school. Eligible students may be from more than one district.

Determining Private School Students in Poverty Count *The number of eligible students calculating the allocation.*

Same income data as the previous year. *Income data must be collected every year or every other year:*

Same poverty data as the district. *Both private school/public school must have access to FRPL or Direct Certification data.*

Family income surveys will be distributed to all students who reside within a Title I-A public school attendance area.

For only those households who did not return a survey, their collective poverty will be determined by: (check one)

Extrapolating the poverty rate from the returned surveys Proportionality Not counted, all over income threshold

Proportionality. *The percentage poverty of each Title I-A public school will be applied to their resident private school students.*

Comparable to the district. *The private school will use scholarship/financial aid income data if the income thresholds are similar to the family income survey and income data has been collected within the current school year or previous school year.*

Equated measure. *Contact the Private School Ombuds if using this method.*

Number of students eligible for calculating the allocation:

Pooling of the Equitable Share *One box must be checked. Pooling must be agreed to by all participating parties.*

Services will be provided by one district to one private school (traditional, non-pooling model).

More than one district is pooling funds to one private school:
