

General Risk Assessment

Data from all districts is reviewed each year to generate a district's overall risk score. Risk is determined by the percentage of points a district receives across all the risk factors in which they are eligible to receive points.

Program	Possible Risk Factors
McKinney Vento	• Number of student-specific complaints that were brought to the state McKinney-Vento coordinator for resolution or direct support • McKinney-Vento Liaison updated each year in CIP Budget Narrative • District's percentage of McKinney-Vento students that were regular attenders
Foster Care	• Foster Care Liaison updated each year in CIP Budget Narrative • District's percentage of foster care students that were regular attenders
Equitable Services	• District provides equitable services to one or more private schools • District has one or more private schools newly participating in equitable service program(s) • Number of formal complaints filed against the district • Percent of annual allocation set aside for the equitable share
Common Compliance	• Last Desk Monitored • Responsiveness to Tier 1: UMT • New Staff
Title I-A	• District's percentage of Oregon's total annual allocation • Percentage of a district's total allocation set aside for district activities • District's percentage of Oregon's identified schools for CSI/TSI • Percent of Title I-A schools identified within the district for CSI/TSI • Percent of funds claimed by June 30 • Percent carryover funds claimed by June 30

Title II-A	• District's percentage of Oregon's total annual allocation • Percent of funds claimed by June 30 • Percent carryover funds claimed by June 30
Title IV-A	• District's percentage of Oregon's total annual allocation • Percent of funds claimed by June 30 • Percent carryover funds claimed by June 30
Title V-B	• District's percentage of Oregon's total annual allocation • Percent of funds claimed by June 30 • Percent carryover funds claimed by June 30
Title I-D	• District's percentage of Oregon's total annual allocation • Percent of funds claimed by June 30 • Percent carryover funds claimed by June 30

Tier 1: Universal Monitoring Risk Assessment

Data from all districts who completed the UMT is reviewed to generate a district's UMT risk score. Risk is determined by the percentage of points a district receives across all the risk factors in which they are eligible to receive points. For more information on the indicators and submitted documents for each program, please see the [Universal Monitoring Tool Template](#).
