Title I-C 2026-27 Monitoring Overview

Monitoring Title I-C regions gives ODE an opportunity to examine the policies, systems, and procedures regions use to comply with state and federal regulations for services to migratory children. This overview guides the 2026-27 process for Title I-C programs.

Monitoring Process

1. Communication (October 2026). ODE will email your region's superintendent and coordinator to confirm participation in 2026–27 Title I-C monitoring. Additionally, ODE will email your Title I-C coordinator the access information for the region's OneDrive monitoring submission folder.

2. Monitoring training (October 26, 2026). ODE will send a calendar invite for this virtual training. The training will cover the monitoring process and required documentation.

3. Entrance meeting (November 2026). ODE and regional staff will review requirements and answer questions about documentation. ODE will arrange the meeting with your Title IC coordinator.

4. ONLY APPLIES TO MEP ESDs: District-member survey (due December 1, 2026). As consortium lead, you will email the survey to district members. Members are asked to complete the 10-minute survey by December 1.

5. Self-assessment and documentation (due January 15, 2027). Your regional coordinator will complete the Title I-C Monitoring Tool, available on the ODE Title I-C monitoring webpage, and submit it with documentation through OneDrive. ODE staff will review the materials. ODE completes Desk monitoring prior to the Onsite Visit.

6. Onsite Visit (Spring-Summer 2026). An ODE Title I-C education specialist will contact you in spring to arrange dates for either a Spring or Summer onsite visit. Onsite visits occur prior to the Exit meeting.

7. Exit meetings. After ODE completes onsite visits, ODE will hold an exit meeting and share an initial report. It may include exemplary practices, observations and recommendations, potential areas of noncompliance, and tentative required actions. Your region may ask questions, raise concerns, and respond to preliminary findings.

8. Monitoring report. Within 45 days after the exit meeting, ODE will provide either a letter of compliance or a report outlining additional evidence needed to demonstrate compliance.
