This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

Certification Statement

I hereby certify that the vehicles listed below will be used to transport pupils for the above school district during the school year 2021-22. I also certify that, to the best of my knowledge, these vehicles have been inspected and necessary repairs have been made as evidenced by the Annual Vehicle Inspection and Maintenance Report (Form 2255) on file in this district for each vehicle.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

Certification Statement

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

Certification Statement

Definitions of Vehicle Types:

S = School Bus. All vehicles marked with the words "School Bus" and equipped with amber and red lights. (ORS 801.460)

O = School Activity Vehicle. Sedans, station wagons, vans, buses, tc., not marked or equipped as above. (ORS 801.455)

I hereby certify that the vehicles listed below will be used to transport pupils for the above school district during the school year 2021-22. I also certify that, to the best of my knowledge, these vehicles have been inspected and necessary repairs have been made as evidenced by the Annual Vehicle Inspection and Maintenance Report (Form 2255) on file in this district for each vehicle.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

Annual Vehicle Certification Report

YAMHILL County

Date: 6/4/21

FOR: Dayton SD 8
PO Box 219
Dayton, OR 97114-0219

ATTN: Transportation Supervisor or Contractor:
Steven Sugg

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

Certification Statement

Definitions of Vehicle Types:

S = School Bus. All vehicles marked with the words "School Bus" and equipped with amber and red lights. (ORS 801.460)

O = School Activity Vehicle. Sedans, station wagons, vans, buses, tc., not marked or equipped as above. (ORS 801.455)

I hereby certify that the vehicles listed below will be used to transport pupils for the above school district during the school year 2021-22. I also certify that, to the best of my knowledge, these vehicles have been inspected and necessary repairs have been made as evidenced by the Annual Vehicle Inspection and Maintenance Report (Form 2255) on file in this district for each vehicle.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

Certification Statement

Definitions of Vehicle Types:

S = School Bus. All vehicles marked with the words "School Bus" and equipped with amber and red lights. (ORS 801.460)

O = School Activity Vehicle. Sedans, station wagons, vans, buses, tc., not marked or equipped as above. (ORS 801.455)

I hereby certify that the vehicles listed below will be used to transport pupils for the above school district during the school year 2021-22. I also certify that, to the best of my knowledge, these vehicles have been inspected and necessary repairs have been made as evidenced by the Annual Vehicle Inspection and Maintenance Report (Form 2255) on file in this district for each vehicle.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

Certification Statement

Definitions of Vehicle Types:

O = School Activity Vehicle. Sedans, station wagons, vans, buses, tc., not marked or equipped as above. (ORS 801.455)

I hereby certify that the vehicles listed below will be used to transport pupils for the above school district during the school year 2021-22. I also certify that, to the best of my knowledge, these vehicles have been inspected and necessary repairs have been made as evidenced by the Annual Vehicle Inspection and Maintenance Report (Form 2255) on file in this district for each vehicle.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

Annual Vehicle Certification Report

LINCOLN County

Date: 6/4/21

FOR: Lincoln County SD
PO Box 1110
Newport, OR 97365-0088

ATTN: Transportation Supervisor or Contractor:
Kim Cusick

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

Certification Statement

Definitions of Vehicle Types:

S = School Bus. All vehicles marked with the words "School Bus" and equipped with amber and red lights. (ORS 801.460)

O = School Activity Vehicle. Sedans, station wagons, vans, buses, tc., not marked or equipped as above. (ORS 801.455)

I hereby certify that the vehicles listed below will be used to transport pupils for the above school district during the school year 2021-22. I also certify that, to the best of my knowledge, these vehicles have been inspected and necessary repairs have been made as evidenced by the Annual Vehicle Inspection and Maintenance Report (Form 2255) on file in this district for each vehicle.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

Certification Statement

Definitions of Vehicle Types:

O = School Activity Vehicle. Sedans, station wagons, vans, buses, tc., not marked or equipped as above. (ORS 801.455)

I hereby certify that the vehicles listed below will be used to transport pupils for the above school district during the school year 2021-22. I also certify that, to the best of my knowledge, these vehicles have been inspected and necessary repairs have been made as evidenced by the Annual Vehicle Inspection and Maintenance Report (Form 2255) on file in this district for each vehicle.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

Certification Statement

I hereby certify that the vehicles listed below will be used to transport pupils for the above school district during the school year 2021-22. I also certify that, to the best of my knowledge, these vehicles have been inspected and necessary repairs have been made as evidenced by the Annual Vehicle Inspection and Maintenance Report (Form 2255) on file in this district for each vehicle.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

ATTN: Transportation Supervisor or Contractor:

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

Certification Statement

Definitions of Vehicle Types:

S = School Bus. All vehicles marked with the words "School Bus" and equipped with amber and red lights. (ORS 801.460)

O = School Activity Vehicle. Sedans, station wagons, vans, buses, tc., not marked or equipped as above. (ORS 801.455)

I hereby certify that the vehicles listed below will be used to transport pupils for the above school district during the school year 2021-22. I also certify that, to the best of my knowledge, these vehicles have been inspected and necessary repairs have been made as evidenced by the Annual Vehicle Inspection and Maintenance Report (Form 2255) on file in this district for each vehicle.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

Certification Statement

Definitions of Vehicle Types:

S = School Bus. All vehicles marked with the words "School Bus" and equipped with amber and red lights. (ORS 801.460)

O = School Activity Vehicle. Sedans, station wagons, vans, buses, tc., not marked or equipped as above. (ORS 801.455)

I hereby certify that the vehicles listed below will be used to transport pupils for the above school district during the school year 2021-22. I also certify that, to the best of my knowledge, these vehicles have been inspected and necessary repairs have been made as evidenced by the Annual Vehicle Inspection and Maintenance Report (Form 2255) on file in this district for each vehicle.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

Certification Statement

Definitions of Vehicle Types:

O = School Activity Vehicle. Sedans, station wagons, vans, buses, tc., not marked or equipped as above. (ORS 801.455)

I hereby certify that the vehicles listed below will be used to transport pupils for the above school district during the school year 2021-22. I also certify that, to the best of my knowledge, these vehicles have been inspected and necessary repairs have been made as evidenced by the Annual Vehicle Inspection and Maintenance Report (Form 2255) on file in this district for each vehicle.

By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.

This form is a computer generated turn-around form used to simplify the submittal of the Annual Vehicle Certification Report (Form 581-2256-C (Rev. 5/95)) required by the Oregon Department of Education. The form contains the current information that the Oregon Department of Education has on computer about your certified school buses. By using this form you also help us to complete our records and make them more accurate, which in turn will create a better listing for you the following year. To complete the form, check on the right for each bus listed correctly or correct and complete the data where appropriate on the others, checking the change box for each bus requiring a correction. Add missing or new buses on the Addendum Report. Be sure to number any additional pages used. If a bus no longer exists, cross it out by putting a line across it's listing, then sign and date the form as in previous years. The form must be signed by the School District Administrator (includes private and parochial schools). Keep a photocopy for your records and return the original to the Department of Education by September 1st.
