Oregon achieves . . . together!

OSAS Summative Test Results

Use results to support learning and improve outcomes for every student.

OSAS results provide one source of information about student learning and can help families and educators identify strengths, areas for support, and next steps.

DO

Use results to…

- **Identify strengths** and celebrate growth.
- **Pinpoint areas** for instructional focus.
- **Inform instruction** and provide targeted support.
- **Monitor progress** and adjust instruction over time.

Focus on Learning Opportunities

- **Look at the results** to identify patterns.
- **Use multiple measures of learning** with classroom evidence.
- **Collaborate** between students, families, and educators to plan next steps.

DON'T

Use results to…

- **Label or Track** students.
- **Compare students** to one another.
- **Use results in isolation** or as the sole measure of achievement.
- **Make high-stakes decisions** about students.
