

*High School Success Plan
2021-2023*

Lead Organization **McKenzie School District**

Goal #1	Increase relevance in CTE course offerings to allow for student community involvement in our communities recovery from last summer's fires. This increase in relevance will allow for improved graduation rates for students experiencing poverty, broader access to CTE and advanced credit opportunities as well as improve attendance for all student groups.
Short-Term Outcome	Increase FTE for Construction Program of Study and assembling of necessary resources to build first tiny home and first stick built home in our community. First tiny home to be built and placed.
Long-Term Outcome	School wide graduation rates will increase by 5% to at least 99% for the 2024-2025 school year. Students accessing advanced credit course work will increase by 5% to 30% for the 2024-2025 school year.
Career Technical Education Activity #1	Expand Construction Program of Study and course offerings.
Goal(s) this activity addresses	Goal 1
