

High School Success Plan
2021-2023

Lead Organization **Perrydale School District**

Goal #1	95% of students will be on-track toward graduation after completing 9th grade.
Short-Term Outcome	High school teachers and support staff will meet regularly, at least bi-weekly, to discuss students, especially freshmen. Staff will have access to data and be made aware of those data sources. The Success Coordinator will also provide quarterly updates about on-track status for all high school students to staff and the students themselves. The success coordinator will work with the SpEd department and advisory teachers to increase opportunities for students with disabilities. This will include opportunities for learning about aptitude, careers and employability skills in hopes that students find purpose in what they are learning and doing.
Long-Term Outcome	The ninth grade on-track status will increased by 5%.
Dropout Prevention Activity #1	Retain full time licensed teacher as our Student Success Coordinator for the next four school years.
Goal(s) this activity addresses	Goal 1
