

Guiding Questions:

What is the purpose of grades/report cards?

What information do your child's grades give you?

1. Jot down 3 ideas
2. Get up and find someone else
3. GIVE ONE idea from your list. GET ONE idea for your list (write it in an empty square).
4. Move to a new partner and repeat the process.
5. If your list and your partner's list are identical, you must brainstorm together and idea that can be added to both of your lists.

Note: Exchange no more than one idea with any given partner.
