

**Special Education Contacts  
Listed By School District**

Please use the information in this list to contact the appropriate parties when you have questions about special education.

ODE [encourages parents and school districts](#) to resolve concerns related to a student's special education program as close to the problem as possible and has included local and regional contacts for each district in support of that goal. ODE contacts are also included as parents and school districts should always feel welcome to contact ODE if we can be supportive.
