

## Oregon Department of Education

### 2024-2025 List of Approved Dyslexia-Related Training Opportunities

[Oregon Administrative Rule \(OAR\) 581-022-2440](#) requires each school district to ensure that at least one Kindergarten-5th grade teacher in each K-5 school receives training from this approved list and inclusive of content in all of the following focus areas: 1) Understanding and recognizing dyslexia; 2) Using evidence-based practices to systematically and explicitly teach the foundational skills in reading; and 3) Intensifying instruction to meet the needs of students with severe reading difficulties, including dyslexia. A teacher may complete a comprehensive training offered by a single vendor or complete training across vendors to collectively address all three focus areas.

The following tables provide information related to each of the currently-approved training opportunities including vendor contact information, focus areas addressed by the training, delivery format, cost, and time needed to complete the training.
